IMPORTANT GOVERNMENT ORDERS

CHIEF SECRETARIAT

Administration of Civil Justice during 1931-32

READ—

The Report on the Administration of Civil Justice in Mysore during the year 1931-32, received from the Registrar, High Court, with his letter No. P. 37—31-32, dated 21st October 1932.

ORDER No. P. 3599—CTS. 106-32-3, DATED BANGALORE, THE 27—28TH DECEMBER 1932.

Recorded.

The total number of Civil Courts under the High Court in existence on the last day of the year under review was 36 consisting of 4 District Judges' Courts including the Additional District Judge's Court, Bangalore, 4 Subordinate Judges' Courts, 1 Small Cause Court, 2 Additional Subordinate Judges' Courts *cum* First Class Magistrates' Courts, 24 Munsiffs' Courts and one Court of Second Munsiff—Magistrate, Shimoga. The temporary Additional District Judge's Court, Bangalore, was further continued up to the commencement of the Civil Courts' vacation of 1933. With a view to give relief in respect of the appellate work of the Shimoga Division, the First Class Magistrate, Chitaldrug, was appointed as an Additional Subordinate Judge to the Subordinate Judge's Court, Shimoga, and he has been hearing Civil appeals since 2nd December 1931. The Second Magistrate, Shimoga, was invested with the powers of a Munsiff in respect of Small Cause suits transferred to him from the file of the Munsiff of Shimoga under the orders of the District Judge, Shimoga.

Original Work.—The number of suits filed during the year rose from 38,238 to 41,921 showing an increase of 9·6 per cent. The increase was all round though proportionately larger under ordinary suits than under small causes.

Including 18,569 suits pending at the end of the previous year and those refiled and excluding 485 suits transferred from Court to Court, there were in all 61,377 suits for disposal of which 29,789 were ordinary and 31,588 Small Cause. Of these, 41,207 suits were disposed of as against 39,899 in the previous year, the increase in disposals being in the Mysore and Shimoga Divisions. Though there has been an increase in the volume of work turned out, the disposals have not kept pace with the institutions, with the result that the pending file has risen from 18,569 to 20,170. The percentage of contested disposals was 31·7 in the case of ordinary suits and 13·8 in the case of small causes against 34·3 and 14·6 in the previous year. The percentage of *exparte* disposals to total disposals were 9·8 against 39·3 in the case of ordinary suits and 59·8 against 60·3 in the case of small causes.

It is satisfactory to note that the general average duration of suits, both contested and uncontested, disposed of during the year has shown a decrease as compared with that of the previous year, being 156·7 days as against 175·7. This decrease obtains in respect of both contested and uncontested suits. Government note that while the decrease is observable in the work of the Munsiffs and Subordinate Judges' Courts, the average duration in the District Courts has risen from 585·4 days to 885·3 days. This is said to be due to the disposal of a larger number of long pending suits (74 against 58).

The number of suits pending at the close of the year was 20,170 as against 18,569 at the end of the previous year, the increase being mainly due to increased institutions. It is expected that presiding officers of Courts will make every effort to reduce the pendency and continue to devote special attention to the disposal of old suits, some of which have been pending from 1920-21.

The largest pendency was in the Munsiff's Court, Shimoga. Relief has been given to that Court during the year by empowering the Second Magistrate, Shimoga, to dispose of some of the Small Cause Suits. Next in order of heavy pendency come the Munsiffs' Courts at Nanjangud, Madhugiri and Hassan. The High Court is requested to propose measures for the reduction of pendency of those Courts.

Out of 76,275 applications for the execution of decrees, 43,45 applications against 44,335 were disposed of during the year. The percentage of aplications that proved wholly infructuous was less than in the previous year being 58 against 59·8.

Appellate Work of Subordinate Courts.—Including 1,515 Regula appeals pending from the previous year there were for disposal 2,483 appeals as against 2,353 in the previous year. Out of these 748 were disposed of as against 38, 391 in the Courts of the District Judges and 357 in those of Subordinate and Additional Subordinate Judges. The average duration of regular appeals disposed of was reduced from 384·0 days to 316·2 days in the Courts of the District Judges and from 505·4 days to 409·4 days in the Courts of the Subordinate Judges. Pendency has increased from 1,515 to 1,735 as a result of the disposals not having kept pace with the institutions. The pendency is heaviest in the Bangalore Division with 711 appeals. With the establishment of the temporary Additional District Court and the appointment of the Judge of the Small Cause Court, Bangalore, and the First Magistrate, Kolar, as Additional Subordinate Judges, the situation ought to have been more satisfactory. The appointment of the First Magistrate, Chitaldrug, and the First Class Magistrate, Hassan, as Additional Subordinate Judges will, it is hoped, afford the needed relief in the other two Divisions.

High Court.—Including 232 first appeals pending at the commencement of the year, there were for disposal 290 first appeals as against 372 in the previous year. Out of this 82 appeals were disposed of as against 140 in the previous year, the decrease being due to the decrease in the number ready for disposal. Out of these 71 were over one year old and consequently the average duration in the disposal of first appeals was just about the same as last year, being 1174·46 days against 1173·12 days. The pendency of first appeals has been continuously falling and the number left pending at the end of the year 1931-32 was 208.

Second Appeals.—Including 337 second appeals pending from the previous year, there were for disposal 513 such appeals and 162 out of this were disposed of leaving 351 pending at the end of the year as against 337 at the end of 1930-31. The average duration of the appeals disposed of was 507·13 against 404·57 in the previous year, 56 per cent of the disposals relating to cases over one year old.

The Subordinate Courts at the headquarter stations of Divisions and the Munsiff's Court, Madhugiri, were inspected by the Judges of the High Court. All the Munsiffs' Courts in their respective Divisions were inspected by the District Judges.

Agriculturists Relief Regulation.—While it is reported that relief under the Regulation is being availed of to some extent in the Taluks of Manjarabad and Koppa, the Munsiff of Sagar reports that full advantage is not being taken of its provisions by indebted agriculturists and that creditors themselves are voluntarily offering easy instalments. The Regulation is on the whole having a beneficial effect and in course of time the relief under it will, it is hoped, reach those for whose benefit it is intended as it comes to be better understood and appreciated by them. The question of extending the Regulation to other Taluks is under correspondence with the High Court.

Government are glad to note that there has been an increased outturn of work all round.

R. RANGA RAO,
Chief Secretary to Government.

IMPORTANT GOVERNMENT ORDERS

CHIEF SECRETARIAT

Police Administration for the year 1931-32.

READ—

Letter No. C. 2. 148—32, dated 10th October 1932, from the Inspector-General of Police, submitting the Report on the Administration of the Police Department for the year 1931-32.

ORDER No. P. 3653-64—POL. 87-32-3, DATED BANGALORE, THE 3RD—5TH JANUARY 1933.

Mr. F. A. Hamilton, C.I.E., was in charge of the Department throughout the year.

During the year under review, the most important measures sanctioned were the reorganization of the Police Force resulting in a net saving of Rs. 63,000 per annum and the transfer of the duty of guarding the Treasuries in the State and the Stamp Manufactory from the Military to the Police. Among the reforms effected in the organization were, (1) the creation of a vacancy reserve in the District Headquarters, (2) the increase of the Provincial Reserve Police, (3) provision for training of officers at Vellore, and (4) the abolition of superfluous Out-Posts and Police Stations. The Railways and C.I.D., Section of the force and the newly constituted Political Branch, were placed under a District Superintendent of Police. The proposals for improving the pay and prospects of the subordinate staff of the Department and raising the basic pay of the constabulary to Rs. 15 forwarded by the Inspector-General of Police in June 1932 have been recently sanctioned. The staff for the prevention of sandalwood smuggling has been reduced and the establishment placed under the control of the regular police.

2. *Cognisable Offences.*—During the year under review, 10,578 cases including those coming under special and local laws were reported as against 9,516 cases in 1930-31, the number of true cases being 9,221 as against 7,852 cases in the previous year. The number of cases dealt with by the Police, including the number of cases pending at the beginning of the year was 14,228 as against 13,041; the number of cases in which investigation was refused being 517, cases that were either false or due to mistake of law or non-cognisable 1,398, cases not detected 953, struck off in A Form 139, withdrawn 125, transferred 6 and compounded 200. Of the remaining 10,890 cases, 6,220 ended in conviction, 1,061 in acquittal or discharge leaving 3,609 pending at the end of the year as against 3,650 cases pending at the end of the year 1930-31. The number of cases in which investigation was refused as compared with the number of cases reported worked to the percentage of 4·88 as against 3·87 in 1930-31 and the cases convicted (6220) to the number of cases decided 7,261 worked to the percentage of 85·44 as against 77·57.

3. *Offences against the State, Public Tranquillity, etc.*—The number of cases including those pending at the beginning of the year under this head was 173 as against 280 in the previous year, the number of true cases being 95 of which 41 ended in conviction as against 43 in 1930-31. Under rioting and unlawful assembly 84 cases were reported as against 91 in the previous year. The offences relating to coins and currency notes during the year were double the number in the previous year, being 12-in 1931-32 of which 5 ended in conviction.

4. *Serious offences against persons.*—The number of cases dealt with under this head by the Police including the cases pending at the beginning of the year was 1,284 (as against 1,367) of which 167 ended in conviction as against 199 in the previous year. The percentage of conviction to true cases (452) was 36·94 as against 39·72. The number of cases under murder, culpable homicide and attempts at murder reported during the year was 123 as against 127 in the previous year. The percentage of convictions (45) to true cases (117) being 38·46 as against 41·17 in 1930-31.

5. *Kidnapping.*—Offences under this head showed a considerable decrease in the year, the number of cases reported being 44 as against 68 in the year 1930-31.

6. *Decoity, Robbery, Housebreaking and Theft.*—The number of decoity cases reported during the year under review was 11 as against 14 in the previous year, the percentage of convictions to true cases being 25 as against 57·14 in the year 1930-31. Under robbery 59 cases were reported as against 56 in the previous year, the percentage of convictions to true cases being 42·86 as against 38·46 in 1930-31. There was a slight falling off in offences under "theft," the cases reported being 2,419 as against 2,536 while there was a rise under housebreaking, the number of cases under this head being 1,432 as against 1,328 in 1930-31, the percentage of convictions for the above offences being 31·17 and 21·09 as against 32·78 and 17·92 in the previous year respectively.

7. *Recovery of Stolen Property.*—Property of the value of Rs. 240,189-13-9 was lost in 2,824 cases during the year as against property of the value of Rs. 2,31,249-0-8 lost in 2,830 cases in 1930-31, while the value of the property recovered out of this during the year amounted to Rs. 98,137-8-2 in 1,784 cases as against Rs. 1,07,989-3-1 recovered in 1,794 cases in the previous year. The percentage of the value of property recovered to the lost was 40.8 as against 46·69 in the year 1930-31.

8. *Preventive action under Section 565 of the Criminal Procedure Code.*—There was a decrease in the number of persons who were ordered to notify their residence under Section 565 of the Criminal Procedure Code, the number being 59 as against 74 in the previous year.

9. *Infant Marriage Prevention Regulation.*—The number of cases reported during the year under this head was 5, all ending in conviction as against 6 cases reported and 5 ending in conviction in the previous year.

10. *Juvenile Smoking.*—The number of cases of juvenile smoking detected was 421 as against 324 in the previous year and a shopkeeper in Tumkur District was convicted for selling beedies to juveniles.

11. *Offence under Criminal Tribes Regulation.*—The number of cases prosecuted under this offence was 260, the number of persons involved being 180 as against 259 cases involving 215 persons in the previous year. Of these, 155 cases ended in conviction involving 154 persons as against 161 cases involving 160 persons in 1930-31,

the cases acquitted or discharged being 7 involving 11 persons as against 21 cases involving 25 persons in the previous year. It is gratifying to note that endeavours are being made to obtain closer co-operation of the British Indian Police in the supervision of registered criminals whose inter-relationship with those residing in the border districts of the British Indian Province complicates the work of the State Police.

12. *Motor Vehicles Regulation.*—The number of buses plying in the moffusil decreased from 821 in the previous year to 536 in the year under review. The total number of vehicles registered till the end of the year was 4,322 and number of vehicles newly registered was 260 as against 386 in the year 1930-31. There was a considerable falling off in the occurrence of accidents to cars, the number in the year being 69 as against 159 in 1930-31. The number of accidents attended with loss of life was 16 as against 19 in the previous year. There were 13 cases of convictions for rash and negligent driving, 51 for driving without licenses, 13 for high speed, 92 for infringement of conditions of permits and 345 for miscellaneous violations of rules.

Inspection.—The inspection work of the officers of the Department during the year was on the whole satisfactory.

Cost of the Department.—The cost of the Department during the year was Rs. 17,72,972-12-0 as against Rs. 19,29,784-10-7 in the previous year.

The Inspector-General of Police brings to notice that cases were being referred to the Police under Sections 202 and 156 of the Criminal Procedure Code by Magistrates in spite of Government Orders discouraging frequent reference of the kind. The High Court will be requested to issue suitable instructions to the Magistracy as regards references to the Police of cases for investigation and also in the matter of posting as far as possible police cases in such a manner as to allow the Prosecuting Staff attending to other work in connection with appeal and revision cases.

Government observe that the Administration of the Police Department during the year 1931-32 continued to be efficient and note that considerable improvement has been effected in all branches of Police work.

Chief Secretary to Government.

Working of the Department of Industries and Commerce for the year 1931-32.

READ—

Report on the working of the Department of Industries and Commerce during the year 1931-32, received with letter No. B1-32, dated 5th November 1932 from the Director.

ORDER NO. D. 3151-202—I. & C. 123-32-3, DATED BANGALORE, THE 5TH JANUARY 1933.

Recorded.

2. *Industrial Installations.*—Twenty-five installations involving a capital outlay of Rs. 70,000 were erected during the year by the officers of the Department as against 46 in the year 1930-31. Seven out of the installations were flour mills and four were pumping plants. Fees amounting to Rs. 736-4-0 were collected during the year on account of technical services and advice rendered by the Department in connection with industrial installations. In addition to rendering technical assistance to persons starting industrial concerns, the Superintendents of Industries also supervised well-boring operations in the districts and examined buses plying for hire. A sum of Rs. 12,188-8-0 was collected during the year as bus examination fees. The Superintendent of Industries, Mysore Division, also undertook the erection of the boiler and other machinery in the New Silk Weaving Factory at Mysore.

3. *Financial aid to Industries.*—Industrial loans to the extent of Rs. 44,376 were sanctioned during the year in 35 cases, the major portion of the loans being utilised for installation of pumping plants, flour mills and tile factories. At the commencement of the year 1931-32, a sum of Rs. 2,17,234-6-11 became due for repayment and the demand during the year was Rs. 72,087-8-1, bringing the total demand to Rs. 2,89,321-15-0. The total amount recovered during the year amounted to only Rs. 48,124-6-0, leaving a balance of Rs. 2,41,197-9-0 recoverable at the end of the year. Government are aware that owing to the prevailing depression in trade and industries, some consideration had to be shown to borrowers in regard to the repayment of the loans. Still it is not desirable in the interests of the borrowers themselves to allow arrears to accumulate, and vigorous steps should therefore be taken to reduce them. In the case of the special loans granted to Sri Krishna Gold Thread Factory, Sri Krishna Tile Factory and the Premier Metal Factory, prompt action to dispose of the plant and machinery is necessary to prevent their deterioration and consequent loss to Government.

4. *Industrial concerns under the control of the Department.—Central Industrial Workshop.*—The Central Industrial Workshop undertook work of the value of Rs. 1,22,147 during the year as against Rs. 1,13,178 in the previous year. It devoted attention to the manufacture of parts of Calyx drills, Deep-well pumps, etc. The value of orders placed by the Well-boring Section and the Electrical Department, amounted to Rs. 56,207. A sum of Rs. 26,400 was sanctioned for the expansion of the foundry with a view to undertaking the manufacture of agricultural implements. The Workshop carried out some experiments in the manufacture of plough shares and other plough parts. The Workshop undertook the erection, with the assistance of Messrs. Seimens Bros. of a gas plant for generating electric power from lantana charcoal. The experiment yielded satisfactory results in as much as it was found possible to generate electric power at a cost of about one anna per B. T. U. The plant is stated to be well suited for being put up for lighting purposes in rural areas which are not within reach of the hydro-electric system. There were 50 apprentices under training in the Workshop during the year and a sum of Rs. 2,500 was spent on their training.

5. *Soap Factory.*—The total output of soaps in the Government Soap Factory was 240 tons as against 260 tons during the previons year. The sales amounted to Rs. 4,94,539 against Rs. 4,61,940 during 1930-31. In addition to soaps, the Factory produced several high grade toilet preparations such as Vanishing cream, Boot polish, etc. It has since been decided to take up the manufacture of tooth paste also in the Factory. The preparation of certain medicinal drugs and Hospital necessaries from materials available locally was undertaken in the Industries Laboratory attached to the Soap Factory and these articles are being supplied to the Medical Department. During

the year, the Factory was enlarged by the construction of additional buildings and installation of new machinery. The Turkey Red Oil Plant which was sanctioned last year was erected and 10,045 pounds of Oil were produced and marketed.

6. *Government Weaving Institute.*—As a measure of retrenchment, the post of Textile Assistant was abolished during the year. Fifty students were under training in the Institute, including two women candidates. Eleven students passed the final examination and ten students who completed their course of training in the Institute were provided with opportunity for practical training in the several Mills in Bangalore.

New experimental work done in the Institute comprised manufacture of Burmese Lungis and Tapestry cloth and designing of a tappet, incorporating the principles of the power loom dobby. The latter is reported to be much appreciated by the hand-loom weavers.

The District Demonstration staff continued to do good work. Improved appliances of the value of about Rs. 4,000 were sold during the year.

7. *The New Silk Weaving Factory at Mysore.*—The erection of the Silk Factory at Mysore was commenced during the month of August 1931 and was completed by the end of June 1932. During the year, about 6,132 yards of Silk cloth were manufactured. They could not however be finished, as the dyeing and finishing plant had not been completed by then. This work has been started since July 1932 and it is reported that up to the end of August 1932, silk goods of the value of Rs. 3,834 were sold and that the Factory has secured forward orders against the production during the next three or four months.

8. *Arts and Crafts Institute.*—The sales of artware in the Arts and Crafts Depot amounted to Rs. 19,156 during the year as against Rs. 20,699 in the previous year. Of the realisations, Rs. 6,805 were contributed by sales of artware belonging to the Depot and Rs. 12,351 by sales of articles supplied by private artisans. A representative collection of Mysore Artware sent to London found a ready sale there.

9. *Porcelain Factory.*—The kiln at the Porcelain Factory was completed and fired for the first time in March 1932. Production has since been started on a commercial scale. The Factory has so far supplied to the Electrical Department 5,125 pin-type Insulators, 86 Strain Insulators, 2,500 Brake Insulators and 8,000 bushings. The manufacture of other dry, pressed porcelain electrical materials, as well as suspension insulators is being attempted.

10. *Works of the Well-boring Section.*—As a measure of retrenchment, the services of the Special Engineer were terminated. During the year, 27 bore-holes of a total depth of 3,867 feet were sunk at a cost of about Rs. 33,000. It is gratifying to note that the bore-holes sunk at Tiptur and Arsikere were completely successful and have solved the problem of water supply in the case of these towns. The total number of bore-holes sunk from the beginning till the end of June 1932 was 167 at a cost of Rs. 1,44,000.

11. *Hand Spinning Centres.*—A new Khadi Centre was opened by the District Board of Chitaldrug at Aimangala during the year. The spinning centres at Badanawal, Terakanambi and Ajjampur continued to do good work. Thirty-six thousand nine hundred and eleven pounds of yarn and 86,339 square yards of khaddar were manufactured in the Badanawal Centre. There were about 1,800 spinners who earned about Rs. 16,000 and 100 weavers who were paid wages to the extent of Rs. 10,768. It was possible to further reduce the average price per square yard of cloth from Re. 0-7-9 to Re. 0-6-7.

12. *Industrial Education.*—In addition to the Chamarajendra Technical Institute, there were eight Industrial Schools—four District and four Taluk—under the control of the Department. The strength of the Chamarajendra Technical Institute as on 30th June 1932 was 253 against 203 during the previous year, while the strength of the Industrial Schools was 466. There were, besides, ten Home Industries classes aided by Government at Bangalore, Mysore and Chikmagalur. The total number of women under training during the year was 285. The Department placed at the disposal of the Home Industries classes the services of an expert instructor in Gold Lace Embroidery.

13. *Trade and Level of Prices.*—The depression in trade which commenced two years ago continued during the year. The Director of Industries and Commerce

reports that in the year under review, the continued fall in the prices of commodities was checked to a certain extent, and that as a result of the suspension of the Gold standard by England, a temporary rise in prices was noticeable; but that while this improvement lasted till the end of March 1932 and in the following quarter, prices once again began to fall since July 1932. Under food grains and pulses, the prices of rice and javar during the year remained fairly steady and ragi made a good recovery. There was a steady rise in the price of groundnuts, copra, jaggery, brown sugar, cardamoms and arecanuts. Under textiles, the price of cotton and piece goods suffered a fall subject to slight fluctuations. The commodity that was affected the worst was raw silk and silk goods which had to face the severe competition of cheap silk imported from Japan and China.

During the year under report, 3670 tons of kerbstones valued at Rs. 1,36,750 were exported to England. The Department has been able to prove that a good business in this commodity can be built up. There are signs of an early revival of demand for Mysore stones in England.

14. *Labour.*—There was a serious labour disturbance in the Bangalore Woollen, Cotton and Silk Mills Co., Ltd., Bangalore City, in July 1931 and a slight disturbance occurred in the Mysore Match Manufacturing Co., at Shimoga in April 1932, both of which were brought under control in time. Otherwise, the relationship between capital and labour was quite cordial. Following the recommendation of the Royal Commission on Labour in regard to setting up of a machinery for the settlement of industrial disputes, Government sanctioned the constitution of a Board of Conciliation during the year. The Board consists of representatives of the employers and labourers as also of the general public, with the Labour Commissioner as Chairman. The Board has already applied itself to a study of the questions affecting the interests of the employers and labourers and to prevent, as far as possible, any clash of interests involving injury to either party.

15. *Weights and Measures.*—The compulsory use of certified weights and measures was directed to be enforced in 13 more towns during the year. Fourteen thousand three hundred and fifty-six units of weights and measures were tested and certified during the year as against 14,563 in the previous year and the fee realised thereby amounted to Rs. 442-1-0.

16. *Factories Regulation.*—The total number of Factories on the register at the close of the year was 183, employing on an average 17,199 workmen per day, of whom 1439 were children. Of the 1439 children, 284 were examined by the certifying surgeons. It is understood that many of the Factory owners are gradually discontinuing the employment of children in their factories. There was a further fall in the number of factories inspected which was only 78 as against 98 in the previous year. This is not satisfactory and it is hoped that better attention will be paid to this work in future.

17. *Cotton Ginning and Pressing Factories Regulation.*—The Regulation was brought into force from 1st September 1931 and is administered by the Chief Inspector of Factories. During the year, there were working in all 30 Ginning Factories and 6 Pressing Factories.

18. *Workmen's Compensation Regulation.*—The total number of cases that came up for decision before the Commissioner for Workmen's Compensation was 314 of which 298 were disposed of. One hundred and thirty-six of the latter related to fatal accidents. A sum of Rs. 98,364-8-4 was deposited with the Commissioner during the year for award of compensation, and the amount disbursed was Rs. 93,699-6-4.

19. *Steam Boilers and Prime Movers Regulation.*—The total number of boilers in the State at the end of the year was 236 and the number of boilers examined during the year was 197. The total fees collected on account of examination of boilers amounted to Rs. 3,981 as against Rs. 2,940 during the previous year.

Conclusion.—The working of the Department during the year was satisfactory and the Government are pleased to place on record their appreciation of the work of the Director, Mr. N. Rama Rao and his staff.

R. RANGA RAO,
Chief Secretary to Government.

Working of the Excise Department.

READ—

Letter No. B. 3. Per. 50-1—31-32, dated 20th October 1932, from the Excise Commissioner in Mysore, submitting the Report on the Administration of the Excise Department for the year 1931-32.

ORDER NO. FL. 3588-600—EX. 29-32-3, DATED BANGALORE, THE 5TH JANUARY 1933.

Recorded.

2. *Important Changes.*—The following were some of the important changes ordered during the year under review :—

(1) The rate of duty on country beer imported into the State was enhanced from Re. 0-8-0 to Re. 0-12-0 per gallon with effect from 1st July 1932.

(2) Excise privileges as detailed below were sold on a three-year basis :—

(i) Bangalore City and Taluk (arrack and toddy shops).
(ii) Bowringpet Taluk (do do)
(iii) Channarayapatna Taluk (toddy shops).
(iv) Chiknayakanhalli Taluk (arrack and toddy shops).
(v) Mudgere Taluk (arrack shops).

3. *Manufacture of Country Spirits at the Distillery, Bangalore.*—Mr. K. N. Guruswamy continued to be contractor during the year, and from 1st July 1932 onwards for two years the contract has been taken up by Hajee Sir Ismail Sait, his tender which was the lowest having been accepted by Government.

At the instance of Government, separate investigations were made at the Indian Institute of Science to explore the possibility of manufacturing rectified spirits of 60° O. P. required for use in industrial and commercial concerns at a reduced cost from spirits of 40° O. P. available with the manufacturing contractor. The cost of manufacture was found to work out to Rs. 2-12-0 as against Rs. 3-15-0 per gallon paid hitherto to the manufacturing contractor, Mr. K. N. Guruswamy. Hajee Sir Ismail Sait having agreed to supply spirits of 60° O. P. at Rs. 2-15-0, this rate was accepted by Government.

The Excise Commissioner brings to notice that the supply of filtered water from the Hessarghatta Tank which was satisfactory till about the middle of April 1932 was inadequate thereafter and that at the suggestion of the Water Works Department an estimate for Rs. 920 for installing a Booster Pump at the Distillery has been countersigned by him and returned. The Chief Engineer will kindly see that this work is executed promptly and satisfactorily.

As regards contamination of water in Chikkere Tank by the sewage water that is let into it, Government regret to observe that this has remained unattended to for some years past and trust that the Bangalore City Municipality will make arrangements to divert the flow of the sewage water as early as possible.

There was a decrease in the total quantity of spirits manufactured from 2,91,016 in 1930-31 to 2,48,797 gallons in the year under report. The quantity supplied to Depôts and Institutions in the State amounted to 2,01,785 gallons as against 2,30,677 gallons in the preceding year while that issued to Civil and Military Station came to 47,759 gallons as against 53,120 in 1930-31.

4. *Carriage of Liquor.*—The transport of liquors and ganja in the State continued to be under Departmental management during the year. The use of motor lorries for the purpose was extended to the Districts of Hassan and Kadur.

Government regret to learn that the experiments made in the use of Kenward barrels did not prove encouraging.

5. *Bonded Depôts.*—There were 55 Bonded Depôts as against 56 in the preceding year, the Depôt at Kunigal having been closed with effect from 1st July 1931. The system of placing light Depôts in charge of Treasury Gollars was extended to Honnali, Hosanagar and Channagiri Depôts during the year.

6. *Arrack.*—The consumption of molasses arrack during the year fell to 1,88,949 gallons from 2,18,786 gallons in 1930-31, showing a decline of 14 per cent. This fall though spread over all the Districts, was particularly heavy in the Districts of Shimoga and Bangalore.

The incidence of consumption of molasses arrack per head of population was 1·7 drams as against 1·9 drams in the preceding year.

7. *Shops.*—There were 539 arrack, 2,014 toddy, 248 ganja and 88 opium shops during the year as against 546, 2,013, 247 and 90 shops respectively in the year previous.

There was one arrack shop for every 54·7 square miles as against 53·9 square miles in the year previous and each shop served, on an average, 11,917 persons as against 10,732 persons in the year previous.

8. *Toddy.*—The number of trees tapped decreased from 2,67,498 in 1930-31 to 2,42,560 in the year under report while the revenue also from this source fell from Rs. 39,48,922 to Rs. 31,98,497.

Government note that blocks of date groves already formed are receiving adequate attention.

9. *Ganja.*—Ganja was grown during the year on 22 acres of land in Goribidnur Taluk as against 28 acres in the preceding year, the average yield per acre being 8·7 maunds as against 12·9 maunds in the year previous. The revenue from this source amounted to Rs. 3,79,603 as against Rs. 4,03,723 in 1930-31.

10. *Excise Offences.*—The offences under the Excise and Opium laws reported during the year showed an increase from 3,578 in 1930-31 to 3,653 in the year under review. Of these, 840 related to heinous offences, out of which 425 were booked as illicit distillation and possession of illicitly distilled liquor cases as against 244 similar cases of last year, thus showing an alarming increase in these nefarious practices during the year. It is particularly noticeable that Shimoga District alone is responsible for 321 cases as against 196 in the preceding year.

Government in their review on the last year's report, observed with concern the prevalence of these malpractices on an extensive scale in the Shimoga and Kadur Districts and ordered an investigation into the matter. The report under review briefly explains measures adopted during the year for putting down these malpractices. Government await the proposals promised by the Excise Commissioner, for suppressing illicit distillation.

11. *Temperance Propaganda.*—The Bangalore Temperance Federation have been doing propaganda work in the cause of prohibition and Government in pursuance of their policy towards such movements have paid during the year under review Rs. 1,998 as grant-in-aid to the Federation for work in this direction.

12. *Inspections.*—The inspections conducted by the Excise Commissioner, Deputy Commissioners and Sub-Division Officers in charge of Excise work were, on the whole, adequate and satisfactory.

13. *Financial Results.*—Out of a total demand of Rs. 61,67,275 for the year inclusive of arrears outstanding at the beginning of the year as against Rs. 76,28,328 in 1930-31, a sum of Rs. 60,01,060 was collected and a sum Rs. 11,704 was remitted as irrecoverable, leaving a closing balance of Rs. 1,54,511 at the end of the year.

The Excise Commissioner is requested to see that no portion of the old arrears is left uncollected at the close of the current year.

14. *Excise Licensing Boards.*—The Licensing Boards of Kankanhalli, Magadi, Chikmagalur, Birur, Tarikere, Sagar, Shikarpur and Shimoga were reconstituted during the year. The resolutions passed by some of these Boards were given effect to where possible.

Government are glad to observe that the Administration of the Department during the year was, on the whole, satisfactory.

R. RANGA RAO,
Chief Secretary to Government.

Working of the Krishnarajasagara and Allied Works for the year 1931-32.

READ—

Letter No. 2342—K. R. S. dated 29th October 1932, from the Chief Engineer, Krishnarajasagara Works, forwarding the Administration Report of the Krishnarajasagara and Allied Works for the year 1931-32.

ORDER No. G. 4563-74—G. M. 56-32-3, DATED BANGALORE, THE 4TH JANUARY 1933.

Recorded.

2. *Krishnarajasagara Dam.*—The construction of the approach gateway at the South-end of the Dam and all the masonry works connected with the waste weir of the Dam were completed during the year and the road over the Dam was allowed for the use of the public. The waste weir consists of 136 (including 48 automatic) cast iron gates which are being supplied by the Mysore Iron Works.

3. *Irwin Canal Works.*—All the main works on the canal including construction of sluices and excavation of main distributaries were completed, both in the first section between the Dam and the Tunnel and on the Maddur Branch Works. Timely supplies from the Canal were arranged for the French-Rocks Tank in the Seringapatam Taluk under the main canal and to such of the tanks in the Mandya and Maddur

Taluks under the Maddur Branch, the owners of the lands under which agreed to pay water rate and contribution.

4. *Improvement of Towns.*—There was an appreciable progress in the shifting of the Yedatore Town during the year. The extension of the Mandya Town is reported to be making good progress.

5. *Special Measures for the Development of Cultivation.*—Several important measures such as an increase in the number of instalments for recovery of contributions, free supply of water for the first three years for raising green manure crops, etc., were sanctioned for expediting the development of irrigation in the area. The establishment of an agricultural depôt at Mandya has been sanctioned, the operations of the Land Mortgage Bank have been extended to the Mandya and Maddur Taluks and the formation of a Sericultural Farm and Grainage in the Irwin Canal Area is engaging attention. A special establishment was sanctioned during the year for conducting Health Surveys in the Irwin Canal Area. Proposals for the establishment of a Sugar Factory are under consideration. The Agricultural Farm at Ganadalu is being developed to supply seed cane for the cane growers in the locality.

6. A Committee has been appointed to examine the practical difficulties or inconveniences, if any, that may call for relief in the initial stage of adoption of the rotational system of cultivation under the canal and to suggest remedial measures.

7. *Other Irrigation Works.*—During the year under review, the extensions of Chikkadevaraysagara and Rajaparameswari Channels were under execution and water supply was arranged for in May 1932, for an extent of nearly 1,475 acres. Projects are under preparation for extension of the Madhavamanthri and Chamaraja Left Bank Channels.

8. *Land Acquisition.*—Since the beginning of the Irwin Canal Works, an extent of 1,467 acres and 18½ guntas has been permanently acquired and a sum of Rs. 1,59,298 paid as compensation till the end of the year under report. In addition to this, an extent of 68 acres and 23 guntas of land has been granted by way of land compensation. Besides this the acquisition of 250 acres of land for the Ganadalu Agricultural Farm was also undertaken during the year.

9. *Grant and Outlay.*—The total outlay on the Krishnarajasagara and Allied Works during the year amounted to Rs. 25,11,837 against the final grant of Rs. 24,89,405.

10. *General.*—Rajasevasakta Diwan Bahadur Mr. K. R. Seshachar was in administrative charge of the Department till 1st November 1931, when he retired from service and Mr. S. Srinivasa Aiyar, Superintending Engineer, Krishnarajasagara Circle, was appointed Officiating Chief Engineer and Secretary to Government, Krishnarajasagara Works.

Tutorial appointments in the Village Panchayet Schools,

READ—

Letter No. 329—C. R. B. 23-31-1, dated 13th July 1931, from the Secretary, Central Recruitment Board to the District Educational Officer, Kolar, stating that as the Village Panchayet Schools are quasi-official institutions and not exactly like private aided schools, the Central Recruitment Board Rules should be made applicable to them.

2. Correspondence ending with letter No. 6644—287 of 31-32, dated 10th May 1932, from the District Educational Officer, Kolar, intimating that the sanction of Government has been separately sought for through the Director of Public Instruction in the matter of filling the vacancies in Panchayet Schools by the Panchayets themselves.

ORDER No. 4087-98—C. R. B. 18-32-3, DATED BANGALORE, THE 3RD JANUARY 1933.

Government are pleased to direct that the tutorial appointments in the Village Panchayet Schools in Mysore be exempted from the operation of the recruitment rules.

These posts may be filled up by the Village Panchayets themselves, subject to the condition that the requirements of the Education Department in respect of the qualifications, etc., of the teachers are satisfied.

Elections.

No. 3850-57—R. A. 26-32-5, DATED BANGALORE, 13TH JANUARY 1933.

From

R. RANGA RAO, ESQ., B.A., B.L.,
Chief Secretary to Government
of His Highness the Maharaja of Mysore.

To

The Deputy Commissioners of Districts.

SIR,

In continuation of this Office Circular Letter Rl. 3446-56—R.A. 26-32-4, dated 9th January 1933, issuing instructions for the preparation of electoral rolls pertaining to the coming general elections, I am directed to invite your attention to para 2 (a) (i) of Notification No. P. 2397—Legis. 12-23-4, dated 7th November 1923 and Rel. 333—L. C. 3-26-2, dated 11th November 1926 regarding the qualifications of voters to the Representative Assembly and the Legislative Council respectively, and to state that the term "registered occupant" in these rules has to be interpreted as follows in places where the Record of Rights has been introduced finally :—

According to section 3 (17) of the Land Revenue Code, the registered occupant is the occupant whose name is authorizedly entered in the Government records. Under the Record of Rights Regulation, the hissas of the person in actual possession of the land (*i.e.*, the Anubhavadar) are brought under his name in the Record of Rights. Thus his name is authorizedly entered in the records and the actual owner or Anubhavadar becomes the registered occupant. Further, according to section 2 of this Regulation, where its provisions

have been extended to any area, the provisions of the Land Revenue Code inconsistent therewith are deemed to have been modified and the Anubhavadar therefore becomes the registered occupant and the khata also has to be prepared in his name. In these circumstances, wherever the Record of Rights Regulation has been introduced finally, it is the occupant according to that Regulation, *i.e.*, the Anubhavadar whose name is entered in the Record of Rights and who pays land revenue of not less than Rs. 25 that will be entitled to vote.

You are requested to kindly issue instructions for preparing the electoral rolls accordingly.

I have the honour to be,
Sir,
Your most obedient servant,
R. RANGA RAO,
Chief Secretary to Government.

Working of the Public Works Department for the year 1931-32.

READ—

Report on the Administration of the Public Works Department for the year 1931-32, received from the Chief Engineer with his letter No. 5188, dated 16th November 1932.

ORDER No. G. 4897-901—G. M. 64-32-3, DATED BANGALORE, THE 17TH JANUARY 1933.

Recorded.

2. Mr. M. G. Rangaiya was in charge of the Department throughout the year.

3. *Grant and outlay.*—The final grant for the year under all heads amounted to Rs. 65,96,424 against which an outlay of Rs. 65,33,385 was incurred. Including the outlay of Rs. 4,05,484, from sources, such as contributions, the total expenditure of the Department during the year amounted to Rs. 69,38,869 against Rs. 75,84,233 in the previous year. The aggregate State grant was Rs. 45,07,305 against which the actual booked outlay was Rs. 44,53,098. The greater portion of the lapse was under Irrigation (Rs. 85,784) and Education (Rs. 58,576).

4. *Irrigation works charged to Revenue.*—The expenditure incurred under this head amounted to Rs. 7,26,687 against Rs. 8,78,173 in the previous year. Out of this, Rs. 4,92,562 was incurred on tanks, Rs. 1,08,573 on channels, and Rs. 1,25,552 on the restoration of minor tanks.

5. Government note that of the 21 tank works which are in progress five in the dry Taluk of Nagamangala have made good progress and will be completed early and that out of 288 minor tank works in progress 189 were completed. In the year under report 400 more acres were brought under cultivation making the total irrigation area 8,300 acres against 9,900 acres commanded by the channel from the Gopala Anicut on the Bhadra and about 150 acres were planted with sugar-cane under the channel.

6. *Civil Works.*—The total expenditure on buildings amounted to Rs. 3,31,774 of which a sum of Rs. 1,91,973 was on Miscellaneous works and Rs. 95,693 on buildings of the Medical Department. Among the important building works which were completed during the year were the General Hospital at Chikmagalur, the Lalitha Mahal at Mysore and the Serum Institute at Bangalore.

7. *Communications.*—The expenditure under this head amounted to Rs. 1,22,640, of which Rs. 50,419 was incurred on roads and Rs. 69,514 on bridges and boats. The construction of the bridge across the Cauvery at T.-Narsipur was completed and it was opened for traffic by His Highness the Maharaja on 29th August 1932. A total length of 2197$\frac{5}{6}$ miles of State Fund Roads was maintained during the year, of which

1,990 miles are metalled. The average cost of maintenance, including the expenditure on special repairs, was Rs. 358-8-0 per mile. The proper maintenance of roads is becoming increasingly expensive and it is one of the questions referred to the Committee appointed to go into the problem of Motor Transport in Mysore and its suggestions are awaited.

8. *Water Supply.*—The outlay during the year on the New Bangalore Water Works Scheme was Rs. 20,68,633. The excavation of the foundations for the dam was completed and masonry work started. The dam had risen to 35 feet above the river bed in the lowest portion by the end of the year. The Deviation Road was completed and opened for traffic. All the 16 miles of C. I. main and 3 miles of steel main were laid in the year.

9. *Irrigation Cess Fund.*—The expenditure from the Irrigation Cess Fund was Rs. 3,19,420 against the grant of Rs. 3,32,622.

10. *Establishment.*—The total charges under this head amounted to Rs. 10,14,583. The proportion which the establishment charges bore to the total expenditure on works and repairs under all Funds was 17·07 as against 17·47 of last year.

The work of the Department was satisfactory.

Working of the Muzrai Department for the year 1931-32.

READ—

Letter No. R. Dis. 90—32-33, dated the 24th October 1932, from the Muzrai Commissioner in Mysore, forwarding the Report on the Administration of the Muzrai Department during the year 1931-32.

ORDER NO. 1024-35—MUZ. 91-32-4, DATED BANGALORE, THE 13TH JANUARY 1933.

Recorded.

2. Government are glad to note that the several schemes sanctioned for the better administration of the Muzrai Department are working satisfactorily and are yielding good results in the management of institutions and the maintenance of accounts, etc., relating to them. They are also glad to observe that the local officers and the Dharmadarsis of institutions are generally evincing greater interest in Muzrai work. It is hoped that the Dharmadarsis of institutions in the Shimoga District will also take greater interest in this matter in future. The debit balances in the temples of Seringapatam and Melkote and in the Sivaganga Mutt should be wiped out by improving their resources or by revising their scales of expenditure so as to keep it well within the limit of their income.

3. The following are the more important events or measures undertaken or sanctioned during the year:—

(*a*) The work of repairing and restoring the ancient temples at Belur and Halebid was carried out by the special staff employed for the purpose and the services of this staff have been ordered to be continued for a further period of one year.

(*b*) Funds are being set apart for the construction of a chattram on the Tirupathi Hill for the accommodation of non-brahmin pilgrims. The chattram building at Benares was repaired to some extent and further improvements to it are under consideration.

(*c*) The Sri Tengina Mutt in the Koppa Taluk, the Dhananka Mutt in the Tumkur Taluk, the Sri Yethiraja Mutt at Melkote and the Sri Yelahanka Mutt in the Belur Taluk, together with their properties, were ordered to be taken over by Government for management.

(*d*) Successions to the Sri Kodi Mutt in the Arsikere Taluk, to the Sri Kudli Sringeri Mutt in the Shimoga Taluk, and to the Hazrath Attavalla Shah Darga, Bangalore City, were recognized during the year.

(*e*) The inam lands of the Kanthaiah's and Thotadappa's Mutts in the Chitaldrug District were resumed, as these institutions had become defunct.

(*f*) A provisional Rahadari was issued to the Swamigalu of the Sri Adi Chunchingiri Mutt indicating the birudus, etc., which the Swamigalu was entitled to use during his tours and a cash grant of Rs. 100 a month was sanctioned to this Mutt from State Funds for a period of ten years.

(*g*) Manuals in respect of the temples at Chamrajnagar, Nanjangud, Seringapatam and Belur were printed and published and the Honours Manual is under print.

4. The following questions which are under the consideration of the Department require prompt attention:—

(*a*) Investigation into the affairs of the temple on the Biligirirangan Hill in the Yelandur Taluk.

(*b*) Proposals for the management of the Sri Ranganathaswami Temple and Choultry at Sivasamudram.

(*c*) Appointment of Swamies to the Sri Sampige Mutt in the Kadur District and to the Sri Yelahanka Mutt in the Hassan District.

(*d*) Proposals for amending the Mysore Religious and Charitable Institutions Regulation with a view to introduce therein, provisions similar to those in the Madras Hindu Religious Endowments Act, regarding the submission of budgets by Mathadhipathis.

(*e*) Proposals for the grant of 50 acres of land to the Sri Chennakesavaswami Temple at Belur.

(*f*) Proposals for fixing a uniform curricula of study in all the grant-in-aid Veda Patasalas.

(*g*) Proposals for systematising the payment of Nehami allowances.

(*h*) Revision of the muzrai manual, the quit-rent and the cash grant registers and the compilation of lists of mutts and village institutions.

Endowments.—Government are glad to note that endowments in cash, land and other forms were received in the year for the benefit of Muzrai Institutions.

Educational Institutions under Muzrai Management.—As in the previous year, the Ayurvedic and Unani College and Hospitals at Mysore, the Sanskrit College at Melkote, the Sri Chamarajendra Veda Maha Patasala at Bangalore, the Agama Classes attached to the Maharaja's Sanskrit College at Mysore and the several grant-in-aid Veda Patasalas throughout the State continued to do satisfactory work during the year.

Investigation of Inams of defunct Muzrai Institutions.—The services of the special staff employed to investigate into the cases of defunct Muzrai Institutions and alienation and unauthorized enjoyment of inam lands of Muzrai Institutions in the Shimoga and Mysore Districts were extended up to 31st October 1931. This staff has since the commencement traced 484 cases of defunct institutions, 317 cases of alienations or unauthorized enjoyment of inam lands and 335 cases of conversion of village institutions into minor ones. Similar work was done in the other districts by the local Muzrai Officers. The Muzrai Commissioner is requested to issue instructions to the Deputy Commissioners of Districts to arrange for continuing this work expeditiously and to pursue the several pending cases to their final stages without delay.

Income and Expenditure of the Department.—The opening balance at the credit of Muzrai Institutions was Rs. 7,00,079 and the receipts during the year amounted to Rs. 7,68,038, making a total of Rs. 14,68,107. The expenditure during the year amounted to Rs. 6,64,552, leaving a balance of Rs. 8,03,555 at the end of the year.

Inspections.—It is reported by the Muzrai Commissioner that certain Deputy Commissioners did not furnish details about the inspection work done by their Sub-Division Officers in respect of Muzrai Institutions. This is not satisfactory. The Muzrai Commissioner is requested to issue suitable instructions in the matter and to indicate in future reports, the more important points noticed during the inspection of institutions and their jewels and other properties and the action taken on them.

General.—His Highness the Maharaja of Mysore paid a visit to the Sri Bale-Honnur Mutt in the Narasimharajpura Sub-Taluk. The Members of the Indian States Enquiry Committee, His Excellency the Governor of Madras, Lady Chetwood, the Princes and Princesses of Hyderabad and the Hon'ble Mr. Stokes, Member of Council, Madras, visited the Gumbaz at Seringapatam. His Highness the Thakore Saheb of Palitana visited the Gumbaz at Seringapatam and the temples at Belur, Halebid and Sravanabelgola. The Hon'ble Mr. Stokes, Mr. Trivedi and Mr. and Mrs. Paramanand visited the temples at Belur and Halebid. The Dewan of Mysore visited the

Gumbaz at Seringapatam and the temples of the Sri Yoganandeswaraswami and the Bhoganandiswaraswami in the Chikballapur Taluk.

Government are glad to observe that the Administration of the Muzrai Department continued to be efficient during the year under review.

District Board Works.

READ—

Government Order No. L. 4972-91—L. B. 83-30-40, dated the 10th December 1930, appointing a Committee to consider the question of the District Boards being permitted to have their own Engineering Establishments and to submit its views to Government.

2. Government Order No. L. 7570-86—L. B. 83-30-51, dated the 11th May 1932, directing that it would not be expedient to try the scheme of the District Boards having their own Engineering Establishments, even as an experimental measure in one District as proposed by the Committee.

ORDER NO. P. W. 1558-80—S., DATED BANGALORE, THE 13TH JANUARY 1933.

Complaints are being received from the Presidents of the District Boards to the effect that the officers and subordinates of the Public Works Department do not co-operate with them and furnish the information they require, regarding the District Board works executed by the Department. Government are pleased to direct that all information required to be furnished regarding these works according to Government Order No. 4447-66—L. B. 999-22-1, dated the 16th December 1922, should be fully and promptly supplied to the District Board Presidents. They further desire to impress on the officers of the Department that, as the latter is an agency for carrying out District Board works, its officers should work in co-operation with the Boards and afford all reasonable help to them to enable the Presidents to keep in touch with the progress of the works. Government trust that the Presidents will also co-operate with the Executive Engineers and afford them every facility for the expeditious and satisfactory execution of works.

2. The Sub-Divisional Officers or subordinates may, on receipt of requisitions by the Presidents to the Executive Engineers, be asked to accompany the Presidents occasionally for the purpose of explaining to them the nature and stage of the works under execution.

The Superintending and Executive Engineers may send their tour programmes to the Presidents, so that the latter may be present at inspections of the works, if they so choose.

3. Whenever the Presidents of the Boards bring to the notice of the Executive Engineers any defects they notice in works under execution or offer suggestions regarding them, the Executive Engineers should give due consideration thereto and intimate the action taken thereon to the Presidents as early as practicable. When for any reason the Executive Engineers cannot take action on such reports or suggestions, they should promptly submit the cases for the orders of higher authorities.

IMPORTANT GOVERNMENT ORDERS

CHIEF SECRETARIAT

Administration of Criminal Justice in Mysore, for the year 1931-32.

READ—

Report on the Administration of Criminal Justice in Mysore for the year 1931-32, received from the Registrar, High Court, with his letter No. P. 39—31-32, dated 22nd October 1932.

ORDER No., P. 4037-45—CTS. 105-32-3, DATED BANGALORE, THE 19TH—23RD JANUARY 1933.

Recorded.

2. The number of Courts that exercised original jurisdiction at the end of the year was 77 excluding the *Ex-officio* Magistrates, consisting of four Sessions Judges including the Additional Sessions Judge, Bangalore, four Assistant Sessions Judges, eight District Magistrates, 22 First Class Magistrates, 10 Second Class Magistrates and 29 Bench Courts. The Special Magistrate's Court at Tarikere was temporarily abolished during the year as a measure of retrenchment. Six Bench Courts were also abolished during the year.

Offences Reported.—The total number of offences reported showed an increase of 2,500 from 21,216 to 23,716 and there was a corresponding increase in the number of cases returned as true, namely 22,694 against 19,771. Including 11,055 persons pending trial at the close of the previous year, the number of persons brought to trial was 43,159 as against 42,783 in the previous year. Of these the cases against 32,025 persons were disposed of, the percentage of disposal being the same as in the year 1930-31, though the number brought to trial was greater. The number of persons convicted was 11,777 and of those acquitted or discharged 19,235, the respective per-

centages being 36·7 and 60·06 as against 31·0 and 65·3 in the previous year. At the close of the year the cases against 11,125 persons were left pending in the Magistrates' Courts as against 11,027 at the end of the previous year. Sentence of death was passed against only one person and was confirmed by the High Court. The percentage of number of persons awarded short terms of imprisonment, *i.e.*, of 15 days and under rose this year also from 26 to 31·4. The provisions of Section 562, Criminal Procedure Code, continue to be used to an appreciable extent, the number dealt with thereunder being 304 against 400 in 1930-31. Of those so dealt with 77 were juvenile offenders.

Bench Courts.—The Bench Courts disposed of 7,529 cases out of 9,052 or 83·1 per cent of the number for disposal as against 81 per cent in the previous year. There was an increase in the average duration from 42·7 to 54·4 days. A beginning has been made in the matter of appointing ladies as Honorary Magistrates and two ladies have been appointed as such in each of the Cities of Bangalore and Mysore and recently a lady has been appointed as a Bench Magistrate for the Hassan Bench Court.

Work of Special Magistrates.—Out of 14,045 cases for disposal 11,221 cases were disposed of, the percentage of disposals being 79·8 as against 80 in the previous year. The average duration of cases rose from 66·86 to 70·10 days. The rise is attributed partly to *de novo* trials in consequence of the abolition of Bench Courts and change of Magistrates. The average duration requires to be reduced and it is expected that every effort will be made towards the realisation of the hope expressed in the last year's review.

District Magistrates' Courts.—The District Magistrates disposed of 30 out of 34 regular cases.

Witnesses.—Out of 58,857 witnesses who appeared before Magistrates' Courts 43,852 or 74·5 per cent against 78 per cent in the previous year were examined. No witness was detained for more than three days in any of the Courts.

Itineration of Magistrates.—The scheme of itineration is reported to be working satisfactorily and growing in popularity. It had, however, to be suspended in the District of Chitaldrug and partly in the District of Shimoga as a measure of economy. The extra expenditure involved in the scheme in the shape of Travelling Allowance and other charges will, it is believed, be counter-balanced by the saving of time and money to the public and the Police Department.

Combination of Civil, Judicial and Magisterial Functions.—The system of combination of civil, judicial and magisterial functions in the same officer is being worked at Hole-Narsipur, Narasimharajapura and Dodballapur and in the Court of the Second Munsiff, Mysore. This system has been introduced recently into Hunsur also where the Special Magistrate's Court has been abolished.

The First Class Magistrates of Kolar and Chitaldrug and recently of Hassan have been given Civil appellate work. This arrangement is reported to have worked well. The Second Class Magistrate at Shimoga has been invested with the powers of a Munsiff in respect of Small Cause Suits to try transferred suits.

Sessions Work.—Including 12 cases involving 25 persons pending from the previous year there were for disposal 88 cases involving 178 persons. Of these 80 cases involving 169 persons were disposed of, leaving eight cases involving nine persons pending at the end of the year. The average duration of Sessions cases was 36·9 days showing an improvement over that of the previous year which was 52·6 days. One thousand four hundred and forty three witnesses were examined during the year and 231 witnesses were detained for over three days. Seven cases as against 18 in the previous year were tried by jury and in all of them the verdict of the jury was approved of by the Judges.

Appellate Work.—Out of the appeals of 1,063 persons, those of 920 persons were disposed of, leaving 94 appeals of 143 persons at the end of the year, as against 171 appeals of 315 persons at the end of the previous year. The average duration of appeals disposed of fell from 108·8 days to 94·3 days in the Sessions Courts. In respect of Magistrates' Courts there was a slight increase from 38·3 to 41·2 days.

High Court.—Including 24 appeals pending from the previous year there were for disposal 79 appeals as against 89 in 1930-31. Of these 45 were disposed of leaving 34 pending at the end of the year. In 13 appeals or 28 per cent the decisions of

lower courts were interfered with. The increased pendency at the end of the year over that of the previous year is explained by the facts that 24 of the pending appeals were filed from the middle of March to the end of June 1932, that time was taken in obtaining the records in some of the cases from the lower courts and that the intervention of the summer vacation also led to delay in the disposal of the appeals. It is, however, satisfactory to note that many of these cases have since been disposed of and the number pending on 1st October 1932 was only 13, including those pending out of the appeals filed since 1st July 1932. The average duration of the appeals disposed of rose from 149·2 to 155·57 days.

Inspections.—Nine courts were inspected by the Judges of the High Court and the District Magistrates inspected all the Magistrates Courts exercising original jurisdiction in their districts.

General.—Circular instructions were issued by the High Court in regard to the relative powers and functions of the Magistracy and the Police in ordering investigations under the Code of Criminal Procedure.

Government are glad to note that the Administration of Criminal Justice during the year was satisfactory.

Chief Secretary to Government.

Working of the Treasuries during 1931-32.

READ—

Letter No. A 7-32-33, dated 8th November 1932, from the Revenue Commissioner, forwarding with his remarks the Report of the Comptroller (letter No. 117—TAD. B. II. dated 20th September 1932) on the working of the Treasuries in the State during the year 1931-32.

ORDER NO. R. 3670-79—R. M. 23-32-2, DATED BANGALORE, THE 18—20TH JANUARY 1933.

Weekly and Monthly Accounts.—The Comptroller reports that monthly accounts were generally received on the due dates from the State Huzur Treasury and the District Treasuries at Kolar, Kadur and Hassan, and the period of delay in their receipt from other Districts ranged in most cases from one to three days and occasionally from four to five days. Similarly weekly and monthly cash balance reports were delayed in many cases on account of late receipt of returns from Taluk Treasuries. Such delays should be avoided.

Annual Returns.—As in previous years there was considerable delay in the submission by treasuries of their annual returns to the Comptroller. It is unsatisfactory that in some districts several returns due by the middle and about the end of July 1932 were not received in the Audit Office even in September 1932. The attention of the Treasury Officers concerned should be drawn to the need for prompt submission of these returns.

Classification of Receipts and Payments.—The total number of misclassifications was 107, the State Huzur Treasury being responsible for a sixth of the total number. The number of retrenchment slips issued to treasuries was 1,022 as against 1,152 in the previous year.

Irregularities in Payments.—Individual cases of excess payments have been reported from the Taluk Treasuries at Seringapatam, Nanjangud, Mandya, Koppa and Jagalur. As in previous years cases of double payments, payments without proper or sufficient authority, payments on defective documents, payments in disregard of specific instructions, etc., have been reported from some treasuries. The Revenue Commissioner considers that a periodical issue of a list of mistakes detected every quarter will be helpful in avoiding such mistakes. His attention is drawn to para 2 of Government Order No. R. 4512-21—R. M. 30-30-2, dated 11th February 1931 explaining why it is unnecessary to prescribe any such periodical "statement of treasury mistakes" by the Comptroller for the guidance of Treasury Officers.

Inspections.—All the Taluk Treasuries in the State are reported to have been inspected by the respective District Treasury Officers. All the District Treasuries were inspected by the Deputy Commissioners concerned during the year and it is satisfactory that they inspected a large number of Taluk Treasuries also. Officers of the Accounts Department are reported to have inspected four District and three Taluk Treasuries. No serious irregularities are reported to have been noticed.

Disposal of Treasury Inspection Reports.—It is unsatisfactory that four reports relating to 1929-30 and two reports relating to 1931-32 have not been returned by the Revenue Commissioner to the Comptroller's Office with replies. Government trust that these will be expedited.

Miscellaneous.—In their Order No. Fl. 3695-704—G. F. 203-29-4, dated 16—17th October 1930, Government sanctioned a scheme for the interchange of accountants between the Comptroller's Office and the District Treasuries with a view to improve the quality of work in District Treasuries. No transfer seems to have been effected so far in accordance with this scheme. The Revenue Commissioner is requested to give it a trial in some cases in consultation with the Comptroller.

The working of the Treasuries was on the whole satisfactory during the year.

3. Government Order No. I. & C. 2128-36—Geol. 29-26-3, dated 28th September 1926, empowering the Director of Industries and Commerce to issue special licenses in form "Q" for the possession of dangerous petroleum in cases where the capacity of the storage tank does not exceed 500 gallons.

4. Unofficial Note No. 41, of 1931-32, dated 22nd June 1932, from the Director of Industries and Commerce, suggesting for the consideration of Government that he may be empowered to issue licenses on his own authority for the storage and transport of dangerous petroleum in quantities exceeding 40 gallons but not exceeding 2,500 gallons.

ORDER No. D. 3426-38—Geol. 46-31-9, DATED BANGALORE, THE 20TH JANUARY 1933.

The Director's recommendation is sanctioned. The amended rules under rules 1 and 2 of chapter III in part II of the Mysore Petroleum Rules are approved and appended to this order.

A Notification will be issued separately.

The Director of Industries and Commerce is requested to furnish the District Magistrates, the Municipal Commissioner, Bangalore City, the President of the Municipality, Mysore City, and the Vice-President of the Sanitary Board, Kolar Gold Field, the particulars of licenses issued by him and the Government as and when they are issued.

The District Magistrates and the Presidents of Municipalities are requested to send to the Director of Industries and Commerce reports *re* licenses issued by them once every half-year.

S. ABDUL WAJID,
Secretary to Government,
Development Department.

APPENDIX.

1. Applications for licenses for the possession or transport of petroleum shall be made to the authority which can issue licenses under the rule next following.

2. (i) Licenses :—

(*a*) for the possession of non-dangerous petroleum, not being petroleum in bulk;

(*b*) for the possession of non-dangerous petroleum in a minor installation;

Levy of fees in Government Girls' High Schools in the State.

READ—

Correspondence ending with letter No. A3. 4280-339 of 31-32, dated 10th May 1932, from the Director of Public Instruction in the matter of the levy of fees in Government Girls' High Schools in the State.

ORDER NO. E. 2313—Edn. 292-31-5, DATED BANGALORE, THE 10TH JANUARY 1933.

At present education for Girls in the State is free in all its stages in Government Institutions, but the Aided High Schools levy fees as noted in the margin. Government consider it expedient to now direct the levy of a reduced scale of fees in the case of Girls getting instruction in Government Institutions in the High School stage and accordingly direct that in all Government Girls' High Schools fees at half the rates prescribed for Boys in High Schools be levied from the next school year. They are further pleased to direct that the percentage of freeships in Government Girls' High Schools be fixed for the present at 50 per cent of the total strength exclusive of those going along with scholarships.

Do ,, 100 to 250 cost of medicines plus Rs. 10.			
Income of ,, 250 and above cost of medicines plus Rs. 15.			

2. Government Order Nos. 11665—Mis. F. 28-96, dated 17th March 1898 and G. 7852-5—Sany. 54-25-5, dated 29th March 1926, fixing the rates of fees as in the margin to be levied for certain pathological examinations in the Public Health Institute.

	Rs.	a.	p.
1. Wassermann Test for Syphilis	10	0	0
2. Examination of blood, sputum, urine, etc. ...	3	0	0

3. Letter No. G. C. 110, dated 2nd November 1932, from the Senior Surgeon in Mysore, requesting for reasons given, sanction to the levy of a uniform rate of fees for pathological examinations in the Public Health Institute and the Krishnarajendra and the Victoria Hospitals.

ORDER NO. G. 5001-5—MED. 116-32-2, BANGALORE, DATED THE 20TH JANUARY 1933.

In his report on the administration of the Health Department for 1931, the Director of Health brought to the notice of Government the extremely inadequate

recovery of fees in the Public Health Institute for Wassermann reaction and other pathological examinations conducted there. He has since reported that this is due to want of uniformity in the scale of fees for such examinations in different institutions in the State. The scale of fees for such examinations in the Public Health Institute is Rs. 10 while it is much lower in the State Medical Institutions. The result is that all manner of subterfuges are resorted to by the patients of the Private Medical Practitioners in order to escape the payment of higher fees to the Institute by admitting themselves as inpatients in the Medical Institutions. On a consideration of this fact, the Senior Surgeon has, in consultation with the Director of Health, proposed the following uniform scale of fees both in the Public Health Institute and in all the Medical Institutions in which facilities exist for such examinations:—

		Rs.	a.	p.
1.	Qualitative examinations of urine	0	8	0
2.	Quantitative examination of urine for—			
	(1) Sugar	1	0	0 each.
	(2) Albumen or			
	(3) Other constituent			
3.	Microscopic examination of blood, sputum, urine or other discharge	1	0	0
4.	A differential or absolute blood count	2	0	0
5.	Widal Test for typhoid, etc.	2	0	0
6.	Wassermann or Kahn test	3	0	0
7.	Estimation of blood sugar—			
	(1) Single estimation	5	0	0
	(2) Complete test	10	0	0
8.	Preparation of auto-vaccines (six doses)	5	0	0
9.	Animal experiments	10	0	0
10.	Preparation of cultures from blood, urine, faeces, etc.	5	0	0 each
11.	Intravenous injections	5	0	0

2. The Senior Surgeon is of opinion that fees at these rates may be recovered in all Medical Institutions from all patients with an income of Rs. 50 and above. But so far as the Public Health Institute is concerned, he considers that these rates may be recovered from all patients of Private Medical Practitioners irrespective of their income on the ground that while such patients can afford to pay for private medical attendance, they can be expected to pay also for the pathological examinations in the laboratory at the lower rates of fees now fixed.

3. These proposals were placed before the meeting of the Standing Committee of Representative Assembly and Legislative Council for Local Self-Government, etc., held on 6th December 1932 and agreed to by them.

4. Government are pleased to approve of the Senior Surgeon's recommendations.

5. The revised rates of fees will come into effect from 15th February 1933.

FINANCIAL SECRETARIAT

Savings Banks Fixed Deposits.

READ—

Government Order No. Fl. 5520-80—G. F. 85-27-5, dated 11th January 1928, directing that interest at 5 per cent per annum be allowed on amounts deposited in the Government Savings Banks with declarations by depositors that they will not be withdrawn for a period of five years from date of deposit.

ORDER No. FL. 3990-4050—G. F. 123-32-2, DATED BANGALORE, THE 20TH JANUARY 1933.

Government direct that the rate of interest on five year deposits in the Government Savings Banks which are accepted in future be reduced from 5 per cent per annum to 4½ per cent per annum.

S. SHAMANNA,
Financial Secretary to Government.

Budget Calendar for 1933-34.

ORDER NO. FL. 4053–4112—G. F. 124-32-1, DATED 24TH JANUARY 1933.

The attached Calendar for regulating the Budget Work for 1933-34 is approved. The object with which an interval of twelve and twenty-four days is allowed for items Nos. 3 and 14 respectively in the Calendar is to secure an even flow of work in the Comptroller's Office and in the Secretariat and to avoid rush of work at the last moment. All officers handling budget papers are requested not to take up the entire interval but to strictly adhere to the dates fixed.

2. All estimates require to be framed with the greatest possible care. Those relating to revenue receipt heads should aim at producing the best result and at forecasting the realizable result as closely as possible; and those relating to expenditure heads, revenue and capital should be limited to absolutely minimum requirements.

3. *No new charge of any kind and no provision for unsanctioned items should be proposed for inclusion in the expenditure estimates.* The attention of all Heads of Departments is invited to this instruction with a view to its being strictly followed in the preparation and submission of their budget proposals.

4. Sanctions which have not been communicated to the Audit Office on or before the 31st January 1933 need not be taken into account in framing expenditure estimates.

5. The Chief Engineer and Muzrai Commissioner are requested to take timely action to have the detailed estimates of the Irrigation Cess Fund and General Muzrai Fund (respectively) sanctioned and transmitted as indicated in item 22 of the Calendar to the Superintendent, Government Printing, for being printed and supplied to the Members of the Representative Assembly and Legislative Council. The Agent and Secretary, Mysore Railways, is requested to have the Authorization Rolls and the Capital Budget Estimate sent through the Comptroller to the Financial Department with the remarks of the Auditor for being dealt with in the same manner as the estimates of other Departments.

6. The Superintendent, Government Printing, is requested to treat all budget work as urgent and co-operate with the Comptroller in arranging for the issue of the different editions of the Budget on the due dates.

7. As provided in item 25 of the Calendar, action will be taken by the Finance Department to communicate informally to the Departments concerned their Budget allotments as soon as they are provisionally fixed with a view to enable the Departments to draw up without delay a suitable programme of work for the coming year and systematise their departmental operations.

S. SHAMANNA,
Secretary to Government,
Financial Department.

Advertisement Boards.

READ—

Government Order No. P. W. 2996-99—S., dated the 20th May 1932, directing that a fee of Rs. 12 per board per annum be levied for exhibiting advertisement boards at Gundlupet Travellers' Bungalow from each of the companies, desirous of putting up their advertisements.

2. Letter No. G. 263—22, dated the 7th December 1932, from the Traffic Manager, Mysore Railways, recommending the grant of permission to Messrs. Spencer & Co., to erect three advertisement boards on the main road at Maddur at the entrance of the Railway Station.

ORDER NO. P. W. 1628-58—S., DATED, BANGALORE, THE 19TH JANUARY 1933.

Applications are being received from private companies requesting permission to put up advertisement boards on State Fund Roads in certain important places. As these boards are meant solely for purposes of advertisement, Government are pleased to direct that a fee of Rs. 12 per annum be levied for each board. The Executive Engineers of the Divisions will be authorised to grant licenses for the erection of these boards and they are also empowered to get them removed or shifted as may be found necessary.

The fee realised will be credited to the Road Fund.

Administration of Inam Villages and Estates under Government Management.

READ—

Letter No. C. Per. A 14—31-32, dated the 17th November 1932, from the Revenue Commissioner in Mysore, forwarding a report on the administration of Inam Villages and Estates under Government Management in the several districts for the year 1931-32.

ORDER No. R. 3758-67—L. R. 231-32-2, DATED BANGALORE, THE 24—25TH JANUARY 1933.

There were 214 villages and estates under Government management at the end of the year as against 213 in the previous year. Survey and Settlement has so far been introduced into 183 villages. Delay in introducing Survey and Settlement in respect of the remaining 31 villages has not been accounted for.

2. The Jamabandy of 211 villages out of 214 villages was conducted by the Deputy Commissioners, Sub-Division Officers and Amildars. Government are glad to note that there has been improvement in this direction.

3. Out of a total demand of Rs. 4,83,272-11-4 (including arrears), a sum of Rs. 2,36,267-8-1 (including remission) was collected leaving a heavy balance of Rs. 2,47,205-3-3. The collection work is particularly poor in Shimoga and Hassan Districts. The heaviest arrears are in the Mysore District where they amount to Rs. 1,45,709. The arrears have increased in the Bangalore, Kolar, Hassan and Shimoga Districts. The Revenue Commissioner proposes to call for special reports from the Deputy Commissioners of these Districts as to why this important work continues to be unsatisfactory. Government are not satisfied that adequate attention is paid to this important branch of work in some districts, and desire that a special report on the matter may be submitted to them by the end of April 1933.

RULE 38.

(Article 9 of Schedule I.)

LICENSE TO MANUFACTURE GUNPOWDER, CLASS I.

Up to a maximum quantity of.....granted by Government of Mysore.

Fee—Twenty Rupees in Stamps.

Name of licensee and place of residence	Place of business, factory or shop	Maximum quantity of gunpowder to be manufactured during the period for which the license is granted	Maximum quantity of gunpowder to be possessed at any one time in the factory or within the boundaries of the site thereof	Period for which the license is valid
1	2	3	4	5

Secretary to Government of Mysore,
Development Department.

PROCEDURE.

(*a*) An applicant for a special manufacturing license shall submit his application to Government through the District Magistrate who will forward the same to the Department of Mines and Explosives for necessary action.

(*b*) The application should be accompanied by:—

(1) A site plan of the proposed factory showing the distances between buildings forming part of the factory and the nature of the operations to be carried out in each.

(2) Construction plans of each building with particulars of construction.

(3) A statement giving the distances that the factory as a whole can maintain from any other buildings or works not forming part of the factory.

(*c*) It shall also state:—

(1) The maximum quantity of gunpowder to be manufactured during the period for which the license is granted.

(2) The maximum amount that the applicant wishes to possess at any one time in the factory as a whole.

(3) The number of persons to be employed at any one time in each building.

(4) Whether the ingredients for the manufacture of gunpowder will be stored separately.

(*d*) If the storage of gunpowder be for a short period only, a temporary magazine shall be erected in accordance with the annexed plan, its size, depending upon the quantity to be stored.

The Chief Inspector of Mines if he recommends the grant of the license will submit it to Government with his recommendation stating in detail under what terms and conditions the license should be granted.

CONDITIONS.

1. This license is granted subject to the provisions of the Mysore Explosives Regulation, (II of 1888), and the rules thereunder.

2. The licensee shall keep records and accounts of all gunpowder manufactured and of all stock in hand, in such form as the Government may from time to time direct.

3. The licensee shall exhibit his stock and his books and records of manufacture to any magistrate or to any police officer duly empowered in this behalf, whenever such magistrate or officer may call upon him so to do.

4. The gunpowder shall be manufactured in the factory, removed without delay and kept in the licensee's magazine at.....licensed in Form J of the Mysore Explosives Rules.

5. There shall not be at the same time in the factory any quantity of gunpowder exceeding the quantity specified in column 4 of the license.

6. The factory shall have attached thereto an efficient lightning conductor, which shall be tested at least once in every year and a certificate showing the result and date of the last test shall be hung up in a conspicuous place in the factory.

Such test shall be carried out in the manner prescribed by the Chief Inspector of Mines in Mysore, and a fee of twenty rupees shall be payable by the licensee for such test. In the event of the test proving unsatisfactory a fee of fifteen rupees shall be payable by the licensee for each subsequent test until the lightning conductor is passed by the testing officer as satisfactory:

Provided that not more than twenty rupees shall be charged for all tests made on a conductor during any one day;

Provided also that if two or more lightning conductors are attached to the factory, the fee for testing all such conductors shall not exceed the fee prescribed in this condition for testing a single lightning conductor.

7. Before repairs are done to any room in the factory or part thereof, the same shall as far as is practicable be cleaned by the removal of all gunpowder or mixed ingredients thereof, and the thorough washing out of such room or part; and after such cleaning these conditions shall cease to apply to such room or part thereof until any gunpowder is again taken into it.

8. Except after such cleaning, all tools and implements, used in, or in making any repairs to any part of the factory shall be made only of wood, copper or brass or some soft metal or material or shall be covered with some safe and suitable material.

9. Due provision shall be made, by the use of suitable working clothes without pockets, or of suitable shoes, or by searching or otherwise, or by some such means, for preventing the introduction into the factory of fire, lucifer, matches or any substance or article likely to cause explosion or fire, or of any grit, iron or steel.

10. No person under the age of fourteen years shall be employed in or enter the factory, except in the presence and under the supervision of an adult person.

11. The licensee, and every person employed in or about the factory, shall take all due precautions for the prevention of accidents by fire or explosion in the factory, and for preventing unauthorised persons from having access to the factory or to the gunpowder therein and shall abstain from any act whatever which tends to cause fire or explosion and is not reasonably necessary for the purpose of the work in such factory.

12. The licensee shall, at his own expense, provide for the safe custody of the factory, a guard which shall be of such strength as the District Magistrate may consider to be sufficient.

13. All losses, shortage of stock and thefts of gunpowder shall be reported without delay to the nearest Police Station.

14. The number of persons employed at any one time in manufacture in any one building or room shall not exceed six, and only persons actually manufacturing or superintending manufacture shall be allowed inside the place of manufacture.

15. No iron or steel implements shall be used in manufacture. Only copper, gunmetal or wooden tools are permissible.

16. The interior of the mixing house and the benches, shelves and fittings therein, shall be so constructed or so lined or covered as to prevent the exposure of any iron or steel and the detaching of any grit, iron, steel or similar substances in such manner as to come into contact with gunpowder; and such interior, benches, shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean.

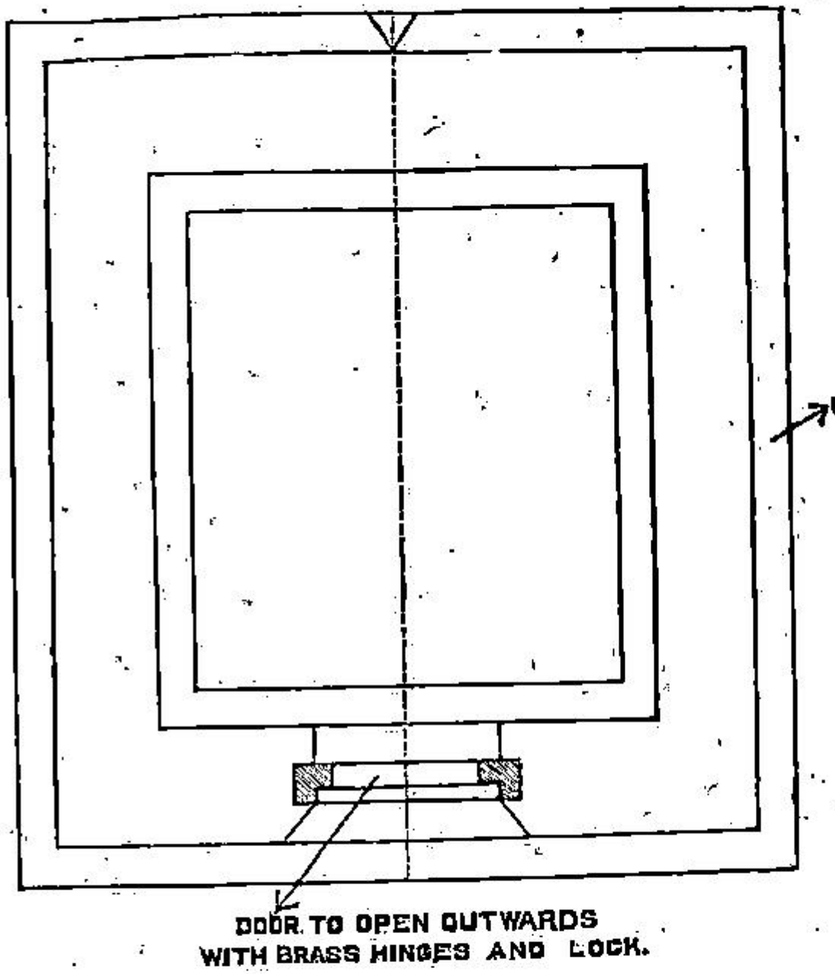
17. The ingredients, till brought together in the mixing house, shall be stored separately.

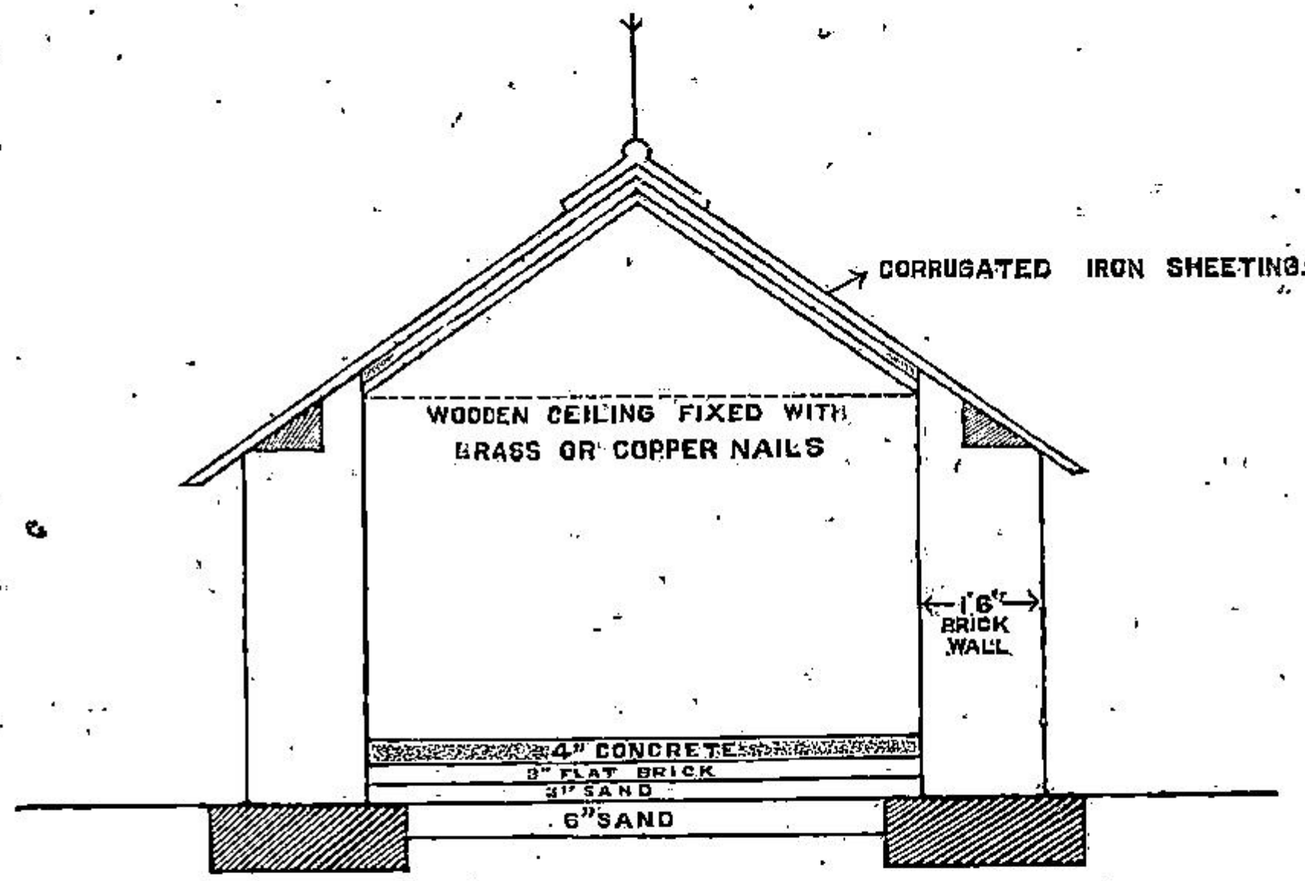
18. Manufacture shall only be carried on between sunrise and sunset.

19. No smoking or lights shall be allowed in or near the factory where gunpowder is being manufactured.

20. All doors of the factory shall be made of wood, faced on the outside with ¼ inch sheet iron and shall open outwards.

PLAN OF A TEMPORARY MAGAZINE.





(*a*) The walls may be either of corrugated iron with an inner lining of wood, or of masonry, as per plan. The floor should be either of wood or smooth cement.

(*b*) There must be no exposed iron or steel in the interior of the magazine, any necessary iron or steel being covered over with leather or wood.

(*c*) If detonators are to be stored, they should be kept in a separate building, similarly constructed, a little distance away.

GENERAL SECRETARIAT.

Working of the Mysore City Municipality for the year 1931-32.

READ—

The report on the working of the Mysore City Municipal Council for the year 1931-32, received with the correspondence ending with letter No. G. T. 789, dated 17th November 1932, from the President, City Municipal Council, Mysore.

ORDER NO. L. 4800-5—Ml. 175-32-2, DATED BANGALORE, THE 24—25TH JANUARY 1933.

Recorded.

2. *Constitution.*—There was no change in the constitution of the Municipal Council. It consisted of an official President and 29 Councillors of whom 20 were elected and nine nominated. Mr. T. G. Rama Iyer continued to be the President during the year.

3. *Meetings.*—The Council held 15 meetings of which 12 were ordinary and three special. The average attendance of members at the meetings was 22 as against 21 in the previous year.

4. *Working Committees.*—As in the year previous, there were eight Committees working in accordance with the rules framed under Section 46 (a) of the Mysore Municipal Regulation. All the Committees functioned during the year except the Audit and the Legal Committees which did not transact any formal business during this year. The Works Committee met 15 times and the Managing Committee 12 times during the year. The Vridhasrama Committee held two meetings between 1st July 1931 and 1st February 1932 when the Vridhasrama was closed.

5. *Revision of Taxes and Fees.*—The Special Sanitary cess (the imposition of which was sanctioned last year) was brought into force with effect from 1st July 1931. The income from this source amounted to Rs. 8,807 during the year.

6. *Demand, Collection and Balance.*—The total demand for the year under all heads was Rs. 6,31,945 including arrears of Rs. 1,38,593. The collection amounted to Rs. 4,87,202. A sum of Rs. 2,469 was remitted. The balance at the close of the year was Rs. 1,42,274. The ratio of total collection during the year to current demand is 98·7 per cent against 93·4 per cent in the previous year. The arrears under assessed taxes alone at the end of the year amounted to Rs. 1,17,533 excluding Rs. 2,309 remitted during the year. The arrears outstanding are heavy and should be reduced as quickly as possible.

7. *Finance.*—The total income and expenditure during the year amounted to Rs. 8,18,508 and Rs. 8,66,820 against Rs. 7,51,987 and Rs. 6,90,336 respectively in the year 1930-31. The closing balance at the end of the year was Rs. 40,187. The incidence of taxation per head of population was Rs. 3-12-9 as against Rs. 3-4-1 in the previous year, the excess being due to the levy of a flat rate for pipe connections given to houses and of a Sanitary Cess.

Under service heads, the income amounted to Rs. 5,63,816 as against Rs. 4,77,447 in the previous year. The increase is mainly due to the enhanced income under assessed taxes, townhall and sewage farms.

The expenditure under service heads amounted to Rs. 7,61,462 against Rs. 5,75,969 in the previous year, the increase during the year being under public works, conservancy and sanitation, water supply and sewage farms, liabilities to the extent of Rs. 84,724 accrued during the year were pending payment, while a sum of Rs. 86,453 was due to the Municipality towards arrears of taxes and contributions. Heavy sums are due from the Public Works, the Railway and other Departments on account of water supply and other charges. The Departments should arrange for the early adjustment of their dues.

8. *Public Works.*—The only important original work carried out during the year was the construction of Josyer's School at an outlay of Rs. 7,261, the amount of the estimate being Rs. 15,000.

A further loan of Rs. 50,000 was sanctioned by Government to the Municipality for tarring important roads.

The total expenditure incurred under "Public Works" was Rs. 2,43,377 as against Rs. 97,254 in the previous year.

An expenditure of Rs. 42,312 as against Rs. 46,427 in the previous year was incurred on the upkeep and maintenance of roads and buildings.

9. *Water Supply.*—The control over water supply was transferred from the Public Works Department to the Bureau of Sanitary Engineering. A comprehensive estimate amounting to Rs. 3 lakhs to improve the system of water supply has been prepared and the question of financing the project in under consideration.

10 *Public Health.*—Public Health was generally good. Plague and small-pox appeared in a mild form, while cholera broke out in a severe epidemic form; but its spread was promptly controlled. The number of births and deaths registered during the year was 2859 and 2882 as against 2497 and 3417 in the previous year. The number of infant deaths under one year old was 289 as against 296 in the previous year. The deaths from plague and cholera were 90 and 186 respectively as against 222 and 83 in the previous year. Preventive measures were adopted. About 2,700 inoculations against plague and 37,644 against cholera were done during the year. Nearly 14,500 persons were vaccinated. Anti-malarial operations were carried on at the breeding places of mosquitoes and larvicidal fish were transferred to 955 wells, 33 ponds and 5 fountains.

11. *Maternity and Child Welfare.*—During the year, three Child Welfare and Milk Distributing Centres were opened with the help of donations offered by philanthropic gentlemen. Out of these, two were endowed by the late Dharmaprakasa Rao Bahadur D. Banumiah and by Mr. V. D. Rajaram Mudaliar. The third one was constructed by municipal contribution and public subscription.

12. *Sewage Farm.*—The revenue realised from the Farm, rose, from Rs. 10,190 in the previous year to Rs. 16,741. The outlay incurred was Rs. 13,434 as against Rs. 9,935 in the previous year.

13. *Compost.*—Street rubbish and night soil were removed outside the City through departmental agency, and by suitable treatment manufactured into valuable manure. Out of 1,811 tons thus manufactured, 1,070 tons were sold to the Agricultural Department and a sum of Rs. 3,902 was realised.

14. *Public Instruction.*—Under the Elementary Education Scheme, the Municipality controlled 46 schools with a strength of 3,988 children and 4 working Night Schools. Three other Night Schools and five Wesleyan Mission Schools were given grants-in-aid. The total expenditure on Primary Education amounted to Rs. 31,275 as against Rs. 30,152 in the previous year.

15. *General.*—Government are glad to note that the Administration of the Mysore City Municipal Council during the year under review was satisfactory.

R. RANGA RAO,
Secretary to Government,
General Department.

Administration of the Village Panchayets in the State.

READ—

The report on the working of the Village Panchayets in the State during the year 1931-32, received with letter No. C. Per. A. 50—32-33, dated 24—28th November 1932, from the Revenue Commissioner in Mysore.

ORDER NO. L. 4995-5017—V. P. 53-32-7, DATED BANGALORE, THE 27—30TH JANUARY 1933.

Recorded.

2. *Constitution.*—The total number of Village Panchayets and hamlets at the close of the year was 10,582 as against 10,251 during the previous year, the increase being due to the readjustment of the old Village Panchayets into smaller units mostly in the Bangalore District and to the constitution of Village Panchayets in the Inam villages which had not come under the scheme so far. In the Mysore District, three

Village Panchayets, *viz.*, Agara and Mamballi in Yelandur Taluk and Mirle in Yedatore Taluk were constituted into minor Municipalities during the year. The total number of elected and nominated members on the last day of the year was 49,330 and 28,699 as against 48,115 and 27,653 in the previous year.

3. *Meetings.*—Government regret to note that, in spite of the observations made in the previous years' reviews, the number of meetings held by the majority of the Panchayets was not satisfactory. It is reported that as many as 784 Panchayets in the Mysore District and 275 in the Shimoga District did not hold meetings at all during the year. It is explained that it is possible that the Panchayets might have met but copies of proceedings of the meetings might not have been received in the Taluk Offices. The explanation is not convincing. The Amildars should not only insist upon the Village Panchayets sending invariably to the Taluk Offices the proceedings of their meetings, but also see, by frequent inspections, that the Panchayets hold at least the minimum number of meetings prescribed by the statute.

4. *Finance.*—There was at the beginning of the year a cash balance of Rs. 29,68,930 at the credit of the Village Panchayets. The income and expenditure during the year were Rs. 8,44,200 and Rs. 7,25,222 respectively and the closing balance was Rs. 30,87,908. The receipts during the year were less than in the previous year by Rs. 42,455 and this is attributed to the prevailing economic depression. Out of a total demand of Rs. 38,23,939 including the arrears, only a sum of Rs. 9,04,967 allowing for remissions was realised as against Rs. 8,76,436 in the previous year, leaving a balance of Rs. 29,18,972 as against Rs. 23,67,612 (as per revised figures) in the previous year. The arrears are heaviest in the Mysore and Tumkur Districts which are responsible for one-half of the outstandings. The Deputy Commissioners concerned should issue necessary instructions to the local officers to see that the collection work receives due attention and that the arrears are reduced. The steps taken to recover these outstandings and the result should be reported to Government six months hence.

The expenditure incurred during the year was Rs. 7,25,222 as against Rs. 7,58,796 in the previous year. While the amount spent during the year on Public works, general administration and collection charges was less than during the previous year, greater attention was paid to conservancy and sanitation and lighting. In 12 Village Panchayets, lighting was undertaken by electric power and schemes for installation of electric lights were in progress in nearly 100 villages. Water supply also received adequate attention and the bulk of the expenditure under this head was incurred for sinking new wells. About 120 wells were brought to completion while as many well works were in progress. As a large surplus is available at the credit of the several Village Panchayets, permanent works of utility and general improvement of villages should be undertaken in accordance with a definite programme.

5. *Activities of Panchayets.*—The laying out of village extensions on sanitary lines and the construction of sanitary latrines were undertaken by some of the Village Panchayets. A new District Board Dispensary was opened during the year at Nangli in Mulbagal Taluk, the Village Panchayet of Nangli and the villages round about contributing a sum of Rs. 1,000 for initial expenditure and Rs. 300 per year for recurring charges. Three bore-wells were sunk in the Shimoga District. An Agricultural Depot for the sale of improved implements was opened at Peenya in the Bangalore District. Agricultural implements were purchased by 78 Village Panchayets and let on a nominal hire to villagers. The extension of postal facilities, management of muzrai institutions and village forests, opening of village panchayet schools, improvement of villages by laying out approach roads and curbstones and construction of ornamental gate pillars continued to receive the attention of a majority of the village panchayets. Optional taxes were levied in 23 village panchayets during the year. The system of weekly communal labour is reported to be steadily gaining ground and the value of labour so contributed has been estimated roughly at Rs. 2,31,079.

6. *General.*—A Rural Industries Section was organised to demonstrate rural and cottage industries during the All-India Dasara Exhibition held at Mysore in October 1931. Government are glad to note that a large number of non-official gentlemen took keen interest in the working of the Village Panchayet Scheme during the year and wish to convey their thanks to these gentlemen, and in particular, to Mr. Naranappa of Devaramallur Village, Sidlaghatta Taluk, for the grant of a school building to the local panchayet at a cost of Rs. 2,000, to Mr. S. Thimmegowda *alias* Thammannagowda,

member of the Representative Assembly and District Board and Chairman of Silnere Village Panchayet, Krishnarajapete Taluk, for his contribution of Rs. 2,000 for opening a road from Silnere to the Krishnarajapete-Melkote Road and to Dharmaprakasa Mr. A. Chandre Gowda, Coffee Planter, for his contribution for the lay-out of a road from Sanigere to Hulikere in the Kadur Taluk.

Government are glad to find that, in spite of adverse economic conditions and reduced grants, the Village Panchayet Scheme is growing in popularity.

FINANCIAL SECRETARIAT

Working of the Insurance Scheme for the year 1931-32.

READ—

Letter No. 10054, dated 29—30th November 1932, from the Secretary, Insurance Committee, submitting the annual report on the working of the Insurance Scheme for the year 1931-32, together with the Auditor's Report.

ORDER NO. FL. 4138-97—G. F. 96-32-3, DATED BANGALORE, THE 23RD JANUARY 1933.

Recorded.

2. Government note that there has been continued progress in both the Official and Public Branches, during the year under review.

3. *Official Branch.*—The number of proposals dealt with was 2,282 of which 1,774 were finally concluded with the issue of policies assuring Rs. 13,83,575 for a monthly premium of Rs. 4,707 as against 1,556 policies assuring Rs. 12,71,849 for a monthly premium of Rs. 4,306 in the previous year. The number of proposals pending disposal at the end of the year was 97 as against 150 remaining to be dealt with at the commencement of the year. Exclusive of interest on the monthly balances and the investment in State Loan Bonds, the total receipts during the year amounted to Rs. 9,54,388-5-9 and the balance at the credit of the Fund on 30th June 1932, stood at Rs. 105,46,525-10-9. Including the State Loan Bonds held by the Insurance Office, the balance at credit was Rs. 106,96,935-10-9. The percentage of the cost of management to the premium income of the year was 5·25 as against 4·47 in 1930-31. The

increase is attributed to the purchase of additional furniture for the Office located in the new building. The percentage of the year's total payments to the closing balance was 5·93 as against 7·78 in 1930-31 and 7·00 in 1929-30.

4. At the close of the year under review, there remained for settlement in the Official Branch, 105 death claims, 55 claims relating to endowment policies of persons superannuated that had matured and 22 cases of payment of surrender value, *i.e.*, in all 182 cases as against 183 in the preceding year. The number of claims pending settlement at the close of the year indicate that the scheme of nomination is not being largely availed of. The advantages of nominations have therefore to be brought home to the insurants by means of proper publicity.

5. The total number of policies in force on 30th June was 27,735 with an assured bonus and monthly premium of Rs. 2,33,03,968 and Rs. 79,801-8-0, the corresponding figures for the previous year being 27,119 Rs. 2,25,79,774 and Rs. 77,682-4-0 respectively. The percentage of the balance at the credit of the fund, after deducting outstanding claims to the total liability was 41·38 as against 40·07 in the previous year.

6. *Public Branch.*—Three thousand seven hundred and ninety-two proposals were received during the year. The total number dealt with (including those pending on 1st July 1931) was 3,990. Three thousand four hundred and ninety-four proposals assuring Rs. 31,46,400 were accepted. The number pending disposal was 252 as against 198 in the preceding year. The income during the year inclusive of interest on the monthly balances was Rs. 7,65,882-4-8 and the expenditure Rs. 2,47,470-12-8. The closing balance at the credit of the fund was Rs. 28,87,035-3-3. The number of policies in force on 30th June 1932 was 13,286 assuring a sum of Rs. 1,40,95,150 realising an annual premium of Rs. 7,58789-8-0. The percentage of the cost of management to the premium income of the year was 10·96 as against 12·18 in the previous year.

With a view to make Insurance more popular, Government sanctioned the issue of policies of the value of one hundred rupees on production of ordinary medical certificates. Ninety-six such proposals were received before the end of the year.

7. A sum of Rs. 8,915-8-0 was spent towards the construction of the Office Building during the year under report bringing the total amount spent to the end of June 1932 to Rs. 1,33,319-1-0.

8. Government are glad to note that the Administration of the Insurance Office was satisfactory during the year under review.

IMPORTANT GOVERNMENT ORDERS

CHIEF SECRETARIAT

Working of the Railway Department for the year 1931-32.

READ—

Report on the Administration of the Railway Department for the year 1931-32, received with letter No. 1255, dated 19th December 1932, from the Secretary to Government for Railways.

ORDER NO. G. 5424-73—G. M. 69-32-3, DATED BANGALORE, THE 3RD FEBRUARY 1933.

Recorded.

2. *Administrative Changes.*—Khan Bahadur Mr. A. A. Khan continued to be in charge of the Department as Agent and Secretary to Government in the Railway Department, in addition to his duties as Traffic Manager.

3. *Open Lines.*—The total mileage of open lines worked by the Madras and Southern Mahratta Railway Company and by the State was 722·29 miles with the capital at charge amounting to Rs. 587·70 lakhs, inclusive of an outlay of Rs. 11·88 lakhs during the year under report. The construction work on the section between Arasalu and Anandapuram a distance of 9·35 miles was in progress.

4. *Lines worked by the Madras and Southern Mahratta Railway Company.*—The length of the Mysore State lines worked by the Madras and Southern Mahratta Railway Company was 271·56 miles, of which, 9·88 miles were Broad-Gauge and 261·68 miles Metre-Gauge. The gross earnings during the year amounted to Rs. 43·05 lakhs and after deducting working expenses, guaranteed interest, etc., therefrom, the net receipts were Rs. 12·29 lakhs against Rs. 11·27 lakhs during the previous year.

5. *Lines worked by the State.*—The length of the lines worked by the State was 450·73. There was a fall of Rs. 1·50 lakhs in the gross earnings during the year

under report compared with the previous year's earnings, of which a decrease of Rs. 1·20 lakhs was under coaching traffic mainly due to a fall of nearly 315 thousand in the number of passengers travelling by Railway. The decline in the passenger traffic is attributed to the reduced spending power of the people, slack trade conditions and the increasing road Motor competition. A Committee has been appointed to enquire into the question of Motor Transport in the State and it is hoped that this Committee will be able to suggest means of co-ordinating the two kinds of transport so as to reduce the loss to the Department.

6. *Expenses.*—The ordinary working expenses of the year amounted to Rs. 21·52 lakhs as against Rs. 22·62 lakhs in the previous year, showing a decrease of 1·10 lakhs, the percentage to the gross earnings falling from 69·04 to Rs. 68·82 during the current year.

7. *Stores.*—The year opened with a balance of Rs. 5·70 lakhs and Stores to the extent of Rs. 8·99 lakhs were purchased. The issues inclusive of sales amounted to Rs. 9·72 lakhs, resulting in a closing balance of Rs. 4·97 lakhs at the end of the year.

8. *Accidents.*—The number of persons killed during the year on account of accidents was ten of which three were run over while trespassing the line, and four were killed by derailment of a train on the Narrow Gauge and three others due to injuries. The number of engine failures was 25 as against 43 in the previous year.

9. *General.*—Among the additional railway facilities provided are the following :—

(1) Issue of cheap return tickets on important occasions ;

(2) Grant of concessional fares to encourage the people to take part in the Exhibitions at Mysore and other places ;

(3) Introduction of Shuttle trains between Bangalore City and Channapatna, Kolar and Bowringpet and Mysore and Nanjangud Town ;

(4) Running of special trains on every Sunday on Mysore-Arsikere Railway between Mysore and Belagola to afford facilities to the passengers attending the Shandy at Krishnarajasagara Works.

The working of the Department continued to be satisfactory.

N. MADHAVA RAO,
Chief Secretary to Government.

GENERAL SECRETARIAT.

Administration of the Forest Department for 1931-32.

READ—

The Report on the Administration of the Forest Department in Mysore for the year 1931-32, received from the Chief Conservator of Forests with his letters Nos. Per. 71—31, dated 6th and 31st October 1932.

ORDER NO. G. 5404-20—FT. 123-32-11, DATED BANGALORE, THE 3RD FEBRUARY 1933.

Recorded.

2. *Area of State Forests.*—The area of State Forests at the close of the year was 3,410·55 square miles while that of reserved lands was 370·52 square miles.

3. *Reservation and Settlement.*—The number of blocks awaiting settlement at the close of the year was 54. The settlement work is slow and the Chief Conservator of Forests is requested to arrange, in consultation with the Revenue Commissioner, for the speedy disposal of the proposals for reservation still pending.

4. *Minor Forests.*—The area of Minor Forests was 300·30 square miles at the close of the year. The report referred to in the previous review as to how far the

objects aimed at by the introduction of this scheme have been achieved may be submitted early.

5. *Village Forests.*—The total area of the 240 Village Forests at the close of the year was 93 square miles. The District Forest Officers and the Amildars should be instructed to popularise the scheme by explaining its benefits to the Village Panchayets during their tours.

6. *Demarcation.*—One hundred and ten miles of permanent demarcation lines were cut during the year as against 102 in the previous year and 5,138 miles of existing lines were repaired during the year. It has come to the notice of Government that for want of demarcation lines in some cases, lands lying within the limits of State Forests have been given out for cultivation. The Chief Conservator should see that the permanent demarcation lines are cut all round the State Forests and that the existing lines are repaired every year.

7. *Working Plans.*—The extent of State Forests for which regular working plans have been prepared is now about 54 per cent of the total area. Similar plans for all important timber forests should be prepared and kept up-to-date according to a well regulated programme.

8. *Buildings, Communications and other works.*—A sum of Rs. 17,687 was spent on repairing the existing roads and buildings. New roads to a length of over 18 miles were opened at a cost of Rs. 4,211 and a sum of Rs. 2,463 was spent on new buildings. It is noted with satisfaction that special attention was paid to the improvement of water facilities in some of the forests.

9. *Lumpsum grazing fees.*—The working of the system is not satisfactory, as arrears are accumulating from year to year. The Revenue Commissioner is requested to arrange for the prompt recovery of the outstandings.

10. *Damage to Sandal Trees.*—The number of cases pending disposal at the end of the year was 327 as against 310 in the previous year. It is seen that there are as many as 94 cases pending in the Bangalore District alone and out of these, 24 are several years old. The delay in the disposal of these cases is not satisfactory. The Revenue Commissioner is requested to issue suitable instructions to the Officers concerned to bring the pending cases to final disposal without further delay.

11. *Sandal Patrol Staff.*—The special staff employed on this work was reorganised with a view to improve the efficiency of control over smuggling as well as to effect savings in expenditure. The number of Police Sub-Inspectors was increased and the post of the Assistant Superintendent of Police was abolished. Including the eight cases detected by this Staff in the year there were 15 cases to be dealt with. Of these, nine cases were disposed of and sandalwood worth Rs. 1,000 was recovered. The vigilant watch kept by the staff has minimised smuggling on both the eastern and western frontiers.

12. *Sandalspike disease and its investigation.*—This disease is reported to have spread during the year to the Bastipur Plantation in the Mysore District. The work of investigation is being pushed on vigorously and the study of the problem in the several branches is reported to have yielded interesting results.

13. *Sandal Valuation Survey.*—The number of Rangers employed on this work was reduced to one, the survey operations being confined to Arkalgud Taluk. The Staff enumerated 73,825 trees and submitted reservation proposals in respect of seven blocks and detected 3 cases of damage to sandal trees. The total cost on the scheme amounted to Rs. 3,216. The Chief Conservator should arrange for early completion of the work.

14. *Sandalwood.*—A quantity of 1,093 tons was supplied to the Sandal Oil Factory, during the year and 38 tons sold in retail. The net receipts from the sale of sandalwood oil was only Rs. 11,05,030 as against Rs. 16,77,908 during the previous year.

15. *Lantana and other Plant Pests.*—These pests continue to infest the forests and plantations. The scheme for the grant of lands on concessional terms with a view to reclaim them from Lantana in the Districts of Bangalore and Tumkur is not working satisfactorily as the tenants are reported to have failed to abide by the conditions of the grant. The Chief Conservator is requested to suggest what modifications are necessary for improving the working of the scheme. Experiments undertaken to destroy

prickly-pear by the cochineal insect are yielding satisfactory results in the Kolar District and the insect is reported to have been introduced into the forests of the Bangalore District.

16. *Game Laws.*—The amendments proposed by the Mysore Game Association are under consideration.

17. *Sylviculture and Afforestation.*—It is noted that the year under report was a good one for all the principal species namely Sandal, Teak, Honne, Beete and Mathi. The total area of teak plantations under the management of the Department increased in the year to 8,336 acres and an extent of 1,497 acres was planted with species of economic and fuel value in the Maidan Districts.

18. It is satisfactory to note that the economic and fuel species planted in the Hulikere block are thriving well. The successful stocking of this area will add considerably to the development of the Irwin Canal tract.

19. *Exploitation of Timber.*—The quantities of timber cut in forests, brought into depots and sold during the year were 4,58,208 C.ft., 4,62,233 C.ft. and 5,82,558 C.ft. as against 5,39,878 C.ft., 5,27,913 C.ft. and 4,29,021 C.ft. respectively in the previous year. Besides this, 18,840 sleepers were supplied to the Mysore Railways and 1,453 poles to the Electrical Department. The operations were on a contracted scale owing to the slump in the timber trade.

20. *Demand, Collection and Balance.*—Including Sandal Oil net receipts, the total demand for the year under all the heads amounted to Rs. 30,24,008 of which a sum of Rs. 24,31,290 was actually realised and Rs. 15,989 written off, leaving a balance of Rs. 5,76,729 at the close of the year. Of this balance a sum of Rs. 1,98,857 is reported as not due for collection in the year and another of Rs. 1,29,454 as awaiting write off on account of rebates allowed to Thangadi and Kakke bark contractors. Even allowing for these two items, there was an arrear of about 1½ lakhs. The Chief Conservator is requested to take prompt steps for its collection.

21. *Touring and Inspection.*—The touring work of the District Forest Officers during the year was less than in the previous year. The Chief Conservator is requested to see that the important work of inspection receives full attention within the limits of the grants allowed for the purpose.

22. *Working of the Creosote Plant.*—The plant treated during the year 79,149 C.ft. of timber as against 1,98,234 C.ft. in the previous year. The net revenue during the year was Rs. 46,952 after providing Rs. 20,645 towards the depreciation charges.

23. *Fuel supply to the Mysore Iron Works and other concerns.*—A quantity of 65,234 tons of fuel was supplied to the Mysore Iron Works and quantities amounting to 2,943 tons to the Sandal Wood Oil Factory, the Serum Institute at Bangalore and the Water Works at Shimoga.

24. *Lac Industry.*—A total quantity of 1,137 maunds of crude lac was collected during the year. The demand for washed lac and lac products was poor and only a small quantity was sold during the year for Rs. 4,448.

25. *Rafting of Timber.*—Nineteen thousand, six hundred and seventy cubic feet of timber was rafted down the Kabini river as against 6,842 C.ft. in the year previous and this operation is reported to have resulted in a saving on the cost of transport of the material.

26. *Saw Mills.*—The Saw Mills at Shimoga worked for 226 days during the year and dealt with a quantity of 72,504 C.ft. of timber. The revenue realised by the sale of articles in the furniture section of the Mills was Rs. 5,144 as against Rs. 880 in the preceding year. The Saw Mill at Kalkere does not appear to be working properly. The Chief Conservator is requested to report what action has been taken to reduce its working to order.

27. *Timber Seasoning.*—Experiments in the seasoning of different kinds of timber started at Shimoga last year are being continued and observations recorded. The data collected about air seasoning and girdling will, if confirmed by further tests and experiments prove to be of great value.

28. *Forest Objection Book and other Advances.*—The amount held under objection outstanding at the close of the year was Rs. 29,075 as against Rs. 36,738 of last year. Steps should be taken to effect adjustments early. The revised rules relating to advances for works should be strictly enforced and prompt action taken for the clearance of advances.

29. The work of the Department during the year was satisfactory.

S. ABDUL WAJID,
General Secretary to Government.

PUBLIC WORKS SECRETARIAT.

Administration of the Electrical Department for the year 1931-32.

READ—

Letter No. 79741, dated the 15th October 1932, from the Chief Electrical Engineer submitting the Administration Report of the Electrical Department for the year 1931-32.

ORDER No. E. D. S. 1167-73, DATED BANGALORE, 4TH FEBRUARY 19 33.

Demand, Collection and Balance.—The gross demand for the year was Rs. 52,63,911 including the previous arrears of Rs. 2,33,303. The collection under "Power" amounted to Rs. 50,33,479. The budget estimate of the Department including Telephones for the year 1931-32 under "Receipts" was Rs. 49·95 lakhs, while the actual receipts amounted to Rs. 50·66 lakhs showing an increase of Rs. 71,000 over the Budget. The arrears at the end of the year stood at Rs. 2,30,432 and of this, a sum of Rs. 1,87,387 due from the Gold Mining Companies and Municipalities is reported to have been since realised. The balance of Rs. 43,045 represents mostly the arrears payable by Government Departments and the Mysore Municipality. The Chief Electrical Engineer is requested to see that arrears are not allowed to accumulate and that prompt action is taken for the recovery of outstandings.

2. *Working Expenditure.*—The working expense under "Power" during the year amounted to Rs. 10,73,718 as against Rs. 11,18,625 in the previous year. The percentage of working expenses to gross receipts works out to 21·33 during the year against 22·18 during 1930-31 and 21·90 in 1929-30. The decrease during the year is due to the several measures of economy adopted, including a general cut in salaries and reduction of staff.

3. *Revenue Returns.*—The net revenue during the year after setting apart the contribution of Rs. 6,50,000 to the Depreciation Fund and of Rs. 43,899 to the Departmental Provident Fund amounted to Rs. 32,05,530 as against Rs. 33,97,862 in the previous year. The decrease in revenue is mainly due to an additional contribution of Rs. 1,60,000 to the "Depreciation Fund" towards the write-off of the capital value of the Metur Power Supply Lines and connected equipment which will have to be dismantled after the expiry of the term of agreement with the Government of Madras.

4. *Capital Outlay.*—The capital outlay under "Power" excluding suspense amounted to Rs. 9,46,753. An expenditure of Rs. 11,633 was incurred on Automatic Telephones. A sum of Rs. 3,97,102 was spent from the Depreciation Fund. The more important of the works completed or under execution during the year were the following:—

(*a*) *Electrification of Towns and Rural Areas.*—The works in connection with the electrification of Hoskote and Mulbagal Towns and of the villages of Mallakachanahally, Mancheganahally, Sonnawadi, Chikamuddenahalli, Kengeri, Manchenahalli and Satnur were taken up during the year and are nearing completion.

During the year, electric service was given to Chikballapur and Dodballapur on the 28th February and 30th March 1932, respectively, and the lighting up of the villages of Bellamburi, Doddikannur, Kannasandra, Mudkapalli, Tayalur and Suggenahalli, Mangapatna, Thittamaranahalli and Attibele, Begur, Kandavara, Siddapuram and Varthur in the Kolar Gold Fields, Kankanhalli and Bangalore Sections was also started.

(*b*) *Power Supply to Salem and Erode from Metur.*—Service to Salem and Erode was started in November 1931.

(*c*) *Power Supply to the New Bangalore Water Works at Thippagondanahalli.*—The new transmission line between Thippagondanahalli and Kankanhalli *via* Closepet was completed and put into service for 2,300 volts, for the present.

(*d*) *Remodelling Mysore Transmission Line.*—This work, undertaken for improving efficiency and avoiding interruptions, made good progress during the year.

(*e*) *Installation of Frequency Changer Sets at Bangalore and Mysore.*—With a view to meet the growing demand for power in Bangalore and Mysore Cities, the installation of these sets has been taken up and the work is making rapid progress.

(*f*) *Jog Falls Survey Scheme.*—A weir at Seethakatte was constructed for purposes of conducting joint gaugings by the Governments of Mysore and Bombay.

5. *Power Generated.*—The total power generated during the year in kilo watt hours was 17,10,45,180 against 16,94,91,060 in the previous year. The cost of generating power was just 1·206 per kilo watt hour against 1·272 pies during 1930-31 and 1·207 during 1929-30.

Power and Lighting Installations.—At the close of the year under review there were 1,763 power installations, including irrigation pumps, and 16,761 lighting installations in service against 1,322 and 15,036 respectively in the previous year. There were, therefore, 441 additions to power installations and 1,725 to lighting installations in the year.

Total Capital Expenditure and Net Revenue.—The total capital expenditure on the combined Hydro-Electric Works to the end of the year was Rs. 704·21 lakhs. The net revenue of Rs. 31,37,452 in the year represented a return of 4·46 per cent.

6. *Rebate.*—The rebate granted to the Gold Mining Companies during the year was £34,784 as against £ 32,817 during 1930-31 and £ 43,575 during 1929-30. The slight increase in the year over that of the previous year was due mostly to the Balaghat Mine having gradually relinquished power from March 1932 and also to the increase in the number of Air Blasts and Rock Bursts.

7. *Stores.*—The value of foreign stores purchased during the year was Rs. 6,43,433 and that of local materials Rs. 3,83,847 against Rs. 6,55,152 and Rs. 5,48,342 respectively during the previous year. It is reported that serviceable materials in stock are being used and that the stores balance was reduced from Rs. 20·61 lakhs to Rs. 18·23 lakhs. The amount locked up in stock is still large and the Chief Electrical Engineer is requested to adopt prompt measures for its reduction.

8. *Laboratory.*—The experimental manufacture of a few low capacity transformers having proved successful, the construction of a hundred transformers for use in distribution service has been taken up. The local production as far as possible of electrical appliances is a problem of the greatest importance and requires the increasing attention of the Department.

9. *Interruptions.*—The number of interruptions, other than by previous arrangement, during the year was 91 as against 243 during 1930-31 and 354 during 1929-30. The reduction was due to the installation of Bird Guards on the several transmission lines.

10. *Pump Irrigation.*—The number of Irrigation Pumping Installations in service at the end of the year was 297 as against 219 in the previous year. It is satisfactory to note that the demand for power for irrigational purposes is increasing.

11. *General.*—Estimates for remodelling and deviating some lines within Bangalore City and for the VIII Installation at Sivasamudram for replacing three old Impulse Turbines and their generators by a 9,000 H. P. Reaction Turbine coupled to an 8,000 E.H.P. Generator were sanctioned in the latter part of the year.

With a view to further popularising the use of power for lighting, irrigation and other purposes, the following measures were sanctioned;—

(*a*) Reduction of the initial deposit by purchasers of irrigation pumps on the hire purchase system from Rs. 200 to Rs. 100.

(*b*) Waiving of minimum charges in the case of Flour Mills in all places except Bangalore and Mysore Cities.

(*c*) A concessional rate of one anna per B.O.T.U. for power used in show rooms.

(*d*) A concessional flat rate of eight annas per light per month in the case of installations of not more than three lights in all places except the Cities of Bangalore and Mysore.

(*e*) Waiving of the guarantee of a minimum return of 12 per cent on capital cost in the case bungalow lights in Bangalore and Mysore when the capital cost does not exceed Rs. 1,000.

12. Government are glad to note that the working of the Department in the year under review was satisfactory.

Secretary to Government,

Preference to thrown-out Officials.

NOTIFN. No. 4754-4853—C. R. B. 5-32-52, DATED BANGALORE, THE 14TH FEBRUARY 1933.

OFFICIAL MEMORANDUM.

In continuation of Government Order No. 941-1040—C. R. B. 5-31-1, dated the 18th August 1931, all the Officers empowered to make appointments are hereby informed that, in future, officials thrown out on account of retrenchments whose temporary service is less than two years and whose applications for advertised vacancies are forwarded with the remark "thrown out officials to be shown preference" are to be given such preference only when other things are equal.

By Order,

N. MADHAVA RAO,

Chief Secretary to Government.

GENERAL SECRETARIAT

Elections to the Bangalore District Board from the Channapatna and Closepet Taluks.

READ—

Correspondence ending with letter No. C. 2-1164—32-33, dated 4th February 1933, from the Deputy Commissioner, Bangalore District, reporting that, owing to certain errors in the preparation of voters' lists for the ensuing District Board Elections in the general constituencies of Channapatna and Closepet Taluks in the Bangalore District, fresh voters' lists had to be prepared for these Taluks, necessitating the postponement of the date of election in the said two Taluks from 17th April 1933 to 20th May 1933 and proposing that the term of the present Bangalore District Board be extended up to 30th June 1933 and enclosing a copy of the revised calendar of events relating to the elections in Channapatna and Closepet Taluks, (*vide* Deputy Commissioner's Notification, dated 4th February 1933, published on pages 31 and 32, Part III (3) of the *Mysore Gazette*, dated 9th February 1933).

ORDER NO. L. 5420-2—L. B. 132-32-48, BANGALORE, DATED THE 13TH FEBRUARY 1933.

The revised calendar sent by the Deputy Commissioner and his proposal to extend the term of the present Bangalore District Board up to 30th June 1933 are approved.

A separate notification regarding the latter will be published in the Gazette.

R. RANGA RAO,
Secretary to Government,

FINANCIAL SECRETARIAT

Non-official Members.

READ—

Letter No. T. A. 254, dated 18th December 1931, from the Comptroller to Government, raising certain points connected with the application of Article 550, Mysore Service Regulations.

ORDER NO. FL. 4408-17—S. & A. 216-31-4, DATED BANGALORE, THE 7—8TH FEBRUARY 1933.

The Comptroller has pointed out in his letter read above that while officers in service entitled to first class railway fare have to furnish in support of their claims certificates of having travelled in that class under Article 542, Mysore Service Regulations, retired officers serving as members of the committees referred to in appendix P of the Regulations and drawing first class fare are not now required to furnish such certificates. There is no reason for this distinction and Government are accordingly pleased to direct that in future, non-official members (including retired officers) of the committees referred to in appendix P of the Regulations who are entitled to first class railway fare may be required to record on their bills, certificates of having travelled in that class.

Necessary Addenda and Corrigenda slip to Mysore Service Regulations will issue separately.

Reviewing the Famine Relief Programmes for the year 1932.

READ—

Review by the Revenue Commissioner in Mysore of the programmes of Famine Relief Works for the year 1932 received with his letter No. C. Per. A. 18—32-33, dated the 7th January 1933.

The dates on which the programmes of the several Districts were received in this office are noted below :—

District	Date of receipt of the Public Works Programmes	Due Date	Date of receipt of the Village Works Programmes
1. Bangalore	17th March 1932	1st March 1932	24th March 1932.
2. Kolar	1st April-1932		10th June 1932.
3. Tumkur	28th May 1932		9th May 1932.
4. Mysore	28th April 1932		27th June 1932.
5. Hassan	19th April 1932		21st April 1932.
6. Shimoga	13th June 1932		10th June 1932.
7. Kadur	7th March 1932		9th June 1932.
8. Chitaldrug	24th February 1932		9th April 1932.

Public Works Programmes of Tumkur and Shimoga Districts and Village Works Programmes of Kolar, Tumkur, Mysore and Kadur Districts.

It will be seen from the above that except the Public Works Programme of the Chitaldrug District, all the others were received after the due date. The delay in the submission of the marginally noted programmes has been great.

2. *Summary of the Programmes.*—The total number of projects of all kinds in the several Districts is 5,149 of an aggregate cost of Rs. 7,14,98,281. Of this, a sum of Rs. 3,98,55,117 (for Public Works) and Rs. 41,77,960 (for Village Works) are available for the employment of 66,04,96,155 units of famine labour.

The annexed Statement No. 1 furnishes particulars of the several classes of projects :—

4. *The adequacy of the Programmes.*—As per Section 20 of the Famine Code, provision has to be made for the relief of 7,35,147 persons for six months or for a total of 13,23,26,460 units of famine labour. As against this, the programmes now framed provide for 66,05,26,155 units of famine labour on both sanctioned and emergency programmes. Ample provision has thus been made this year, the percentage of provision made to that required, working out to 499 13 per cent in the current against 444·00 per cent in the previous year.

The annexed Statement No. 4 gives Districtwar details of the number of units provided for and its proportion to that required to be provided.

STATEMENT IV.

No.	District	Number of persons to be provided for six months (Section 20 of the Mysore Famine Code)	Corresponding number of units (figures in column 2 ×180)	Percentage (column 6—100) of units actually provided for in sanctioned programmes under emergency programmes.

7	Kadur ...	22,756	40,96,080	81·40	2·18	86·58	3234·80	21·65	3256·45
8	Chitaldrug ...	84,636	1,52,34,480	20·86	7·06	27·42	165·67	30·72	196·39
	Total ...	7,85,147	13,23,26,460	41·65	8·95	50·60	451·78	47·35	499·13

It will be seen therefrom that the provision on sanctioned works is inadequate in the Mysore, Chitaldrug and Shimoga Districts where they provide for only 10·45, 27·42 and 42·56 per cent, respectively of the required number of units. But considering both the sanctioned and emergency programmes, there is ample provision in all the Districts except Mysore, where it is inadequate being only 47·83 per cent.

5. *Defects in the Programmes.—A. Public Works*:—The programmes of almost all the Districts contain mistakes in addition and multiplication. The figures in the abstract (Form No. IV) do not tally with the actual totals in the programme, while the number of units provided for has not been taken at fifteen times the amount available for relief works, etc. These mistakes have rendered the work of checking, verification and compilation in this office unduly heavy and consequently delayed the issue of this review.

No abstract in Form No. IV has been furnished by the Deputy Commissioner, Mysore. The programme of that District does not also include any emergency works.

The estimated number of units to be provided for, in case of future famine has not been noted in the famine statements (Form No. III) of the Mysore, Kadur and Chitaldrug Districts. In Columns 5 and 9 of the famine statement of the Chitaldrug District the figures for the provision made on sanctioned and emergency programmes, respectively, have not been noted, as required.

B. Village Works.—The care that has been bestowed in the Districts upon the preparation of the Village Works Programmes is generally much less. The classification of the works into Parts I, II and III according as they are Government, aided or private works has not been done in any of the Districts. The names of persons willing to manage and bear or share financial responsibility for each work has been invariably omitted in all the programmes except that of the Kadur District. None of the Districts except Tumkur and Kadur has furnished the abstract of Village Works in Form No. IV. The abstract of the Tumkur District does not give a detailed classification of the various works entered in the programme.

The programmes of the various Taluks of the Bangalore District have been merely forwarded from time to time as they were received at the District Office from the Amildars, without their being consolidated.

The programme of the Mysore District has been prepared in the form prescribed for Public Works and does not therefore give all the necessary particulars.

6. Statement No. 5 furnishes information as regards the number of persons available for managing famine works in the various Districts.

ORDER No. P. W. 1940-52—S., DATED 14TH FEBRUARY 1933.

Recorded. The programme provides for nearly 15 times the requirements laid down in Section 20 of the Famine Code.

2. It is unsatisfactory to see that in spite of observations made in the reviews of previous years, the programmes continue to be received long after the due date. The Revenue Commissioner has also pointed out several defects in their preparation. It is not satisfactory that delays and defects should be repeated year after year. The Revenue Commissioner is requested to see that they are strictly avoided in future.

3. A copy of the abstract statement Form III of the Famine Relief Programme for the year under review is appended.

Secretary to Government,
Public Works Department.

Re-arrangement of Income-tax Work.

ORDER NO. FL. 4605-10—I. T. 36-32-1, DATED BANGALORE, THE 14TH FEBRUARY 1933.

According to Government Order No. Fl. 620-2—I. T. 43-30-3, dated 21st July 1931, the Income-tax work of the Bangalore City and Taluk and of the Mysore City is now being attended to by three Officers, *viz.*, two Assistant Commissioners of Income-tax with powers of assessment of incomes up to Rs. 5,000 and one Deputy Commissioner of Income-tax for incomes of and above Rs. 5,000.

2. Government consider that by a re-distribution of work one of the Assistant Commissioners may be relieved of a large portion of his work and entrusted with the work of the Headquarters Assistant to the Excise, Income-tax and Stamp Commissioners and Inspector-General of Registration and Registrar of Joint Stock Companies. This arrangement will release the present Headquarters Assistant for general duty.

3. They are accordingly pleased to direct that Mr. A. V. Krishna Murti, B.A., B.Com., who is the senior of the two Assistant Commissioners be relieved of his assessment work of the City and Taluk of Bangalore and posted as Headquarters Assistant to the Excise, Income-tax and Stamp Commissioners and Inspector-General of Registration and Registrar of Joint Stock Companies.

4. The assessment work of the Bangalore and Mysore Cities and of the Bangalore Taluk now being done by the Assistant Commissioners will in future be distributed as under:—

Assistant Commissioner of Income-tax, Mysore City and Inspector of Marwari and Guzrati Account.	Assessment work relating to incomes up to Rs. 5,000 in Bangalore and Mysore Cities except salary cases.
Special Deputy Commissioner of Income-tax, Bangalore.	Assessment work relating to incomes of and above Rs. 5,000 in the Cities of Bangalore and Mysore and Bangalore Taluk and all salary cases arising therein.

5. A separate notification will issue investing these Officers with powers accordingly.

6. Separate orders will issue in regard to the posting of Mr. G. Rudrappa, the present Headquarters Assistant to the Excise Commissioner.

Working of the Co-operative Societies in Mysore for the year ended 30th June 1932.

READ—

Letter No. 2886—C. S., dated 26th November 1932, from the Registrar of Co-operative Societies, forwarding his report on the working of Co-operative Societies in Mysore, for the year ending 30th June 1932.

ORDER No. D. 3977-88—C. S. 43-32-5, DATED BANGALORE, THE 17TH FEBRUARY 1933.

Recorded.

2. *Personnel.*—Mr. K. H. Ramayya continued to be in charge of the Department throughout the year except for about a fortnight in January 1932, when he was on leave and Mr. E. V. Ganapathi Iyer, Deputy Registrar, was in charge of the Office of the Registrar.

3. *Retrenchments.*—The Kolar and Chitaldrug Divisional Offices were abolished during the year, the work of the former being transferred to the Deputy Registrar and that of the latter to the Assistant Registrar, Tumkur Division. The post of Magic Lantern Lecturer was also abolished, and the scheme of Honorary Organisers of Co-operative Societies suspended.

4. *General Progress of Co-operative Societies.*—(*a*) *Societies and Membership.*—The number of societies decreased from 2,213 in the previous year to 2,181 in the year under report; the number of Central Societies decreased from 16 to 14 and of Agricultural Societies from 1,777 to 1,744, while that of non-Agricultural Societies increased from 420 to 423. The membership of Central Societies fell from 3,187 to 3,168 but that of Agricultural Societies increased from 70,105 to 71,790 and of non-Agricultural Societies from 64,323 to 67,757. The membership of all societies increased from 137,615 to 142,715. The increase in the number of members of Agricultural Societies is noteworthy and points to the growing popularity of the co-operative movement in rural areas.

(*b*) *Capital.*—The working capital of all societies increased from Rs. 1·89 crores to Rs. 2·04 crores, or an average of Rs. 142·78 per member as against Rs. 138·31 in the previous year. The paid up share capital also rose from Rs. 48·68 lakhs to Rs. 49·75 lakhs. The owned capital—share capital plus reserve funds—of all societies amounted to Rs. 74·15 lakhs as against Rs. 71·67 lakhs or 36·39 per cent of the total working capital as against Rs. 37·86 per cent in the previous year.

(*c*) *Reserve Fund.*—The total Reserve Funds of the Societies increased from Rs. 22·78 lakhs to Rs. 24·40 lakhs and constitute 49·0 per cent of the total paid-up capital and 11·97 per cent of the working capital. Out of the total reserve, 59·1 per cent have been invested by societies in their office buildings and in banks or securities and 40·9 per cent is utilised as working capital. Excepting in the Bangalore District where the percentage of Reserve Fund utilised as working capital is about 13, fully 50 per cent of such capital of societies in other districts is derived from this fund.

(*d*) *Deposits.*—The amount of deposits received by all classes of societies during the year from individuals was Rs. 121 lakhs as against Rs. 112 lakhs in the previous year. The amount withdrawn was Rs. 110 lakhs as against Rs. 99 lakhs in the previous year. At the end of the year, individual members' deposits held by all societies amounted to Rs. 88 lakhs as against Rs. 80 lakhs in the year previous. The total deposits made by both individual members and society members held by all societies on 30th June 1931, was Rs. 95·74 lakhs as against Rs. 85·23 lakhs at the close of the previous year. Deposits constituted 46·99 per cent of the total working capital of societies as against 45·02 per cent in the year previous, and this is a satisfactory feature pointing to the public confidence which the societies inspire in attracting deposits.

(*e*) *Loans.*—There was a decrease in the amount of loans issued to individual members during the year, as compared with the previous year, the amounts being Rs. 102·65 lakhs and Rs. 118·56 lakhs respectively. Out of the total amount issued during the year Rs. 27·15 lakhs or 26·4 per cent was given for productive purposes, Rs. 15·64 lakhs or 15·2 per cent for redemption of prior debts, Rs. 30·85 lakhs or 30 per cent for maintenance and other charges, Rs. 7·18 lakhs or 7 per cent for house building purposes and Rs. 21·80 lakhs or 21·4 per cent for non-productive miscellaneous purposes.

(*f*) *Rate of Interest.*—The lending and borrowing rates of interest obtaining in Co-operative Institutions continued to be the same as during the previous year. The Registrar was requested in the Government Order reviewing the report for the year 1930-31 to suggest to the managements of the institutions which were maintaining high rates, the desirability of reducing them. It is one of the main objects of the co-operative movement to make money available at reasonably cheap rates of interest and the attention of the societies which have not paid sufficient consideration to this important point should be drawn to it.

(*g*) *Turn-over.*—The total turn-over of all societies amounted to Rs. 673 lakhs as against Rs. 662 lakhs during 1930-31 and the increase was due, in a large measure, to growing deposit transactions.

(*h*) *Profits.*—The net profits of the year amounted to Rs. 4·92 lakhs against Rs. 5·25 lakhs in the previous year. The Central and Agricultural Societies showed a falling off in profits while the non-Agricultural Societies showed an increase compared with the year previous.

(*i*) *Demand, Collection and Balance.*—The demand for the year 1931-32 was Rs. 143·65 lakhs of which a sum of Rs. 96·22 lakhs was recovered leaving a balance of Rs. 47·43 lakhs overdue at the close of the year as against Rs. 36·56 lakhs on 30th June 1931. The total outstandings at the end of the year amounted to Rs. 138·58 lakhs as against Rs. 135·75 lakhs on 30th June 1930. This is an unsatisfactory position and the prevailing unfavourable economic conditions can account for only a part of these outstandings. The accumulation of heavy arrears is a very unhealthy feature of the operation of societies and all possible efforts should be made for removing it.

5. *Central Institutions.*—There were 14 Central Institutions at the end of the year as against 16 at the beginning with a membership of 3,168 against 3,187 and a total working capital of Rs. 63·21 lakhs as against Rs. 54·63 lakhs. The profits of these institutions in the year amounted to Rs. ·58 lakh against Rs. ·80 lakh in the previous year.

(*a*) *Apex Bank.*—The membership of individuals in this institution fell from 295 to 280 and that of societies increased from 922 to 954 during the year. The paid-up share capital increased from Rs. 2·09 lakhs to Rs. 2·16 lakhs and the deposits from Rs. 29·13 to Rs. 35·12 lakhs. The working capital also increased from Rs. 33·54 to Rs. 39·84 lakhs. The issue and recovery of loans by the Bank fell from Rs. 7·71 lakhs and Rs. 4·46 lakhs to Rs. 1·75 lakhs and Rs. 1·90 lakhs, respectively. The net

profits also fell from Rs. ·41 lakh to Rs. ·20 lakh. The Reserve Fund increased from Rs. 1·03 lakhs to Rs. 1·18 lakhs.

(*b*) *The Bangalore Central Co-operative Bank.*—There was a slight fall in the membership both of societies and of individuals during the year. The paid-up share capital decreased from Rs. 2·94 lakhs to Rs. 2·84 lakhs while the deposits increased from Rs. 11·63 lakhs to Rs. 13·95 lakhs. The loans issued fell from Rs. 3·40 lakhs to Rs. 2·44 lakhs and those recovered from Rs. 2·39 lakhs to Rs. 2·06 lakhs. The net profits fell from Rs. ·41 lakh to Rs. ·37 lakh. The Reserve Fund increased from Rs. 1·72 lakhs to Rs. 1·83 lakhs. A sum of nearly Rs. 2½ lakhs is overdue by debtor Societies for long periods and it is necessary that the Bank should take prompt steps to recover it.

(*c*) *The District Central Banks.*—The Registrar states that there was no improvement in the working of these Banks in the year. The Provincial Conference of 1930 appointed a Committee to report on the working of these Banks and it is hoped that this Committee will suggest measures for the proper functioning of these institutions.

6. (i) *Agricultural Societies.*—It is satisfactory to note that the Agricultural Societies are making steady progress. Their membership increased by 1,898 and their working capital by Rs. 3,43,659. Out of 1,744 societies of this kind, 1,623 were Credit Institutions.

The Credit Societie which deal with Agricultural produce like cotton, cardamom and areca are reported to be working fairly well.

The Supply Societies as well as the Credit Societies continued to distribute agricultural implements, seeds, manures, etc.

(ii) *Non-Agricultural Societies.*—There were 423 non-Agricultural Societies at the close of the year with a membership of 67,757 and a total working capital of Rs. 87 lakhs. They had a paid-up share capital of Rs. 30·32 lakhs and held deposits to the extent of Rs. 38·05 lakhs and their Reserve Fund was Rs. 12·03 lakhs. Government are glad to note that these societies continue to do good work.

Stores Societies.—There were 81 Stores Societies with a membership of 13,485 and a total working capital of Rs. 13 lakhs. They purchased provisions and clothing of the value of Rs. 10·12 lakhs and effected sales to the extent of Rs. 12·05 lakhs during the year.

7. *Industrial Co-operation.*—Twenty Sericultural Societies were working at the close of the year with a membership of 403 and a total working capital of Rs. 4,062. They supplied 4,59,539 disease-free layings to their members during the year. The Registrar reports that the working of these societies is hampered by some difficulties and he is requested to suggest in consultation with the Director of Industries and Commerce measures for removing them. A fair amount of work is reported to have been done in the year by Sandalwood Carvers' Societies at Sagar and Sorab by the Cartmakers' Society at Hunsur and by the Cobblers' Societies at Malvalli, Ukkadapalya and Tarikere. The Bangalore City Gota Manufacturers' Society is stated to be rendering useful service to the poorer members of the Somavamsha Sahasrarjuna Kshatriya Community. There were 71 Weavers' Societies of which 16 were Adikarnataka Societies with a membership of 2,590, a paid-up share capital of Rs. ·72 lakhs and a reserve fund of Rs. ·50 lakh. The total working capital of all Industrial Societies amounted to Rs. 1·60 lakhs and their turn-over to Rs. 7·42 lakhs.

8. *House Building Co-operative Societies.*—There were 34 societies for granting loans for the construction and improvement of houses. These societies had a total membership of 3,517 and a working capital of Rs. 6 lakhs and issued loans to the extent of Rs. 1·17 lakhs.

9. *Depressed Classes Societies.*—There were 262 Depressed Classes Societies at the end of the year, having a membership of 6,378 and a paid-up share capital of Rs. ·48 lakh. A sum of nearly half-a-lakh of rupees has been advanced by Government to these societies towards the working capital.

10. *Co-operation in Malnad.*—There were 386 societies in the Malnad at the end of the year with a membership of 19,162 and a paid-up share capital of Rs. 6·68 lakhs as against 384 societies with a membership of 18,925 and a paid-up share capital of Rs. 6·66 lakhs in 1930-31. The deposits and reserve fund held by them amounted to Rs. 3·32 lakhs and Rs. 3·26 lakhs as against Rs. 3·30 lakhs and Rs. 3·08 lakhs respectively at the end of the previous year.

11. *Other Special Societies.*—Other Co-operative Institutions are Students' and Women's Societies and it is reported that they are working satisfactorily.

12. (1) *Land Mortgage Bank.*—The operations of the Bank now extend to the Taluks of Tumkur, Sagar, Koppa, Manjarabad, Kunigal, Shimoga, Chikmagalur, Hassan, Mandya and Maddur, to the Sub-Taluks of Narasimharajpura and Alur, and to Sakrepatna and nine other surrounding villages in the Kadur Taluk. The Bank had a total membership of 517 and a paid-up share capital of Rs. 41,467. The working expenses of the Bank during the year were met almost entirely from the Government grant of Rs. 11,000 sanctioned for the purpose. The loans sanctioned by the Bank to the end of the year under report amounted to Rs. 1·62 lakhs of which a sum of Rs. 1·30 lakhs had been drawn by borrowers.

(2) *Land Mortgage Societies.*—At the end of the year there were 15 Land Mortgage Societies affiliated to the Land Mortgage Bank with a total membership of 962, and a paid-up share capital of Rs. 27,915. Out of 127 cases of loans investigated by the Societies 68 cases of the aggregate value of Rs. 77,925 were sanctioned by the Land Mortgage Bank. In 44 cases loans aggregating Rs. 44,550 were issued by the Bank to the societies.

13. *Litigation.*—The total number of suits for disposal during the year was 4,216 of which 2,850 were disposed of leaving 1,316 suits pending at the close of the year. The pendency is still large and should be reduced. During the year 614 suits were entertained without the necessary court fee stamps, to be recovered later in the course of execution proceedings. There were 7,151 decrees for execution during the year out of which 2,668 were executed leaving a balance of 4,483 at the close of the year. In the Districts of Tumkur and Chitaldrug the pendency of execution of decrees has been considerably reduced during the year, while in the remaining six districts the pendency has increased. Pendency in the Kadur District has more than doubled. The Deputy Commissioners of these districts are requested to arrange for prompt attention to the disposal of the pending cases.

14. *Audit.*—During the year 92 societies got their accounts audited by certified auditors and 142 by experienced local auditors. The accounts of 1,632 societies were fully audited by the Inspectors of Co-operative Societies while those of 138 societies were partly audited.

15. *Finance.*—The total expenditure on the Department amounted to Rs. 1,39,760 as against Rs. 1,65,843 in the previous year. The societies themselves spent Rs. 1,73,030 for their management against Rs. 1,57,839 in the year previous.

16. *Amendment of the Regulation.*—It has been found necessary to make some additional provisions in the Regulation for the better control and supervision of Co-operative Societies and the amending bill is before the Legislative Council.

17. *Civic and Social Activities of Co-operative Societies.*—Free reading rooms are being maintained for the benefit of members and the general public by 150 societies. Several societies have made generous grants for charitable and other public purposes. The Goribidnur Society is taking much interest in maintaining the Municipal High School at the place. The Sira Co-operative Society donated Rs. 2,000 for a building for a free reading room at Sira. The Sri Rama Nidhi Co-operative Society at Closepet made a grant of Rs. 570 for the water-supply scheme there. The Hassan Town Co-operative Society donated Rs. 500 to the Local High School Education Fund.

18. *General.*—The 18th Mysore Provincial Co-operative Conference was held at Mysore during October 1931, under the auspices of the Co-operative Propagandist Institute and was presided over by the late Rajadharmapravina Mr. C. S. Doraswamy Iyer, B.A., B.L., Chief Justice of the High Court of Mysore. The Mysore City Co-operative Society, Ltd., and the Sira Co-operative Society celebrated their Silver Jubilee, during the year.

The working of the Department was satisfactory. The thanks of Government are due to all non-official workers who are rendering service in various forms in the cause of the economic uplift of the community through co-operation.

(2) 47.	For "equated payments" read "equated annual payments towards both principal and interest or by equal annual payment towards principal together with interest accrued."
(3) 60.	For "The President and other members" read "The President shall hold office at the pleasure of and for such time as may be fixed by Government. The other members,"
(4) 64(e).	For the words beginning from "One of the other Directors" up to the end of the sentence, substitute "he will forthwith report the matter to Government and pending their orders, appoint one of the Directors to officiate for and exercise the powers and perform the duties of the President during his absence."
(5) 71.	Substitute the following for the existing bye-law :— "The resignation of the President will take effect from the date of the communication to him of its acceptance by the Government. The resignation of any other Director shall take effect from the date on which the Bank receives the resignation in its office."
(6) 85.	Insert the following after the penultimate sentence of the bye-law :— "But no individual member shall be entitled to vote if he has made default in the payment of any loan instalment or other amount due from him to the Bank for more than six months at the time of the meeting.".

The bye-laws as amended will stand as follows:—

12 (b). *Amended bye-law.*—Any other member shall cease to be a member of the Bank on death, expulsion, insolvency, ceasing to hold any share of the Bank (by withdrawal, transfer or forfeiture) and permanent removal of residence from within the limits of the Mysore State.

47. Long term loans and the interest due thereon shall be discharged by a system of equated annual payments towards both principal and interest or by equal annual payment towards principal together with interest accrued, but the borrower will be at liberty to pay larger sums, according to his convenience.

Number of the bye-law.	*Amendment.*
60.	The President shall hold office at the pleasure of and for such time as may be fixed by Government. The other members of the Board of Directors shall hold office for one year or until their successors are appointed.
64 (e).	Whenever the President is obliged to absent himself from his office by indisposition or for any other cause, he will forthwith report the matter to Government, and pending their orders appoint one of the Directors to officiate for and exercise the powers and perform the duties of the President during his absence.
71.	The resignation of the President will take effect from the date of the communication to him of its acceptance by Government. The resignation of any other Director shall take effect from the date on which the Bank receives the resignation in its office.
85.	The President, if present, shall preside at the meetings of the General Body. In the absence of the President, the members present may elect a Chairman from their number to preside at the meeting. Every member present shall have one and only one vote. Voting by proxy shall not be allowed. All questions shall be decided by a majority of votes of the members present and voting. When votes are equal, the Chairman of the meeting shall have a casting or second vote. Minor heirs or legal representatives of deceased members, if admitted to membership under bye-law 16(a), shall have no voting power. In the case of a society share-holder, any member of the society, duly authorised in that behalf by the society, may attend in person and vote in person. But no individual member shall be entitled to vote if he has made default in the payment of any loan instalment, or other amount due from him to the Bank for more than six months at the time of meeting. Even if the same member is an individual share holder of the Bank and also a representative of the Society, he shall not have, on that account, more than one vote.

Working of the Government Gardens.

READ—

Correspondence ending with letter No. 77, dated the 30th November 1932, from the Superintendent, Government Gardens, forwarding his report on the Administration of Government Gardens and Hill Stations for the year 1931-32.

ORDER No. E. 2876-2936—G. G. 8-32-8, DATED BANGALORE, THE 25TH FEBRUARY 1933.

Recorded.

The Report has been received after a delay of two months. The Superintendent's attention is invited to the remarks in this connection in Government Order No. D. 8912—G. G. 41-29-3, dated the 7th February 1930, reviewing the report of the Department for the year 1928-29, and he is requested to see that the report is submitted punctually in future.

Mr. G. H. Krumbiegel was in charge of the Department during the year, except for about a month when his services were placed at the disposal of the Government of Travancore. During this period, Mr. H. C. Javaraya, Superintendent, Government Gardens, officiated as Director. Mr. Krumbiegel retired from service from the 1st July 1932.

Mr. Javaraya's services were lent to the Government of Bhavanagar from 22nd May 1932 to 14th June 1932, when the Assistant Superintendent, Mr. M. K. Seetharama Chetty, L.Ag., was in charge of his duties.

Among the important plants imported during the year were different species of Cinchona from the Nilgiris and of Hedychium (used in the manufacture of paper pulp) from Darjeeling ; a fodder grass from Madras ; various kinds of medicinal herbs from Germany and varieties of Eucalyptus from Australia and Cocoanut from the Bansda State. The work of experiments in the acclimatisation of some important economic plants, chief among which are Tung Oil tree and some species of Wattle, Eucalyptus and fodder plants, was in progress in the year.

Fruit culture was carried on in the Central Fruit Nursery, the K. R. S. Orchard and the Horticultural Farm. Over 5,000 fruit plants, consisting chiefly of apples, oranges and grapes, were imported from Australia and supplied to fruit growers. There is much scope for the development of fruit culture in many parts of the State and special efforts should be made by the Department to expand this industry, in collaboration with the local bodies. The Superintendent has been requested to formulate in consultation with the Director of Agriculture a scheme of research work, on promising lines, of fruit cultivation and its submission should be expedited.

Vegetable culture was continued at the Horticultural Farm at Bangalore, the work consisting chiefly in the trial of new varieties and the selection and production of seed for distribution. A large variety of vegetables grown on the Farm was exhibited at the half-yearly Horticultural Shows and their quality and growth attracted much attention and pointed to the large scope for improving the cultivation of vegetables under proper care and supervision. The Farm also grew fodder and green manures for sale to Government Departments and the public, and the result of its working was a larger profit than in the previous year.

The collection of plants in the Botanical Gardens was augmented by the addition of many new foreign plants of horticultural and botanical interest. Assistance in the control of plant pests was given to a large number of private garden owners and experiments on the preparation of activated compost were conducted in the several gardens of the Department with promising results.

The Nandi Hill Station was maintained in a good condition and attracted, as usual, a large number of visitors both from within and outside the State.

Government are glad to note that the Mysore Horticultural Society is growing in popularity and is doing very useful work in the spread of horticulture. Two Horticultural shows were held, as usual, under its auspices during the year under report and the exhibits are stated to have been of a high standard in spite of the adverse seasonal conditions.

The working of the Department during the year was satisfactory. Government take this opportunity of recording their appreciation of the services rendered by the late Director, Mr. G. H. Krumbiegel, who, after a long service, retired in July last.

Scale of Fees for Pathological Examinations.

READ—

Government Order No. G. 500-5—Med. 116-32-2, dated 20th January 1933, sanctioning a revised scale of fees for Pathological Examinations in the Public Health Institute and in the Victoria and Krishnarajendra Hospitals.

2. Letter No. G. C. 110-8, dated 10th February 1933, and No. G. C. 110-9, dated 13th February 1933, from the Senior Surgeon in Mysore, suggesting certain additions and alterations to the Government Order read above.

ORDER No. G. 6033-6—MED. 116-32-5, DATED BANGALORE, THE 3RD MARCH 1933.

In paragraph 2 of the Government Order read above, it has been stated that the fees prescribed therein should be levied on all patients with an income of Rs. 50 and above. The Senior Surgeon states that the idea was to levy the fees on out-patients only whose income was above Rs. 50 a month.

2. Government are accordingly pleased to direct that the fees prescribed in the Government Order read above be recovered from all out-patients whose monthly income is more than Rs. 50 per mensem.

3. The Senior Surgeon also suggests that one more item, *viz.*, "Gastric analysis—Rs. 3" be included as No. 11 among the items for which fees have been prescribed in the Government Order read above, the existing No. 11 being altered to 12. This proposal is sanctioned.

Extension of term of the Mysore District Board.

READ:—

Government Order No. L. 5859-60—L. B. 132-32-58, dated 8th March 1933, passing orders reducing the number of members to be returned to the Mysore District Board from the General Constituencies in the District.

ORDER No. L. 5861-3—L. B. 132-32-59, DATED BANGALORE THE 8TH MARCH 1933.

As the reduction in the strength of the District Board may involve some readjustments in the present arrangements relating to the election of candidates, Government are pleased to direct that the term of the District Board, Mysore, be extended till the end of August 1933. The Deputy Commissioner, Mysore District, is requested to issue a revised calendar of events for the election.

A separate Notification will be published in the Gazette regarding the extension of the term of the District Board.

Administration of the Live Stock Section.

READ—

Letter No. ROC. 490—H. C. 119 of 1932-33, dated 15th September 1932, from the Director of Agriculture, forwarding the report on the working of the Live Stock Section during the year 1931-32.

ORDER No. D. 4503-13—L. & A. 15-32-3, DATED BANGALORE, THE 8TH MARCH 1933.

Recorded.

2. The Amrut Mahal Department was merged in the Live Stock Section from the 1st August 1931 and Lieut. A. A. Monteiro was in charge of the Section.

3. The percentage of mortality in the herds rose from 8·7 of last year's to 11·9 and that of births from 37·2 to 39·2 during the year under report. The increase in mortality is reported to be due to the death of a large number of calves.

4. The Director is requested to report how many applications have been received in response to the scheme of Aided Cattle Breeding and how they have been dealt with.

5. As a result of the disbandment of the herds of the Tumkur Range and the transfer of the cattle to other herds, Kaval lands comprising a total area of 10,555 acres were released and surrendered to the Revenue Department.

6. The total demand including the balance of Rs. 29,992-6-4 at the beginning of the year amounted to Rs. 88,104-3-5 and out of it, a sum of Rs. 57,751-4-9 was collected, leaving a balance of Rs. 30,352-14-8. The outstandings are heavy and prompt action should be taken for their recovery.

7. The work of the Cattle Breeding Station at Ajjampur during the year is reported to have been satisfactory. The results so far obtained by crossing Amrut Mahal cows with Hallikar bulls are stated to be promising. The experiment of feeding calves systematically has led to their uniform growth and better development.

8. Government are glad to note that the Sheep Breeders' Association at Kolar continued to do useful work in the year in spite of the slump in the price of wool.

S. ABDUL WAJID,

Development Department.

Administration of the Agricultural Department.

READ—

Letters dated 3rd and 14th December 1932, from the Director of Agriculture, submitting the Administration Report of his Department for the year ending 30th June 1932.

ORDER NO. D. 4428-84—A. & E. 125-32-4, DATED BANGALORE, THE 7TH MARCH 1933.

Recorded.

Dr. L. C. Coleman was in charge of the Department for about nine months of the year and in his absence on leave during the rest of the year, Mr. H. V. Krishnayya, Deputy Director at Headquarters, officiated as Director. The Department suffered serious loss by the death of two of its senior and capable officers, namely, Dr. K. Kunhi Kannan, Entomologist, and Dr. M. K. Venkata Rao, Deputy Director, Chikmagalur.

Chemical Section.—This section is engaged mainly in conducting manurial experiments on the more important of the crops and the work so far carried out, has yielded definite results of value. It has been established that the growth of all the crops on which these experiments have been carried out is promoted by the use of nitrogenous and phosphatic manures. The value of potash manures in the case of different crops, is under investigation, and it is reported that coffee, areca and cocoanut appear to benefit from their use. Government are glad to learn that there is a growing demand by planters and land owners for the help and guidance of the Department in manuring their lands. Manurial experiments have to be extended to all important crops and the means of making available, as cheaply as possible, to raiyats, the different kinds of manures they require for obtaining the best crops from their lands, calls for continuous study. The soil survey of the Irwin Canal area has been completed and the submission of Dr. Narasimhaicngar's report on it should be expedited.

Mycological and Entomological Sections.—The arecanut crop was attacked by a severe form of Koleroga in the year and the area of areca gardens sprayed exceeded 9,000 acres and was nearly double of that dealt with in the previous year. Two co-operative societies took up the work of selling spraying materials to garden owners and this activity on the part of local co-operative organizations, requires to be encouraged. It is desirable, as observed by the Director, to gradually relieve the Department of the work of supplying these materials and it is best to transfer it to co-operative societies. The experiments conducted at the Balehonnur Farm have established that spraying is an effective remedy against some of the pests that attack the coffee plant and Government are glad to learn that planters are appreciating the value of this remedy and using on their estates the spraying mixtures which have yielded the best results on the said Farm. One of the promising lines of work on which the Entomological Section is employed is the examination of the insecticidal values of the barks and roots of some plants. The experiments so far carried out, have established that some of these barks and roots are very effective in ridding plants of their insect-pests. The harm done by insect and fungus pests to crops of different

kinds, is very great and what raiyats want, are simple and cheap remedies which can be made from locally available materials and used for saving their crops. It is necessary that increasing attention should be paid by the Department for the investigation of this problem and for bringing to the notice of raiyats remedies of proved value. It is satisfactory to note that potato-growers in the Bangalore and Kolar Districts have been largely adopting the treatment of their crops recommended by the Department for saving them from the serious lady-bird beetle pest. Several plant diseases, the chief among which are a fungus attack on ragi, which causes footrot and the drying up of earheads the trunksplitting disease of areca alternaria disease of potato, apple root rot, a new apple disease in which the twigs are found to die, with sometimes a canker formation at the base of the stem, the leaf disease of coffee, the coffee blackrot, the downy mildew of grape vine, the sandal spike, the *anabe-roga* of arecanut,, are under investigation and it is to be hoped that it will be possible to devise measures for preventing them or for minimising the damage done by them.

Plant-Breeding and Experimental Farms.—The Hunsur Farm has evolved five strains of ragi which have given good results and which are now under trial on the lands of selected agriculturists. Some selections of paddy, tested at the Nagenhalli Farm, have proved very promising and one variety called GEB. 24 is growing in popularity and large areas are being sown with it. Some of the varieties of paddy developed on the Marthur Farm are stated to give high yields of both grain and straw. It is reported that on the same farm the high yielding Malabar pepper-vine, introduced for replacing the local vine, is doing very well and that the owners of surrounding gardens have accordingly been planting it on their lands. The breeding work on sugar-cane, cotton and ground-nut which has been going on for some years has yielded useful results and the seeds of tested varieties are being sown on a large scale by raiyats. This work has to be extended to all the principal crops for producing strains capable of giving the largest yields and of resisting all the common pests. The area commanded by the Irwin Canal offers the prospects of developing agriculture on modern scientific lines. A number of experiments have accordingly been started on the Irwin Canal Farm with a view to find out what crops can be grown in the tract to the best advantage and under what conditions.

Agricultural Engineering.—Government are glad to learn that two new designs of sugar-cane mills made by the local firm—Messrs. Madurai Mudaliar & Sons—one, a power crushing mill and the other a power attachment to the bullock mill of the firm's make, were tested and found to give greater outturn and better extraction than other plants of a similar nature. It is reported that the cost of the imported honey-extractor was found to be too high by agiculturists, and that, accordingly, a cheap type of extractor has been designed and constructed, and that six of them were sold during the year. The manufacture of ploughs has been undertaken by the Central Industrial Workshop at the instance of the Agricultural Department, and the ploughs made there, are stated to be satisfactory, and their cost is reported to be less than that of ploughs obtained from outside. As observed by the Director, it is essential for the improvement of agriculture to make available to raiyats cheap and efficient implements required for their operations, and the work started in the Central Industrial Workshop requires to be pursued steadfastly with a view to improve the make of the implements and further reduce their costs.

Agricultural Education.—The demand for agricultural education is steadily increasing and this is a very encouraging feature. All the Agricultural Schools under the administration of the Department are reported to have done good work in the year, the record of the Schools at Hebbal and Ramakrishnapur being specially noteworthy. The Director states that the marked success of the Vernacular School at Ramakrishnapur is due to the facilities for practical work provided by the donor Mr. Venkataramanaiya and to the personal interest which he continues to take in the welfare of the students studying in the School. The interesting experiment of giving an opportunity to past students to work as practical farmers under proper supervision and make a success of their business, has been started at this institution and if it proves successful, the students trained in these schools can expect to find employment in the profession for which they are re-equipped and the prospects of expansion of scientific agriculture will also be improved. The District Boards of Bangalore, Hassan and Tumkur continued in the year under report the support which they are extending to the Agricultural Schools in their jurisdictions.

Oil-Cake Advances.—The balance of oil-cake advances awaiting collection at the end of the year was Rs. 7,038 and the Director states that most of the cases are pending with the Revenue Department. The Deputy Commissioners are requested to take prompt action for the recovery of these arrears.

General.—The progress in the investigation of the many problems bearing upon the fundamental industry of agriculture was maintained by the several Sections and Farms of the Department during the year and Government desire to express their appreciation of its administration by Dr. Coleman.

Exemption from the levy of Fees in the Mental Hospital, Bangalore.

READ—

Government Order No. 4122-75—Med. 316-30-18, dated 20th November 1931, revising the rules for the levy of fees on out-patients resorting to Public Hospitals and Dispensaries for treatment.

Four annas for each attendance for ... atment in the Cities of Bangalore, Mysore and Kolar Gold Fields. Two annas at the District Headquarter Hospitals.

2. Letter No. C. 769-3, dated 18th January 1933, from the Senior Surgeon, requesting for reasons mentioned that the out-patients resorting to the Mental Hospital, Bangalore, be exempted from payment of the fee prescribed in the Government Order read above.

ORDER NO. G. 6292-4—MED. 161-32-2, DATED BANGALORE, THE 14TH MARCH 1933.

The Senior Surgeon states that the out-patient Department in the Mental Hospital is doing useful work by giving necessary advice and attention to "borderland" and early cases which may not require institutional treatment and that the number of such persons in a year has not so far gone beyond 100. He therefore recommends that as this Department is yet to gain popularity among the public, the out-patients may be exempted from the payment of the fee prescribed in the Government Order read above.

Government agree with the Senior Surgeon and direct that for the present no fee be levied from out-patients resorting to the Mental Hospital up to the end of December 1934.

Special Assessment leviable under Rule 29 of the Land Revenue Rules.

READ—

Letter No. C. 2797—32-33, dated 15th February 1933, from the Revenue Commissioner, stating that in view of the growing importance of Davangere town as an industrial and a commercial centre, large extents of agricultural land have been appropriated for industrial purposes and a rush of applications for conversion of agricultural lands for industrial purposes is expected and suggesting that the prevailing rate of special assessment fixed for the place as per Rule 29 of the Land Revenue Rules may be brought on a par with those of the cities of Mysore and Bangalore.

ORDER No. R. 4609-18—L. R. 308-32-2, DATED BANGALORE, THE 14TH MARCH 1933.

Government are pleased to direct that Davangere town be placed on the same footing as District Headquarter towns and that the special assessment leviable as per rule 29 of the Land Revenue Rules be fixed at Rs. 8 per acre.

An amendment to Rule 29 of the Land Revenue Rules will be issued separately.

Administration of the Revenue Department.

READ—

Letter No. C. Per. A. 50—32-33, dated 25th October 1932, from the Revenue Commissioner in Mysore, forwarding the report on the administration for the Revenue Department for the year 1931-32

ORDER NO. R. 4659-718—L. R. 156-32-3, DATED BANGALORE, THE 16TH MARCH 1933.

Mr. S. P. Rajagopalachari continued as Revenue Commissioner in Mysore for about four and a half months, and, during the remaining portion of the year when he officiated as Member of Council and was on leave, Mr. S. Hiriannaiya acted for him. There were no changes of Deputy Commissioners in the Districts except for short periods in the Kolar and Tumkur Districts.

2. *Rainfall and Seasonal Conditions.* The rainfall during the year having been on the whole more than in the previous year and also well distributed except in parts of Bangalore, Kolar and Tumkur Districts, the yield of crops was generally good and the seasonal conditions were particularly favourable in the malnad districts. In the Kolar District, the mungar rains as well as the monsoon rains were neither adequate nor well-distributed. A very large number of the tanks in the district did not receive sufficient supply and there was consequently no sowing of paddy under several tanks and the harvest was poor under others. In the Tumkur District, the rainfall was unsatisfactory throughout the district and the seasonal conditions were unfavourable. Pavagada, Madhugiri and Sira suffered most and in those taluks, even the dry crops failed to a large extent. The prices of articles of food and also of commercial crops continued to be steady and the money market was tight. Consequently, agriculturists and traders found it difficult to meet their monetary obligations. Markets were well supplied throughout the State and no scarcity of fodder or drinking water was felt except in parts of Bangalore and Tumkur Districts where forests were thrown open for the free grazing of cattle and liberal advances were also sanctioned for the purchase of fodder. There was no distress in the State except in parts of Sira, Madhugiri and Pavagada Taluks. Timely action was taken to mitigate the hardships of the raiyat population by the adoption of several relief measures, *viz.*, throwing open of State Forests for free-grazing, liberal grants of takavi and land improvement loans, starting of relief works and sanctioning of Rs. 20,000 for the purpose, free supply of hay where there was scarcity of fodder, remission of half wet assessment on lands under wells, tanks and talapariges, postponement of the recovery of instalments of takavi and land improvement loans falling due in 1930-31 and 1931-32 to February 1933, and waiving of penal interest for 1931-32 on instalments due in the khist season of 1932 and half of penal interest for 1930-31 in cases of payments made before the end of February 1932. Remissions aggregating Rs. 55,767-13-10 (as against Rs. 17,841-3-10 in the previous year) were sanctioned to afford relief to the raiyats who suffered loss of crops under tanks on account of insufficient supply of water.

The wages of both skilled and unskilled labour remained almost stationary. Labour was generally available in all the Districts except in the malnad taluks of Hassan, Shimoga and Kadur where for want of sufficient indigenous labour, labourers were as usual recruited from South and North Canara Districts.

3. *Accidental Fires.*—There were 515 accidental fires as against 517 in the previous year resulting in a loss of 19 human lives and of 274 head of cattle. The value of property and cattle destroyed is estimated at Rs. 1,57,436-7-0 as against Rs. 2,09,719-12-6 in 1930-31. The largest number of fires, *viz.*, 140 occurred in the Shimoga District. Relief by way of building materials and grant of takavi loans for rebuilding was promptly given in deserving cases. Government are glad to observe that the building of tiled houses is becoming popular among the villagers.

4. *Cultivation.*—An extent of 22,425 acres bearing an assessment of Rs. 30,021 was taken up during the year for cultivation while an extent of 86,090 acres with an assessment of Rs. 1,27,887 was relinquished resulting in a net decrease in the area under occupation by 63,866 acres assessed at Rs. 97,866. This decrease is mainly attributed to the unfavourable seasonal conditions and the continued trade depression.

Under cropped area, there has been a decrease in every district except Kadur which shows a very slight increase. The percentage of fallow to the area under occupation slightly fell from 17·85 to 17·25. The percentage was highest in the taluks of Pavagada, Sorab and Manjarabad.

The disposal of the lands comprised in certain Amrit Mahal Kavals and date reserves thrown open for cultivation, was slack, partly owing to the tightness of the money market and partly owing to the inferior quality of the lands.

5. *Darkhasts.*—Twelve thousand, five hundred and eighty-five applications were received during the year as against 16,432 in the previous year. These together with 6,226 pending at the beginning of the year made up a total of 18,811 for disposal. Out of them, 13,676 applications were disposed of, 6,091 by grant and 7,585 by rejection, leaving a balance of 5,135 at the end of the year. The percentage of disposals was 72·70 as against 74·01 in the previous year. The disposals in the Kolar District were fairly satisfactory, being 86·01 per cent. They were very poor in Mysore, Hassan and Bangalore Districts. The total extent of lands disposed of was 29,705 acres and 25 guntas bearing an approximate assessment of Rs. 35,615-5-8 and the amount realised, *viz.*, Rs. 1,21,681-7-3 was considerably less than that of the previous year which was Rs. 2,50,074-7-8 (exclusive of Bangalore District). The fall is mainly attributable to the economic depression and the consequent lack of ready money in the hands of the raiyats.

During the year, the form of particulars to be furnished in respect of darkhast applications was revised and made more comprehensive and the classification of lands available for disposal under the A and B lists was abolished.

6. *Grant of Lands to Landless and Depressed Classes.*—One thousand, three hundred and eight applications were pending at the beginning of the year and 2,001 were received during the year, making a total of 3,309. Of these, 2,353 were disposed of, leaving a balance of 956 at the end of the year. The total area granted was 6,781 acres and 18 guntas as against 9,833 acres and 1 gunta in the previous year.

7. *Avenue Trees and Topes.*—The total number of trees newly planted during the year was 65,351 as against 81,433 in the previous year. The largest amount of planting was done in the Kolar, Tumkur and Mysore Districts. The condition of avenue trees was generally good though the work of planting trees and lopping off of overhanging branches requires more systematic attention in some taluks.

8. *Jamabandi—Demand, Collection and Balance.*—The jamabandi settlement of of all the taluks except those of Shimoga and the channel villages of the Hiriyur Taluk was completed before the commencement of the collection season.

The balance outstanding under Land Revenue including Land Revenue Miscellaneous at the commencement of the year was Rs. 25,65,978. The damand for the year was Rs. 1,29,42,673 as against 1,29,85,005 in the previous year. Out of this, a sum of Rs. 1,58,779 was either remitted or written off as irrecoverable and Rs. 1,32,56,205 collected, bringing the total realisations to Rs. 1,34,14,984 and leaving a balance of Rs. 20,93,667 outstanding at the end of the year. The percentage of collection for the year was 87·13 as against 82·07 in the previous year. The whole of the current demand was collected in the Harihar Sub-Taluk. The Districts of Chitaldrug, Shimoga, Bangalore and Kadur recorded 96·5 per cent, 93 per cent, 91·2 per cent and 90·10 per cent, respectively. The collections were very unsatisfactory in the Taluks of Madhugiri, Sira, T.-Narsipur, Krishnarajpete, Gubbi, Nanjangud and Chamrajnagar.

9. *Coercive Processes.*—The total number of processes issued during the year was 3,24,887 as against 2,42,673 in the previous year and a total sum of Rs. 30,64,767 or 23·12 per cent of the land revenue was realised by the adoption of these processes. The various kinds of processes resorted to during the year and the amounts involved were more than the corresponding figures of the previous year.

10. *Execution of Co-operative Societies Decrees.*—Out of a total number of 4,681 decrees involving Rs. 8,17,997, that had to be executed during the year, 2,065 decrees involving Rs. 3,29,892 were executed, leaving a balance of Rs. 4,88,105 still to be recovered in 2,616 cases at the end of the year. The pendency is very heavy in Bangalore and Mysore Districts. Special Revenue Inspectors should be employed

wherever necessary and the pendency must be considerably reduced before the end of the year.

11. *Loans and Advances.*—The total allotments under these heads were Rs. 3,30,000. Out of this, a sum of Rs. 3,08,400 was distributed among the several districts and a sum of Rs. 2,79,218 was actually distributed to the parties. Under takavi, 3,897 applications for an aggregate sum of Rs. 5,19,460 had to be dealt with and in 1,689 cases, advances amounting to Rs. 1,46,125-8-0 were sanctioned. The instalments including arrears which fell due in the year under this head, amounted to Rs. 2,34,079-3-10 of which a sum of Rs. 84,821-13-3 only was recovered. The percentage of collection to the demand was 43·73. The collections were particularly bad in Bangalore City, Mysore and T.-Narsipur Taluks and Narasimharajapura Sub-Taluk. Under land improvement loans, 747 applications for an aggregate amount of Rs. 1,45,742-8-0 were sanctioned out of 2,085 applications involving Rs. 8,75,155 which had to be dealt with. The instalments including arrears which fell due in the year amounted to Rs. 2,98,409-1-0. Out of this, a sum of Rs. 1,06,826-1-8 was recovered. The average percentage of collections to the demand was 43·63 as against 49·84 in the previous year. The collections under this head were very bad in Bangalore City, Chennapatna, Seringapatam, Chennagiri and Tarikere Taluks and Narasimharajapura Sub-Taluk.

12. *Takarar Cases.*—Out of a total number of 26,755 cases brought up for orders, 17,531 cases were disposed of, working out a percentage of 65·52 as against 66·14 of the previous year. The largest number of cases came up for disposal in the Mysore District and the pendency is also the heaviest in this district. The highest percentage of disposals was reached in the Kolar District. The disposals were very poor in Chennapatna, Chiknayakanhalli, Nagamangala, Krishnarajpete, Maddur, Kumsi, Hosadurga, Seringapatam, T.-Narsipur, Gundlupet, Heggaddevankote, Alur and Shimoga Taluks. The Revenue Commissioner is requested to obtain the explanations of the officers concerned for their slackness and submit them for the orders of Government.

With a view to facilitate the expeditious disposal of these cases, certain additional powers were conferred on the Amildars in G. O. No. R. 4165—L. R. 228-31-3, dated 7th March 1932 and circular instructions were also issued by the Revenue Commissioner for the adoption of more businesslike methods in dealing with these cases.

13. *Record of Rights*—The scheme was introduced during the year only in six taluks instead of in 13 taluks as originally intended in view of the fact that the hissa survey work was not keeping pace with the work of the Revenue Department. Orders have also been issued approving of a revised programme of taluks into which the Record of Rights, both preliminary and hissa survey, have to be introduced during the three years commencing from 1932-33. By the close of the year, the preparation of the preliminary records of 29 taluks had been completed and that of three taluks was in progress. The hissa survey operations of two taluks, *viz.*, Tumkur and Kolar were completed during the year, thus bringing the total number of taluks completed to 9. In 17 other taluks the hissa survey work was in progress during the year. The demand for the 29 taluks, where the preliminary work has been completed amounted to Rs. 21,08,085. A sum of Rs. 5,11,393 (inclusive of remissions) was collected during the year, thus bringing the total realisations under the scheme from the commencement till the end of June 1932 to Rs. 9,47,678 (inclusive of remissions). The total expenditure incurred on the scheme was Rs. 6,39,374—Rs. 1,66,736 in the Revenue Department and Rs. 4,72,638 in the Survey Department. The preparation of the final Record of Rights was completed and notifications under section (4) (2) of the Record of Rights Regulation were issued in respect of four taluks and sub-taluks.

14. *Special Schemes*—(*a*) *Village Panchayets.*—The number of these Panchayets increased from 10,251 to 10,583 during the year. Almost all the Panchayets levied obligatory taxes under Section 36 of the Village Panchayet Regulation, while 25 panchayets were accorded permission to levy optional taxes under Section 37 of the Regulation. The Panchayets have at their credit over 30 lakhs of rupees. The arrears at the end of the year were Rs. 29,32,769 and they were very heavy in Mysore and Tumkur Districts. A sum of Rs. 7,24,745 was spent by the Panchayets during the year. Several Panchayets have been making use of their accumulated funds to carry out permanent improvements in villages like laying out new village sites or extensions, construction of village halls, school and dispensary buildings and drinking

water wells. The Village Panchayet Regulation was amended during the year providing scope, among other matters, for the panchayets to raise loans for these purposes where needed.

(*b*) *Village Forests.*—There were at the end of the year, 243 village forests with an aggregate area of about 60,400 acres. The management of 15 village forests was transferred to the Village Panchayets. The progress in the working of the forests continued to be slow.

(*c*) *Tank Panchayets.*—Out of 125 tank panchayets sanctioned, only about 20 showed evidence of some activity while the remaining panchayets are reported to be in a moribund condition. The management of four tanks was transferred to the Village Panchayets concerned. As observed in the last year's review, steps should be taken to reduce the multiplicity of village organisations and concentrate activities affecting the village community in a single organization, *viz.*, the Village Panchayet.

(*d*) *Irrigation under the Vanivilasa Sagara.*—The extent of irrigable area under the channels has been limited to 10,180 acres. At the beginning of the year 6,480 acres and 24 guntas were under occupation. There was an increase of 1,077 acres in the area under occupation during the year mainly due to the restoration of lands which after sale for arrears of revenue had been reserved to Government during the previous years. The net area under occupation at the end of the year was 7,160 acres and 16 guntas after deducting an extent of 397 acres and 8 guntas resumed to Government for want of bids at the sales held for arrears of revenue.

The demand for the year was Rs. 32,101-12-3 as against Rs. 47,272-3-0 of the previous year. Including the arrears of Rs. 52,510-9-1 outstanding at the beginning of the year, the total demand for the year was Rs. 84,612-5-4 of which a sum of Rs. 66,839-13-10 was collected during the year.

As the economic condition of the raiyats of the channel area continued to be unsatisfactory and called for some concessions, Government sanctioned the levy of water rate during the year at Rs. 3-8-0 per acre for lands on which dry crops were raised and Rs. 4-8-0 per acre for lands on which wet crops were raised.

(*e*) *Development of cultivation under the Bhadra Right Bank Channel*:—The total extent of land brought under wet cultivation up to the end of 1931-32 was 7,434 acres and 39 guntas as against 7,249 acres and 25 guntas at the beginning of the year. The demand under assessment and contribution for 1931-32 was Rs. 36,099-15-3 and Rs. 24,762-0-8 as against Rs. 29,081-1-8 and Rs. 11,111-14-11 respectively, in the previous year. The arrears under both the heads were very heavy being Rs. 16,418-6-7 and Rs. 25,360-0-9 under assessment and contribution, respectively, at the end of the year.

Hot weather supply of water for the cultivation of sugar-cane was availed of for 150 acres, and a sum of Rs. 300 at Rs. 2 per acre was levied. The constitution of the Bhadra Colony comprising lands in eight different villages as a separate village and the naming it as Colemanpet was sanctioned in Government Order No. D. 102-5—A. & E. 367-29-6, dated 3rd July 1931.

15. *Conferences.*—Taluk and Village Panchayet Conferences were held in some of the taluks of Kadur, Bangalore and Tumkur Districts and in all the taluks of Kolar District. In some Conferences of Kolar District, Associations of Village Panchayet Chairmen were formed for the taluks to ensure continuity of work in the Panchayets.

16. *Tanks.*—The total number of major and minor tanks in the State is 2,567 and 20,847, respectively. One hundred and eighty major and 347 minor tanks were restored and repaired during the year at a cost of Rs. 2,86,744-14-6 and Rs. 2,66,942-15-0, respectively. The value of earthwork done by raiyats was Rs. 1,01,916. The instructions issued by Government *re* inspection of tanks are reported to have been kept in view. Definite programmes for the restoration of both major and minor tanks are reported to have been drawn up in consultation with the Public Works Department. It is reported that the total number of Chowthayi remission tanks is 235, that they are entitled to a remission of Rs. 5,353-9-7, and that Chowthayi remission to the extent of Rs. 1,373-5-10 was withheld in respect of 91 tanks as they were in an unsatisfactory condition.

17. *Inspections.*—The permanent and the acting Revenue Commissioners toured for 32 days and 65 days, respectively. All the Disirict Offices except that of Bangalore, 4 Sub-Division Offices and 16 Taluks and 2 Sub-Taluk Offices were inspected by the Revenue Commissioner during the year. The Bangalore District Office was inspected by the Second Member of Council. All the Deputy Commissioners toured for more than the prescribed minimum number of days. The Deputy Commissioner, Kolar, toured the largest number of days, *viz.*, 252, and the Deputy Commissioner, Tumkur, inspected the largest number of villages, *viz.*, 787. As in the previous year, the number of villages inspected by the Deputy Commissioner, Shimoga is the smallest, being only 139, and as already observed this is inadequate. The Sub-Division Officers of Tumkur and Mysore did not tour the prescribed number of days, *viz.*, 150. No explanation is furnished for the short itineration by the latter officer. Government are glad to note that there has been some improvement in the itineration of the Sub-Division Officers.

18. *Provincial Toll-gates.*—There were 46 provincial toll-gates as against 45 in the previous year—the increase being due to the transfer of the Bisle toll-gate in the Manjarabad Taluk from the District Board to the Revenue Department. The total demand for the year in respect of all these gates including the arrears of previous years amounted to Rs. 1,93,848-2-10 out of which a sum of Rs. 182,423-15-3 was collected, leaving a balance of Rs. 11,424-3-7 at the end of the year. The levy of tolls on bicycles was abolished from the commencement of the year. Rule 2 of the toll-gate sale rules relating to deposits by intending bidders at the sale was revised and a uniform deposit of Rs. 100 was fixed in respect of all gates.

19. *Miscellaneous*—(1) The Revenue Commissioner disposed of 254 appeals while Government dealt with 206 appeals and revision applications during the year.

(2) The second session of the Amildars' Association was held in Bangalore in March 1932 under the Presidentship of Mr. S. P. Rajagopalachari. Rajamantrapravina Mr. K. Matthan, Member of Council, opened the Conference.

(3) The post of full time Personal Assistant to the Deputy Commissioner, Mysore, was temporarily suspended with effect from 1st January 1932 as a measure of economy and the Special Land Acquisition Officer, Krishnarajasagara, was placed in additional charge of the duties of the Personal Assistant.

(4) The Yelandur Jaghir continued under Government management with an Assistant Commissioner in charge of the Jaghir. The services of the Special Deputy Amildar to attend to the collection of Land Revenue arrears were continued for a further period of six months from 21st February 1932.

(5) The Bangalore City Taluk was abolished with effect from 1st July 1932 and both the City and the Taluk charges were placed under a single Amildar as the arrangement of having a separate taluk for the Bangalore City did not result in any improvement in the taluk administration, especially in the matter of collection of revenue.

(6) All the Probationers of the 1928 batch except one drafted to the Police Department, were posted as Acting Deputy Amildars. The course of training to be undergone by the Revenue Probationers was revised, providing for additional training in Engineering, Police and Magisterial work.

(7) With a view to relieve the hardship caused by the cut in salaries and in the ordinary and fixed travelling allowance of officers, the Government suspended for a period of two years the rule requiring the officers of the Revenue Department, *i.e.*, the Deputy Commissioners, Sub-Division Officers and Amildars to maintain horses.

20. Government desire to record their appreciation of the generally efficient manner in which the work of the Revenue Department was conducted during the year. Increased attention should be paid to the improvement of the condition of villages and the collection of heavy arrears outstanding in several taluks under Land Revenue and Village Panchayet dues and on account of the Record of Rights Scheme.

ORDER NO. L. 5986-94—ML. 262-32-2, DATED BANGALORE, THE 15TH MARCH 1933.

Government are pleased to appoint a Committee consisting of the following gentlemen to consider and settle details about the laying of the New Water Supply Mains in Bangalore City in connection with the supply of water from the Thippagondanahalli Reservoir:—

CHAIRMAN AND CONVENOR.

1. Mr. M. G. Rangaiya, Chief Engineer.

MEMBERS.

2. *Rajasevasakta* J. Bhore, Retired Chief Engineer.
3. Mr. K. Srinivasaiengar, Retired Engineer-in-Chief, Mysore Railways.
4. Mr. J. J. Mieldazis, Sanitary Engineer, Rockefeller Foundation.
5. Mr. B. K. Garudachar, President, Bangalore City Municipality.

The Committee is requested to favour Government with their report before the end of March 1933.

R. RANGA RAO,
Secretary to Government,
General Department.

Administration of the Bangalore City Municipality for the year 1931-32.

READ—

Letter No. G. To. 171, dated 17th December 1932, from the Municipal Commissioner, Bangalore City, forwarding the Administration Report of the Bangalore City Municipality for the year 1931-32.

ORDER NO. L. 6048-52—ML. 226-32-4, DATED BANGALORE, THE 20TH MARCH 1933.

Recorded.

2. Government note that the submission of the report has again been delayed by two months. They trust that such delays will be avoided.

3. *Constitution.*—Mr. P. Subbarama Chetty having resigned his office as President on the 28th May 1932, the Deputy Commissioner, Bangalore District, was appointed to perform the duties and exercise the powers of the President till the election of another President. The election of Mr. B. K. Garudachar as President on 30th June 1932, was approved by Government. The Council held 64 meetings during the year as against 70 in the previous year.

4. *Finance.*—The income and expenditure during the year were Rs. 13,77,643 and Rs. 12,55,371, respectively, against Rs. 9,95,891 and Rs. 10,17,464 in the previous year. The increase under both the heads was mainly due to the loan taken from Government and the expenditure incurred on tarring the principal roads in the City. Excluding the investments of Rs. 1,37,500 in the State Loan Bonds and of Rs. 52,750 in Fixed Deposit, the balance at the end of the year was Rs. 2,70,094.

5. *Income from taxes.*—The income from taxation during the year was Rs. 6,59,907 against Rs. 5,34,884 in the previous year. There was an increase of about Rs. 16,000 under Octroi. Under taxes on buildings, there was an increase of about Rs. 47,000 with a corresponding increase of Rs. 37,000 and Rs. 8,000 under water and lighting, taxes respectively. As regards assessed taxes, arrears of previous years to the extent of Rs. 1,32,324 or 78 per cent were collected out of a sum of Rs. 1,69,271 outstanding, while out of the current demand of Rs. 3,37,037 a sum of Rs. 2,24,586 or 66 per cent was collected. The collection work though better than in the previous year, admits of further improvement and requires careful and continuous attention.

6. *Incidence of taxation.*—The incidence of taxation during the year was Rs. 3-10-8 against Rs. 3-7-4 in the previous year.

7. *Public Works and Water Supply.*—A total length of 12½ miles of road was tarred during the year at a cost of Rs. 89,500. No other important work was taken up during the year. In addition to Rs. 1,93,690 paid to the Water Supply Department for the maintenance of water supply inclusive of the excess water charges amounting to Rs. 52,550, the Municipal Council spent a sum of Rs. 14,192 for improving the water supply of some localities by laying sub-mains and providing fresh taps. The collection of the flat rate on water supply connections continued to be unsatisfactory during the year.

8. *Public Health.*—Public health in the City was generally satisfactory during the year, there being fewer cases of cholera and enteric fever than during the previous year. There was however some increase in the number of attacks and deaths from plauge and small-pox. Timely action was however taken to prevent thir spread by disinfection, inoculation and vaccination.

Anti-malaria work under the guidance of Dr. Sweet of the Rockefeller Foundation was continued during the year, including the special splenic survey of school-going boys.

9. *Vaccination.*—Ten thousand five hundred and twenty-eight vaccinations (of which 7,215 were successful) were performed during the year against 8,534 in the previous year.

10. *Maternity and Child Welfare.*—The midwives employed by the Municipality attended 1,730 labour cases against 1,594 in the previous year. A Health Exhibition was arranged by the Health Department of the City, during the Health Week organised by the Welfare Institute of the Bangalore Woollen, Cotton and Silk Mills, Ltd. The number of deaths among children under one year rose to 918 from 808 in the previous year.

11. *Public Instruction.*—The management of the Primary Schools in the City was placed under the School Board in accordance with the provisions of the Elementary Education Regulation. The cost incurred on account of primary schools and their supervision amounted to Rs. 91,609. The strength in these schools was 7,502 during the year against 7,351 in the previous year and there was an appreciable rise in the average daily attendance also, *viz.*, from 5,702 to 6,078.

General.—Government observe that the activities of the Municipal Council, and therefore its expenditure, are expanding rapidly. Special efforts are necessary to secure a corresponding increase of revenues. This is a matter which requires the serious consideration of the Municipal Council.

Government Order No. L. 3886-3959—Med. 32-22-2, dated 25th November 1922, prescribing revised rates of fees leviable in Hospitals and Dispensaries in the Cities of Bangalore and Mysore and in the Kolar Gold Fields.

2. Letter No. 3404, dated 1st February 1933, from the Chairman, Board of Visitors of the Victoria Hospital, Bangalore, forwarding a copy of the remarks made by the Board who visited the Hospital on the 28th January 1933.

3. Correspondence ending with letter No. G. C. 192-1, dated 21st February 1933, from the Senior Surgeon, furnishing his opinion on the above remarks of the Board.

ORDER NO. G. 6941-4—MED. 203-32-2, DATED BANGALORE, THE 24TH MARCH 1933.

In the course of their inspection of the Victoria Hospital in January 1933, the Board of Visitors observed that the patients in the Third Pavilion of the Hospital enjoyed all the comforts of a special ward with the payment of a fee of only annas eight per diem and that the question of enhancing this fee might be considered. The Senior Surgeon who was consulted in the matter, agrees with the view expressed by the Board and recommends that the existing fee may be raised to rupee one per diem.

Government are pleased to sanction the enhancement of the fee from annas eight to rupee one per diem.

A set of questions for the Audit of Village Panchayet Accounts.

READ—

Rule 32 of the Rules issued under Notification No. L. 4346—L. B. 26-26-127, dated the 6th January 1927, laying down that the Comptroller shall, from time to time, issue such instructions as may be necessary for the proper auditing of the Village Panchayet Accounts.

2. Letter No. 15—L.A.D., dated the 6th August 1929, from the Comptroller, forwarding for approval, a set of instructions for audit of Village Panchayet Accounts, including a memo of a questionnaire to be answered by the Panchayet Inspectors.

3. Un-official Note No. D. 1. Dis. 738—32-33, dated the 27th October 1932 of the Revenue Commissioner, furnishing his opinion on the proposals of the Comptroller and making certain suggestions.

4. Un-official Note No. 240—Spl., dated 23rd January 1933 of the Comptroller, furnishing his remarks on the suggestions made by the Revenue Commissioner.

ORDER NO. L. 6364-74—V. P. 29-29-14, DATED BANGALORE, THE 28TH—31ST MARCH 1933.

Rule 33 of the Rules issued under Notification No. L. 4346—L. B. 26-26-127, dated 6th January 1927, lays down that the accounts of every Village Panchayet in a taluk shall be inspected and audited in detail at least once a year by the Inspector of Panchayets and prompt steps taken to rectify all irregularities and errors. The posts of Panchayet Inspectors having been abolished, this work has now devolved on the Revenue Inspectors in charge of hoblis, who will be the *ex-officio* Panchayet Inspectors. The Comptroller has now forwarded for approval a set of instructions and a memo of questions to be adopted by these officers in checking and auditing the accounts of the Village Panchayets.

2. The necessity for the introduction and enforcement of a systematic audit of Village Panchayet accounts periodically is urgent. Owing to want of sufficient control and supervision at present over the work of these Panchayets, several of them have not yet maintained all the prescribed accounts in a complete form and arrears of taxes are also increasing, often necessitating their being written off the accounts. Government are accordingly pleased to approve of the proposals made by the Comptroller with the modifications suggested by the Revenue Commissioner, and to issue the following instructions for the guidance of the local officers in this behalf:—

(1) The Amildar or Deputy Amildar should draw up a programme in the month of July every year for ensuring the systematic inspection of the accounts of all the Village Panchayets in the Taluk or Sub-Taluk by the Revenue Inspectors in charge of hoblis, preference being given to Panchayets which handle large sums of money or are known to be unsatisfactory in their work or accounts. It should be borne in mind that every Village Panchayet should be inspected in detail at least once during a year.

(2) The Revenue Inspector should prepare the Notes of Inspection in the form of the questionnaire appended hereto (Appendix A). He should arrange to obtain replies and explanations of the Chairman as far as possible while he is in the village itself in respect of the irregularities noticed and set right the remediable defects immediately.

(3) He should forward a copy of his inspection notes to the Taluk Office within seven days after the audit.

(4) To watch the disposal of these inspection reports, a check register in the form appended (Appendix B) will be maintained in the Taluk Office. The Amildar or Deputy Amildar should invariably examine this register once a month to see that all the omissions and defects noticed are supplied and set right or are satisfactorily settled. If, in any Village Panchayet, material or serious irregularities are discovered during the audit, the Amildar or Deputy Amildar should submit immediately separate reports thereof to the Sub-Division Officers and Deputy Commissioners.

(5) The Deputy Commissioners and Sub-Division Officers will, during the inspection of the Taluk Offices, examine the Check Register with a view to see that the audit work is being carried on according to the programme fixed and that necessary action is being taken and pursued, to set right the irregularities discovered during audit.

(6) A paragraph showing the number of Village Panchayets audited in a year and the result of audit should be included in the Annual Administration Report on the working of the Village Panchayets.

3. The Superintendent, Government Printing, is requested to print, in consultation with the Revenue Commissioner, the forms of Inspection Notes and the Check Register and supply them to the Taluks on indents received from the Deputy Commissioners.

DEVELOPMENT SECRETARIAT.

Reorganisation of the Serum Institute.

READ—

Government Order No. D. 8194-5—C. V. 33-30-6, dated the 7th February 1931, extending the term of the Serum Institute and its establishment for three years more from 1930-31.

2. Government Order No. D. 5933-34—C. V. 68-31-2, dated the 20th May 1932, placing Mr. S. D. Achar in charge of the Serum Institute as a temporary measure.

3. Letter No. 1175 Budget 20 of 32-33, dated the 6th December 1932, from the Director of Agriculture in Mysore, proposing revision of establishment of the Serum Institute and recommending—

(1) that the Institute may be made permanent, in view of the fact that its importance has now been well established;

(2) that Mr. S. D. Achar, may be appointed as the Superintendent of the Institute on a graded pay of Rs. 300—25—500, the post of the Assistant Superintendent being kept vacant for the present;

(3) that the revised scales of pay as proposed by him to the establishment of the Institute, which are analogous to those of posts in other branches of the Agricultural Department, may be sanctioned; and

(4) that the post of the Mechanic may be permanently absorbed in the regular scale of establishment of the Institute.

ORDER NO. D. 5392-3—C. V. 60-32-3, DATED BANGALORE, THE 27TH APRIL 1933.

Government agree with the Director that it is no longer necessary to treat the Serum Institute as temporary and are pleased to direct that it be made permanent.

As regards the revision of establishment, the Director's recommendations are sanctioned with the following modifications. The proposition statement as sanctioned is appended to this order.

(1) Mr. S. D. Achar is appointed as Superintendent of the Serum Institute on Rs. 300 per mensem in the grade of Rs. 300-50/2-400. The duty allowance now drawn by him will cease from the date from which his pay is raised.

(2) As it is not necessary to fill up the place of the Assistant Superintendent, it will be omitted.

(3) Fixed rates of pay for the clerical and subordinate technical staff of the Institute, in lieu of progressive scales proposed by the Director, will be allowed as under:—

Name of Post	Present Pay	Sanctioned Pay	Remarks
	Rs.	Rs.	
1. Head Clerk	55	65	
2. Head Accountant	50	60	
3. Clerks (2)	40 each	45	
4. Clerks (2)*	30 „	35	*The Director has proposed an additional clerk on Rs. 30-5/2—50. In view of the increased work of the Institute, this additional hand is given and the pay fixed at Rs. 35.
5. Salustries (11)	30 „	35	
6. Laboratory Attendants (2) ..	30 „	35	
7. Serum Room Attendent	30	35	
8. Media man	30	35	
9. Carpenter	30	30	
10. Packer	20	20	

As there is need for a Mechanic as explained by the Director, a place on Rs. 45 will be included in the regular scale of establishment of the Institute.

The Director's other proposals in regard to the pay of Mestri and Cattlemen are accepted.

This order will have effect from 1st April 1933.

Petitions from totis and talaris for miras to be exempt from stamp duty.

READ—

Promise made by Government at the Representative Assembly of June 1932, to the effect that the question of entrusting patels of villages with some powers in the matter of the collection of miras due to totis and talaris will be investigated.

Correspondence ending with letter No. C. 654—32-33, dated 31st March 1933, from the Revenue Commissioner in Mysore, furnishing his views in the matter after consulting the Deputy Commissioners of Districts.

ORDER NO. R. 5866-75—L. R. 82-32-18, DATED BANGALORE, THE 4—5TH MAY 1933.

It is stated that the real difficulties in the way of giving speedy relief to the totis and talaris are due to their not coming forward with written stamped petitions as soon as the miras becomes overdue. Insistence of stamped petitions from this class of village officials who have not the means to sue all the defaulting raiyats individually is considered to be a hardship. The Revenue Commissioner is therefore of opinion that no new system need be inaugurated but that the present rules may be worked out more systematically and promptly and suggests exemption of stamp duty on this class of petitions and the maintenance of a separate register called "Register of suits for miras" in every taluk office. He further states that he would issue circular instructions to the Amildars impressing upon them the need for paying strict attention to the rules on the subject and for disposing of such matters promptly.

Government are pleased to accept these suggestions of the Revenue Commissioner and to direct that this class of petitions be exempted from payment of stamp duty.

Secretary to Government,

Maternity Leave.

READ—

Government Order No. D. 140-141—I. & C. 259-25-12, dated Camp Mysore, the 30th October 1928, issuing a set of Work Service Rules for the benefit of the employees of the Industrial Concerns under the control of the Department of Industries and Commerce.

2. Letter No. D2-2414—28-29, dated the 16th February 1933, from the Director of Industries and Commerce in Mysore, stating that in some of the Industrial Concerns under the control of the Industries and Commerce Department, women are employed to a large extent that the Work Service Rules sanctioned in the Government Order read above and applicable to these concerns do not contain any provision for the grant of maternity leave to the women employees and recommending in the circumstances explained, that a suitable provision may be made in the rules so that the women employees working in the Industrial Concerns might be given leave on average wages for a period not exceeding seven weeks, provided they have put in at least six months' continuous service.

ORDER NO. D. 5274-5—I. & C. 253-32-2, DATED BANGALORE, THE 21ST APRIL 1933.

Government are pleased to issue the following rules for the grant of maternity leave to women employees in the Industrial Concerns under the control of the Industries and Commerce Department:—

(1) The scheme shall be non-contributory in the first instance, the entire cost of benefit being borne by the employer.

(2) The provision of benefit shall be at the rate of the woman's average daily earnings calculated on the total wages earned during the period of three months preceding the day of her confinement or at the rate of eight annas per day, whichever is less.

(3) The maximum period for which benefit payment is to be made shall be four weeks up to and including the day of her delivery and four weeks following that day.

(4) The qualifying period of employment shall be nine months.

Season and Crop Report.

READ—

Letter No. C. Per. A. 24, dated 28th February 1933, from the Revenue Commissioner in Mysore, forwarding the Season and Crop Report for the year 1931-32, with his review thereon.

2. Letter No. Roc. 2098—Hc. 455 of 1932-33, dated 15th March 1933, from the Director of Agriculture in Mysore, forwarding a note on the report referred to in the letter read above.

ORDER No. D. 5542-90—STCS. 34-32-5, DATED BANGALORE, THE 9TH MAY 1933.

The report was received four months after the due date. Such delays should be avoided in future.

The average rainfall during the year under report was 40·70 inches as against 36·58 inches in the previous year. Except in the Mysore, Kadur and Chitaldrug Districts, and parts of the Hassan District, the "mungar" rains set in late, were scanty and not well distributed. The "hingar" rains were, however, copious and well distributed.

The area under occupancy during the year was 80,57,350 acres as against 81,01,088 acres in the previous year. There was a decrease of 78,008 acres in the area brought under cultivation during the year as compared with the previous year, the figures being 65,68,281 and 66,46,289 for 1931-32 and 1930-31, respectively. The area lying fallow rose from 14,57,799 to 14,89,069 acres. The net area irrigated by the several sources of irrigation fell from 11,31,942 acres to 10,44,424 acres during the year. The gross area under irrigated crops was 10,45,711 acres as against 11,48,648 acres during 1930-31. The total cropped area during the year, treating the second cropped area as additional area, was 68,45,148 acres as against 68,93,176 acres. The decrease of 48,028 acres is shared by all the important crops.

As observed in the Government review of the Season and Crop Report for 1930-31, the method of compilation of statistics has still to be overhauled, so as to make the figures furnished represent the actual position. The Director of Agriculture has, in his note read above, pointed out that the figures given in Table IV in respect of some of the crops are inaccurate or anomalous.

The question of the revision of the headings of the table suggested by the Director of Agriculture is under consideration.

The year was a prosperous one on the whole so far as the outturn of the main crops are concerned. But the low prices of agricultural products which prevailed during the year affected the prosperity of the agricultural population.

Rainfall Registration in Mysore.

READ—

Letter No. 742, dated 20th—21st April 1933, from the Meteorological Reporter to Government, submitting the report on Rainfall Registration in Mysore, for the year 1932.

ORDER No. D. 5682-91—STCS. 42-32-3, DATED BANGALORE, THE 12TH MAY 1933.

Recorded.

2. Three raingauge stations were opened and one was closed during the year, bringing the total number to 247 against 245 during the previous year.

3. During the year, 241 stations were inspected as against 236 during the previous year. One station in the Hassan District, two in the Shimoga District and three in the Tumkur District were left unvisited. One hundred and twenty-one stations were inspected more than once.

4. Most of the stations inspected are reported to be in good condition.

5. The recording of rainfall statistics at individual stations is stated to be fairly satisfactory. More attention should be paid by inspecting officers to the correct recording of the rainfall in the different stations.

IMPORTANT GOVERNMENT ORDERS

CHIEF SECRETARIAT

Mysore Arms Regulation.

READ—

Letter No. C. 2. 306—82, dated 3rd May 1933, from the Inspector-General of Police in Mysore, submitting the report on the working of the Mysore Arms Regulation and the Rules thereunder for the calendar year 1932.

ORDER NO. P. 5994-6003—POL. 168-32-2, DATED BANGALORE, 15—17TH MAY 1933.

Recorded.

R. RANGA RAO,
Chief Secretary to Government.

DEVELOPMENT SECRETARIAT

Statement of Cattle Mortality.

READ—

Letter No. Per. 38 of 32-33, dated 13th April 1933, from the Director of Agriculture in Mysore forwarding the statement of cattle mortality in the State for the half-year ending 31st December 1932, with his review thereon.

(The Director's review and statement are printed as annexures).

ORDER NO. D. 5693-702—STCS. 22-32-4, DATED BANGALORE, THE 12TH MAY 1933.

Recorded.

2. The total mortality of cattle in the State during the half-year shows an increase of 9·9 per cent compared to the corresponding period of the previous year, while mortality under contagious diseases alone shows an increase of 4·5 per cent. Mortality under Rinderpest was the lowest ever recorded being 7·6 per cent of the total mortality under contagious diseases. Mortality under foot and mouth also is the lowest observed for some years. The mortality under Hæmorrhagic Septicæmia, Anthrax and Blackquarter formed 56·7 per cent of the total mortality under contagious diseases during the period under review.

Cattle Mortality Returns. The Revenue Commissioner's attention is invited to the remarks of the Superintendent, Civil Veterinary Department, in the matter of the collection of the returns, and he is requested to take suitable action to enforce the preparation and submission of correct returns in future.

S/ ABDUL WAJID,
Secretary to Government,
Development Department.

ANNEXURE.

LETTER No. C. S. 301-627 OF 1932-33, DATED THE 1ST APRIL 1933, FROM THE SUPERINTENDENT, CIVIL VETERINARY DEPARTMENT, BANGALORE, TO THE DIRECTOR OF AGRICULTURE IN MYSORE, BANGALORE.

I have the honor to forward herewith the return of Cattle Mortality in the State, for the half-year ending 31st December 1932, together with the statement of C. M. returns received from Patels for the same period and to state:

1. The total mortality in the State during the half-year from all causes—both contagious and non-contagious—shows an increase of 3,331 or 9·9 per cent over that of same period during the previous year.

2. That the mortality due to contagious diseases alone shows an increase of 342 or 4·5 per cent over that of the same period for the previous year.

3. Mortality under Rinderpest, the most serious disease of Live-stock in the State, is the lowest ever recorded, being only 606 or 7·6 per cent of the total mortality under contagious diseases.

During the period under review, the incidence of Rinderpest was very low mainly owing to prompt control measures being adopted to stamp out the few infected centres before the commencement of Cattle Fairs when a large scale movement of cattle takes place usually leading to rapid spread of the disease.

During the half-year, excepting in two instances in Shimoga District, action under Regulation II of 1927, was not found necessary as raiyats readily submitted their cattle for inoculation.

Seven thousand, five hundred and twenty-five S. S. inoculations were performed during the period under review.

4. Although the total mortality under Blackquarter, Anthrax and Hæmorrhagic Septicæmia shows a decrease of 3·9 per cent over to that of the previous year, they still formed 56·7 per cent of the total mortality under contagious diseases during the half-year. Mortality under Blackquarter and Anthrax is specially noticeable.

Blackquarter filtrate, bacterin and serum as well as H. S. serum and vaccine prepared by the Mysore Serum Institute have been exclusively used when dealing with outbreaks of these diseases.

Sixty-three thousand, eight hundred and fifty-eight inoculations were performed during the half-year ending December 1932 in all.

5. Mortality under Foot and Mouth is the lowest observed for some years.

6. The mortality under Parasitic Diseases is shown as 810 only, but this appears to represent deaths from parasitic infestation only among cattle, as during personal investigation by the officers of the Department, it was observed that a very large mortality had occurred among sheep and goats due to worm parasites. It is evident, therefore, that

mortality among sheep and goats does not receive the same degree of attention from Patels as that of cattle. It will be necessary in the interests of Live-stock improvement, to emphasise the need for reporting and recording mortality among these animals also by Patels in future.

7. The receipt of C. M. returns from Patels in Taluk Offices appears to have slightly improved, but still remains unsatisfactory in many of the taluks, in spite of Government Orders and Revenue Commissioner's Circulars.

During the period under review, the percentage of C. M. returns received in the Taluk Offices of Bangalore, Hassan, Arkalgud and Saklespur, is unsatisfactory and no endeavour seems to have been made to collect even 50 per cent of the returns.

REVIEW OF THE CATTLE MORTALITY RETURNS FOR THE HALF-YEAR ENDING 31ST DECEMBER 1932.

The total reported mortality among Live-stock in the State during the half-year ending 31st December 1932 was 36,846 as compared with 33,515 for the last half of the previous year. The increase of 3,331 or 9·9 per cent is almost entirely accounted for by an increase in reported deaths from non-contagious causes, the increase under this head being 2,979. The increase under contagious diseases over the figures of the last half of 1931 was 342 or about 4·5 per cent.

As pointed out by the Superintendent, the deaths under Rinderpest (606) are the lowest on record for any similar period. This disease which is looked upon throughout India as the most serious disease of Agricultural Live-stock, has for the time being, at least ceased to be of any significant importance in Mysore. While this may be due partly to a natural fall following the very severe outbreaks of 1927, 1928 and 1929, a common phenomenon in the case of contagious diseases, I think there can be no doubt that it is largely due to the very efficient inoculation campaign of the serum simultaneous method which has now continued for a period of five years.

The four diseases which were responsible for the increase under deaths from contagious causes are Anthrax, Blackquarter, Foot and Mouth and Parasitic Diarrhœa. To these must be added an increase under other deaths from "Other contagious diseases." As regards the three diseases mentioned above, the first two, Anthrax and Blackquarter, are much the most serious and luckily we have now sera and vaccines for their control. Foot and Mouth is a much less serious cause of mortality and there is as yet no satisfactory method for its control. The same remarks apply to Parasitic Diarrhœa.

As regards other contagious diseases, these represent diseases the cause of which is obscure. Most of the deaths under this head occur among sheep and are apparently the result of attack by parasitic worms. Sheep diseases have as yet been very imperfectly investigated in India and there is a very large field for work in this State along this line. With the one officer employed on disease investigation, progress must of necessity be slow.

As will be noted, deaths from contagious diseases were less than a third of those from natural causes, a condition which I think must be considered as very satisfactory. It is also satisfactory to note that practically no coercive measures have had to be taken in connection with inoculation work.

L. C. COLEMAN,
Director of Agriculture.

Distribution of Water under Ayyankere Tank, Kadur Taluk.

READ—

Letter No. 1090, dated the 27th December 1932, from the Superintending Engineer, Shimoga Circle, forwarding a set of rules framed by the Executive Engineer, Kadur Division, in concurrence with the Deputy Commissioner, for proper distribution of water to lands under Ayyankere Tank, Kadur Taluk.

2. Memo No. C. 2814—32-33, dated the 24th March 1933, from the Revenue Commissioner in Mysore, agreeing to the rules being given a trial.

ORDER No. 2389-92—S., DATED BANGALORE, THE 31ST MARCH 1933.

Government are pleased to sanction the set of rules annexed to this order. The Chief Engineer is requested to submit a report at the end of a year on the working of the rules.

M. G. RANGAIYA,
Secretary to Government,
Public Works Department.

ANNEXURE.

THE FOLLOWING RULES ARE ISSUED FOR THE CONSERVATION AND PROPER DISTRIBUTION OF WATER UNDER AYYANKERE TANK:—

1. In these rules, the raiyats below the tank shall include the registered occupant owner, hissedar, lessee and cultivator.

2. Water will be supplied only for one crop in the year. As the tank will generally begin to receive its supply of water in the month of July, the head sluice will be opened generally from about the 15th August to supply water for paddy crops, etc., and will be regulated according to the needs of crops in consideration of rainfall over the atchkat till the month of October. Whenever rains cease in the locality, there will be continuous supply from October to December for paddy crops.

3. Only paddy or any one crop in a year should be grown on wet lands. If this crop be sown after the month of December, the understanding will be that water will be supplied only after reserving 300 units for gardens. In the case of raiyats intending to grow sugar-cane, previous permission of the Public Works Department is necessary. Permission will generally be granted if a fairly compact area of not less than 20 to 30 acres in any one mile of the channel is proposed to be cultivated with sugar-cane.

Considering the necessity to reserve water in the tank for gardens in the summer months, the supply of water from the tank during the rainy season for sugar-cane cultivation will be restricted to only 200 acres. Such acreage under any particular channel will be spread over only half the length of the channel in each year by turns. In the case of any sugar-cane cultivation being taken up without permission, the department will not be responsible to supply water to it, particularly if there be shortage of water in the tank for garden lands in summer and after the end of the irrigation season.

4. In the case of garden lands, intermittent supply will be given generally only once a month by opening the head sluice on the first of every month allowing water generally for ten days in the channel.

5. In order to supply water to wet lands at the tail-end or last one or two miles of each channel, the present irregular steep lands must be properly brought to level by forming at least a number of terraces and lowering high level portions, etc., to retain water

and to prevent unnecessary wastage of water. Considering the present condition of channels and madaboys, it is absolutely necessary to close some madaboys completely and keep some of them open during nights in regular rotation. This procedure will be adopted in actual distribution.

6. In case of sufficient rainfall during the cultivation season, the head sluice will be closed for certain periods as any may be found necessary, if it is required to supply water in the meanwhile as considered by the raiyats, then an application for the same duly signed by not less than 75 per cent of the raiyats under the particular channel should be submitted to the Assistant Engineer.

7. All the raiyats should co-operate and make the best use of the water for sowing seeds and cultivation simultaneously as soon as water is let into the channel. The Public Works Department staff will generally supervise only proper flow of water in the channel and through the madaboys, but the raiyats themselves should co-operate and utilise water without wastage. In 'hikkals' and individual lands, the Public Works Department staff are not held responsible if any raiyat fails to irrigate his land in time either due to untimely sowing or any other negligence, or due to want of co-operation among raiyats themselves. Furthermore, undue preference to such delinquents cannot be given over others and the department will not be responsible for the loss of such crops, if any.

8. All channels and hikkals should be maintained by the concerned raiyats in a satisfactory manner as may be required by the Public Works Department.

In case of default by any individual, the portion of work that ought to have been done by defaulter will be got done by paid labour, the cost being recovered from the defaulter as a revenue demand.

9. In years of scanty rainfall and consequent on the insufficient receipt of water to the tank, the required quantity of water (300 units) for garden lands in summer will be reserved in the tank and only the balance available will be supplied for other crops. The department will not hold itself responsible for the loss of any crop on any land in the atchkat as a result of this arrangement.

10. No cross bund or any temporary obstruction of any kind should be put up in any channel without the written permission of the department. In the case of unauthorised cross bunds, the first raiyat who gets the benefit of such unauthorised construction will be primarily held responsible as it is impossible for the department to trace the offender and it is the look out of the first raiyat to prevent such obstruction and to give immediate intimation to the departmental staff.

11. The department reserves to itself the right of deviating from these rules with the consent of the Executive Engineer and Deputy Commissioner whenever any necessity arises.

Private Practice by Veterinary Officers.

READ—

Correspondence ending with letter No. R. O. C. 1046—C. V. 106 of 1932-33, dated 17th April 1933, from the Director of Agriculture, recommending, in the circumstances explained, that the Veterinary Officers in Government employ may be permitted to take up private practice for a period of one year for the present without prejudice to their legitimate duties, as the stock owners and the dog fanciers have now begun to realise the importance of the services of qualified Veterinarians as a result of effective propaganda carried on by the department and forwarding for approval a set of draft rules on the subject.

ORDER No. D. 6025-84—C. V. 46-32-5, DATED BANGALORE, THE 29TH MAY 1933.

The Director's recommendation is sanctioned.

The draft rules proposed are approved with a slight alteration in Rule 10.

The rules as approved by Government are appended to this order.

S. ABDUL WAJID,
Secretary to Government,
Development Department.

ANNEXURE.

RULES FOR REGULATING PRIVATE PRACTICE.

1. The Officers of the Civil Veterinary Department may take up private practice provided that it does not interfere with the performance of their official duties.

2. Except for the grant of certificates of soundness and health, officers in charge of institutions can treat as private practice only those cases attended to outside the institution.

3. Private practice should not interfere with the prompt attendance of outbreak reports of contagious diseases, nor should it involve any extra expense to Government.

4. All preventive inoculations whenever conducted shall be done free of charge and no fee shall be charged for *post mortem* or any other examinations performed or certificates granted by a Veterinary Officer under lawful requisition from a Police Officer or Magistrate.

5. All castrations of agricultural cattle or animals shall be performed free of charge.

6. No fees shall be charged in the case of Government live-stock either for examining, granting a certificate, or for treatment. Animals intended for Government shall also be examined and certified free.

7. If the animal of any Government Official is treated, it should be considered as private practice, unless it be a contagious disease under the notification, when it should be treated free.

8. Journeys or halts performed for treating private patients should not be shown in officers' travelling allowance bills; but should invariably be mentioned in their diaries.

9. Veterinary Officers may make free use for the treatment of their private cases, of the instruments or apparatus in Government Hospitals or Dispensaries, but the cost of any medicines, dressings, or other materials supplied from Government stock for such cases, must be recovered from the owners concerned and credited to Government.

10. The fee per visit of a Veterinary Inspector will be Rs. 2.

11. Veterinary Inspectors are not prohibited from receiving pecuniary recognition of their services from a community or body of persons which may desire to acknowledge these but the previous sanction of the Director must be obtained in all such cases.

DEVELOPMENT SECRETARIAT

Co-operation between the Officers of the Revenue and Public Works Departments in matters of supply of Water from Government channels, etc.

CIRCULAR.

No. R. 6423-33—L. R. 411-32-2, dated Bangalore, the 2nd June 1933.

It was represented in the Representative Assembly during its Session in October 1932 that for want of adequate co-operation between the Officers of the Revenue and Public Works Departments, the grievances of raiyats in respect of supply of water to their lands from Government channels frequently remained unredressed indefinitely. Government consider that there should be complete co-operation between the two Departments in order to ensure proper distribution of water for irrigation and speedy despatch of business requiring mutual consultation between the officers of the two Departments. The particular attention of these officers should be drawn by the heads of the two Departments to the instructions contained in Section 391 of the Revenue Manual, Vol. I and the necessity for mutual co-operation in such matters brought home to them.

Prompt disposal of representations from raiyats in matters such as supply or distribution of water for cultivation is very essential and any proved neglect, omission or indifference on the part of the officers concerned should be suitably dealt with.

Secretary to Government,

Reports on the Administration of the District Boards for the year 1931-32.

READ—

Reports on the working of the District Boards during the year 1931-32 received from the Presidents of the several District Boards.

ORDER NO. L. 7904-26—L. B. 130-32-13, DATED BANGALORE, THE 26TH—31ST MAY 1933.

Recorded.

2. The reports from the Presidents of Kolar and Shimoga District Boards were received on or before the due date, *viz.*, 1st October 1932, while there was some delay in the case of the other District Boards. The Presidents are requested to arrange for the submission of the reports on the due date.

3. *Constitution, composition and working of the Boards.*—The executive administration of the District Boards during the year was conducted solely by the non-official Presidents and Vice-Presidents elected by the Boards.

There was no change in the constitution of the Boards except for the decrease of one member in the strength of the Bangalore District Board consequent on the abolition of the post of the District Economic Superintendent. As against a sanctioned strength of 316 members for all the Boards, there were, on the last day of the year, 312 members, of whom 211 were elected non-officials and 61 non-officials appointed by the Government, the remaining 40 being *Ex-officio* members. Forty meetings were in all held by the District Boards, the average attendance being 3·48 officials and 28·24 non-officials, for each District Board.

The Standing Committee of the Bangalore District Board met eight times, while that of Shimoga met six times. In the other Districts, the number of meetings held ranged between four and five. It is hoped that the rules issued with Notification No. 6911—L. B. 156-30-6, dated the 12th April 1932, delegating certain powers under the District Board Regulation to the Standing Committee will relieve the congestion of work to be transacted at the District Board meetings.

4. *Bye-laws.*—Bye-laws for the management and working of ferries and for levy of fees in santhes framed by the Shimoga District Board were sanctioned. The Bye-laws for the control and management of shandies, mutton stalls and ferries framed by the Bye-law Committee of the Kadur District Board were under the consideration of the Board.

5. *Finance.*—The year opened with a balance of Rs. 9,18,306. The income and expenditure amounted to Rs. 38,71,852 and Rs. 38,15,830 against Rs. 53,95,405 and Rs. 53,64,104 respectively, in the previous year as shown below:—

Items.	*Income.*	*Expenditure.*
	Rs.	Rs.
A. Ordinary items	13,17,059	15,11,648
B. Investment Account	7,15,936	2,47,181
C. Debt Heads—

D. Railway Cess Transactions	8,11,767	9,31,568
E. Education Cess Transactions	7,97,401	9,13,009
Total ..	38,71,852	38,15,830

6. *Income under Ordinary Items.*— Of the income under ordinary items, a sum of Rs. 8,33,149 or nearly 63·4 per cent was realised from local cess, 8·5 per cent from tolls, 8 per cent from markets and the rest from other items. There was a fall in the income from local cess and tolls in the Kolar and Chitaldrug Districts, as compared with the realizations during the previous year. The President, District Board, Kolar, explains that this is due to economic depression and consequent trade variations. This cannot be the reason, as the income under these heads shows an increase in the other Districts. The President, District Board, Chitaldrug, explains that the fall in the local cess realisations is merely due to fluctuations in Forest and Excise revenue, while the fall under tolls is only apparent as the figures for the previous year included transfer adjustment of deposits and the actual income during the current year exceeded that of the previous year by Rs. 4,109. The President, District Board, Kolar, is requested to investigate the causes for the loss of income under tolls and take steps to remedy the defects in the present system, if any.

7. *Railway Cess Transactions.*—The total income under Railway Cess transactions amounted to Rs. 8,11,767, while the expenditure amounted to Rs. 9,31,568. A sum of a lakh of rupees was withdrawn from the Railway Cess Deposit in the Tumkur District and invested in the $5\frac{1}{2}$ per cent Government Savings Bank deposit. In the Kolar District, a sum of Rs. 1,84,709 was withdrawn from the Railway Cess investments and taken credit of under general revenues for expenditure under development of roads. Excluding these withdrawals, the income under the Railway cess transactions amounted to Rs. 7,11,767, while the expenditure amounted to Rs. 6,46,859. Railway cess was levied in all the Districts except Bangalore and Hassan and the income during the year from this source amounted to Rs. 3,86,891. The total income from Railways in the Kolar and Mysore Districts was Rs. 30,991. The expenditure on capital outlay amounted to Rs. 1,02,883.

The Tumkur and the Chitaldrug District Boards have suggested the abolition of the levy of Railway Cess altogether, as there is no immediate prospect of opening railway lines in the District. This question is under the consideration of Government. Section 68 of the District Boards Regulation was amended so as to permit the District Boards to utilise the interest on railway cess investments for development of roads. The District Boards of Kadur, Tumkur and Chitaldrug have since got schemes of road improvement prepared and sanctioned for utilising the accumulated interest on the railway cess for this purpose.

8. *Education Cess Transactions.*—The total income and expenditure under the Education Cess transactions amounted to Rs. 7,97,401 and Rs. 9,13,009, respectively. The income under Education Cess amounted to Rs. 83,876 and a sum of Rs. 7,13,525 was withdrawn from the investment account for meeting expenditure during the year which amounted to Rs. 5,84,587. The investments made during the year out of the cess funds amounted to Rs. 3,28,422. In the Bangalore District, no amount was invested in the Government Savings Bank. The transactions under this head mainly indicate the amounts transferred to the Elementary Education Fund for which a separate budget has been framed.

9. *Expenditure.*—The expenditure under ordinary heads amounted to Rs. 15,11,648 and exceeded the income by Rs. 1,94,589. The disparity between the income and expenditure is very marked in Bangalore, Kolar, Tumkur, Shimoga and Chitaldrug Districts. In spite of the observations made in the previous year's reviews, there is no improvement in the direction of restricting the expenditure to the minimum commensurate with the income. The Bangalore District Board, especially, have overdrawn their account to the extent of Rs. 14,158 and the President explains that though the accounts show a minus balance, the Treasury Pass Book shows a cash balance of Rs. 37,571 at the end of June 1932. The Comptroller is requested to investigate into the matter and submit a report to Government.

10. *Public Works.* The expenditure incurred on Public Works executed by the Public Works Department and the Civil Department amounted to Rs. 6,09,478 and Rs. 1,17,940 against Rs. 6,93,807 and Rs. 3,34,512 respectively, in the previous year. The major portion of the expenditure incurred was on account of the annual maintenance of District Fund Roads under the control of the Public Works Department. The expenditure under the Public Works by the Civil Department was mainly for the repairs to roads and buildings. The District Board Office building at Kolar and the Silver Jubilee building at Chikmagalur were in progress during the year.

The President, District Board, Hassan, reports that the Channarayapatna-Narasapur-Kodlipet Road towards Mallipatna frontier has not been put in order by the Public Works Department for want of Government quota of contribution. The work should be put on hand, the cost being met from available funds. The Arehalli-Tholalu Road is reported as not having been completed by the Public Works Department though the contribution was available for being transferred to the Public Works Department. The construction of a girder bridge across the Halla in 8/2 Palya-Belgodu Road, though funds have been made available for the work, was not completed in time. It is stated that a revised estimate is under preparation though the work was previously ordered to be executed on tender. The Chief Engineer is requested to issue instructions for the execution of the works early.

It is stated by the President, District Board, that he is not consulted when licenses are granted for motor buses plying for hire. The attention of the Deputy Commissioner, Hassan District, is invited to this statement.

11. *Medical Relief.*—There were 198 Local Fund Dispensaries, 147 Vaidyasalas and 198 Midwives maintained by the District Boards from out of their funds either wholly or in part, as against 192 Local Fund Dispensaries, 155 Vaidyasalas and 187 Midwives in the previous year. Five Dispensaries on a reduced scale were newly opened in the Mysore District, while a dispensary for women was opened at Koppa. Eight Vaidyasalas were abolished during the year. This year also, the midwives attached to the Local Fund Dispensaries attended to very few labour cases. For three posts in the Bangalore District, qualified midwives were reported not to have been available. The Senior Surgeon is requested to take suitable action for securing trained midwives to these vacant posts.

12. *Vaccination.*—One lakh, forty-two thousand, two hundred and forty-seven persons were vaccinated during the year as against 1,48,777 during 1930-31. Except in the Kolar and Chitaldrug Districts, the number vaccinated fell down appreciably in all the districts, as compared with that of the previous year. This fall was probably due to the lack of proper supervision over the work of the vaccinators. As the vaccinators employed by the District Boards have since been placed under the control of the District Health Officers, the Director of Health is requested to instruct the latter officers to check the work of vaccinators and issue necessary instructions in the matter. In view of the apprehended severe outbreak of small-pox in the year 1934, it behoves the District Boards to start a vigorous campaign of vaccination in their areas in accordance with the instructions already issued.

13. *Vital Statistics.*—The total number of births and deaths registered during the year was 99,788 and 77,831 against 96,761 and 73,038 respectively, in the previous year. In Kolar, Hassan and Kadur Districts, the deaths showed an increase over the births though no great ravages from any epidemic were reported. Such variations cast a doubt upon the correctness of the figures, and the importance of the correct preparation of the vital statistics should be impressed upon the village officials by the Deputy Commissioners of Districts during their tours in the interior.

14. *Water Supply.*—Three hundred and fifty-six well works were in progress during the year and of these, 150 wells were completed. In the Mysore District, one

bore-well was sunk at Santhemarahalli. Special grants were made for the completion of well works to the Kadur and Chitaldrug District Boards. If the instructions issued in this behalf had been followed, there is no reason for such a large number of wells remaining incomplete. The necessity for close co-operation between the Deputy Commissioners of Districts and the Presidents of District Boards in the matter of the drawing up of programmes of well works annually and their execution, has been once again impressed in Government Order No. L. 6016-35—V. P. 67-31-4, dated 15th—17th March 1933 and it is hoped that the large number of incomplete works will also be brought to completion early. The income under Drinking Water Wells Fund amounted to Rs. 28,269 while the expenditure was Rs. 37,838. The balances on the last day of the year under this head were as noted below:—

	Rs.
Bangalore District	11,886
Kolar do	324
Tumkur do	7,153
Mysore do	..
Hassan do	—14,751
Shimoga do	..
Kadur do	..
Chitaldrug do	..

The fund in the Tumkur District was not utilised to a very large extent. There is a minus balance in the Hassan District and the District Board is requested to see that the same is wiped out.

15. *Accommodation for Travellers.*—A sum of Rs. 45,424 was spent during the year for the maintenance of the Third Class Travellers' Bungalows, Musafirkhanas and other buildings intended for use by travellers. The income realised from fees levied for the occupation of these buildings amounted to Rs. 9,061 or 20 per cent of the cost of their upkeep. Owing to the rapid means of transport now available, some of the Musafirkhanas and Travellers' Bungalows are rarely resorted to by the travellers and the question of abolishing such of them as are not serving any public purpose is engaging attention.

16. *Audit of Accounts.*—The accounts of all the District Boards for the year 1930-31 were audited by the Local Audit Staff of the Comptroller's Office. No serious irregularities are reported to have been noticed. The President, District Board, Kolar, reports that the audit of the accounts is often taken up long after the period to which they relate and suggests that the audit of the accounts should be arranged to be taken up as far as possible soon after the close of the official year and the auditors also instructed to insist on trivial objections relating to want of measurements, etc., being answered then and there. The Comptroller is requested to consider the suggestion and issue suitable instructions in the matter.

17. *Balances.*—The balances at the credit of the District Boards under service heads at the beginning and close of the year were as noted below:—

	Balance on 1st July 1931.	Balance on 30th June 1932.
	Rs.	Rs.
Bangalore District ..	3,02,592	2,57,224
Kolar do ..	17,597	2,365
Tumkur do ..	2,82,152	2,06,165
Mysore do ..	1,03,803	96,947
Hassan do ..	26,569	26,495
Shimoga do ..	25,163	10,405
Kadur do ..	32,229	17,624
Chitaldrug do ..	1,81,269	1,59,412

The balances have decreased in all the District Boards, appreciably in Bangalore, Kolar, Tumkur, Shimoga and Chitaldrug. The finances of the Hassan District Board continue to be unsatisfactory, and early action should be taken to improve the income and cut down expenditure to the absolute minimum.

18. *General.*—The Deputy Commissioners of Districts inspected the Offices of the Presidents of the District Boards in all the Districts. His Highness the Maharaja, during the tour in Shimoga District, was pleased to open the Mc.Gann Hospital and to receive the address presented by the District Board.

Weekly half-holiday for Urdu Boys' and Girls' Primary Schools.

READ—

Government Order No. E. 5169—Edn. 354-31-4, dated 25—27th June 1932, sanctioning the recommendation of the Director of Public Instruction, made in accordance with the resolution of the Mahomedan Education Advisory Committee, that Thursday may be declared a weekly half-holiday instead of Saturday in the case of both the Urdu Boys' and Girls' Middle Schools, with the exception of (1) such schools as utilise weekly half-holidays on shandy days, and (2) the Practising Urdu Middle and Primary Schools in Mysore.

2. Correspondence ending with letter No. S2. 3791-532 of 31-32, dated 1st April 1933, from the Director of Public Instruction, in the matter of extending the same concession to Urdu Primary Boys' and Girls' Schools transferred to the control of the Local Education Authorities.

ORDER NO. E. 4031—EDN. 169-32-5, DATED BANGALORE, THE 27TH MAY 1933.

The Director recommends in conformity with the resolutions of the Local Education Authorities of (1) Bangalore, (2) Mysore, (3) Tumkur, (4) Chitaldrug, (5) Hassan and (6) Shimoga Districts, (7) Kolar Gold Field Sanitary Board, (8) Tumkur Town and (9) City Municipality, Bangalore, that Thursdays may be

declared as weekly half-holidays instead of Saturdays, in the Urdu Primary Boys' and Girls' Schools in their respective jurisdictions with the exception of such schools as utilise half-holidays on shandy days. The recommendation is sanctioned.

2. The existing practice in the Kadur and Kolar Districts and in the Mysore City Municipal area will continue.

(1) Government Order No. 1430-31—K. S. S. 1882-83, dated 4—11th March 1932, conveying sanction to the term of the Special Land Acquisition Officer, Krishnarajasagara Works, and his establishment being extended up to the end of June 1933.

(2) Government Order No. 1005-1006—K. S. S. 4376-77, dated 27th January 1933, conveying sanction to the revision of establishment of the Special Land Acquisition Office, Krishnarajasagara Works.

(3) Letter No. C. 3283—32-33, dated 25th March 1933, from the Revenue Commissioner in Mysore, recommending the continuance of the Special Land Acquisition Office for a further period of two years, and the acquisition of the properties coming under submersion at plus 124′ contour of Krishnarajasagara simultaneously with that of plus 120′ contour.

(4) Note No. 287—K. S. S., dated 3rd April 1933, by the Secretary to Government, Krishnarajasagara Works.

ORDER NO. 1583-89—K. S. S. 6862-68, DATED THE 2ND JUNE 1933.

The Revenue Commissioner in Mysore has, in his letter No. C. 3283—32-33, dated 25th March 1933, reported that the question of continuance or otherwise of the Special Land Acquisition Office, Krishnarajasagara Works, and of the acquisition work connected with the Krishnarajasagara Works beyond 30th June 1933, was examined by the Krishnarajasagara Land Compensation Committee at their meeting held on 7th March 1933 and that they are of opinion that it would be advantageous both to Government and to the expropriated raiyats to proceed with the acquisition of lands coming under submersion at plus 124′ contour of Krishnarajasagara and complete the whole work by June 1935.

2. As the reservoir storage at plus 120′ is sufficient to meet the irrigation requirements for several years to come, Government consider that it is not necessary to raise the storage in the reservoir above plus 120′ for the present, and that there is no need for immediate acquisition of the lands situated above plus 120′ contour. Government are, therefore, pleased to direct that the acquisition proceedings be limited for the present to plus 120′ contour of Krishnarajasagara and the work completed by the end of December 1933.

3. Sanction is accordingly accorded to the continuance of the Special Land Acquisition Officer, Krishnarajasagara Works, till the end of December 1933, with the establishment as detailed in the statement attached.

4. Separate orders will issue in the matter of relieving the Special Land Acquisition Officer, Krishnarajasagara Works, of the duties of Personal Assistant to the Deputy Commissioner, Mysore District, to enable him to bring to completion the acquisition work up to plus 120′ contour within the period stipulated above.

GENERAL SECRETARIAT

Sanctions the Training Courses for Primary School Teachers.

READ—

Letter No. 375, dated 7th April 1933, from the Director of Public Instruction in Mysore, submitting proposals for the revision of the Training Courses for Primary School Teachers.

(Printed in extenso).

ORDER NO. E. 5-6—EDN. 305-32-3, DATED CAMP, MYSORE, THE 7TH JUNE 1933.

The Director reports that considerable dissatisfaction has been felt for some time about the Lower Secondary Training Courses now existing, as the initial qualifications of persons admitted to these courses are too low on the cultural side to make them really competent teachers, while the professional curriculum is somewhat above their heads. Further, he considers that there is considerable wastage in that a fairly large number of those who have passed through the Lower Secondary Training Course are again deputed for the Upper Secondary and subsequently for the Upper Secondary Training Course, and thus spend five years at one training institution or other. The Director, therefore, thinks it necessary to avoid multiplication and duplication of courses of training while it is no less imperative to raise the standard of qualification possessed by the teachers in Primary Schools. He accordingly proposes a single course of training for three years with a view to provide an adequate course, cultural and professional, for teachers already engaged in work in Primary Schools as well as for those who aspire for posts in these schools. The subjects for study proposed are the following:—

(*a*) *General.*—(1) Vernacular—Kannada or Urdu; (2) Mathematics; (3) Elementary Science including Biology; (4) History, Geography and Civics; and (5) one of the following subjects, *viz.*, Nature Study and Agriculture, a Handicraft, Rural Economics and Sociology, Domestic Science, Music, or Physical Training.

(*b*) *Professional Subjects.*—Principles of Education, Methods of Teaching, School Management, Black-board Work and Practice of Teaching.

Instruction in the Training Course is to be in the vernacular—Kannada or Urdu.

It is shown, further, that the proposed revision of the training course would result in the revision of the scheme of deputations to the training institutions and also of stipends in them. The details are furnished in Appendixes B and C to the Director's letter. The revision of the scheme of deputations and stipends will not affect the grant of the special allowances now being given to Adikarnatakas and Women teachers. It is reported that the proposals as summarised in Appendix D to the Director's letter, will result in a saving of about Rs. 43,000 in the next year's budget and the

saving will be more pronounced during 1934-35 and the cost going back to the normal in the year 1935-36.

Government consider that the proposals made by the Director are suitable and are calculated to improve the efficiency of teachers in Primary Schools and also avoid duplication of the courses of training resulting in wastage. They are accordingly pleased to approve of the proposals with effect from the school year 1933-34.

H. V. RAMASVAMI,
Secretary to Government,
General Department.

ANNEXURES.

Letter No. 375, dated Bangalore, 7th April 1933, from N. S. Subba Rao, Esq., M.A., Bar.-at-Law, Director of Public Instruction in Mysore, Bangalore, to R. Ranga Rao, Esq., B.A., B.L., General Secretary to the Government of His Highness the Maharaja of Mysore, Bangalore.

SIR,

I have the honour to address Government on the necessity for a revision of the existing courses in teachers' training with a view to simplification and efficiency. At present the department provides three courses in training :—

(*i*) *The Under-Graduate Training.*—Admission to this is open to those who have passed the S. S. L. C. Examination, and the purpose of which is to train teachers for the Middle Schools. The medium of instruction and the examination are both in English.

(*ii*) *The Upper Secondary Training.*—This is a professional course open to those who have passed the Upper Secondary Examination, which broadly corresponds to the S. S. L. C. Course, the essential difference being that the medium of instruction and the examination are both in the Vernacular. The Upper Secondary Training is also intended to provide teachers in the main for Middle Schools in subjects other than English.

(*iii*) *The Lower Secondary Training.*—The recruits for this course are successful candidates in the Vernacular Lower Secondary Examination and the successful completion of this course is considered necessary for efficient teaching in Primary Schools.

The department provides instruction for the Lower Secondary Training for two years, for the Upper Secondary Training for a period of one year and also for the Upper Secondary for a period of two years. Instruction is provided in these three courses both in Kannada and in Urdu. The Training College, Mysore, provides for instruction for the Lower Secondary Training (Urdu and Kannada), Upper Secondary and U. S. Training (Urdu and Kannada), and also for the Under-Graduate Training. The Women's Training College, Mysore, provides instruction in Lower Secondary Training (Kannada), Upper Secondary (Kannada), Upper Secondary Training (Kannada), as well as Under-Graduate Training. The Normal Schools at District Headquarters at Bangalore, Tumkur, Hassan, Chitaldrug and Shimoga, provide instruction for the Lower Secondary Training in Kannada and those at Tumkur and Shimoga also provide instruction for the Upper Secondary Examination in Kannada. The Zenana Normal School, Mysore, provides for Lower Secondary Training and Lower Secondary Courses in Urdu. The numbers at the several institutions for the several courses excepting the Under-Graduate Training are given in Appendix A.

Considerable dissatisfaction has been felt for some time with these courses, and mainly for two reasons. The first is from the side of efficiency. It has been felt that the initial qualification of the persons admitted to the Lower Secondary Training Course is too low on the cultural side to make them really competent teachers, while the professional curriculum is somewhat above their heads. The result is they are ill-equipped both for the course of study as well as for the teaching work that lies ahead of them. The extension of the Lower Secondary Training Course to one of two years was certainly a great improvement, but seeing that a large number of those who are members of these classes have passed the Vernacular Lower Secondary Examination from rural schools or by private study offering only four subjects, makes it really difficult to give them an adequate supplement to their poor initial equipment. The second consideration is that there is considerable wastage in that a fairly large number of those who have passed through the Lower Secondary Training Course are again deputed for the Upper Secondary and subsequently for the Upper Secondary Training Course, and thus spend five years at

one training institution or other. The professional side of the training, which was too hard for them in the Lower Secondary Training Course is practically repeated in the later years. An important consideration that has come to prominence more recently is that whereas it was necessary to train some of those who had passed the Lower Secondary Training Examination by further instruction to enable them to qualify for posts in Middle Schools, such arrangement has become unnecessary now, because transfers from Primary Schools to Middle Schools have become, and will become, comparatively rare on account of the transfer of Primary Schools to the control of Local Education Authorities. There is the further consideration that the necessary supply of qualified teachers for Middle Schools can now be obtained from the large number of graduates the University is turning out, while successful candidates at the S. S. L. C. Examination are also available in abundance. There is, at present, the important consideration that successful candidates in the Upper Secondary Examination have a better command of the Vernacular, and will therefore be more useful in our Middle Schools than holders of the Secondary School Leaving Certificate, but as the vernacularisation of instruction in High Schools makes progress, this advantage on the side of the Upper Secondary candidates will disappear.

Therefore, it is necessary on the one side to avoid the multiplication and duplication of courses of training, while it is no less imperative to raise the standard of qualifications possessed by the teachers in the Primary Schools. In fact it may now be considered to be the main task, if not the only task, of the training institutions under the department to provide suitable training for teachers in our Primary Schools. The University will provide trained graduates for our High Schools as well as for the higher posts in Middle Schools and for the Inspectorate, while the Post-Intermediate Teaching Diploma may be expected to meet the several needs of our Middle Schools. Logically, therefore, it may be argued, there is no room for the Under-Graduate Training Course in this order of things, but as the University has not yet provided for instruction for the Post-Intermediate Diploma, the Under-Graduate Training may be allowed to continue for some time to come, and the suggestion made for extending the course to two years with a view to making this class of teachers more efficient will be examined and a reference made to Government in due course. The present communication is limited to a reorganization of the Vernacular courses in such wise as to provide a single course of three years, whose main purpose will be to provide an adequate course, cultural and professional for teachers already engaged in work in our Primary Schools as well as for those who aspire for posts in these schools.

There is general agreement that the course should be one of *three* years, two of which should be given to general education and the third to professional studies. It need not necessarily be divided into two distinct courses of the nature indicated, and cultural and professional studies may be carried on side by side in the later two years. Instruction will be given in the Vernacular, and the Vernaculars will naturally be Kannada and Urdu.

When we approach the list of subjects to be studied, important differences arise apart from the necessity of some variation in the subjects to be studied by men and women, respectively. There is a marked tendency to include in the general group a large variety of subjects under the laudable ambition of providing the rural teacher with comprehensive training for his role not merely as a teacher in the school room but also as a leader of his environment. Thus in addition to the Vernacular, Mathematics, Science, History and Geography, which are accepted by all, various suggestions are made to include several subjects such as Agriculture, Scouting, Hygiene, Sanitation and First-Aid, Rural Economics and Sociology, Music, Handicrafts, Physical Culture, Sex Hygiene, etc., etc. It is evident that unless the course is to be a sort of hotchpot and unduly heavy and incapable of yielding any definite result, a number of these subjects, however important and even relevant they might be for the work of the teacher in rural areas, cannot find a place in the curricula and be the subject of examination at the end of the course.

In this connection, it is interesting to note the suggestions made in a similar context by a Departmental Committee in Great Britain on the training of rural teachers. The Committee, in their exploration of suitable curricula, start by enunciating the proposition that the work of the country districts should be more definitely envisaged and more specifically provided for than hitherto, though they also note that there was much diversity as to the desirability of adopting any special measures of training and education for rural teaching and even in regard to specialised courses of any kind. The list of subjects which they consider should be taught as part of the training course include the Vernacular of the country, History, Geography, Mathematics and Science. They emphasise the need for a study of Biology and regard the inclusion of the subject as essential. They also recommend some study of rural life under the caption of Rural Sociology or Rural

Economics. They also draw attention to a large group of what are called semi-professional and practical subjects which have suffered some neglect in recent years in certain training institutions, *viz.*, Gardening, Handicrafts, House-craft, Drawing and Music. They point out that these subjects will become a more vital and significant feature of school curricula in the future and lay down that these subjects should command the respect of the student during his training career and provide a foundation for specialised work or study at a later period. They conclude by a reference to the theory and practice of teaching which would naturally form an essential part of the course.

The general group of subjects should certainly include the following :—(1) A Vernacular, (2) Mathematics, (3) Elementary Science including Biology, (4) History, Geography and Civics. We come now to the group of subjects whose importance is undoubted, but the *possibility* of whose inclusion is doubted by many competent educationists. These are Agriculture, Hygiene and Sanitation, Rural Economics, Physical Training, Handicrafts, Music and Domestic Subjects. I consider that it is possible to add a fifth subject to include a number of optionals to be selected from, according to the aptitude of the candidates concerned; and this group should include Rural Economics and Sociology, Nature Study and Agriculture, a Handicraft, Physical Training, Domestic Science and Music. Other subjects like Hygiene and Sanitation, Scouting, Bharata Reading may be provided in the institutions as circumstances permit and made the subject of study without the obligation of offering them for the examination.

The professional subjects would include the following:—Principles of Education, Methods of Teaching, School Management, Blackboard Work and Practice of Teaching.

I should like the above list of subjects to be kindly sanctioned provisionally, and as experience is gained, an attempt will be made to recast the course to suit local conditions.

An important suggestion that has been made is that the training institutions should be located in a rural environment, so that the candidates under training should live under conditions of life which would be theirs in the years following the training. There is a great deal to be said for this suggestion, and if conditions were favourable, I should have proposed the transfer of most of our training institutions from the present localities to favourable areas like Hebbur, Hiriyur, Chintamani, etc. Unfortunately, it is out of question to provide the necessary buildings and other conveniences at these places. Therefore, no proposal is made in this behalf at present, and the question resolves itself into how far the changes suggested above can be brought into operation in the institutions at the places they are located in now. So far as the Training Colleges at Mysore and the Normal Schools at Tumkur and Shimoga are concerned, there is already staff now to run concurrently a two-year Lower Secondary Course and a two-year Upper Secondary Course. There is also provision for a one-year Upper Secondary Training Course at the Training Colleges. Therefore, it will be possible in these institutions to run a three-year Vernacular Course without any additional staff. The case of the Normal Schools at Bangalore, Chitaldrug and Hassan is different. In these schools, there will be, when the scheme comes into full operation, three classes as against two classes at present,—which will mean an extra work of 34 periods a week. This requires two extra teachers. Even as it is, the Normal Schools at Bangalore, Hassan and Chitaldrug, are understaffed as shown below:—

Total Periods of Work.

1st year class	.. ..	34 periods.
2nd year class	.. ..	34 do
Extra periods for bifurcation of classes for Practice in Teaching	..	10 periods.
		78 periods.

Number of Teachers.

Head Master ..	..	1
Assistant Masters	..	2
Drawing Master	..	1
Total		4
Part-time Music Master	..	1
(Total number of Teachers)	..	5

Deducting 15 periods for Drawing and Music, and about 14 periods for the Head Master, there will still be 49 periods of work, which will have to be managed by two teachers, giving each of them 25 periods of work. This is no doubt excessive, especially

in a training institution where correction of exercises and preparation of notes of lessons etc., are very important factors. Therefore, an extra teacher is necessary to each of these schools immediately. It is proposed that the hands that can be saved in the two Normal Schools at Tumkur and Shimoga and in the Training College should be utilised for giving an extra teacher to each of the other three Normal Schools immediately. When the three classes come into existense in the final year, another teacher will be necessary for these schools. Arrangements will be made to provide these extra hands without any extra cost, by a suitable readjustment of the staff.

The number of classes that will be in operation during the years 1933-34 and 1934-35 in each of the six training institutions is given below:—

	1933-34.	*1934-35.*
Training Colleges and the Normal Schools at Tumkur and Shimoga.	2nd year L.S.T. 2nd year U. S. 1st year class of the new scheme.	1st and 2nd year of the new scheme.
Normal Schools at Bangalore, Chitaldrug and Hassan.	2nd year L.S.T. 1st year of the new scheme.	

An important consideration is the necessity of equipping the Zenana Normal School at Mysore, with the necessary staff to run a three-year course, which will not only be longer but also higher in standard than the present Lower Secondary Training Course. It is the opinion of all departmental officers that had anything to do with the institution either in regard to administration or in respect of examinations that the present staff of the institution is not competent even for the Lower Secondary Training Course, and the weakness is specially pronounced in the case of Science. It will be necessary to make considerable changes in the staff and make at least one important addition to the staff, a lady graduate in Science subjects. It will be remembered that for some time, there has been a persistent demand for the opening of Upper Secondary Classes for Mahomedan ladies, and in order to facilitate the institution of such classes, attempts were made to obtain the services of a qualified lady graduate from Northern India. So far, the results have been discouraging as the Registrars of several Northern Indian Universities have replied that no Urdu knowing lady has graduated with Science subjects. It is possible, therefore, that an attempt to convert the Lower Secondary Training Course at the Zenana Normal School into the new three-year course will be hampered for want of a qualified lady graduate in Science. It may be necessary in that case to continue the Lower Secondary Training Course only in the case of Mahomedan lady teachers, but every effort will be made to obtain for the institution the services of a lady graduate in Science subjects.

Another question that has to be considered in this connection is the effect on the number of deputations to be made annually. At present, the numbers deputed to the different courses are shown in Appendix B.

In future, from 1933-34, if the scheme is sanctioned, deputations, will be only for the first year of the single course and also to the surviving Under-Graduate Training Course. The number to be deputed to the different institutions in 1933-34 is shown in Appendix B. For the year 1934-35, the number will be two-thirds the normal number, and from 1935-36 onwards, the numbers will be the full number provided.

It may also be pointed out that a revision of the courses now offered in our training institutions on the lines suggested above will present one difficulty, and that is the following: at present, admissions to the Moulvi and the Pandit courses are made from applicants who have passed the Upper Secondary Examination, and under the revised rules, it is made a condition that they shall have taken the respective classical language as one of their subjects at the Upper Secondary Examination if they want to proceed to these higher examinations. There is some complaint already that the departmental deputations do not always succeed in supplying these higher classes with the right kind of pupils. The inability to pursue the course of study prescribed for the Moulvi and the Pandit Examinations may become more pronounced if the Upper Secondary Course as such is abolished. This, no doubt, is an important consideration to be borne in mind, but in support of the revision proposed above, two considerations may be advanced. One is that the main purpose of the training institutions is to supply teachers for our schools and not so much prepare Moulvis and Pandits, the need for whom is bound to be limited. Secondly, the University is now supplying us with M.A's. in Kannada and although the Pandit type has its place in the educational economy, opinion is gaining ground that one who has taken the M.A. Degree in Kannada can cope with the teaching work in Kannada in our schools just as efficiently as the Pandit. The real difficulty is with regard to the Moulvi Examination. A suggestion was made some time ago that the University might take over the Moulvi course with the corresponding staff, but the difficulty arises on account of the fact that

the Moulvi course includes a considerable amount of theology. The only compromise is, therefore, to provide a supplementary course of training for a year for those who want to proceed to this higher examination, and that cannot be considered an additional burden seeing that even under the present conditions, a person aspiring to enter these classes would spend at least four years after passing the Lower Secondary Examination. The fitting in of these courses into our general courses has always presented considerable difficulties, and the question may receive separate consideration.

Another consideration deserving attention in this connection is the effect of the new course on Aided Training Institutions, *viz.*, the one in Bangalore. There will be no difficulty as regards the first two years, *viz.*, 1933-34 and 1934-35, since the number of classes continue unaltered. But from the year 1935-36 onwards, the School will have to maintain an extra class, and the grant to the institution may have to be enhanced. But this is comparatively a small matter, and may receive attention when the question actually arises.

Briefly, the recommendations to which sanction of Government is requested are—

(i) The abolition of the Lower Secondary Training, Uppper Secondary and Upper Secondary Training Courses.

(ii) Provision of a single Vernacular Training course of three years' duration.

(iii) Prescription of the following subjects of study for this Vernacular course:—

GENERAL SUBJECTS.

(*a*) A Vernacular—Kannada or Urdu—, (*b*) Mathematics, (*c*) Elementary Science including Biology, (*d*) History, Geography and Civics, (*e*) *An Optional Subject.*—Nature Study and Agriculture, a Handicraft, Rural Economics and Sociology, Domestic Science, Music or Physical Training.

PROFESSIONAL SUBJECTS.

Principles of Education, Methods of Teaching, School Management, Black-board Work and Practice of Teaching.

(iv) Addition of an Urdu-knowing lady Science graduate to the staff of the Zenana Normal School.

(v) A revised scheme of deputations to the training institutions as shown in Appendix B.

(vi) A revised scheme of *stipends* as given in Appendix C.

(vii) The continuation of the special allowances sanctioned to Adikarnataka and women teachers.

The financial implications of the proposals are summarised in Appendix D, and it will be seen that there will be an acutual savings of about Rs. 43,000 in the next year's Budget as against an anticipated savings of Rs. 36,500 in the current year. The savings will be more pronounced in the year 1934-35, and the position will swing back to the normal in the year 1935-36.

It may be added that the revision of the training courses has been under consideration for several years past, and a number of Committees have discussed the matter and submitted reports. On one or other of these Committees, the Deputy Directors, Heads of Training Institutions, and reitred officers of experience like Mr. D. Venkataramaiya, have served. Their unanimous recommendation has been that the courses should be simplified, and as proposed above, a single course of three years should be instituted. The matter has, therefore, received full consideration, while the proposals adumbrated above have, in the main, received unanimous support.

Since it is proposed to institute the new course with the commencement of the next school year, it is requested that very early sanction be kindly given to the proposals made.

N. B.—(1) This year, a savings of about Rs. 36,000 has been taken credit for under substitutes' allowances and allowances to aided school teachers (including deputations to the U. G. T. Course). In the Budget Estimates under the new scheme next year there will be an actual saving of Rs. 30,000 (Rs. 29,916 actually as shown above) and to this should be added a saving of about Rs. 5,000 being the allowances for the last two months in the year, of students who will leave the training institution after the examination in March 1934 and a further saving of about Rs. 5,000 on account of absentees, etc., in the course of the year and thus the savings of Rs. 36,000 taken credit for will be more than realised.

2. The actual figures for stipends to private students are not available, but Appendix C will make it clear that there will be clear savings of about Rs. 3,600 on the normal provision under this head.

IMPORTANT GOVERNMENT ORDERS

GENERAL SECRETARIAT

Revising the courses of Pandits and Moulvis Examinations.

READ—

Government Order No. D. 10036—Edn. 209-26-2, dated 14th May 1927, passing orders revising the courses for the Kannada Pandits and Moulvis Examinations.

2. Government Order No. D. 3505—Edn. 112-29-2, dated 27th September 1929, issuing amendments to the rules for the Kannada Pandits and Moulvis Examinations.

3. Government Order No. E. 2975—Edn. 239-31-2, dated 27th January 1932, approving the resolution of the Local Examinations Board, re the deletion of the Second Language for the Mysore Upper Secondary Examination.

4. Correspondence ending with letter No. E. 2-847—32-33, dated 28th April 1933, from the Director of Public Instruction, stating that consequent on the issue of Government Order, dated 27th January 1932, deleting the rule requiring candidates to offer a Second Language for the Upper Secondary Examination, it became necessary to revise the rules relating to the admission of candidates for the Pandits and Moulvis courses, that it was considered necessary to revise the courses also, and submitting a set of draft rules for the purpose approved by the Local Examinations Boards, and adding that the extra cost involved would be Rs. 800 in a period of three years or Rs. 267 a year on an average, no provision on this account being necessary in 1933-34.

ORDER NO. E. 4335—EDN. 216-32-6, DATED BANGALORE, THE 23RD JUNE 1933.

Sanctioned. The revised rules as approved, are appended to this order. The revised courses of study will take effect from the date of the re-opening of the Training College in June 1933.

S. N. APPANNA IYENGAR,
Secretary to Government,
General Department.

ANNEXURE.

REVISED REGULATION FOR THE PANDITS AND MOULVIS COURSES.

1. The courses shall extend over four years and the examinations shall be held every alternate year, the first Final Examination under these Rules being held in 1937.

2. There shall be two examinations—An "Intermediate Examination" at the end of two years and a "Final Examination" at the end of four years.

3. *School Candidates.*—Admission to the Training College, Mysore, for these courses shall be made every other year.

4. Candidates for the Moulvis Course shall be chosen alternately for Persian and Arabic.

5. The qualification for admission to the Pandits and Moulvis Courses shall be a pass either in the Mysore Vernacular Upper Secondary or the S. S. L. C. Examination with Kannada or Urdu as Second Language respectively, provided also that for admission to the Moulvis Course, candidates should have taken Arabic or Persian as an additional subject in either of these examinations.

The President of the Local Examinations Boards, may, however, permit the admission to these courses of such candidates as have not passed either of these examinations but have passed an examination which, in his opinion, is equivalent to either of them. Such candidates should apply to the Secretary, Mysore Local Examinations Boards, Bangalore, for the required permission before the 1st May immediately preceding the Selection Examination referred to in Clause 11 below.

6. Selection for both the courses shall be made by a *Selection Examination* arranged by the Principal of the Government Training College, Mysore.

7. The Selection Examination shall be compulsory both for departmental candidates (Teachers in Government service) as well as for others that may seek admission to these courses.

8. Candidates shall be admitted to these courses on the results of the examination held for the selection of candidates for admission to these courses.

9. No departmental candidates beyond the age of 35 (Thirty-five) years shall be permitted by the District Educational Officer or by the School Board Officer to sit for the Selection Examination.

10. Departmental candidates that do not pass the Intermediate Examination shall automatically be reverted to their original places.

11. The Selection Examination shall be arranged to be held in Kannada and Urdu for Pandits and Moulvis Courses respectively, in the Government Training College, Mysore, on the 10th June or the following day, if it happens to be a Holiday, every alternate year, commencing from the year 1933.

12. *Private Candidates.*—A candidate who has failed as a school candidate either in the Intermediate or the Final Examination, may appear for these examinations as a private candidate in subsequent years.

Others that possess the qualification prescribed for admission to these Courses in Para 5 above, may also appear for the examinations, by private study, provided they apply to the Secretary, Mysore Local Examinations Boards, Bangalore, before the 1st September immediately preceding the examination, for permission to appear as private candidates.

FINANCIAL SECRETARIAT

Reduction in Salaries.

READ—

Government Proceedings No. Fl. 3081-140—G. F. 90-31-1, dated 2nd November 1931, ordering as a temporary measure, a percentage reduction in the salaries of officers according to a sliding scale with effect from 1st November 1931.

ORDER NO. FL. 6678-737—G. F. 185-32-1, DATED BANGALORE, THE 23RD JUNE 1933.

It was proposed in para 11 of the Proceedings read above, that the order about the reduction of salaries would be reconsidered in June 1933 or earlier, if the financial situation improved. In view of the budgetary position, it is found necessary to continue the salary cut during the next year also. Officers on salaries of Rs. 100 and less, however, require some relief and it is therefore proposed to reduce the rate of cut in their case from 5 to 2½ per cent. The scale of reduction in the salaries of officers during 1933-34 (including the claims for June 1933 payable in July 1933) will be as follows:—

	Grades of Officers	Percentage of Reduction
1.	Officers on salaries not exceeding Rs. 40 per mensem	No reduction
2.	Officers on salaries exceeding Rs. 40 and up to and inclusive of Rs. 100 per mensem	2½ per cent
3.	Officers on salaries exceeding Rs. 100 and up to and inclusive of Rs. 350 per mensem	7½ per cent
4.	Officers on salaries exceeding Rs. 350 per mensem	10 per cent

If the net amount of salary, arrived at after calculating the cut according to the above rates, *i.e.*, the reduced salary, is less than what it would have been if the officer was in receipt of the maximum salary of the next lower grade referred to above, the amount of deduction on account of the cut representing the difference will be restored.

2. The instructions issued in Government Order No. Fl. 3081-140—G. F. 90-31-1, dated 2nd November 1931, and in subsequent orders in regard to the scope of the salary cuts and the method of applying them are reproduced in the appendix to this order for purposes of reference.

S. SHAMANNA,
Secretary to Government,
Financial Department.

APPENDIX.

G. O. No. Fl. 3081-140—G. F. 90-31-1, dated 2nd November 1931.

1. The reductions being temporary, the present sanctioned rates of pay remain unaltered. These rates will continue to be shown in salary and establishment bills. The sanctioned rate of (unreduced) salary and the reduced salary (after deducting the amount of cut) will be noted therein in accordance with the instructions issued by the Comptroller.

G. O. No. Fl. 3081-140—G. F. 90-31-1, dated 2nd November 1931.

2. Personal allowances including duty allowances which are personal to the officers concerned will be treated in the same way as salaries and will be subject to reduction.

G. O. No. Fl. 3081-140—G. F. 90-31-1, dated 2nd November 1931.

3. Allowances other than personal are exempt from the percentage reduction.

Financial Secretary's letter No. Fl. 4173—G. F. 90-31-20, dated 10th December 1931.

4. All allowances granted as additions to pay or salary, except permanent monthly travelling allowances and conveyance allowances of all kinds, should be treated as part of an Officer's emoluments for determining the percentage of reduction even though the allowances are not subject to cut.

Financial Secretary's letter No. Fl. 6864—G. F. 90-31-62, dated 8th March 1932.

G. O. No. Fl. 3081-140—G. F. 90-31-1, dated 2nd November 1931.

5. In the case of retired officers who are re-employed, the total emoluments of officers including portion of pension drawn should be considered as salary and subjected to percentage reduction.

6. The leave allowances of officers will be subjected to deduction in the same manner as salaries, the percentage cuts to be applied being based on the monthly amounts of such allowances.

G. O. No. Fl. 3081-140—G. F. 90-31-1, dated 2nd November 1931.

7. The calculation of leave allowances and of pensions, and the classification of officers for purposes of travelling allowances will be based on sanctioned rates of pay without applying the reduction sanctioned in this order.

Financial Secretary's letter No. Fl. 3493—S. & A. 234-32-2, dated 23rd December 1932.

8. When there is a change in the salary of an officer in the middle of a month, the salary cut should be separately applied to the different rates of salaries in the several periods of the month and not to the total salary drawn for the entire month.

G. O. No. Fl. 3081-140—G. F. 90-31-1, dated 2nd November 1931.

9. The Government contribution to the Provident funds of the Electrical, Railway and other Departments where the scheme of compulsory provident funds is in force, will be calculated on reduced pay during the period when the salary cut is in force; provided that option will be given to officers to contribute on the basis of unreduced salary and if they do so, the Government bonus will be equal to such contribution.

G. O. No. Fl. 3081-140—G. F. 90-31-1, dated 2nd November 1931.

10. In the case of officers who have been repaying the advances obtained from Government for building or purchasing houses and for buying motor conveyances, the deductions from salary in respect of the repayment of such advances may be based on the amount of reduced pay.

Note.—The concessions allowed in Government Order No. Fl. 6102-6151—G. F. 115-31-10, dated 26th January 1932, regarding the reduction of the monthly instalments of House Building advances will be continued, the same being calculated at the revised rates.

Financial Secretary's letter No. 3486—G. F. 90-31-44, dated 23rd November 1931.

11. The assessment of rent on Government buildings has to be calculated on the net salary of an officer left after the cut.

G. O. No. Fl. 3081-140—G. F. 90-31-1, dated 2nd November 1931.

12. For purposes of levy of Income and Super-taxes, it is only the net salary drawn after making the percentage reduction that should be taken into account.

13. The reduction in salary herein ordered will also apply to (i) officers whose services are lent to Local Bodies or to the Palace and (ii) to those whose salary is paid by the Insurance Funds—Official and Public Branches—Mysore University Funds, Muzrai Funds, Military and other funds administered by Government.

Note.—In the case of officers in respect of whom pensionary contribution is paid by the Local Bodies or Funds, the contribution for pension should be excluded for purposes of calculation of the rate and amount of cut.

G. O. No. Fl. 3081-140—G. F. 90-31-1, dated 2nd November 1931.

16. (*a*) The exemption (partial or full) from salary cut already granted to officers, whose duty and other allowances were abolished or reduced, etc., in accordance with the following principle enunciated in para 6 of the Government Proceedings read above, will be continued so long as the conditions under which they were granted remain unchanged:—

"When the total reduction in an officer's allowance and salary exceeds 15 per cent of this total original emoluments—unreduced allowance plus unreduced salary—the cut in his salary will be reduced to the extent of the excess. The following illustration is given to show the working of this rule:—

Salary	Allowance	Total emoluments	Reduction of allowance	Salary cut	Total deduction	15 per cent in total emoluments	Relief to be given—excess over 15 per cent	Net reduction in salary
Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
300	50	350	50	22½	72½	52½	20	2½

The partial or full exemption admissible under this rule will be allowed only so long as the officers concerned continue to perform the duties in consideration of which the allowances were originally sanctioned."

(*b*) If these officers receive any additions to their salaries from and after the date of the order introducing the cut in salaries, such additions will be subject to the percentage cut applicable to their total emoluments.

17. This order does not affect any special relief from salary cut granted by Government in individual cases.

18. Subsidiary instructions issued from time to time in regard to the application of the rules relating to the salary cut in particular cases will continue to be in force.

Revised instructions *re*-Economies in the Budget Grants for 1933-34.

READ—

Government Order No. Fl. 602-61—G. F. 16-32-2, dated 30th July 1932, issuing instructions for effecting economies in the Budget Grants of 1932-33.

ORDER NO. FL. 6738-97—G. F. 16-32-15, DATED BANGALORE, THE 23RD JUNE 1933.

In the Government Order read above, certain restrictions were imposed on the powers of officers in making appointments and incurring expenditure during 1932-33 with a view to economise expenditure. It is considered desirable that the restrictions regarding (i) filling up of vacancies, (ii) appointing persons only on officiating basis, and (iii) limiting to the minimum the salary of persons newly appointed to progressive pay posts should be removed and departmental officers allowed to exercise their powers in the usual course in these matters in cases in which appointments which fall vacant have to be filled up in the interests of work.

2. Government are accordingly pleased to issue the following revised instructions for the guidance of all officers and these instructions will be in force during the year 1933-34:—

(1) Vacancies, permanent or temporary, whether in superior or inferior service, will be filled up by the authorities competent to do so, only when the work of vacant appointments cannot be entrusted to other officers without involving extra expenditure.

(2) Officers who were not allowed increments under sub-paras 4 and 5 of para 4 of the order read above, will be allowed to count for increments the periods during which they have held posts to which increments are attached, but increments will not be allowed to be drawn for the period prior to 1st July 1933.

(3) No leave will be granted in excess of two months in the aggregate, if it involves extra cost except on grounds of ill health supported by a Medical Certificate or for other urgent and unavoidable cause.

(4) Transfers should be minimised as far as possible.

(5) The touring work of officers should be carefully regulated with a view to limit the travelling allowance charges to the minimum.

(6) Deputation of officers for purposes of study or training should not be allowed.

(7) All possible economies under printing should be made. The Superintendent, Government Printing, is requested not to undertake any printing work which is either unnecessary or can afford to wait. In cases of doubt, he should refer the matter for the orders of Government.

(8) Rigorous economy should be enforced in the consumption of stationery articles. The reduction of 50 per cent in the supply of Stationery Articles and Forms and Registers ordered in Government Order No. G. 67-120—P. & S. 12-31-28, dated 4th July 1932 (*vide* Appendix I) will continue to be in force during 1933-34. The instructions issued in Government Orders No. M. 5501-60—P. & S. 74-21-2, dated 1st June 1922 and No. E. 1737-95—P. & S 74-21-9, dated 7th September 1922 (*vide* Appendices II and III) should be strictly followed.

(9) Every item of contingent outlay or other optional expenditure should be scrutinised by disbursing officers with a view to eliminate all unnecessary items and put off the deferrable ones.

S. SHAMANNA,
Secretary to Government,
Financial Department.

Reduction of 50 per cent in the supply of Stationery Articles and Forms and Registers.

READ—

Clause 13 of G. O. No. Fl. 1795-1850—G. F. 54-31-1, dated 14th September 1931, directing that the supply of stationery articles to be made to each office during the current year be reduced to half the usual quantity.

Government Order No. G. 2928-88—P. & S. 12-31-8, dated 8th October 1931, directing the reduction in the current year of 50 per cent in the supply of forms and registers to the several offices in the State.

Letter No. S. 4161, dated 11th June 1932, from the Superintendent of Stationery, recommending the continuance of the arrangements sanctioned in the Government Orders read above, restricting the supply of stationery articles and of forms and registers to 50 per cent of the usual supply during the official year 1932-33 in view of the reduced provision under "Cost of Printing Paper and Stationery."

ORDER NO. G. 67-120—P. & S. 12-31-28, DATED BANGALORE, THE 4TH JULY 1932.

The proposal of the Superintendent is sanctioned.

APPENDIX II.

G. O. No. M. 5501-60—P. & S. 74-21-1, dated 1st June 1922.

Economising the use of Stationery and reducing Printing Work.

Issues instructions in regard to —— and calls for a report in the matter from Heads of Departments.

READ—

Government Order No. G. 21945-22005—P. & S. 7-20-3, dated the 20th May 1921, issuing instructions regarding the revised scales of stationery articles, etc., to be issued

to the different offices of the State and the economies to be effected in the issue of paper and stationery articles.

ORDER No. M. 5501-60—P. & S. 74-21-1, DATED THE 1ST JUNE 1922.

Government observe that in spite of repeated instructions for economising the use of paper and staitonery articles, etc., the expenditure thereon has not tended to diminish. Special efforts have, therefore, to be made in this behalf by Heads of Departments, Deputy Commissioners of Districts and other indenting officers, and the consumption of paper and stationery articles reduced to about 50 per cent of the average for the past two years.

2. The following instructions are issued in continuation of previous orders in the matter of economising the use of paper and stationery articles :—

(i) The use of both sides of paper should be strictly insisted upon in all possible cases and stringent measures adopted to stop wasteful use ;

(ii) Every available stock of paper and forms in the different offices of the State should be carefully conserved and profitably utilised ;

(iii) Obsolete or useless forms should, as far as possible, be used for reprinting of useful forms and for other purposes ;

(iv) Covers received should be cut open and used again, as far as possible, by pasting the cut end with slips ;

(v) Heads of Departments are requested to carefully examine the works sent from their departments to the press and see that printing work is reduced to a minimum both as to quantity and cost, and submit before the 31st July 1922, for the information of Government, a revised standing list of works from their departments that have got to be printed. The Superintendent, Government Printing, will furnish to the Heads of Departments and the Deputy Commissioners of Districts, before 30th June 1922, a list of printing works (showing the number of foolscap pages, cost of paper and cost of printing in each case) usually done for their departments, to enable them to submit the lists called for above, before the due date;

(vi) The Superintendent, Government Printing and Stationery should, on his part, use, wherever possible, thin paper instead of thick, and brown or other paper instead of white to keep down cost.

A statement showing the cost of stationery issued to the various indenting officers during 1921-22 should be submitted for the information of Government before the 15th July 1922.

3. Heads of Departments and Deputy Commissioners of Districts are requested to co-operate in this behalf and issue such subsidiary orders to their subordinate offices as may be necessary to achieve the end in view. A report of the action taken in this connection may be sent for the information of Government before 1st July 1922.

OFFICIAL MEMORANDUM.

ORDER No. E. 1737-95—P. & S. 74-21-9, DATED 7TH SEPTEMBER 1922.

In continuation of Government Order No. M. 5501-60—P. & S. 74-21-1, dated the 1st June 1921 and Official Memorandum No. M. 5595-639—P. & S. 74-21-2, dated 6th

June 1922, the following revised instructions in respect of the use of envelopes are issued:—

(1) Envelopes should be fastened by pasting a slip over the flap, without the flap itself being gummed, and the address and other details written or printed on this slip. The addressee will, in opening the envelopes, merely cut across the slip *without injuring the flap*, so that the envelope can be used again by pasting on it another similar slip.

(2) In the case of envelopes transmitted by post, the flap should contain instructions to the post office to impress its stamp on the slip only, even in the cases of envelopes on which the names of addressees have already been printed. Envelopes should be collected and returned to the office of issue as already directed in the Office Memorandum referred to above.

(3) In the case of long envelopes, slips with perforated cages may be pasted over the flaps, only one cage, namely, the outermost one on which the address is written, being gummed and utilised each time the cover is sent out.

(4) Wherever praticable, combined letter-envelopes should be brought into use and the use of separate envelopes dispensed with.

(5) The Superintendent, Government Printing and Stationery, will print slips to suit the several sizes of envelopes and supply them to the several officers together with the combined letter-envelopes.

(6) The supply of envelopes to Departments will be reduced by 50 per cent as the general observance of the above instructions is expected to result in a considerable saving in envelopes.

Revival of the Scheme of accepting Savings Bank Fixed Deposits.

READ—

Government Order No. Fl. 5520-80—G. F. 85-27-5, dated the 11th January 1928, directing that interest at five per cent per annum be allowed on amounts deposited in the Government Savings Banks with declarations by depositors that they will not be withdrawn for a period of five years from date of deposit.

2. Government Order No. Fl. 3990-4050—G. F. 123-32-2, dated 20th January 1933, directing that the rate of interest on five-year deposits in the Government Savings Banks accepted thereafter, be reduced from five per cent per annum to four and a half per cent per annum.

3. Government Order No. Fl. 5887-946—G. F. 156-32-6, dated 5th May 1933, directing that the scheme of accepting fixed deposits in the Government Savings Banks for five years at four and a half per cent interest per annum, be suspended until further orders.

ORDER NO. FL. 6889-948—G. F. 156-32-8, DATED BANGALORE, THE 28TH JUNE 1933.

Government direct that the scheme of accepting fixed deposits in the Government Savings Banks for five years, be revived with the modification that the rate of interest on these deposits which are accepted in future, will be reduced from four and a half per cent per annum to four per cent per annum.

IMPORTANT GOVERNMENT ORDERS

CHIEF SECRETARIAT

Revives the separate post of Personal Assistant to the Deputy Commissioner, Mysore District.

READ—

Government Order No. 2588-92—C. B. 83-31-1, dated 12th December 1931, directing that the separate post of Personal Assistant to the Deputy Commissioner, Mysore District, be suspended from 1st January 1932 and that the Special Land Acquisition Officer, Krishnarajasagara Works, be placed in additional charge of the duties of Personal Assistant.

2. Government Order No. 1583-89—K. S. S. 6862-68, dated 2nd June 1933, sanctioning the continuance of the post of Special Land Acquisition Officer, Krishnarajasagara Works, till the end of December 1933.

ORDER NO. 3711-4—C. B. 148-32-1, DATED BANGALORE, THE 24TH JUNE 1933.

In the first of the Government Orders read above, the separate post of Personal Assistant to the Deputy Commissioner, Mysore District, was kept in abeyance from 1st January 1932, as a measure of economy and the Special Land Acquisition Officer, Krishnarajasagara Works, was placed in additional charge of the duties of the Personal Assistant.

The period for which the appointment of Special Land Acquisition Officer, Krishnarajasagara, had been sanctioned, was due to expire by the end of June 1933. The Revenue Commissioner and the Chief Engineer, Krishnarajasagara, who were consulted in regard to the need for further continuing the term of the post, reported that it would be economical to have a separate officer as Personal Assistant to the Deputy Commissioner and to relieve the Special Land Acquisition Officer of the duties of Personal Assistant, as a whole-time officer can push through the acquisition work more vigorously and bring it to completion early with consequential saving in establishment charges, etc.

In the circumstances stated, Government direct that the Special Land Acquisition Officer, Krishnarajasagara Works be relieved of the duties of Personal Assistant to the Deputy Commissioner, Mysore and that the separate post of Personal Assistant, be revived.

Separate orders will issue in regard to the posting of an officer as Personal Assistant.

ANNEXURE.

Letter No. L. Dis. 3495-192 of 32-33, dated 8th May 1933, from the Director of Public Instruction in Mysore, to the General Secretary to Government.

I have the honour to submit for the information of Government, the report on the working of the Scheme of Backward Class Scholarships for the year 1932-33. The following provision was made in the current year's budget for scholarships to the backward classes :—

26. *Education.*

			Rs.
10 A. (vi)	1.	Scholarships to High School Students 585 (6) ..	35,100
	2.	Scholarships to Middle School Students 596 (3) ..	17,880
	3.	Special grant for minor backward class scholarships in all classes 1 and 2 above ..	1,000
		Total ..	53,980

The general funds (items 1 and 2) were administered as usual by the District and Taluk Ad Hoc Scholarship Committees. The Reserve and the Lapse Scholarships were awarded by this office. The sanctioned grant for scholarships to minor backward classes (*vide* item 3) was also administered by this office as usual.

I submit herewith three statements, I Statement showing for each group of backward classes the allotment, award and lapse of scholarships of III Grade tenable in High School Classes, II similar Statement in respect of scholarships of IV Grade tenable in Middle School Classes, and III Statement showing the distribution of scholarships to students of minor backward classes by each community.

The work of the District and Taluk Ad Hoc Scholarships Committees was satisfactory and the department is grateful to them for their co-operation in the successful administration of backward class scholarships for the year under review.

FINANCIAL SECRETARIAT

Sanctions the revival of the Scheme for grant of advances for purchase or construction of buildings and for purchase of motor vehicles and cycles.

READ—

Government Order No. Fl. 9876-925—G. F. 215-30-1, dated 30th June 1931, directing the temporary suspension of the grant of advances for construction and purchase of houses and for purchase of motor vehicles and cycles and of commutation of pensions.

2. Letter dated 2nd March 1933, from the Honorary Secretary, Mysore Non-Gazetted Officers' Association, Bangalore, forwarding certain resolutions passed at the General Meeting of the Association held on the 25th February 1933, praying that the schemes referred to above, may be revived.

ORDER No. FL. 7050-110—G. F. 193-32-3, DATED BANGALORE, THE 29TH JUNE 1933.

Government direct that the scheme for grant of advances for purchase or construction of buildings and for purchase of motor vehicles and cycles, be revived with effect from 1st July 1933.

IMPORTANT GOVERNMENT ORDERS

CHIEF SECRETARIAT

Revives the separate post of Superintendent, Revenue Survey and Settlement.

READ—

Government Order No. 189-243—C. B. 13-31-2, dated 9—10th July 1931, suspending the separate post of the Superintendent, Revenue Survey and Settlement, until further orders, and directing that the functions of the Superintendent, Survey Department, be performed by the Revenue Commissioner.

2. Government Order No. 3914-6—C. B. 106-31-2, dated 4th May 1932, sanctioning the appointment of Deputy Superintendent, Revenue Survey (in lieu of the Headquarter Assistant) with a view to afford relief to the Revenue Commissioner from the routine work of the Survey Department.

ORDER NO. 69-124—C. B. 127-32-2, DATED BANGALORE, THE 6TH JULY 1933.

The combination of the post of the Superintendent, Revenue Survey, with that of the Revenue Commissioner ordered in the first of the Government Orders read above has not been found to be a convenient arrangement. Even without the additional charge of the Survey Department, the Revenue Commissioner has enough to do as the head of the Revenue and Muzrai Departments and as the chief controlling authority of the Village Panchayets. Government are therefore pleased to direct that the separate post of Superintendent, Revenue Survey and Settlement, be revived and the Revenue Commissioner relieved of the duties of this Department. The post of Deputy Superintendent, Revenue Survey, will be abolished.

R. RANGA RAO,
Chief Secretary to Government.

Reconstitues the personnel of the Boards of Visitors for the District Hospitals.

READ—

The marginally noted Government Orders sanctioning the constitution of the Boards of Visitors for the Hospitals at the District Headquarters in the State (excepting Bangalore and Mysore), and for certain Local Fund Dispensaries in the Districts.

5. G. O. No. 1744-6—Med. 89-29-82, dated 11th August 1930.

2. Correspondence ending with letter No. C. 424-10, dated 16th June 1933, from the Senior Surgeon, forwarding for sanction of Government, proposals in regard to the personnel of the Boards of Visitors, in respect of the Hospitals and Dispensaries, except in the Mysore District, referred to in the Government Orders read above.

ORDER NO. G. 108-16—MED. 115-32-4, DATED BANGALORE, THE 8TH JULY 1933.

The period for which the several Boards were constituted, having expired, Government are pleased to approve of the personnel of the Boards as shown in the list appended to this order. The Boards will function for a period of two years.

2. The Senior Surgeon is requested to send up proposals for the Mysore District.

Reviews the Report on the working of Jails and Lock-ups.

READ—

Report on the working of Jails and Lock-ups in the State, during the Calendar year 1932, received from the Inspector-General of Prisons with his letter No. C. 839-27, dated 25th May 1933.

ORDER No. G. 136-47—PRIS. 73-32-4, DATED BANGALORE, THE 5—11TH JULY 1933.

Recorded.

2. The total number of prisoners of all classes confined in the Jails and Lock-ups including 886 prisoners remaining at the end of the previous year was 6,983. Of these 6,103 were discharged leaving a balance of 880 prisoners at the close of the year. The daily average number of prisoners fell from 854·11 during the previous year to 836·77 in the year under report. It is gratifying to note that the number of Juvenile prisoners under the age of 15 decreased from 115 to 88, and the number of first offenders fell from 79 in 1931 to 40 in 1932. The number of prison offences declined from 951 in 1931 to 883 in the year under review. The percentage of corporal punishments awarded to prisoners for Jail offences however shows an increase from 5·99 during the previous year to 7·36 in the year under report.

3. The gross expenditure of the Department was Rs. 1,27,587 against Rs. 1,35,105 showing a decrease of Rs. 7,518.

4. The cash earnings from the employment of convicts on remunerative labour fell from Rs. 38,092 during 1931 to Rs. 29,062 giving an average cash earning of Rs. 55-7-5 per head of prisoners sentenced to labour as against Rs. 74-6-4 during 1931. The total cost of maintenance of prisoners in the two Jails was Rs. 1,01,737 as against Rs. 1,06,287 in the previous year. The average net cost after deducting cash earnings works out to Rs. 105-8-4 per head as against Rs. 98-6-2 in the previous year. The increase in the average cost is reported to have been due to the increased expenditure under dietary charges as well as to the decrease in the earnings of the prisoners, the increase in the dietary charges itself being due to bills of the previous year having been paid during the year under report.

5. The health, discipline and conduct of the prisoners in the Jails and Lock-ups continued to be satisfactory throughout the year.

6. A sum of Rs. 54,440-12-0 was realised during the year from industries in the two Jails against Rs. 56,467-3-4 in the preceding year.

7. Orders have since issued converting the Mysore Jail into a Sub-Jail functioning directly under the control of the Inspector-General of Prisons.

8. On the recommendation of the Standing Advisory Boards of the two Jails, 35 long-term prisoners were released on probation.

9. Government are pleased to note that the administration of the Department during the year was satisfactory.

Chief Secretary to Government.

Quantum of Remission on wet lands yielding a good dry crop.

READ—

Government Order No. R. 1566-77—R. M. 53-31-2, dated 15—16th September 1932, directing the insertion of the following rule as Rule 4 (*a*) of the Remission Rules:—

"In cases in which wet and garden lands excluding those under perennial garden crops like areca and cocoanut have been cultivated with dry crops with an yield of not less than eight annas, the remission allowable under Rule 4 will be reduced by the average rate of dry assessment prevailing in the village."

ORDER NO. R. 92-103—R. M. 2-32-155, DATED BANGALORE, THE 7—8TH JULY 1933.

In modification of the order read above, Government are pleased to direct that the remission allowable in cases of the kind contemplated in the order, be fixed at half the difference between the wet rate on the land concerned and the average rate of dry assessment prevailing in the village.

Accordingly, the existing Rule 4 (*a*) will be replaced by the following rule:—

Rule 4 (*a*).—" In cases in which wet and garden lands excluding those under perennial garden crops like areca and cocoanut have been cultivated with dry crops with an yield of not less than eight annas, the remission allowable under Rule 4 will be half the difference between the wet rate on the land concerned and the average rate of dry assessment prevailing in the village."

Extends the Scheme of Compassionate Gratuity to the employees of the District Boards and Municipalities also.

READ—

Government Order No. Fl. 7418-77—S. & A. 252-28-4, dated 1st—3rd April 1929, introducing a provisional scheme of Compassionate Gratuity to the families of deceased Government servants.

2. Government Order No. Fl. 2283-343—S. & A. 252-28-6, dated 24—25th September 1929, directing that the scheme of Compassionate Gratuity sanctioned in the order read above be given effect to from the 31st January 1929.

3. Government Order No. Fl. 1221-63—S. & A. 46-30-1, dated 16th August 1930, recording the communications received from certain local bodies agreeing to the extension of the scheme to their employees.

4. Communications received from certain other local bodies in the matter.

ORDER NO. FL. 34-60—S. & A. 40-32-1, DATED BANGALORE, THE 5TH JULY 1933.

The applicability of the rules relating to the grant of Compassionate Gratuity to persons who have rendered service under District Boards and Municipalities has been considered by Government. At present, according to Section 90 of the Mysore District Board Regulation and Section 46 of the Municipal Regulation, pensions, gratuities, etc., payable to the employees of the District Boards and Municipalities are regulated by the same rules as are applicable to Government employees, *viz.*, the rules contained in the Mysore Service Regulations. The scheme of Compassionate Gratuity sanctioned in Government Order No. Fl. 7418-77—S. & A. 252-28-4, dated 1st—3rd April 1929, and embodied in the Mysore Service Regulations as Appendix V, is therefore applicable to the employees of the District Boards and Municipalities also. The Compassionate Gratuity so paid will be charged to the fund which was meeting the pay of such employees.

2. Some Local Bodies, however, feel a doubt as to whether they should bear charges on this account in addition to pensionary contribution which they may be paying on behalf of their staff. The pensionary contribution at one-ninth of the sanctioned salaries now paid by the Local Bodies under Articles 266 B and C of the Mysore Service Regulations, as against one-sixth fixed in British India, covers only the

liability on account of pensions and is not intended to cover the new and additional liability on account of Compassionate Gratuity. Government therefore direct that the latter has to be borne by the Local Bodies in addition to the pensionary contribution referred to above.

3. In the case of employees including deceased pensioners whose pay while in service has been met from more than one source, *viz.*, General Revenues, District Funds, Municipal Funds, etc., the amount of Compassionate Gratuity paid will be charged to the respective fund accounts according to the Rule of Proportions.

4. This order will take effect in regard to the employees of Local Bodies from the date of the introduction of the scheme of Compassionate Gratuity, *i.e.*, 31st January 1929.

5. The Comptroller is requested to see that these instructions are incorporated in the Municipal Account Manual and the Local Board Account Rules.

A. N. RAGHAVACHAR,
Offg. *Secretary to Government,*
Financial Department.

PUBLIC WORKS SECRETARIAT

Grants permission to Messrs. Spencer & Co., for fixing Advertisement Boards on the Main Road at Maddur.

(1) Government Order No. P. W. 2996-99—S., dated the 20th May 1932, directing that a fee of Rs. 12 per board per annum, be levied for exhibiting advertisement boards at Gundlupet Travellers' Bungalow, from each of the Companies, desirous of putting up their advertisements.

(2) Letter No. G. 263—22, dated the 7th December 1932, from the Traffic Manager, Mysore Railways, recommending the grant of permission to Messrs. Spencer & Co., to erect three advertisement boards, on the main road at Maddur at the entrance of the Railway Station.

ORDER No. P. W. 1628-58—S., DATED BANGALORE, THE 19TH JANUARY 1933.

Applications are being received from private companies, requesting permission to put up advertisement boards on State Fund Roads, in certain important places. As these boards are meant solely for purposes of advertisement, Government are pleased to direct that a fee of Rs. 12 per annum be levied for each board. The Executive Engineers of the Divisions will be authorised to grant licenses for the erection of these boards and they are also empowered to get them removed or shifted as may be found necessary.

The fee realised will be credited to the Road Fund.

The Agent, Mysore Railways, shall be *ex-officio* Chairman of the Committee, the Assistant Traffic-Manager being the Secretary to the Committee.

The rules for the working of the Committee as approved are appended to this order.

A. A. KHAN,
Secretary for Railways,
Government of Mysore.

ANNEXURE.

RULES RELATING TO THE MYSORE RAILWAY ADVISORY COMMITTEE.

1. *Constitution of Committee.*—The Committee shall consist of a Chairman and not less than six, nor more than ten other members.

2. *Appointment of Chairman and Railway Members.*—The Agent of the Mysore Railways shall be *ex-officio* Chairman of the Committee. The Agent shall appoint a Senior Officer of the Mysore Railways to act for him during his absence.

3. *Terms of Office of Members.*—The members of the Committee shall hold office for a term of two years commencing from 1st July 1933. Any person ceasing to be a member shall be eligible for re-appointment on re-election.

4. *Meetings for Transactions of Business.*—The Committee shall meet together and shall from time to time make such arrangements with respect to the day, hour, notice, management and adjournment of its meetings as it may think fit subject to the following conditions:—

(*a*) That a meeting shall be held ordinarily once a quarter.

(*b*) That the Chairman may whenever he thinks fit call for a special meeting.

(*c*) That no business shall be transacted unless at least four members are present throughout such meeting.

(*d*) That every meeting shall be presided over by the Agent, if he is present, if, and when he is absent, by such Senior Officer of the Mysore Railways as may be appointed by him.

(*e*) That minutes shall be kept of the names of the members present, and of the proceedings of each meeting, in a book to be provided for this purpose, which shall be signed as soon as practicable by the Chairman of such meeting, and shall be open to inspection by any member of the Committee.

(*f*) The Chairman may, with the consent of the meeting, adjourn it.

5. *Functions of Committee.*—The functions of the Advisory Committee shall be purely advisory, as its name implies. Questions of personnel, discipline, appointments and transfers will not be brought before the Committee. The Committee shall have no authority to enquire into, or interfere in any way with the general administration of the Railway. The Committee shall have no authority to act as a Conciliation Board. The Agent may, however, at any time, if he thinks fit, ask for the advice of his Advisory Committee on any matter.

In the event of any question arising before the Committee in regard to the limit of its functions, the decision of the Chairman shall be final, subject to any orders that may be issued by the Government of Mysore, to whom the question shall be referred.

6. *Scope of Duties.*—The Committee shall be authorised to discuss and record its opinion on the following subjects:—

(1) Alterations in the Time Table of passenger services.
(2) Alteration in Rates and Fares, and changes of Goods Classification.
(3) Proposals in regard to new projects and extensions.
(4) Proposals in regard to new Rolling Stock.
(5) Any matters affecting the general public interest or convenience.

Any member of the Committee shall be at liberty to suggest subjects for discussion, unless inadmissible under para 5 but the Chairman may rule out any subject for reasons which should be explained at the first meeting after the ruling is given.

7. A copy of the minutes of the meeting shall be furnished to each member of the Committee, to the Government of Mysore and to the Press in the form of a Press Communique.

If in any case the Chairman decides, that he is unable to follow the advice of the majority of the Committee, he shall bring the matter to the notice of the Government of Mysore, when forwarding the minutes of meeting for their perusal.

8. The Chairman shall furnish the members of the Committee with the regular periodical returns of traffic and such other information in regard to the traffic of Mysore Railways as may from time to time be available, and with which they may desire to be supplied

9. No action shall be taken on any representation of the Committee without the approval of the Agent, unless the Government of Mysore shall in any case otherwise direct. The Agent shall, however, carefully consider all such representation, and so far as he may find them in conformity with the general instructions of the Government of Mysore and likely to be beneficial to the undertaking, and to serve the public convenience he shall endeavour to give effect to them.

10. The Committee shall bear in mind, that while they are invited to act in consultation with the Agent of Railway Administration with a view to extend the facilities for traffic on the Railway, and increase the convenience offered to the public, they are also required to give due weight to the responsibility which rests on the Administration of the Railway to respect the legitimate interest of the Government of Mysore and the Railway Department in maintaining the revenue.

11. The Chairman shall have power to allow any officer of the Railway who is not a Member to be summoned at Special Meetings where his presence is necessary.

12. *Remuneration and Passes.*—Travelling and halting allowances on the same scales as are paid to the members of the Standing Committee for Railways, Public Works and Electrical Departments and Economic Conference will be paid to every non-official member of the Railway Advisory Committee other than the Chairman or any Railway Member for each meeting of the Committee. As regards non-official resident members, daily allowance only will be allowed.

13. Passes over Mysore Railways and actual fares over other Railways as are allowed to non-official members of the Standing Committee for Railways, Public Works and Electrical Departments and Economic Conference will be granted to members of the Railway Advisory Committee residing out of Mysore when attending meetings.

IMPORTANT GOVERNMENT ORDERS

DEVELOPMENT SECRETARIAT

Passes orders in regard to the Calculation of Cesses on fractions of a rupee of Excise Revenue.

READ—

Letter No. B3—569, dated 14th November 1932, from the Excise Commissioner, stating that the practice in the several Districts in regard to the levy of education cess on fractions of a rupee on certain items of Excise Revenue has not been uniform and recommending that for the calculation of all cesses, the total amount on which the cesses are levied in each transaction may be rounded off to the next higher figure (in rupees) when the fraction is eight annas or more and where the fraction is less than eight annas, it may be omitted from calculation.

2. Correspondence ending with letter No. C. 2851—32-33, dated 15th June 1933, from the Revenue Commissioner, stating that the proposal of the Excise Commissioner as regards the calculation of cesses on fractions of a rupee of Excise Revenue may be approved.

ORDER NO. FL. 163-73—EX. 44-32-2, DATED BANGALORE, THE 12TH JULY 1933.

Government are pleased to approve of the proposal of the Excise Commissioner agreed to by the Revenue Commissioner.

S. ABDUL WAJID,
Secretary to Government,
Development Department.

GENERAL SECRETARIAT

Reviews the Report on Public Instruction in Mysore for the year 1931-32.

READ—

The Report on Public Instruction in Mysore for the year 1931-32, submitted by the Director of Public Instruction in Mysore, with his letters Nos. G. 2-1033-1111 of 32-33, dated 8th December 1932 and Gl. 1033-11 of 32-33, dated 10th December 1932.

ORDER NO. E. 202-261—EDN. 206-32-5, DATED BANGALORE, THE 15TH JULY 1933.

Recorded.

2. *Direction.*—Mr. N. S. Subba Rao, M.A., (Cantab.), Bar.-at-Law, was in charge of the Department during the year.

Dr. S. Paul Chinnappa, M.A., L.T., Ph.D., continued as Deputy Director, Headquarters, till 11th April 1932, when he was posted as Deputy Director of Public Instruction, Bangalore Division, *vice* Mr. M. Sultan Mohiyuddin, M.A., LL.B., M.Ed., whose services were temporarily placed at the disposal of the Hon'ble the Resident in Mysore for employment as Inspector of Schools, Coorg and Bangalore. Mr. R. Jagannatha Rao, B.A., L.T., Secretary to the Local Examinations Boards, was appointed Office Assistant against Dr. Chinnappa's post. Mr. K. T. Sudarsanam Iyengar, B.A., continued as Personal Assistant to the Director till 9th September 1931, when the post was abolished as a measure of retrenchment, and Mr. V. Naraniengar continued as the Financial Assistant to the Director. The post of Lady Assistant to the Director was also abolished and the Headquarters of the Deputy Director, Shimoga Division, were transferred to Bangalore.

3. *Touring and Inspection.*—The Director toured for 110 days, and visited 250 Offices and institutions. He, also, attended 130 meetings and conferences. The touring and inspection of the Deputy Directors and the District Educational Officers were, on the whole, satisfactory. Owing to the reduction in the allotment for travelling allowances, some relaxation in the rules regarding the amount of touring and inspection work of these officers was permitted. It is reported that the District Educational Officer, Mysore (Mr. M. S. Rajagopala Rao, M.A.), left thirteen Middle Schools and two offices under his direct charge uninspected, owing to the heaviness of his charge, and that the inspections and visits of the District Educational Officer, Tumkur, (Mr. Mahomed Davood, B.A.,) were rather hurried at times. Government trust that better progress will be shown by these officers in future.

As a measure of retrenchment, the posts of the Assistant Inspectresses of Kannada Girls' Schools were abolished and their work transferred to the Assistant Inspectors.

The work of the Assistant Inspectress of Urdu Girls' Schools showed an improvement over that of the previous year. The reason given, however, for Miss M. Yusuf Ali, the Assistant Inspectress of the Mysore Division, not having inspected 11 schools, *viz.*, that she did not tour for three months owing to the restricted travelling allowance, is not satisfactory.

4. *Statistics.*—The total number of educational institutions of all kinds under the control of the Director of Public Instruction and the University and their strength on 31st March 1932, as compared with the corresponding figures for the previous year were as follows :—

Particulars	1930-31		1931-32		Remarks
	Number	Strength	Number	Strength	
Government ..	5345	2,38,860	371* (Local Bodies)	39,240	*Due to the transfer of all Government Primary Schools to Local Bodies under the Elementary Education Regulation.

Private ..	1224	18,484	1216	19,042	
Grand Total ..	8315	3,23,046	7914	3,09,788	

The large decrease in the number of schools is reported to be due to the amalgamation of some of the Girls' Primary Schools and Adikarnatakas' schools with general

schools, the abolition of a large number of languishing schools, especially the Adult Night Schools and the amalgamation of the Incomplete Middle Schools with Primary Schools. The decrease in the number of scholars is attributed to the unprecedented economic depression which compelled parents to withdraw their children from schools and utilise their labour, the removal from the rolls of the names of pupils who were very irregular in attendance and the correction of the tendency on the part of the teachers in village schools to keep on the rolls the names of children under school age.

The percentage of boys and girls at school to the population of school-going age, calculated at 15 per cent of the total population according to the census of 1931 was 32·2 as compared with 36·75 in 1930-31; that of boys only to the male population of school-going age was 50·7 as compared with 58·05 and that of girls only to the female population of school-going age was 12·7 as compared with 14·62 in the year previous. Though there has been a decrease in the number of pupils attending schools for reasons stated above, the decrease is however not so great as the comparison with the previous year's figures would imply, as those figures were based on the census of 1921, whereas the figures of the year under report are based on the census of 1931 which showed a large increase of population. The average daily attendance was 76·82 per cent of the average monthly number on the rolls as compared with 75·89 in the previous year.

On an average, there was one school for every 3·7 square miles of area and 812 persons of the total population; and one out of every 3·1 of the population of school-going age was under instruction. The proportion of pupils to the total population was 1 in 20·7 as compared with 1 in 19·94 in the previous year. The percentage of boys under instruction to the total male population was 7·6, that of girls to the total female population 1·9 and that of both boys and girls under instruction to the total population 4·8. The respective figures for the previous year were 8·7, 2·12 and 5·51, but for reasons explained above, these percentages having been based on the Census of 1921, do not provide an accurate criterion of the state of education in the year under report. The percentage of pupils in each stage of education to the total number of pupils was as follows :—

		Boys.	*Girls.*
1.	University ..	1·3	·20
2.	High Schools ..	2·9	1·45
3.	Middle Schools ..	12·8	3·57
4.	Primary Schools ..	80·7	93·73
5.	Special Schools ..	2·3	1·05
		100·0	100·0

5. *Expenditure.*—The total expenditure, both direct and indirect on public instruction met from the several sources noted on the margin was Rs. 69,01,850 or Rs. 6,598 less than that of the previous year. Of this, a sum of Rs. 13,29,142 was spent on University Education. The direct expenditure, *i.e.*, excluding cost of direction, inspection, equipment, etc., amounted to Rs. 50,46,526 which represents approximately 73·1 per cent of the total and this was spent on the following grades of education :—

		Rs.		
1.	State Funds ...	53,12,771	or	77 per cent.
2.	Local Funds ...	5,79,554	or	8 ,,
3.	Municipal Funds	69,682	or	1 ,,
4.	Fees ...	6,66,927	or	9·6 ,,

4.	High Schools	6,84,592	9·9
5.	Middle Schools	8,47,380	12·3

Consequent on the transfer of control over Primary Education to the Local Education Authorities constituted under the Elementary Education Regulation of 1930,

the Education Cess Fund accounts of the several districts were closed and the balances remitted to the respective treasuries to form the nuclei of the Elementary Education Funds of the several Local Education Authorities. The total amount thus remitted was Rs. 7,56,563-7-5. Including the Government grants and other receipts, these funds aggregated to Rs. 27,48,281 during the year under report. It is observed from the statement of expenditure that the funds of the Shimoga and Chitaldrug Local Education Authorities had minus balances at the end of June 1932. These authorities should take early steps to improve their financial position and adjust their budgets. In the review of the report for 1930-31, the Director was requested to report the reason for the fall in the education cess collections of certain districts, including the above two. This report has not been received till now. The Director's attention is once more invited to the matter and he is requested to submit the report without further delay.

The average cost of education per head of population was Re. 1-1-2 as compared with Re. 1-2-10 in the previous year. Of this, a sum of Re. 0-13-3 was met from State Funds as against Re. 0-15-1 in 1930-31. A saving of Rs. 1,62,768 was effected out of the sanctioned budget grants of the Department, chiefly under measures of economy necessitated by the adverse financial position of the State.

A large number of local benefactions was, as usual, made to supply the pressing need for suitable accommodation for schools. The more important of these are the following:—

(1) Dharmadurandhara Sahucar Maralu Siddappa of Halkur donated a building worth about Rs. 15,000 for Local Middle School.

(2) Messrs. Devegowda and Lingegowda, sons of the late Mr. Kuntalagowda of Kothanaghatta, Channarayapatna Taluk, constructed a building worth about Rs. 2,500.

(3) Mr. Moganna Setty, Patel, Kellengar, Arsikere Taluk, constructed a building worth about Rs. 2,000.

(4) The Village Panchayets of Chikkopal and Ankanahalli in the Yedatore Taluk, constructed buildings worth Rs. 5,000 and Rs. 2,500, respectively.

6. *Secondary Education of Boys.*—As in the previous year, there were 29 High Schools for boys but their strength increased from 6,528 to 6,596 pupils. The increase was, however, not uniform. Some schools showed a considerable increase while others were the reverse. Among the latter, the decrease in the Government High Schools at Kolar and Tiptur was most marked due, it is said, to the prevalence of plague and cholera. Of the 29 High Schools, 17 were Government, 6 Municipal, and 6 Aided. In addition, there were two unaided High Schools, one the S. L. N. Institute, Bangalore and the other at Goribidnur.

The High Schools were generally maintained in a satisfactory condition. The results of the S.S.L.C. Examination were satisfactory, except in the Government High Schools at Channapatna, Chikmagalur, Nanjangud, the Maharani's High School, Mysore and the Municipal High School, Malvalli. The reason given for the poor results in the High Schools at Channapatna, Kolar and Tiptur is that the work was dislocated on account of the prevalence of epidemics. The schools at the other places mentioned above had no such handicap. The condition of the High School at Nanjangud appears to be unsatisfactory and requires careful attention of the Department. Some of the schools are said to be in need of extra accommodation, furniture and appliances. These will have to be provided as funds permit.

Government are glad to note that the Municipal High Schools continued to progress. The strength of the school at Malvalli, however, is still too poor for a High School, being only 63. The S.S.L.C. Examination results were also unsatisfactory in this school. Government trust that the authorities concerned will take steps to improve the position. The school at Bowringpet has been provided with a building of its own and it is reported that active steps are being taken to do the same at Chintamani and Hole-Narsipur also. The other schools are said to be badly in need of suitable accommodation. Most of the Municipal Schools are also said to be handicapped by the want of play grounds. Government desire that early steps be taken to remedy these drawbacks.

Much attention was, as usual, paid to the extra-curricular activities of the High Schools. Except in a few places which were handicapped by epidemics or the lack of play grounds, outdoor games were regularly played. Scouting was a common

feature of almost all the schools, and in a few, ambulance training was also given. Mental recreation was provided in the shape of Debating Societies, Literary Unions and the publication of School Magazines. Some schools had Parent-Teachers' Associations and some also maintained Co-operative Societies. The "House" system which is in vogue in the London Mission and the Wesleyan Mission Schools, is said to have been useful in fostering the team spirit and a keen sense of individual responsibility among the students while the problem of school discipline was rendered easier by the Panchayet System introduced in the latter institutions. Government would like to see these systems introduced in as many of the other institutions as possible. It is observed that a few schools have established Poor Boys' Funds. Government expect the Department to see to it that the collections and distribution of these funds are in the hands of properly constituted committees.

The Dalton Plan of teaching was continued in one section of the V and VI Forms only of the Maharaja's High School. The Director reports that the scheme has proved successful and deserves to be made a permanent feature or at least the period of the experiment extended for another three years. As this is a question of funds, Government would be glad to consider any feasible proposal submitted by the Director for meeting the cost. The experiment of holding only one session of the classes in the morning was tried in Chikballapur, Nanjangud and the National High Schools, but had to be given up as it was found unsatisfactory.

Another experiment that was introduced during the year was the introduction of Kannada as the medium of instruction in the IV Form in History and Geography in a few select High Schools. The Government are glad to find that this system is proving successful.

The total number of candidates registered for the S. S. L. C. Public Examination of 1932 was 2,852, of whom 2,458 were ordinary candidates and 394 passed candidates seeking supplementary certificates for admission to the University or to special groups of study in the Intermediate class. Out of the 2,458 ordinary candidates registered, 2,422 were examined and 1,394 were declared "passed", the percentage of passes to the number examined being 57·5 against 61·3 in the year previous. Out of the 1,934 candidates declared "passed", 773 were declared eligible for admission to college course of study by the University of Mysore, the percentage to the number passed being 55 against 54 in the year previous. Of the 394 candidates registered for supplementary certificates, 388 sat for the examination and 208 were declared eligible for admission to the college course of study, giving a percentage of 55·7 compared with 32 per cent of the candidates who appeared for the first time. The results of the private candidates were as usual, far from satisfactory, the percentage of passes being only 22 against the State average of 58.

The results of the Vernacular Upper Secondary Examination were again poor. Only 65 candidates passed out of 218 that were examined, giving a percentage of 30 against 33 in 1931 and 38 in 1930. The Director is requested to examine the causes for this deterioration and take steps to remedy any defects observable.

Under the auspices of the Mysore Secondary Education League, the Conference of the All-India Federation of Teachers' Associations was held at Bangalore in December 1931 along with an All-India Educational Exhibition.

7. *Middle School Education of Boys.*—The number of Middle Schools for boys increased from 284 to 290 and their strength from 28,633 to 29,899 pupils. Of the 290 schools, 262 were Government Institutions, 25 aided and three unaided. The rules for the Middle School and the Lower Secondary Examinations were revised during the year.

All the Incomplete Middle Schools were abolished, the more promising ones having been developed to Complete Middle Schools and the remainder reduced to the status of Primary Schools with Lower Secondary classes attached to them.

The percentage of passes in the Middle School and the Lower Secondary Examinations was 40·6 and 30·9 against 34·6 and 29·5 in the previous year.

The report again draws attention to the urgent need that exists for improving the staff and accommodation of Middle Schools. In connection with the remarks of Government regarding this matter in their last review, the Director has reported that the question of accommodation is being attended to as far as funds permit. As regards staff, he has submitted proposals which are under the consideration of Government.

In the Report under review, he says that "with a view to provide Middle School Education with less cost until the financial conditions improve, the aim should be to develop the Vernacular Lower Secondary classes in Primary Schools and if there be a demand for English Education in these places, an English hand might be appointed to coach passed Lower Secondary candidates for the Middle School Examination instead of opening fresh Middle Schools." Government agree in the view that education of the Vernacular Lower Secondary grade should be provided in as many of the Primary Schools as possible, and that for the benefit of those who have passed the Lower Secondary Examination and wish to proceed to English Schools, Special English Classes may be opened. These should, however, be attached to High Schools and not to Vernacular Schools.

8. *Practical Instruction.*—The number of Practical Instruction classes actually working in Middle Schools, Adikarnataka Boarding Houses and Adikarnataka Primary Schools was 95 against 96 in the previous year. Of these, 89 were in boys' and 6 in girls' institutions. Government are glad to learn that though many of them are said to have been hampered for lack of accommodation or funds, the work of the Practical Instruction classes was, on the whole, satisfactory, and that the non-official members of the supervising committees co-operated whole-heartedly in the work. Another hopeful feature is the fact that the Instructors of these classes are themselves striving after self-improvement and undergoing further training at their own cost.

It is reported that the Practical Instruction classes suffer for want of proper co-ordination between the Middle and the High Schools. In the last Review, the Director was requested to examine the whole scheme of Practical Instruction as early as possible, with a view to see how far it has helped in giving a vocational bias to education. His report is awaited.

9. *Primary Education.*—In accordance with the Elementary Education Regulation of 1930, the administration of all Government Primary Schools, Village Aided Schools, Adult Night Schools, etc., numbering in all 6,109, was transferred to the Local Education Authorities with effect from 1st July 1931. Owing to financial stringency, however, a separate inspectorate was not instituted. Rules were issued for the proper working of the Regulation and the amounts payable to the Elementary Education Fund of each Local Education Authority were fixed. Government are glad to note that the School Boards are evincing keen interest in the working of the schools, co-operating with the Executive. The programmes of Expansion of Elementary Education on a voluntary basis which were due at the end of the year under review have not yet been received from any of the Local Education Authorities. The time for submission of the programmes has been extended. The Department should give every assistance to Local Education Authorities and School Boards to prepare the schemes correctly and in a satisfactory manner.

The number of Primary Schools for boys on 31st March 1932, was 5,676 with a strength of 2,10,944 pupils, including 23,482 girls, against 5,857 schools with a strength of 2,22,816 pupils, including 25,980 girls, during the year previous. Of the 5,676 schools, 10 were Government ones, 4,424 were under the control of the Local Education Authorities, and 1,242 were aided schools. In addition, there were 1,216 village indigenous schools, *i.e.*, schools neither recognised by, nor receiving any grants from Government, with a strength of 19,042 pupils (including 2,010 girls) as against 1,224 with a strength of 18,484 pupils (including 1,968 girls) in the previous year.

The percentage of boys in the Primary Classes to the total male population of school-going age, calculated at 15 per cent of the male population according to the Census of 1931, was 42·82 against 49·75 in the previous year. The decrease is said to be due to the fall in the number of pupils in the Primary Classes and also to the fact that the present figure is based upon the population as given in the Census Report of 1931, which is greater than that of the 1921 Census on which the previous years' figure was based. The percentage of pupils in the First Year Primary Class was 52·42 against 54·57 in 1930-31. Though the percentage is still high, it is reported that there is a steady decrease in the retardation of pupils in the class owing to the adoption of such remedial measures as the insistence on periodical admission, the removal of the names of irregular pupils from the rolls, the reduction in the number of "single teacher" schools, the employment of trained teachers, the adoption of rational methods of teaching, etc.

There were 69 schools for the education of adults with a strength of 1,729 pupils, against 282 schools with a strength of 6,333 pupils in 1930-31. The decrease is due to the abolition of a large number of schools either on account of inefficiency or as a measure of economy. The Director, however, states that in view of the importance of Adult Education in preventing a lapse into illiteracy and in making the citizen fit to shoulder his responsibilities in the rapidly progressive political field, the whole position in regard to such education will have to be examined when funds permit. Government agree in this view.

10. *Special Institutions.*—There were ten institutions for the training of men teachers, including the three grades of training in the Government Training College, Mysore: Of these, nine were Government institutions and one was an unaided institution. The total strength of all these institutions was 657 as compared with 688 in 1930-31. The results of the Teachers' Certificate Examination were satisfactory, except, as usual in the Lower Secondary Grade. Orders have since been passed by Government (in Government Order No. Camp E. 5-6—Edn. 305-32-3, dated 7th June 1933) sanctioning the proposals of the Director for the revision of L. S. T. C. Course. As a measure of economy, no teacher was selected to undergo training for the B. T. Course of the University.

The work of the School of Engineering continued to be satisfactory. Out of 133 candidates who appeared for the Technical Board Examinations in April 1932, 99 passed. In addition to its usual work the school also conducted certain vocational classes for High School students and a Draftsmen's Class for the Public Works and other Engineering Departments.

As regards commercial schools, there were six in all—one Government, two aided and three unaided—with a total strength of 646 students. The working of these institutions was on the whole satisfactory, but a perceptible deterioration in the examination results is noticed in the case of the Champion Metropolitan College of Commerce, Mysore. It is hoped that this institution will show better progress in future. A course of Banking for training bank clerks for the Associates' Examination of the Indian Institute of Bankers was opened in July 1932 at the Government Institute of Commerce and Accountancy, Bangalore. Bangalore was also made a centre for the G. D. A. Examination of Bombay, tentatively for two years.

The management of the Central Institute for Defectives at Mysore, was reorganised during the year and the Institute was made a non-vacation institution in view of the fact that the inmates forget what they have learnt during the summer vacation. The strength of the Institute was 75 as against 86 during the year previous. The decrease was due to the transfer of seven deaf girls to the Vocational Institute for Women at Mysore and to a few pupils having been withdrawn after the completion of the course. Of the 75 pupils, 32 were deaf mutes and 43 blind children. The usual practice of teaching music to all the blind pupils was given up and this subject was restricted to those who had an aptitude for it, the others being taught some suitable industry. Gardening was newly introduced and it is reported that the institute grew all the vegetables required for the inmates. Adequate attention was also paid to physical culture, diet and health. The work of the Institute during the year was quite satisfactory under the enthusiastic guidance of Sir Charles Todhunter and his Committee who have spared no pains to ensure the welfare of the inmates.

The number of Sanskrit Patasalas was 79 with a strength of 1,734 pupils including 115 girls, as against 77 with a strength of 1,846 pupils including 161 girls, during 1930-31. The orders regarding the systematisation of studies in these Patasalas were given effect to in full during the year and the common examination prescribed for the final year course of the Primary Section of all the Patasalas held for the first time in October 1931. Out of the 184 candidates that sat for the examination, 120 are said to have passed and it is interesting to note that a lady candidate topped the list of successful candidates.

11. *Women's Education.*—The number of women's educational institutions of all grades was 566, including two colleges, five English High Schools, two Industrial and three Training Schools, with a strength of 34,401 pupils (including 503 boys) as against 624 with a strength of 34,892 pupils during the year previous. Besides these, there were 24,064 girls studying in boys' schools, bringing the total number of girls under instruction to 57,962 as against 61,110 in 1930-31.

The work of the English High Schools was on the whole satisfactory, except in the Maharani's High School, Mysore. The results of the S.S.L.C. Examination however were poorer than in the year previous, the percentage of passes being only 50 as against 55·7. As regards Vernacular High School Education of girls, the Women's Training College is the only institution where Kannada Upper Secondary Classes are maintained, but Government regret to note that the results of the examination were, again, unsatisfactory. The Director is requested to investigate into the causes and bring about an improvement in the position.

In regard to Training Institutions, it is reported that there is no adequate response from private candidates for admission to the L. S. T. and U. S. T. classes in the Women's Training College, Mysore, in spite of the number of stipends offered. It is also regrettable to note that the results of the examination in this institution, as well as in the Zenana Normal School, Mysore, were unsatisfactory. Government trust that better progress will be shown in future.

There were 30 Middle Schools for girls with a strength of 2,158 pupils as against 28 with a strength of 1,860 in the previour year. The percentage of passes in the Middle School and the Lower Secondary Examinations was 46·4 and 32·2 as against 41·4 and 23·6 in the previous year. Government are glad to note that Middle School Education for girls is becoming popular.

As regards Primary Education, there were 523 schools for girls (313 Kannada and 210 Urdu) with a strength of 31,297 pupils as against 538 with a strength of 31,443 in 1930-31. The decrease is due to the amalgamation of several girls' schools with boys' schools.

There were two Industrial Schools for girls with a strength of 386 pupils. In order to encourage the education of women in vocational subjects, Government sanctioned a grant of two scholarships of Rs. 15 per mensem each out of the education cess funds of the Chitaldrug District, for a period of two years to girls of the District undergoing training in the Government Weaving Factory, Bangalore.

The total direct expenditure on women's education (including the University) was Rs. 6,51,471 against Rs. 6,62,983 in 1930-31. There is no mention in the report about the working of the Domestic Science Class which was opened in the year previous as an experimental measure. Government desire to know what progress it has made.

12. *Education of Muslims.*—The number of Urdu Schools of all grades both for boys and girls was 849 with a strength of 34,814 pupils, including 13,221 girls, as against 963 schools with a strength of 35,956 pupils in the previous year. The decrease is due to the abolition of Incomplete Middle Schools and other inefficient institutions. There were also 6,171 Muslims, including 128 girls, studying in other schools, making a total of 40,985 Muslim pupils (27,636 boys and 13,349 girls) under instruction. Taking the population of school-going age at 15 per cent of the total Muslim population, according to the Census of 1931, the percentage of Muslim boys and girls at School to the total Muslim population of school-going age was 93·1 and 51·73, respectively. To encourage High School education among Muslims, more scholarships have been awarded and conveyance allowance has also been granted under certain conditions, to Muslim girls studying in High School classes and in Aided Institutions where there are no Government High Schools.

It is reported that not much progress has been made in improving the accommodation, equipment and staff of Urdu Schools owing to the financial stringency. Steps are, however, said to have been taken to improve the efficiency of these schools by closer supervision and inspection. Honorary Lady Visitors have been appointed in the Cities of Bangalore and Mysore for the inspection of Urdu Girls' Schools. Government would like to see this reform introduced in the moffusil also. In their last Review, Government desired that early steps should be taken to provide teachers of a higher qualification than the L. S. T. for the Urdu Girls' Schools. The Director is requested to report what action has been taken in the matter. He is also requested to consider the suggestions of the Deputy Director of Public Instruction, Mysore, for the avoidance of the waste of time now involved by grown up Muslim pupils attending Kannada Primary Schools with the object of proceeding to the Kannada Middle Schools in places where there are no Urdu Middle Schools. It is gratifying to learn that owing to the progress made in the higher education of Muslim women, the much

needed qualified staff will be available in the near future for opening Middle Schools for Muslim girls in important centres.

The total expenditure incurred by Government on educational institutions specially intended for Muslims was Rs. 5,45,530 against Rs. 5,80,475 in the year previous. A sum of Rs. 4,770 was spent in the award of scholarships to Muslim students.

13. *Education of the Backward and the Depressed Classes.*—In order to encourage education among the children of these classes, a sum of Rs. 76,325 was spent in the award of scholarships excluding the Muslim scholarships already referred to above. In addition, a sum of Rs. 1,500 was spent in supplying clothing to the girls of the Depressed Classes who were not awarded scholarships. Candidates belonging to the Depressed Classes were also exempted from the payment of examination, admission and class fees for a further period of three years from 1932.

During the year, Government ordered the recovery of boarding charges from such of the boarders of the Sri Narasimharaja Hostel as were able to pay and also the reduction of expenditure under certain items in the Adikarnataka Boarding Homes. The boys of the latter Homes were required to contribute towards their maintenance by manual labour or otherwise. The rules for the calculation of grants to be paid to Aided Hostels for the Depressed Classes were also revised.

There were 607 special schools for the education of the Depressed Classes with a strength of 15,620 pupils (including 2,223 girls) as against 630 schools with a strength of 16,717 (including 2,604 girls) in the previous year. The several Adikarnataka Institutions were maintained in a satisfactory condition, but the general tone of the Boarding Home at Tumkur, is stated to be not satisfactory. The results of the Middle School Examination were also satisfactory in all these institutions, except in the Boarding Homes at Hassan and Tumkur. The Director is requested to see that these two Homes show better progress in future.

The Director is of opinion that while there is no question of either reducing or putting a limit on State assistance to the education of the Depressed Classes, yet in order to prevent the demoralisation which is apt to set in by constant spoon-feeding and to teach these classes to stand on their own legs, it is necessary to limit the number and magnitude of Free Boarding Homes and encourage the establishment of Aided Hostels. Government generally agree with this view. The Director also states that the system of vocational education needs revision if it is to be of any practical use. The proposals submitted by the Director in this regard, are under consideration.

14. *Text Books, Publications and Libraries.*—The manuscripts of the three sets of books in Kannada on the History, Geography, Royal Family, Institutions, etc., of Mysore, are said to be under print, while the Urdu translation of the three parts of the Kannada History of India have been printed and published. Including the latter, seventeen books were published by the Department, during the year. The Departmental Kannada Readers were also revised, but the syllabuses in Moral Instruction, including Civics, drafted in 1930-31, by the Special Committee, appointed for the purpose, are reported to be still under consideration. The Director is requested to see that the matter is expedited.

In regard to the encouragement of authors, contributions were paid for three Books and four Journals, and 37 Kannada and Sanskrit manuscripts and books competed for the Devaraja Bahadur Charity Fund Literary Prizes.

The Central Book Depôt was transferred to the Government Press and placed under the Superintendent of the Press. Including the two Libraries at Bangalore and Mysore, there were altogether twenty Urban and Rural Libraries under the control of the Department, during the year. Government are glad to note that the work of these Libraries was satisfactory.

There were 111 Printing Presses, excluding the two Government Presses at Bangalore and Mysore, against 117 in the previous year, and excluding the Mysore Government and the Police Gazettes, there were nine newspapers (one in English) and 59 periodicals (25 English) against 15 (two in English) and 44 (17 in English), respectively in 1930-31.

15. *Scholarships and Endowments.*—As a measure of retrenchment, the rates of the different kinds of scholarships were reduced. The total amount spent on [illegible]luding those of the University was Rs. 1,22,667, of which, as stated

above, sums of Rs. 4,770 and Rs. 76,325 were spent exclusively on Muslims and the Backward and the Depressed Classes respectively. In addition, a sum of Rs. 14,613 was spent on scholarships and prizes from the proceeds of endowments, against Rs. 14,118 in 1930-31.

16. *Hostels.*—Including the five hostels attached to the University; there were in all 98 hostels (30 Government and 68 Aided) with a strength of 3,978 against 97, with a strength of 3,516 in the year previous.

17. *The Scout Movement.*—Government are glad to note that Scouting continued to be popular and is making good progress. There were 238 scout troops, 59 cub packs, and 15 crews with a total membership of 8,973 spread over 312 ranks against 6,310 members spread over 308 ranks in the previous year. The chief event during the year was the deputation of a party of 12 scouters to attend the Rally at Trivandrum in November 1932, in connection with the investiture of His Highness the Maharaja of Travancore with ruling powers.

The Girl Guide movement was revived and an influential committee formed with Lady Mirza Ismail as Chief Commissioner and Chairman. The Girl Guides of the State were also affiliated to the All-India Organisation and through it, to the World Organisation. A number of ladies were deputed for training at the Girl Guide camp at Ootacamund, during the summer vacation.

18. *Medical Inspection.*—This has become an integral part of the State system of education. The scheme was continued in the Cities of Bangalore and Mysore with a common agency for the University and the Department, and in the 15 Taluk Headquarters where the scheme is self-supporting. Government trust that proper attention is being paid to the curative treatment of the ailments discovered without which mere inspection is of little use.

19. *General.*—The most important event of the year in the matter of education was the transfer of the administration of Elementary Education to the local bodies. The Director, however states that the main object of such transfer, *viz.*, the improvement and expansion of Elementary Education, is not likely to be realised in the near future owing to the lack of funds. Government agree with the Director in the view that Primary Education must be the abiding concern of the community and a first charge on its improved resources, and they trust that the various Local Education Authorities will rise to the occasion and exercise the powers given to them under the Elementary Education Regulation to raise extra funds for the purposes of the Regulation.

Government are glad to record that the work of the Department during the year was on the whole satisfactory. Their thanks are also due to the several non-officials who co-operated with the Department and generously supplemented the efforts of Government in the cause of education.

Secretary to Government,

IMPORTANT GOVERNMENT ORDERS

CHIEF SECRETARIAT

Introduction of the "Abeyance System" for the Reclamation of the Criminal Tribes.

READ—

Letter No. C. 619—C. I. D.—32-33, dated 24—26th June 1933, from the Inspector-General of Police, forwarding for approval, a Circular which is proposed to be issued for introducing what is called the "Abeyance System" in regard to the administration of the Criminal Tribes Regulation with a view to reclaim members of the Criminal Tribes.

ORDER NO. P. 369-77—POL. 189-32-2, DATED BANGALORE, THE 21ST—25TH JULY 1933.

Government consider that the proposed system will remove some of the unnecessary hardships to which some of the criminal tribe members are put to by the indiscriminate use of the Sections requiring them to report themselves and that it will relax the restrictions on such of the members whose conduct has been satisfactory.

The Circular, as appended to this order, is approved.

R. RANGA RAO,
Chief Secretary to Government.

CIRCULAR.

The provisions of the Criminal Tribes Regulation and the Rules issued are intended to be preventive and not punitive. This object is sought to be attained by a series of provisions which progressively restrain the freedom of movement of the individual whom it is proposed to wean from criminal pursuits. These provisions are (1) Section 3 by which persons of known criminal propensities are publicly declared to be a criminal tribe, (2) Section 4 by which one or more such persons may be required to register their names, marks of identification and finger prints, (3) Section 10 which may require any of them to report themselves at intervals or notify changes of residence or do both, and (4) Section 12 which provides for the restriction of movements to a specified area or settlement in a place of residence. These provisions, one or more of them, have to be applied according to the nature of criminal propensities of the individuals concerned. This gradual and progressive scheme of the Regulation has to be emphasised because the prevailing impression appears to be that no sooner a class of persons is declared to be a criminal tribe, every successive restraint should at once be applied to all of them.

Another point that has to be remembered is that these restraints in themselves may not help to achieve the object in view. Experience has shown that the wholesale and permanent application of these provisions has not only thrown more work on the police than it is possible to perform, but it has also made some criminal tribe members callous and cunning and driven them to abscond and lead a life of crime. Occasionally, crimes are also committed by reporting members between the hours of reporting and for want of satisfactory reporting centres, persons who commit crimes are probably being provided in some instances with alibis by incorrect records of reporting. Criminal tribe members should be prevented from committing crime by vigorously enforcing the provisions of the Regulation, but at the same time, it is equally important they should be made to realise and feel confident that by their good conduct they could earn the suspension or cancellation of the restrictions imposed on them. It is to create this wholesome feeling among them that what is known as the "Abeyance System" has been adopted in the Madras Presidency and the definite results reported to have been attained under this system, make it desirable to adopt it here also.

The working of the system is as follows:—

Each District Superintendent of Police should obtain from the District Magistrate of his district, permission to hold in abeyance from time to time, the orders to report under Section 10 (*a*). On receipt of such permission, the Sub-Inspectors concerned should be ordered to send up lists, in the Form A-1 appended, of criminal tribe members now reporting who have been regularly reporting for a period exceeding four months. Reports in reference to other criminal tribe members who have been reporting during a period less than four months should be sent ten days before the expiry of four months in each case.

After a careful scrutiny, the lists should be submitted by the Inspector with their remarks to the District Superintendent of Police who will issue orders holding in abeyance the existing orders to report in the case of those members who are not considered quite intractable.

On receipt of these orders, the Sub-Inspectors will interview each criminal tribe member affected and will personally and strongly warn him or her that the order to report is being held in abeyance as a tentative measure and that if the slightest ground of suspicion arises against the particular member or if his or her conduct is in any way unsatisfactory, the order to report will be immediately brought into force again for a specified and possibly prolonged period. After this warning, these members will be completely freed from reporting until further orders from the District Superintendent of Police are obtained in each case.

The Sub-Inspector should, however, keep in close touch with these criminal tribe members and if the slightest occasion arises, report to the District Superintendent of Police for orders for another spell of reporting against them. Higher officers should go into these matters carefully during their visits to stations and satisfy themselves that Sub-Inspectors are taking proper interest in this matter and devoting sufficient energy to it.

To work the abeyance system properly, transfers from 'Abeyance' to 'Reporting' and *vice versa* must be looked into and effected promptly. A criminal tribe member under 'Abeyance' should be required to report immediately he begins to misuse the privilege and a man 'Reporting' whose conduct shows that he has reformed should be as promptly encouraged in his good ways by being brought under 'Abeyance'. Prompt action in

preference to misconduct being of the greatest importance, Sub-Inspectors will send their reports of misconduct to their Inspectors who will send them at once to the District Superintendent of Police. Orders passed by the District Superintendent of Police, will be sent direct to the Sub-Inspectors who will also be empowered to enforce orders to report on their own authority for a maximum period of ten days until the District Superintendent of Police's orders are received.

In order to ensure the full benefits of the "Abeyance System," it is essential, that criminal tribe members should not in particular be allowed to suffer owing to chance delays in the channels of correspondence which may delay the District Superintendent of Police's orders on individual cases. The strictest attention must, therefore, be paid to the requirement that the cases of those criminal tribe members against whom orders under Section 10(*a*) have been enforced, should be reported on ten days before the expiry of the period for which they have been ordered to report. Unless the Sub-Inspector concerned has recommended a criminal tribe member for a further period of reporting, the criminal tribe member will be released from the necessity for reporting immediately on the expiry of the period for which Section 10(*a*) was ordered to be enforced against him, even if the District Superintendent's orders have not been received.

Sub-Inspectors are also be empowered on their own authority to hold an order to report in abeyance for a maximum period of ten days pending receipt of the orders of the District Superintendent of Police in cases of conspicuous services rendered to the Police by a criminal tribe member or an obvious and marked attempt on the part of the latter to turn over a new leaf. The effect of this order is to give Sub-Inspectors a certain amount of discretion and they must be careful to see that their recommendations are made with care.

If an Inspector so far disagrees with a Sub-Inspector's recommendation as to consider that to release a criminal tribe member recommended by the Sub-Inspector for exemption under the "Abeyance System" would be dangerous, he should send a memorandum to the Sub-Inspector not to release the criminal tribe member pending the District Superintendent's orders and note that he has done so when forwarding the Sub-Inspector's report with his own recommendation.

The good results of the "Abeyance System" very much depend upon the effective way in which the order to report is enforced. These orders, obtained from the District Magistrate under Section 10(*a*) should be of two types :

(*a*) Against criminal tribe members, who are believed or suspected to be committing crimes or to be known in association with active criminals, the order should be to report twice nightly.

(*b*) Other criminal tribe members who are believed only to be of a criminal tendency but who are not committing crimes for the present, should be ordered to report once weekly in the day time.

Orders against the (*a*) type of criminal tribe members are to be held in abeyance except for specific periods prescribed in respect of bad conduct.

Orders against type (*b*) are to be enforced only in the exceptional case of suspicion of participation in crime or very strong suspicion of it and preliminary to obtaining (*a*) type orders (*i.e.*, to report twice nightly) against the criminal tribe members concerned.

When criminal tribe members, orders against whom are held in abeyance, change their residence, orders changing their places of reporting should be immediately obtained from the District Magistrate, even though they are not at the time actually reporting under Section 10(*a*).

The police will serve on each criminal tribe member, whose abeyance order is suspended, a notice in the attached Form B-1 in the manner prescribed for the service of summons under the Criminal Procedure Code.

A weekly report in the attached Form C-1, will be sent by the District Superintendent of Police to the District Magistrate to enable the latter to retain control of the general position.

A quarterly list of criminal tribe members in Form D-1 should be submitted by the Sub-Inspectors to the District Superintendent of Police through their Inspectors. This list should contain the names of all criminal tribe members both "Abeyance" and "Reporting" with the remarks of the Sub-Inspector and Inspector. Proper scrutiny of these lists by the District Superintendents of Police is very essential.

Manuscript forms may be used for the present in working the "Abeyance System."

It is of the utmost importance that the personal sheets of criminal tribe members should be kept continually up-to-date especially with regard to present conduct. These sheets must be brought up-to-date and kept up-to-date intelligently by Sub-Inspectors

themselves as a result of their personal enquiries and higher officers should satisfy themselves about the correctness of these entries.

The registration of the members of notified tribes of criminal tendency is very far from complete. Inspectors will at once institute necessary enquiries and will be held responsible that all unregistered members of notified tribes of criminal tendency in their taluks are brought on to the registers without delay. When an individual is recommended for registration, he should also be recommended for orders to report under Section 10 (*a*) and when such orders are received, they will be strictly enforced for a short period in each case. Ten days before the expiry of this period, the Sub-Inspector concerned will report in Form A-1 to the District Superintendent of Police, on the general conduct of the criminal tribe member during the period of reporting with a view to obtaining orders as to whether or not, he or she may be freed from reporting. Ordinarily, he should be freed. A list of juveniles, attaining the age for registration in each year will be prepared for each station and despatched to reach the District Police Office before the 20th January of the year concerned.

Sub-Inspectors should be scrupulously fair and careful before deciding against criminal tribe members. Wholesale prosecutions for petty breaches of the Regulation are most undesirable. In cases in which there is reason to believe that breaches of the Criminal Tribes Regulation or Rules were committed for purposes of crime and in cases of persistent defiance of orders under section 10 (*a*) of the regulation, prosecutions should be instituted at once by the Sub-Inspectors on their own authority. The sanction of the District Superintendent of Police should be obtained before prosecutions are launched in other cases.

The attention of all officers is drawn to Sections 24 and 25 of the Criminal Tribes Regulation. The former applies to every member of notified criminal tribes whether registered or not, and the latter only to registered criminal tribe members. These sections should invariably be made use of when circumstances call for their application.

Splitting up of the Pateli Charge of certain four villages of the Dodballapur Taluk.

READ—

Letter No. C. 2685—30-31, dated 7th July 1933, from the Revenue Commissioner in Mysore, recommending that for reasons given, the Pateli charge of the marginally noted four villages of the Dodballapur Taluk, may be split up into two charges, Gantiganahalli and Bhoomenahalli being constituted into one Pateli charge with a potgi allowance of Rs. 57 and Kavalahalli and Kuruvigere Villages into another, with a potgi allowance of Rs. 54-2-0.

1. Gantiganahalli.
2. Kavalahalli.
3. Kuruvigere.
4. Bhoomenahalli.

ORDER NO. R. 345-48—L. R. 37-33-2, DATED BANGALORE, THE 18—19TH JULY 1933.

The recommendation which has been concurred in by the Survey Superintendent, is sanctioned. One of the members of the family of the present holder of the Pateli Office, may be appointed Patel of one of the firkas, if he be otherwise fit.

READ—

Letter No. C. 4063—32-33, dated 15th June 1933, from the Revenue Commissioner, forwarding with certain remarks, the Administration Report of the Yelandur Jaghir for the year 1931-32, submitted by the Assistant Commissioner in charge of the Taluk.

ORDER NO. R. 358-59—L. R. 432-32-2, DATED BANGALORE, THE 18—19TH JULY 1933.

Recorded.

2. The Jaghir continued to be under the management of Government. The inordinate delay in the submission of the Report should have been avoided.

3. The collections of land revenue both under the demand for the year and the arrears of preceding years have been poor being only 61·2 and, 47·8 per cent, respectively. The arrears of previous years outstanding at the beginning of the year were Rs. 42,246 and the balance outstanding at the end of the year has slightly increased being Rs. 42,916. It is reported that out of the arrears of previous years, a sum of Rs. 3,600 was written off as time-barred being over six years old. An explanation is due for failure to collect the amount in time.

4. The number of Village Panchayets fell from 26 to 24 due to the conversion of the Agara and Mamballi Panchayets into a Minor Municipality. Only a sum of Rs. 3,960-15-6 out of the demand of Rs. 16,410-0-2, was collected leaving a heavy balance of Rs. 12,449-0-8. The poor collection is attributed to the want of co-operation on the part of the Chairmen of a majority of the Panchayets who are stated to evince very little or no interest in collection work.

5. The question of the restoration of the irrigation works which is an important and urgent problem is still under correspondence with the Jaghirdar. The question of the re-settlement of the Taluk has been ordered to lie over for the present.

To

MR. A. P. SIDDARAJ URS, INAMDAR.

By virtue of the powers vested in them by the Land Revenue Code, the Government of His Highness the Maharaja of Mysore, are pleased to confer on you, Mr. A. P. Siddaraj Urs, Inamdar of Khayamgutta Ankusapura Village, Mandya Taluk, the following powers specified in clauses (*b*), (*d*), (*e*) and (*f*) of Section 99 of the Mysore Land Revenue Code, to be exercised within the limits of the Inam Village of Ankusapura Village.

(*b*) To attach the property of persons making default in the payment of Land Revenue or rent due to you in the said villages.

(*d*) To exercise the powers of a Deputy Commissioner under Sections 63 and 64;

(*e*) To receive notices of relinquishment under Section 71 and to determine the date up to which such notices shall be received as in that Section provided, and

(*f*) to take measures for the maintenance and repair of boundary marks in the manner provided for Survey Officers in Section 130.

II. The above mentioned powers delegated to you are vested in you during the pleasure of and subject to recall, by the Government of His Highness the Maharaja of Mysore.

DEVELOPMENT SECRETARIAT

Issues an Amendment to Rule 34 of the Rules under the Land Revenue Code.

ORDER NO. R. 484-95—L. R. 56-33-2; DATED BANGALORE, THE 26TH JULY 1933.

The following amendment is hereby issued to Rule 34 of the Rules under the Mysore Land Revenue Code:—

Substitute the following for the second para of Rule 34:—

"If, however, it is in any case considered desirable to continue the temporary water rate for more than one year, the Public Works Department should be consulted. If it is certified by that Department, after actual calculations made at the time, that the additional demand for water could be safely met even in a year of normal rainfall, the permission may be continued. If during the next five years successively there is no complaint from the holders of the atchkat lands, and the temporary Nirsardidar applies for the supply of water being made permanent, then steps should be taken to convert the land into wet or garden as the case may be, in consultation with the Superintendent of Revenue Survey and Settlements. If any person uses such water without such permission, he shall be charged a penal rate of *not less than three and not more than four times the difference between the dry assessment of the land concerned and the wet assessment on wet lands in the vicinity* and shall also be liable at the discretion of the Deputy Commissioner to pay a fine *not exceeding* five times the wet assessment of the whole survey number thus wholly or partly irrigated. The Amildar or Deputy Amildar may, in such cases as he may deem proper, grant permission to use water, provided the applicant agrees to pay such rates as may eventually be assessed under Rule 32 or 33."

Secretary to Government,
Development Department.

GENERAL SECRETARIAT

Constitution of the Town Municipal Area of Mandya into an Urban Constituency.

READ—

Government Order No. Rl. 2429-88—R. A. 13-22-2, dated 9th October 1932, passing orders on the recommendations of the Committee, regarding re-allocation of seats in the Representative Assembly and directing that Mandya, Gundlupet and Bhadravati, be given the privilege of returning one member each, to the Assembly, if and when they are constituted as Town Municipalities.

2. Letter No. L. D. 9-4137—32, dated 13th July 1933, from the Deputy Commissioner, Mysore District, stating that Mandya, which was a Minor Municipality, has been constituted into a Town Municipality, in Government Notification No. L.12—Ml. 180-32-7, dated 10th June 1933 and requesting that sanction of Government may be obtained conferring on the Mandya Town Municipal Council, the privilege of returning a member to the Representative Assembly.

ORDER NO. RL. 87-88—R. A. 2-33-2, DATED BANGALORE, THE 28TH JULY 1933.

Government are pleased to direct that the Town Municipal area of Mandya be given the privilege of returning one member to the Representative Assembly. The number of Urban areas returning members to the Representative Assembly will thus be increased to 39 and the number of representatives to 45.

Steps should be taken for the election of a member from this area to the Representative Assembly to be reconstituted in March 1934 and the Deputy Commissioner, Mysore District, is requested to prepare and submit for the approval of Government, a calendar of events for the preparation and publication of the Electoral Rolls pertaining to this area.

The general calendar for the conduct of elections to the Representative Assembly and the Legislative Council to be held on 3rd March 1934, issued in Notification No. Rl. 24—R. A. 26-32-38, dated 11th July 1933, will hold good in the case of this election also.

Lays down Rules to regulate the procedure in cases when medical men may get patients to buy medicines required for their treatment in hospitals.

READ—

Correspondence ending with letter No. G. C. 300-1, dated 5th July 1933, from the Senior Surgeon in Mysore, forwarding his opinion in the matter of laying down rules to regulate the procedure in cases when medical men sometimes get patients to buy medicines required for their treatment in hospitals.

ORDER NO. G. 893—MED. 16-33-4, DATED BANGALORE, THE 10TH AUGUST 1933.

In the meeting of the Legislative Council in June 1933, it was mentioned that medical authorities sometimes asked patients to purchase medicines of a costly nature and that it was desirable to lay down rules regulating the use of such medicines. The Senior Surgeon, who was consulted in the matter, states that patients are sometimes asked to supply special and costly medicines which are not in stock and agrees that the issue of rules regulating such supply is desirable.

Government are pleased to direct that where a drug required in the treatment of a case is not ordinarily available in the hospital, the Medical Officer in charge of the case, may ask the patient or guardian to supply such drug. If, after treating the patient, a portion of the medicine is left over, it should be returned to the patient or guardian unless permitted to be used free in treating other cases.

Reviews the Report on the working of the Hospitals and Dispensaries in the State for the calendar year 1932.

READ—

Letter No. P1. 35-6-24, dated 23rd June 1933, from the Senior Surgeon, forwarding the report on the working of the Hospitals and Dispensaries in the State, together with the statistical statements for the calendar year 1932.

ORDER No. G. 952-3—MED. 257-32-3, DATED BANGALORE, THE 12TH AUGUST 1933.

Recorded.

Medical Institutions and the number of Patients treated therein.—The number of Medical Institutions at the beginning of the year was 274. Five new Dispensaries, *viz*., one Dispensary for women and four District Board Dispensaries were opened and one Malnad Improvement Dispensary which had been closed, was re-opened, while two Public Works Department Dispensaries were closed during the year. The total number of Medical Institutions working at the close of the year was thus 278. The total number of in-patients and out-patients treated in all these Institutions was 38,51,432 against 37,01,092 in the previous year. The number of in-patients was 43,585 against 42,106 in the previous year.

The work in all the major institutions in Bangalore and Mysore Cities continued to be satisfactory. The number of out-patients treated in the Victoria Hospital rose from 71,712 in the previous year to 81,874 in the year under review and that in the Krishnarajendra Hospital, Mysore, inclusive of the number in the Ophthalmic Department from 65,689 to 66,621. The number of in-patients also increased from 5,146 to 5,564 in the Victoria Hospital, while in the Krishnarajendra Hospital, there was a slight fall from 5,910 to 5,737.

Good work continued to be done in the Electro-Therapy Department of both these Hospitals and there was a noticeable increase in the work done in the Pathological Department of the Victoria Hospital, Bangalore.

In the Minto Ophthalmic Hospital, there was an appreciable increase in the number of out-patients treated, which rose from 27,574 in 1931 to 36,308 in the year under review. There was however a small decrease by 46 in the number of in-patients treated. Seventeen qualified medical men mostly from British India, underwent post-graduate course in the Hospital during the year.

Mental Hospital, Bangalore.—The total number of persons treated in the Mental Hospital during the year, was 322 against 289 in the previous year, and of these, 100 were paying patients.

The total expenditure of the Institution during the year was Rs. 49,769 showing a decrease of Rs. 5,756 as compared with the expenditure incurred during 1931. The net realisation in the manufacturing and gardening department of the Hospital amounted to Rs. 165 as against Rs. 58 in the year previous.

It is noted that the out-patients department of this Hospital is growing in popularity and doing good work by timely advice and treatment.

Finance.—The total expenditure of the Medical Department during the year was Rs. 13,99,153 as against Rs. 14,72,522 in 1931, showing a decrease in expenditure of Rs. 73,769, mostly due to various measures of retrenchments (in salaries and other items of expenditure), effected in the department.

The contribution from Municipal and District Funds amounted to Rs. 2,65,678 and miscellaneous receipts, made up mainly of fees collected from patients, came to Rs. 45,945.

Midwives.—There were 280 midwives working during the year as against 274 in the previous year; but the average number of cases attended by each midwife fell from 71 in the previous year to 61 in the year under review. Seventy pupil midwives were under training in the Maternity Hospitals at Bangalore and Mysore, 32 passed during the year under report and 33 continued to be under training.

Leprosy Survey.—The Sub-Assistant Surgeons engaged on special work relating to Leprosy Survey continued to work in the affected areas in the Malvalli, Mandya and Goribidnur Taluks, and the Sub-Assistant Surgeon on the Survey of Leprosy cases in Bangalore City conducted a systematic examination of the labourers employed in all the Mills and Factories in Bangalore.

Medical Inspection of Schools.—Mr. S. Raju Iyengar, Assistant Surgeon, deputed to Europe to specialise in the Medical Inspection of Schools, returned after obtaining the requisite qualifications.

Boards of Visitors.—The Boards of Visitors for the Victoria and Minto Ophthalmic Hospitals paid regular visits and made valuable suggestions with a view to improve the usefulness of the Institutions and to provide better comforts for the patients. The Boards in respect of the other District Headquarter Hospitals and Local Fund Dispensaries continued to function, although in several instances, their meetings were not held at regular intervals.

Important events.—The following deserve mention among the important events of the year:—

(i) The laying of the Foundation stone by His Highness the Maharaja of Mysore, of the McGann General Hospital at Shimoga, during January 1932, and

(ii) the opening by His Highness the Yuvaraja, of the Mallegowda General Hospital and the Siddanna Setty Eye Hospital, both at Chikmagalur, during March 1932.

General.—During the year under review, facilities were provided for anti-rabic treatment in the District Headquarter Hospitals at Hassan, Tumkur and Shimoga, and a revised rate of fees for examination of Refraction cases was fixed.

During the year, the Senior Surgeon was deputed to Calcutta for visiting certain Chemical and Pharmaceutical Works there.

Under the provisions of the Mysore Medical Registration Regulation, the First Medical Council was constituted during the year under review, and 430 Medical Practitioners were registered.

Inspections.—The Senior Surgeon inspected all the major Medical Institutions, besides 84 other Dispensaries. He also performed 51 important operations during his visits to the Hospitals.

The work of the Department continued to be satisfactory under Dr. S. Subba Rao.

FINANCIAL SECRETARIAT

Directs that for Railway Journeys certificates of having travelled in the class for which fares are claimed should be furnished.

READ—

Government Order No. Fl. 4408-17—S. & A. 216-31-4, dated 8th February 1933, directing that non-official members of committees referred to in Appendix P of Mysore Service Regulations, who are entitled to first class railway fare should record a certificate in the travelling allowance bill, of having travelled in that class.

ORDER NO. FL. 974-1033—S. & A. 330-32-5, DATED BANGALORE, THE 23RD AUGUST 1933.

Government are pleased to direct that all officers and non-official members of committees who are entitled to railway fare higher than the third class, should record certificates in their travelling allowance bills of having travelled in the class for which fares are claimed.

The alternative certificate prescribed in Article 542, Mysore Service Regulations, for officers that do not travel in the first class will be applicable only to cases of journeys performed by them on transfer.

Necessary addenda and corrigenda slip to Mysore Service Regulations will issue separately.

A. N. RAGHAVACHAR,
Secretary to Government,
Financial Department.

Amends Articles 612 and 613 of the Mysore Service Regulations.

READ—

Letter No. T. A. 212, dated 11th February 1933, from the Comptroller, pointing out the anomaly in the two Articles 612 and 613, Mysore Service Regulations and requesting modification thereof.

ORDER NO. FL. 1134-5—S. & A. 314-32-2, DATED BANGALORE, THE 26—28TH AUGUST 1933.

The Comptroller points out that if leave follows transfer, travelling allowance is admissible under Article 612, whatever the nature of the leave is, provided it does not exceed four months while if transfer follows leave no travelling allowance is admissible under Article 613 unless the leave be Privilege or Examination leave. Government consider that there are no adequate grounds for this distinction and are accordingly pleased to direct that in modification of the abovementioned rules, an officer be allowed travelling allowance from his old to his new station, whether the leave precedes or succeeds the transfer, provided that the leave be for not more than three months.

Necessary addenda and corrigenda slip to Mysore Service Regulations will issue.

A. N. RAGHAVACHAR,
Secretary to Government,
Financial Department.

PUBLIC WORKS SECRETARIAT

Sanctions the Irrigation Cess Fund Budget Estimates for 1933-34.

READ—

Letter No. C. Per. A. 12—32-33, dated the 31st May 1933 from the Revenue Commissioner in Mysore, submitting the Budget Estimates for the Irrigation Cess Fund for the year 1933-34, with a memorandum on the subject.

ORDER NO. 420-435—S., DATED BANGALORE, THE 26TH AUGUST 1933.

The estimated receipts for the year 1933-34 are shown below together with those of the previous year 1932-33 :—

Passes orders about the increased supply of clothing to convicts under sentence of rigorous imprisonment and transportation.

READ—

Rules 340-45 of the Mysore Jail Manual, prescribing the clothing for Indian male and female convicts under sentence of rigorous imprisonment or transportation.

2. Letter No. 1137-1, dated 5th July 1933, from the Inspector-General of Prisons in Mysore, proposing the supply of additional clothing to the said convicts.

ORDER NO. G. 1383-5—PRIS. 1-33-2, DATED BANGALORE, THE 29TH AUGUST 1933.

At the Session of the Legislative Council in June 1933, the inadequacy of the clothing supplied to the convicts confined in the Jails in the State and the necessity for an increased supply were brought to notice and Government promised to have the matter examined.

2. The Inspector-General of Prisons has now submitted a report in the matter and he proposes that in modification of the existing rules, the following scale of clothing be adopted:—

To male convicts:—

(1) Two jackets made of stout khadi cloth.
(2) Two pairs of trousers made of stout khadi cloth reaching just one inch below the knee.
(3) A cap.
(4) Two langoties.
(5) A towel 36 inches square.

To female convicts.—

(1) Two cloths each 6 yards by 42 inches made of 20's single.
(2) Two ravikeys.

The Inspector-General also proposes that the supply of clothes to all convicts be made once in nine months instead of once in ten months as at present.

Government are pleased to sanction these proposals.

The extra cost, which is estimated at Rs. 2,000 per year, will be met out of the provision in the budget under clothing and bedding of prisoners.

Necessary action to amend the Mysore Jail Manual in this respect shall be taken by the Inspector-General of Prisons.

R. RANGA RAO,
Chief Secretary to Government.

Passes orders in the matter of charging special reduced rates for electrical power, etc., supplied to Government Departments.

READ—

Correspondence ending with letter No. 88404, dated 23rd June 1933, from the Chief Electrical Engineer in Mysore, in the matter of charging special reduced rates for power, etc., supplied to other Government Departments.

ORDER NO. FL. 1417-76—G. F. 48-32-6, DATED BANGALORE, THE 6TH SEPTEMBER 1933.

About one-seventh of the present gross revenue of the Electrical Department is derived from the supply of power to lighting and power installations of Government Offices and Concerns. Government are thus consumers of a large block of power and they should get the benefit of the best rates which the Department allows to similar consumers. The rates now charged to Government, especially for lights and fans are practically the same as those charged to small consumers, and this is not a fair arrangement. Apart from this consideration, it is undesirable to overstate, by the adoption of unreasonably high rates, the adjustment revenue of the Department which represents no cash incoming but on which proposals involving cash outlay are based and settled. The electrical supply service is a commercial concern and the Department should undoubtedly get proper value for the power sold by it to all consumers, whether private persons or Government Offices or institutions. Government therefore are of opinion that the only right course is to charge to its institutions and offices the rates which are reasonable in view of all considerations and to include, in the ordinary course, in the accounts of the supplying and consuming departments the adjustments based on such rates.

2. The Chief Electrical Engineer who was consulted in the matter, has suggested the following reduced rates to be charged to Government Departments other than Commercial Departments like Railways.—

	Proposed rate.
Power for lighting and fans	4 annas a month per lamp or wall plug and 8 annas per month per ceiling fan.
Palace lighting	Flat rate of 1 anna per unit without any discount.
Power for other purposes	·5 of an anna per B.O.T.U.

3. Government consider that the rates suggested by the Chief Electrical Engineer are reasonable and they accordingly direct that the rates suggested be adopted provisionally for a period of two years and that the position be reviewed at the end of this period with a view to see if the rates require any revision. They consider that one important point to be examined in reconsidering the question is to see if the adoption of the flat rates for lamps, plugs, and ceiling fans leads to any excessive consumption of energy requiring some remedy for preventing waste of power. These flat rates cannot, however, be applied in the case of Government buildings let out for rent and the ordinary rates should be charged in such cases.

4. Government also direct that the meters now used for separately measuring the power supplied to each office be removed and used elsewhere. In the case, however, of big buildings in which the number of lights, plugs and ceiling fans used is large, one meter may be put up in each such building for measuring periodically the power consumed, with a view to see how the revenue from the flat rates compares with the actual quantity of power taken and whether the rates are fair to both the supplying and the consuming departments.

5. As regards power supplied for lights, the cost of which is classified under "General Administration," they consider that the flat rate of one anna per unit with no discount suggested by the Chief Electrical Engineer is somewhat high, considering the quantity of power taken for this purpose, and direct that the question of reducing it be considered at the end of two years.

6. With regard to power supplied to the Railway Department, the several Water Works Projects, Industrial Works and the Government Press and Stationery, whether for lighting or for operating machinery, Government consider that the present rates may remain unaltered. It is, however necessary to examine how these rates compare with those charged to private consumers of similar blocks of power. If the Government concerns are being charged higher rates than those allowed to others, the question of reducing them will have to be considered. This matter will be further examined by the Chief Electrical Engineer and a report submitted to Government.

7. The rates for street and ornamental lights, the cost of which is classified under "General Administration," may remain unaltered as proposed by the Chief Electrical Engineer.

8. These reductions in the rates should be given effect to, commencing from the current official year.

9. The Chief Electrical Engineer is requested to give effect to the order and issue subsidiary rules which may be found necessary and to send a copy of the same to Government for information.

10. There will be savings in the normal grants for the several Departments provided in the current year's budget owing to the reduction in the rates referred to in this order, and the savings thus effected should be surrendered to Government and not utilised for other purposes.

Passes orders on the report of the Public Accounts Committee on the Audit and Appropriation Accounts for 1931-32.

READ—

The Audit and Appropriation Accounts of the Government of His Highness the Maharaja of Mysore for the year 1931-32, submitted by the Comptroller.

2. Report of the Public Accounts Committee thereupon.

ORDER NO. FL. 1490-1549—G. F. 155-32, DATED BANGALORE, THE 7TH SEPTEMBER 1933.

Para 2 of the Committee's Report.—The Committee have drawn attention to the delay in the submission of the Report by the Comptroller. The Comptroller's attention is invited to the instructions conveyed in communication No. Fl. 5572—G. F. 111-32-2, dated 13th April 1933, for ensuring the timely preparation and transmission of the Report on or before the due date.

Para 7, Supplementary Grants.—Government agree with the Committee in considering that there is need for the exercise of greater care on the part of the Departments when applying for supplementary grants. The progress of expenditure should be closely followed and application for supplementary grants made only when they are quite necessary and cannot be met by re-appropriation of original budget grants.

Para 10, *Non-voted Grants.*—The question whether the Committee could comment on non-voted items has been fully examined and there are no reasons to reconsider the orders already passed.

Para 13.—The attention of the Agent, Mysore Railways, is invited to the observations of the Committee made in this para and he is requested to arrange for the prompt settlement of the claims.

Para 14, *Railway Department.*—The Committee have referred to certain irregularities in connection with the stores of the Department and have observed that the Audit and Administrative Branches of the Department should work together to improve the system of accounts for exercising effective control over all transactions relating to Stores. Government endorse the opinion expressed by the Committee and request the Agent to take action in consultation with the Comptroller on the lines suggested by them.

Para 15.—The attention of the Director of Industries and Commerce is invited to the suggestions of the Committee for obviating occasions for writing off losses. As regards the enforcement of the personal liability of officers responsible for losses, instructions have been issued in Government Order No. Fl. 1078-1138—G. F. 46-29-1, dated 12—14th August 1929.

Para 16, *Electrical Department.*—The Committee have suggested that the system of supply of power to rural areas for lighting and pumping installations might be examined with a view to encouraging the expansion of electrical service and increasing the revenue of the Department. This matter is under consideration.

The attention of the Heads of the Departments concerned is invited to the other suggestions made by the Committee in the body of the Report.

Sanctions the extension of the Land Mortgage Scheme to the Mudgere Taluk.

READ—

Letter No. 1333—C. S., dated 23rd August 1933, from the Registrar of Co-operative Societies, recommending for reasons given, the extension of the Land Mortgage Scheme into the Mudgere Taluk

ORDER NO. D. 1447-51—L. M. 14-32-4, DATED BANGALORE, THE 18TH SEPTEMBER 1933.

Representations have been received from the people of Mudgere Taluk, praying for the extension of the Land Mortgage Scheme into their Taluk. At the Conference of the raiyats of Mudgere, Koppa and Tirthahalli Taluks, held on 11th October 1932 at Kalasa, a resolution to the same effect was passed.

Investigation into the economic conditions of the Taluk shows that the agricultural population of the Taluk is generally hard pressed on account of the heavy rates of interest charged and the short terms allowed by the money lenders for the loans obtained from them. The Registrar also reports that owing to the existence of very few ordinary credit Societies in the Taluk, heavy rates of interest charged by the money lenders, and the difficulty felt by the people in securing fair prices for their agricultural produce, it is very necessary that the Land Mortgage Scheme should be introduced into this Taluk also, though great care has to be exercised in the grant of loans by the Land Mortgage Bank, as, over a large portion of the Taluk, Coffee and Cardamom are the crops chiefly cultivated.

Government are pleased to accept the recommendation of the Registrar, and to sanction the extension of the Land Mortgage Scheme into the Mudgere Taluk.

The Registrar proposes that for the present, the three hoblis of Mudgere, Gonibidu and Banakal may be brought within the jurisdiction of the Chikmagalur Land Mortgage Society, and that a separate local Land Mortgage Society may be established at Kalasa with jurisdiction over Kalasa and Belur hoblis, in view of the inaccessibility of this area from either Chikmagalur or Mudgere. Government are pleased to approve of these proposals.

Working of the Joint-Stock Companies.

READ—

Letter No. C. 208—33-34, dated 30th August 1933, from the Registrar of Joint-Stock Companies in Mysore, forwarding a report on the working of the Joint-Stock Companies as well as the Literary, Scientific and Charitable Societies during the year ended 31st March 1933.

ORDER NO. D. 1377-80—J. S. 16-33-3, DATED BANGALORE, THE 15TH SEPTEMBER 1933.

Recorded.

The delay of three and a half months in the submission of the report should have been avoided.

2. Nine new Companies with a total authorised capital of Rs. 37,20,000 were registered during the year under review. Eight of these were public Companies and one was a private Company. One of the Companies registered during the year was the Mysore Sugar Company, Ltd., with an authorised capital of Rs. 20 lakhs. Sixty per cent of the shares of this Company have been taken by Government.

3. A private Company named Eastern Fine Arts, Ltd., converted itself during the year into a public Company under Section 154 of the Companies Regulation.

4. Four Companies went into voluntary liquidation and three Companies were ordered to be wound up by the District Courts. No Company was struck off the register during the year.

5. The number of Companies limited by guarantee remained at 21 as in the previous year, but the number of Companies limited by shares was 120 as against 118 in the year previous. There were 60 outside Companies as against 54 in the previous year.

6. Eighteen societies were registered under the Societies Regulation during the year. The total number of societies at work at the end of the year was 224.

7. Two complaints filed against the Shankara Trading Syndicate, Ltd., and one of its Directors under Sections 32 and 134 of the Mysore Companies Regulation resulted in the conviction of the Director. The same Director was also prosecuted by the Inspector under Section 140 of the Regulation and was convicted. Another complaint filed againt two of the Directors of the Company under Section 282 of the Regulation was pending at the close of the year. A case instituted against certain Directors of the Mysore Agricultural and Dairy Farm Co., Ltd., under the same section was also pending at the close of the year.

8. There were, at the end of the year, 37 Auditors, of whom 13 held permanent certificates.

9. The total authorised capital of all Joint-Stock Companies registered in Mysore, was Rs. 5,87,18,685 at the end of the year, of which amount, Rs. 1;79,44,175 was subscribed and Rs. 1,48,35,806 paid up.

10. Five hundred and forty-five documents were received by the Registrar for being registered, recorded or filed as against 426 in the year previous.

11. The income and expenditure of the Department during the year amounted to Rs. 5,082-14-0 and Rs. 2,458-6-0 as against Rs. 3,204-8-0 and Rs. 2,521-3-0 respectively, in the preceding year.

12. The registered offices of only three Companies were inspected by the Registrar during the year as against in the eleven year previous. As already directed in the review of the previous year's report, the Registrar is requested to arrange for the inspection of more registered offices in future.

Notification No. Rl. 3444—R. A. 26-32-2, dated 9th January 1933, directing the holding of fresh elections to the Representative Assembly on the 15th July 1933.

2. Notification No. Rl. 3464—L. C. 6-32-2, dated 9th January 1933, directing the holding of fresh elections to the Legislative Council on the 15th July 1933.

3. Notification No. Rl. 7712—R. A. 26-32-4, dated 16th June 1933, extending the period of the Representative Assembly till the end of March 1934, and directing the holding of elections on the 3rd March 1934 instead of on the 15th July 1933.

4. Notification No. Rl. 7727—L. C. 6-32-3, dated 16th June 1933, extending the period of the Legislative Council till the end of March 1934, and directing the holding of elections on the 3rd March 1934 instead of on the 15th July 1933.

5. Notification No. Rl. 24—R. A. 26-32-38, dated 11th July 1933, publishing the revised calendar of events for the conduct of elections to the Representative Assembly and the Legislative Council to be held on 3rd March 1934, and directing that the electoral rolls already prepared and published shall continue to be in force and that there is no necessity for the preparation of fresh rolls.

ORDER NO. RL. 130-142—R. A. 7-33-4, DATED BANGALORE, THE 23RD OCTOBER 1933.

It was urged at the last Dasara Session of the Representative Assembly that as the electoral rolls were prepared and published in March 1933, and that as many changes have taken place subsequently, it is necessary to revise and republish the rolls. Government do not consider it necessary to prepare fresh electoral rolls as it involves unnecessary labour and expenditure. They are, however, of the opinion that an opportunity may be given to parties interested to get the rolls already prepared and published amended by filing claims and objections. Claims and objections in this behalf will be entertained by the revising authorities concerned and dealt with according to the rules in this respect. In deciding upon claims and objections, the revising authorities will recognize the possession of the requisite qualification on the date of this order as entitling a person to the inclusion of his name in the rolls.

A separate notification will issue containing necessary instructions in the matter and also prescribing the revised calendar of events.

Reviews the working of the Stationery Depot, for the year 1932-33.

READ—

Letter No. S. 401, dated 15th August 1933, from the Superintendent of Stationery, submitting the report on the working of the Stationery Depôt, for the year 1932-33.

ORDER No. G. 2724-71—P. & S. 19-33-4, DATED BANGALORE, THE 28TH OCTOBER 1933.

Recorded.

Superintendence.—Mr. B. Puttaiya was in charge of the Stationery Depôt till the end of May 1933, when he proceeded on four months' leave. During the remaining period, Mr. B. Srinivasa Iyengar, Assistant Superintendent, Government Branch Press, Mysore, was appointed to act as Superintendent of Stationery.

Value of Stock—The year opened with a stock of the value of Rs. 1,38,152-13-10 and new stock valued at Rs. 1,25,536-12-10 was either purchased or received from the Press and other offices, bringing the total value of the stock to Rs. 2,63,689-10-8. Supplies of the value of Rs. 1,33,994-10-3 were made during the year to several offices as against Rs. 1,59,697-0-0 in the previous year.

Purchases.—The total value of articles purchased during the year was Rs. 1,24,046 of which the value of articles of Mysore manufacture was Rs. 3,551 and that of Indian manufacture, Rs. 86,563 against Rs. 3,514 and Rs. 89,785 respectively, in the previous year.

Expenditure.—The expenditure of the Stationery Depôt on establishment and contingencies was Rs. 7,843 as against Rs. 7,498 in the previous year.

Stationery articles and forms supplied.—The supply of stationery articles and forms was made in accordance with the revised rules sanctioned in 1931, on the basis of approved standing lists instead of annual indents, the distribution being spread over the whole year in accordance with a rotation list. As a measure of economy, orders limiting the supply of stationery and forms to the several offices in the State to 50 per cent continued to be in operation during the year.

The working of the Depôt was satisfactory.

FINANCIAL SECRETARIAT

Notification No. Fl. 2373-81—G. F. 172-33-2, dated 24th October 1933.

MYSORE GOVERNMENT FOUR PER CENT CONVERSION LOAN, 1953-63.

(Free of Income-tax.)

Under the terms of Government Notification No. Fl. 2349—G. F. 171-33-3, dated 23rd October 1933, the rates of interest on Savings Bank Call (or Current) Deposits have been reduced from $3\frac{1}{8}$ per cent to $2\frac{3}{4}$ per cent and 2 per cent per annum on balances up to and in excess of Rs. 10,000 respectively with effect from 1st November 1933. To enable present holders of these deposits to continue their investment with the Government of Mysore, the Government are pleased to sanction the issue of a long-term loan for the conversion of Savings Bank Call Deposits and the Four Per Cent Savings Bank Five-Year Fixed Deposits under the following terms:—

From the 1st November 1933 up to 30th November 1933 inclusive.

Holders of

(1) Call Deposits (Current Deposits carrying interest at $3\frac{1}{8}$ per cent) and

(2) Four Per Cent Savings Bank Five-Year Fixed Deposits

will have the option of converting their deposits into a **Four Per Cent Tax-Free Conversion Loan of 1953-63** issued under the terms mentioned below:—

1. The loan is only for conversion. Cash subscriptions will not be accepted. Instead of the interest payable according to paras 7 and 8 below, Four Per Cent New Loan Bond of a corresponding Face Value may be issued at the option of the applicant.

2. The new conversion loan will bear interest at 4 per cent per annum from 1st December 1933. The interest will be free of both Mysore Government and Government of India Income-tax, but it will be taken into account in determining the rate at which the tax will be levied on other income. The interest will be payable on the 1st June and 1st December of each year.

3. The loan is repayable at par at the end of 30 years., *i.e.*, on 1st December 1963. But the Government will have the option to repay the whole or any part of it after 20 years, *i.e.*, on or after 1st December 1953, subject to three months' previous notice being given in the *Mysore Government Gazette*.

4. Only those balances which are held at credit in the Savings Bank on 31st October 1933 will be permitted to be converted into the new loan. Further accretions of deposits will not be accepted.

5. Interest at $3\frac{1}{8}$ per cent and 4 per cent per annum respectively for call (or current) deposits and Four Per Cent Savings Bank Five-Year Fixed Deposits will be paid up to 1st December 1933.

6. The interest on the loan will be paid at any Treasury of the State or at any District Treasury in British India or at the Imperial Bank of India, Madras, or at the Bank of Mysore, Limited, at its Head Office and Branches.

7. **Three and one-eighth Per Cent Call (or Current) Deposits.**—For every Rs. 100 of the Savings Bank Call-Deposits tendered for conversion, applicants will receive Rs. 100 (nominal value) of the 4 per cent loan 1953-63 bearing interest from 1st December 1933 and the accrued and accruing interest on the amount tendered for conversion, up to 1st December 1933, at the rate of $3\frac{1}{8}$ per cent per annum free of Income-tax.

8. **Four Per Cent Savings Bank Five-Year Fixed Deposits.**—For every Rs. 100 (nominal value) of the Four Per Cent Savings Bank Five-Year Fixed Deposit, tendered for conversion, applicants will receive Rs. 100 (nominal value) of the 4 per cent loan, 1953-63 bearing interest from 1st December 1933, and the following payment in cash at the time of issue of the new securities:—

Interest accrued and accruing on the Four Per Cent Savings Bank Five-Year Fixed Deposit tendered for conversion, up to 1st December 1933 at the rate of 4 per cent per annum free of Income-tax.

SUPPLEMENTARY PROVISIONS.

9. Depositors in the Mysore Government Savings Bank current account, wishing to subscribe to the new loan should present their applications with Pass Books and Withdrawal Forms at the Treasuries where their accounts are kept Similarly, holders of Four Per Cent Savings Bank Five-Year Fixed Deposits should present their applications with the Fixed Deposit Receipts for conversion at the Treasury at which they are drawing the interest on the Fixed Deposit Receipts.

10. The nominal value of the deposits tendered for conversion and the amount of interest for which new securities are required in exchange, must be multiples of Rs. 100.

11. Applications will be received at the Comptroller's Office, Bangalore, and all Treasuries in the State.

12. The Loan will be issued in the form of—

(*a*) Stock, the applicants for which will be given Stock Certificates, or

(*b*) Promissory Notes:

If no preference is stated by the applicants, the securities will be issued in the form of Promissory Notes.

13. The Promissory Notes of the new loan will be issued in the following denominations, Rs. 100, 500, 1,000, 5,000, 10,000, 25,000, 50,000 and 1,00,000.

14. Applications may be in the form attached hereto or in any other form which states clearly the amount and the description of the securities required, the full name and address of the applicant and the Bank, Treasury, or Sub-Treasury at which he desires that interest shall be paid.

15. Tenderers of deposits for conversion must transfer such deposits to the Government of Mysore by endorsing on the form of Withdrawal (in the case of call deposits) and on the Four Per Cent Savings Bank Five-Year Fixed Deposit Receipts, the words,

"Contents received. Pay to the Comptroller, Mysore Government." over their signatures.

16. Brokerage will be paid at the rate of 1/16th per cent to recognised brokers and bankers on applications for conversion, bearing their stamps.

Buildings for Girls' Schools.

READ—

Government Order No. P. W. 2342-2407-15948-16013, dated 28th April 1931, sanctioning the grant of certain concessions in connection with the construction of quarters for officials with a view to encourage private enterprise.

2. Letter No. E. 1392—Edn. 458-31-2, dated 19th October 1932, from the General Secretary to Government to the Director of Public Instruction, stating that Government agree in principle to extend the concessions sanctioned in the Government Order read above, to private persons undertaking the construction of suitable buildings for the location of Urdu Schools, the Department guaranteeing to rent such buildings when constructed in place of the buildings now rented, provided the plan of the building proposed to be constructed is scrutinised by the Department so that the expenditure may be such as to equate the five per cent interest, with the available rent, and adding that it may not be possible to sanction the grant of loans, but free sites may be given where available, each case being decided on its merits.

3. Letter No. B. 1. 51-4 of 33-34, dated 27th July 1933, from the Director of Public Instruction, recommending that the concessions referred to in the Government Order and the letter read above, may be extended to persons undertaking construction of suitable buildings for Girls' Schools also, with a guarantee of rent equal to six per cent interest on the outlay.

ORDER NO. E. 1358-59—EDN. 63-33-2, DATED BANGALORE, THE 21ST OCTOBER 1933.

Government are pleased to extend the concessions referred to in the Government Order and the letter read above, to persons who undertake construction of suitable buildings for Girls' Schools also. They however consider that in the present easy condition of the money market, the return of five per cent interest on the outlay would not be inadequate.

Notification No. Fl. 2373-81—G. F. 172-33-2, dated 24th October 1933.

MYSORE GOVERNMENT FOUR PER CENT CONVERSION LOAN, 1953-63.

(*Free of Income-tax.*)

Under the terms of Government Notification No. Fl. 2349—G. F. 171-33-3, dated 23rd October 1933, the rates of interest on Savings Bank Call (or Current) Deposits have been reduced from 3⅛ per cent to 2¾ per cent and 2 per cent per annum on balances up to and in excess of Rs. 10,000 respectively with effect from 1st November 1933. To enable present holders of these deposits to continue their investment with the Government of Mysore, the Government are pleased to sanction the issue of a long-term loan for the conversion of Savings Bank Call Deposits and the Four Per Cent Savings Bank Five-Year Fixed Deposits under the following terms:—

From the 1st November 1933 up to 30th November 1933 inclusive.

Holders of

(1) Call Deposits (Current Deposits carrying interest at 3⅛ per cent) and

(2) Four Per Cent Savings Bank Five-Year Fixed Deposits

will have the option of converting their deposits into a **Four Per Cent Tax-Free Conversion Loan of 1953-63** issued under the terms mentioned below.—

1. The loan is only for conversion. Cash subscriptions will not be accepted. Instead of the interest payable according to paras 7 and 8 below, Four Per Cent New Loan Bond of a corresponding Face Value may be issued at the option of the applicant.

2. The new conversion loan will bear interest at 4 per cent per annum from 1st December 1933. The interest will be free of both Mysore Government and Government of India Income-tax, but it will be taken into account in determining the rate at which the tax will be levied on other income. The interest will be payable on the 1st June and 1st December of each year.

3. The loan is repayable at par at the end of 30 years., *i.e.*, on 1st December 1963. But the Government will have the option to repay the whole or any part of it after 20 years, *i.e.*, on or after 1st December 1953, subject to three months' previous notice being given in the *Mysore Government Gazette.*

4. Only those balances which are held at credit in the Savings Bank on 31st October 1933 will be permitted to be converted into the new loan. Further accretions of deposits will not be accepted.

5. Interest at 3⅛ per cent and 4 per cent per annum respectively for call (or current) deposits and Four Per Cent Savings Bank Five-Year Fixed Deposits will be paid up to 1st December 1933.

6. The interest on the loan will be paid at any Treasury of the State or at any District Treasury in British India or at the Imperial Bank of India, Madras, or at the Bank of Mysore, Limited, at its Head Office and Branches.

7. **Three and one-eighth Per Cent Call (or Current) Deposits.**—For every Rs. 100 of the Savings Bank Call Deposits tendered for conversion, applicants will receive Rs. 100 (nominal value) of the 4 per cent loan 1953-63 bearing interest from 1st December 1933 and the accrued and accruing interest on the amount tendered for conversion, up to 1st December 1933, at the rate of 3⅛ per cent per annum free of Income-tax.

8. **Four Per Cent Savings Bank Five-Year Fixed Deposits.**—For every Rs. 100 (nominal value) of the Four Per Cent Savings Bank Five-Year Fixed Deposit, tendered for conversion, applicants will receive Rs. 100 (nominal value) of the 4 per cent loan, 1953-63 bearing interest from 1st December 1933, and the following payment in cash at the time of issue of the new securities:—

Interest accrued and accruing on the Four Per Cent Savings Bank Five-Year Fixed Deposit tendered for conversion, up to 1st December 1933 at the rate of 4 per cent per annum free of Income-tax.

SUPPLEMENTARY PROVISIONS.

9. Depositors in the Mysore Government Savings Bank current account, wishing to subscribe to the new loan should present their applications with Pass Books and Withdrawal Forms at the Treasuries where their accounts are kept Similarly, holders of Four Per Cent Savings Bank Five-Year Fixed Deposits should present their applications with the Fixed Deposit Receipts for conversion at the Treasury at which they are drawing the interest on the Fixed Deposit Receipts.

10. The nominal value of the deposits tendered for conversion and the amount of interest for which new securities are required in exchange, must be multiples of Rs. 100.

11. Applications will be received at the Comptroller's Office, Bangalore, and all Treasuries in the State.

12. The Loan will be issued in the form of—

(*a*) Stock, the applicants for which will be given Stock Certificates, or

(*b*) Promissory Notes.

If no preference is stated by the applicants, the securities will be issued in the form of Promissory Notes.

13. The Promissory Notes of the new loan will be issued in the following denominations, Rs. 100, 500, 1,000, 5,000, 10,000, 25,000, 50,000 and 1,00,000.

14. Applications may be in the form attached hereto or in any other form which states clearly the amount and the description of the securities required, the full name and address of the applicant and the Bank, Treasury, or Sub-Treasury at which he desires that interest shall be paid.

15. Tenderers of deposits for conversion must transfer such deposits to the Government of Mysore by endorsing on the form of Withdrawal (in the case of call deposits) and on the Four Per Cent Savings Bank Five-Year Fixed Deposit Receipts, the words,

"Contents received. Pay to the Comptroller, Mysore Government." over their signatures.

16. Brokerage will be paid at the rate of 1/16th per cent to recognised brokers and bankers on applications for conversion, bearing their stamps.

2. There was no improvement in the condition of the silk industry during the year. Owing to the continued abnormal imports of cheap foreign silk yarns and fabrics, there was a further drop in prices resulting in heavy loss to the local sericulturists. The Tariff Board appointed by the Government of India enquired into the applications for protection made by the indigenous sericultural interests, and the Sericultural Department and other private bodies gave evidence before the Board. The members of the Board also visited several Sericultural Centres in the State. Representations have also been made for immediate assistance under the safeguarding of Industries Act.

3. Despite these adverse conditions, the activities of the Sericultural Department were maintained at the normal level. The work done in the six Government grainages was satisfactory and a keen demand has been created for crossbreed and pure foreign race layings. It is reported that as many as 4,200 sericulturists obtained layings during the year from Government farms and that most of them are now using only disease-free layings for all crops.

4. The 15 aided grainages at work at the end of the year have also proved very popular. The need for more such grainages is felt and it is reported that a large number of young men who have received the necessary training are ready to employ themselves in this work.

5. During the year, 26 sericulturists were granted loans to the extent of Rs. 5,290. Government also passed orders remitting the stamp duty payable on the instruments relating to such loans. Recoveries during the year towards loans sanctioned amounted to Rs. 6,634 against Rs. 18,177 which became due.

6. The demand for domestic silk basins fell off, while many of them purchased previously were idle during the year owing probably to the dullness of the market.

7. The Government Silk Filature worked throughout the year. The number of basins was increased from 18 to 34. The total production of silk in the Filature amounted to 5,930 lbs., out of which about 5,000 lbs. were sold to the Government Silk Factory and private parties. There was no demand for waste-silk. Attempts are being made to convert silk-waste into spun-yarn.

8. During the year, ten more looms and some preparatory machines were added to the Government Silk Weaving Factory which produced about 21,400 yards of Georgette and Crepe-de-Chine fabrics. Twenty-four thousand six hundred and ninety yards of cloth were dyed and finished in the Dyeing Section and 1,300 yards of cloth belonging to private persons were also dyed and finished. The fabrics produced by the factory have proved very popular and the demand for them is steadily growing.

9. The total expenditure on the Department for the year amounted to Rs. 1,08,073, of which Rs. 54,048, roughly 50 per cent, represented the cost on establishment and travelling allowances.

10. The working of the Department continued to be satisfactory.

Letter No. Per. 27—32-33, dated 26th September 1933, from the Inspector-General of Registration, forwarding a report on the working of the Registration Department during 1932-33 together with the Statistical Statements.

ORDER NO. FL. 2625-35—REGIS. 10-33-3, DATED BANGALORE, THE 9TH NOVEMBER 1933.

Recorded.

2. The total number of documents registered during the year was 1,34,345 as against 1,23,260 in the preceding year and the total value of the documents so registered rose from Rs. 398·42 lakhs in 1931-32 to Rs. 403·60 lakhs during the year under review. The revenue of the Department during the year amounted to Rs. 3,04,404 as against Rs. 2,92,249 realised in the year previous, thus showing an increase of Rs. 12,155 while the total expenditure incurred was reduced to Rs. 1,73,035 from Rs. 1,77,453 in 1931-32.

3. The table of inspections shows that the Inspector-General of Registration inspected only 11 out of 82 Sub-Registry Offices and that no office was inspected in the Districts of Bangalore, Tumkur, Hassan and Chitaldrug. The Inspector-General of Registration is requested to bestow more attention to inspection work in future. Government are glad to note that no serious irregularities were noticed in the course of surprise visits paid to Sub-Registry Offices.

Statement of Cattle Mortality.

READ—

Letter No. Per. 22 of 33-34, dated 21st October 1933, from the Director of Agriculture in Mysore, forwarding the statement of cattle mortality in the State for the year ending 30th June 1933, with his review thereon.

(Director's review and statements are printed as annexures).

ORDER No. D. 2070-71—STCS. 16-33, DATED BANGALORE, THE 4TH NOVEMBER 1933.

Recorded.

2. As compared with the previous year, the total cattle mortality in the State shows a decrease of about 5 per cent, the mortality under contagious diseases increased by about 2·7 per cent while that under non-contagious diseases decreased by 7 per cent.

3. Mortality under rinderpest showed a further decline during the year. The disease accounted for 1,065 deaths, which is the lowest recorded during the past decade. It is hoped that the measures now being carried out to control and stamp out outbreaks of this disease will ultimately result in its complete eradication. Twety-two thousand, eight hundred and fifty-six inoculations were performed during the year against this disease. Mortality under blackquarter and anthrax similarly showed a further decline during the year. Eighty-six thousand, seven hundred and twenty-five and 2,676 inoculations were performed against these diseases. Foot and mouth disease accounted for 1,611 deaths during the year.

4. The Director of Agriculture observes that the cattle mortality returns now compiled are by no means accurate since returns of mortality which should be received from every village and for every month of the year have been actually received only to the extent of 72·1 per cent of the total number due. This is very unsatisfactory and the Revenue Commissioner is requested to issue strict instructions to the Amildars to pay particular attention to this important matter and see that the returns due from each village are regularly received from the Village Patels.

S. ABDUL WAJID,
Secretary to Government,
Development Department.

ANNEXURES.

REVIEW OF THE CATTLE MORTALITY RETURNS FOR THE HALF-YEAR ENDING 30TH JUNE 1933.

The total mortality during the year was less by 3,782 than that of the previous year, though there has been a slight increase under contagious diseases by 430 over that of the previous year.

The mortality under rinderpest is only 1,065 and is the lowest ever recorded, and is less than that of the previous year by 136. This disease, the deadly scourage of cattle diseases in India, has contributed only 6·6 per cent of the total mortality under contagious diseases for the year.

Shimoga District has taken the highest toll under this disease. Some of the villages in Honnali, Shikarpur and Channagiri Taluks were badly affected. Kadur District comes next to Shimoga.

The S. S. inoculation campaign carried out systematically since the last eight years in remote parts of every taluk in the Province, has created immune zones, with the result that the free spread of infection from one corner to another has been considerably lessened by these effective barriers.

Goat Virus alone inoculation, a device to lessen the process and minimise the cost of inoculation, was very successfully tried in one of the infected villages in Shimoga District.

With the extensive adoption of this method, it is hoped that the economic loss that is sustained by the raiyats from this disease will be brought down to a negligible figure. Twenty-two thousand, eight hundred and fifty-six inoculations were conducted against this disease.

The mortality under anthrax and blackquarter has gone down by 13 per cent and 9 per cent respectively, in comparison with that of last year. Much of the success in preventing the mortality under these diseases is due to the raiyats readily responding to the call of the Department in getting their live-stock protected against these diseases soon after the first signs of the outbreak are noticed. Two thousand, eight hundred and seventy-six and 86,725 inoculations were conducted against these diseases, respectively.

Foot and mouth was very severe in parts of Hassan, Mysore and Chitaldrug Districts, and the mortality under this head was much greater during the current year than in the previous year. Many of these outbreaks could not be attended to by the Veterinary Inspectors personally for want of time.

It may be mentioned here that the mortality returns compiled for the State cannot be assumed to disclose actual facts unless the percentage returns received in Taluk Offices goes up to at least 95 for the State. The percentage of returns received during the year for the whole State is 72·1 as against 71·5 of the previous year. Better results could not be achieved in spite of timely intimation to Amildars whenever there was a tendency of decline in the percentage of returns received; notwithstanding the observation of the Government year after year in this behalf.

The returns received in the following taluks have not shown any satisfactory improvement within the last six years:—

Bangalore	Arkalgud
Hoskote	Saklespur
Magadi	Hole-Narsipur
Mulbagal	Chitaldrug
Bowringpet	Hosdurga
Nanjangud	Shimoga
Hassan	

The present state of affairs may not improve unless the Amildars adhere to the standing orders of Government and review the returns received in the taluk, monthly, with the consolidated register and insist on getting these returns by the defaulting Patels. Besides, the scrutiny of these returns by the Amildars during their tours and insistence on Revenue Inspectors to note if the villages they have visited during their itineration have sent up these returns regularly, would bring about much needed improvement.

A. K. YEGNANARAYANA AIYAR,

Working of the Department of Mines and Explosives for the year 1932-33.

READ—

Letter No. 420, dated 15th September 1933, from the Chief Inspector of Mines in Mysore, submitting the Administration Report of the Department of Mines and Explosives for the year 1932-33.

ORDER No. D. 2177-87-- GEOL. 27-33-3, DATED BANGALORE, THE 10TH NOVEMBER 1933.

Recorded.

2. *Personnel.*—Mr. C. E. Suryanarayana Rao continued as Chief Inspector of Mines in the year under report.

3. *Mining and Prospecting.*—The total number of leases, licenses and certificates of approval current during the year was 65 as against 69 in the previous year. The total area covered by mining leases and prospecting licenses was 20,272 acres and the total rents and cesses recovered in respect of them, amounted to Rs. 14,096-8-0.

4. *Gold Mining.*—The total number of mining leases for gold was 21, the same as in the previous year. Mining operations were in progress in four blocks on the Kolar Gold Field against five in the previous year, as the Balaghat Gold Mines, Ltd., ceased to work, with effect from 1st May 1932, and the property was transferred to the Nandydroog Mines, Ltd. The nominal and the paid-up capital of all companies carrying on operations in Mysore amounted to £1,563,000 and £1,513,772 respectively for the calendar year 1932 as against £1,717,000 and £1,667,737 respectively, in the past year. The total quantities of fine gold and fine silver produced during the calendar year 1932 amounted to 329,574·899 ozs. and 27,781·139 ozs., respectively, against 330,434·024 ozs. and 22,604·850 ozs., during the previous year. The total value of fine gold and silver produced during 1932 amounted to £1,925,415-13-10 against £1,561,540-18-4, the increase in value being due to the high premium on gold. The total amount paid in dividends was £412,865-14-6 as against £219,010-16-0 during 1931. The royalty payable to Government on gold and silver won and dividends paid amounted to £105,919-16-3 as against £83,086-16-1 (revised) in the previous year. The total demand on account of royalty payable to Government on gold and silver including the balance due for the previous calendar year amounted to Rs. 17,26,822-2-0, out of which Rs. 13,95,274-6-0 was collected leaving a balance of Rs. 3,31,547-12-0.

5. *Position of the Mines.*—The estimated total 'ore reserves' of all the mines at the end of the year shows an increase of 152,078 tons. No prospecting or mining work for gold was done outside the Kolar Gold Field. The Champion Reef and Oorgaum Mines have reached vertical depths of over 7,200 feet below the field datum. It is reported that all possible arrangements have been made to ensure adequate supply of fresh air to all working places and to minimise the effects of rockbursts. The question of providing adequate ventilation which is very necessary for deep mining, is reported to be receiving the close attention of the management. The central mine rescue station is, as usual, maintained in an efficient condition and its services are made available at times of emergency. "Safety First" campaign is being carried on as usual. "First Aid" work and the "Scout Movement" are said to be very popular and the latter has given a great impetus to the former.

6. *Other Mines.*—The following statement gives the output and other particulars of minerals other than gold in the State during the year:—

Name of mineral	Output	Quantity removed from block	Royalty Payable
	Tons	Tons	Rs. a. p.
Manganese	.....	112·00	70 0 0
Chromite	6,449·78 (83·25 concentrate)	4,213·79	3,160 6 0
Magnesite	1,834·65	2,750·50	1,760 0 0 (dead rent)
Kaolin	2,533·60	2,530·71	2,046 0 0
Soapstone	161·50	161·50	251 14 0
Green Quartzite	6·00	5·00	50 0 0

7. *Mining Revenue.*—The total demand under mining revenue other than royalty on gold for the year including the previous year's balance, was Rs. 85,567-8-8 and the same was realised in full.

8. *Inspection of Mines.*—All the mines on the Kolar Gold Field were regularly inspected during the year and no serious defects or lapses of the mining rules are reported to have been noticed. All suggestions made for ensuring the safety of workmen were immediately carried out by the mining authorities. Enquiries into all accidents were held and persons responsible for them were prosecuted and convictions secured. Less serious offences were dealt with departmentally. Three hundred and forty-eight candidates were examined during the year for the grant of certificates and 78 duplicates were issued, the originals having been lost by the applicants. The examination fees realised during the year amounted to Rs. 1,687-14-6 as against Rs. 1,713-9-0 in the previous year. The examination of the books and accounts of the Champion Reef Gold Mines, Ltd., was conducted during the year by the Comptroller in association with the Chief Inspector of Mines and no irregularities were found. Some mining blocks outside the Kolar Gold Field were also inspected during the year.

9. *Mining Labour.*—The total number of persons employed in the mining industry during 1932 was 19,623 as against 19,109 in the year previous. Of this number, 18,816 were employed in gold mining as against 18,388 in 1931. It is gratifying to note that efforts are being made by the mining authorities to improve the general condition of the workmen and that the relation between the employers and the employees was satisfactory.

10. *Accidents.*—The total number of accidents reported during the year was 217 against 200 in the previous year. Of these, 45 were fatal, 168 serious and non-fatal, and 4 non-mining. Out of 213 fatal and serious accidents, 22 were due to negligence, 18 to recklessness, and 173 were classed as unavoidable as against 22, 10 and 163 respectively, in the previous year. The death rate in the gold mines was 3·93 per 1,000 against 7·12 per 1,000 in 1931. Out of 45 fatal accidents, 14 were due to rockbursts resulting in the death of 34 persons as against 15 accidents and 59 persons in the previous year. The submission of a report of the Special Committee appointed to go into the question of adopting suitable measures for the prevention of rockbursts should be expedited.

11. *Compensation for Injuries.*—The compensation awarded under the Workmen's Compensation Regulation in respect of fatal cases and cases of permanent total disablement and permanent partial disablement amounted to Rs. 56,334-1-1-0 against Rs. 1,17,984-8-0 during the previous year. Besides this, compensation amounting to Rs. 15,566-1-0 was paid in cases of temporary disablement as against Rs. 13,360-1-0 during 1931.

12. *Prosecutions.*—Seventy-six persons involved in 56 cases were prosecuted as against 44 and 37 respectively, in the previous year in connection with the theft and illegal possession of mining materials and of these, 60 were convicted as against 40 in the last year. Twenty-one cases were also dealt with for breach of rules, accidents, etc., as against 15 in 1931.

13. *Explosives.*—During the year, 731 licenses were granted under the Mysore Explosives Rules as against 703 during 1931. All the magazines included in the licenses granted by Government were inspected in detail during the year, by the Officers of the Department and are reported to be in good order. Eight of the Government magazines in charge of civil officers were inspected by the Chief Inspector of Mines during the year and irregularities and defects noticed were pointed out to them. The total number of inspections of explosives premises, carried out during the year by the Magistrates and Police Officers, was 580 against 651 during the previous year, showing a decrease of 71 inspections. Government note that there has been some slackness in the regular inspection of explosive premises during the year by the said officers. The necessity and importance of systematic and regular inspection of all these premises in future cannot be too strongly stressed. There were 16 cases of prosecution under the Mysore Explosives Rules during the year as against 19 in the previous year. Forty-four accidents due to explosives involving the death of 25 persons and serious injuries to 48 others were reported during the year as against 65, 15 and 79 respectively, during the year previous.

14. *General.*—A set of rules regulating the manufacture and possession of gunpowder in quantities exceeding 200 lbs. at a time, was brought into force during the year.

15. *Conclusion.*—The work of the Department during the year was satisfactory.

FINANCIAL SECRETARIAT

Notification No. Fl. 2373-81—G. F. 172-33-2, dated 24th October 1933.

MYSORE GOVERNMENT FOUR PER CENT CONVERSION LOAN, 1953-63.

(Free of Income-tax.)

Under the terms of Government Notification No. Fl. 2349—G. F. 171-33-3, dated 23rd October 1933, the rates of interest on Savings Bank Call (or Current) Deposits have been reduced from 3⅛ per cent to 2¾ per cent and 2 per cent per annum on balances up to and in excess of Rs. 10,000 respectively with effect from 1st November 1933. To enable present holders of these deposits to continue their investment with the Government of Mysore, the Government are pleased to sanction the issue of a long-term loan for the conversion of Savings Bank Call Deposits and the Four Per Cent Savings Bank Five-Year Fixed Deposits under the following terms :—

From the 1st November 1933 up to 30th November 1933 inclusive.

Holders of

(1) Call Deposits (Current Deposits carrying interest at 3⅛ per cent) and

(2) Four Per Cent Savings Bank Five-Year Fixed Deposits

will have the option of converting their deposits into a **Four Per Cent Tax-Free Conversion Loan of 1953-63** issued under the terms mentioned below.—

1. The loan is only for conversion. Cash subscriptions will not be accepted. Instead of the interest payable according to paras 7 and 8 below, Four Per Cent New Loan Bond of a corresponding Face Value may be issued at the option of the applicant.

2. The new conversion loan will bear interest at 4 per cent per annum from 1st December 1933. The interest will be free of both Mysore Government and Government of India Income-tax, but it will be taken into account in determining the rate at which the tax will be levied on other income. The interest will be payable on the 1st June and 1st December of each year.

3. The loan is repayable at par at the end of 30 years., *i.e.*, on 1st December 1963. But the Government will have the option to repay the whole or any part of it after 20 years, *i.e.*, on or after 1st December 1953, subject to three months' previous notice being given in the *Mysore Government Gazette*.

4. Only those balances which are held at credit in the Savings Bank on 31st October 1933 will be permitted to be converted into the new loan. Further accretions of deposits will not be accepted.

5. Interest at 3⅛ per cent and 4 per cent per annum respectively for call (or current) deposits and Four Per Cent Savings Bank Five-Year Fixed Deposits will be paid up to 1st December 1933.

6. The interest on the loan will be paid at any Treasury of the State or at any District Treasury in British India or at the Imperial Bank of India, Madras, or at the Bank of Mysore, Limited, at its Head Office and Branches.

7. **Three and one-eighth Per Cent Call (or Current) Deposits.**—For every Rs. 100 of the Savings Bank Call Deposits tendered for conversion, applicants will receive Rs. 100 (nominal value) of the 4 per cent loan 1953-63 bearing interest from 1st December 1933 and the accrued and accruing interest on the amount tendered for conversion, up to 1st December 1933, at the rate of 3⅛ per cent per annum free of Income-tax.

8. **Four Per Cent Savings Bank Five-Year Fixed Deposits.**—For every Rs. 100 (nominal value) of the Four Per Cent Savings Bank Five-Year Fixed Deposit, tendered for conversion, applicants will receive Rs. (nominal value) of the 4 per cent loan, 1953-63 bearing interest from 1st December 1933, and the following payment in cash at the time of issue of the new securities :—

Interest accrued and accruing on the Four Per Cent Savings Bank Five-Year Fixed Deposit tendered for conversion, up to 1st December 1933 at the rate of 4 per cent per annum free of Income-tax.

SUPPLEMENTARY PROVISIONS.

9. Depositors in the Mysore Government Savings Bank current account, wishing to subscribe to the new loan should present their applications with Pass Books and Withdrawal Forms at the Treasuries where their accounts are kept Similarly, holders of Four Per Cent Savings Bank Five-Year Fixed Deposits should present their applications with the Fixed Deposit Receipts for conversion at the Treasury at which they are drawing the interest on the Fixed Deposit Receipts.

10. The nominal value of the deposits tendered for conversion and the amount of interest for which new securities are required in exchange, must be multiples of Rs. 100.

11. Applications will be received at the Comptroller's Office, Bangalore, and all Treasuries in the State.

12. The Loan will be issued in the form of—

(*a*) Stock, the applicants for which will be given Stock Certificates, or

(*b*) Promissory Notes.

If no preference is stated by the applicants, the securities will be issued in the form of Promissory Notes.

13. The Promissory Notes of the new loan will be issued in the following denominations, Rs. 100, 500, 1,000, 5,000, 10,000, 25,000, 50,000 and 1,00,000.

14. Applications may be in the form attached hereto or in any other form which states clearly the amount and the description of the securities required, the full name and address of the applicant and the Bank, Treasury, or Sub-Treasury at which he desires that interest shall be paid.

15. Tenderers of deposits for conversion must transfer such deposits to the Government of Mysore by endorsing on the form of Withdrawal (in the case of call deposits) and on the Four Per Cent Savings Bank Five-Year Fixed Deposit Receipts, the words,

"Contents received. Pay to the Comptroller, Mysore Government." over their signatures.

16. Brokerage will be paid at the rate of 1/16th per cent to recognised brokers and bankers on applications for conversion, bearing their stamps.

Record of Rights Fees.

READ—

Letter No. C. 1590—1933-34, dated 3rd November 1933, from the Revenue Commissioner, stating that several representations were made to him for the grant of some relief in respect of the payment of Record of Rights fees and that according to the procedure now in vogue, the entire fees are to be collected about two years or more before the Final Record is notified and suggesting the following changes in the existing procedure in order to afford some relief suitable to the present conditions:—

(1) The collection of Record of Rights fees to be commenced one year after the completion and checking of the Preliminary Record, the fees being levied along with the first land revenue khist falling due thereafter.

(2) Except in cases where the fee is Rs. 2 and less, option to be allowed to the parties to pay the fees in not more than three equal yearly instalments, subject to a minimum of Rs. 2 per instalment.

ORDER No. R. 2469-79—L. S. 34-33-2, DATED BANGALORE, THE 16—17TH NOVEMBER 1933.

The recommendation of the Revenue Commissioner is sanctioned.

Amends the Rules relating to Tolls on State Fund Roads.

ORDER No. R. 2416-26—R. M. 20. (A) 33-4, DATED BANGALORE, THE 13—16TH NOVEMBER 1933.

The following amendment is hereby issued to the Rules relating to Tolls on State Fund Roads, issued as Schedule "C" of Government Order No. R. 4730-42—R. M. 5-29-44, dated 20th February 1931:—

Add the following as Note under Rule (*g*) (8) of the Rules—

"Any such officer passing a toll-gate on duty shall enter in a book kept for the purpose, his name, designation and nature of duty on which he is travelling, if the toll-gate contractor so desires."

The Rule as amended reads as follows:—

Rule (*g*) No toll shall be levied for the passage or carriages or carts, etc., if—

. . . . . .

(8) they belong to officers and subordinates of the Public Works Department below the grade of Executive Engineers who travel on duty within their jurisdiction.

NOTE.—Any such officer passing a toll-gate on duty shall enter in a book kept for the purpose, his name, designation and nature of duty on which he is travelling, if the toll-gate contractor so desires.

Working of the Civil Veterinary Department for the year 1932-33.

READ—

Letter No. Per. 195 of 33-34, dated 12th October 1933, from the Director of Agriculture, submitting the Administration Report of the Civil Veterinary Department for the year 1932-33.

ORDER No. D. 2309-57—C. V. 23-33-3, DATED BANGALORE, THE 16TH NOVEMBER 1933.

Recorded.

2. *Administration.*—Mr. K. Krishna Iyengar was in charge of the Department during the year under report.

3. *Contagious Diseases.*—It is gratifying to note that the total cattle mortality under Rinderpest during the year was the lowest, the number being 1,065 against 1,201 in 1931-32. The increase in mortality during the year as compared with the previous year was in Hæmorrhagic Septicæmia, Parasitic Diarrhœa and Foot and Mouth Diseases. The outbreak of Rinderpest during the year continued to be on the decline, the number of outbreaks being 78 as against 172 in the previous year. There was a slight increase in the outbreak of other contagious diseases during the year. The Serum Simultaneous inoculation and inoculations for other diseases are reported to have proved very effective. The total number of inoculations done against epidemic diseases during the year was 135,090 as against 127,089 during the previous year. It is reported that there was some slackness on the part of the village officers in reporting outbreaks and forwarding cattle mortality returns to the Veterinary Inspectors. Government wish to reiterate the necessity on the part of the village officers for co-operating with the Veterinary Inspectors in their work.

4. *Veterinary Dispensaries and Hospitals.*—The total number of Veterinary Institutions in the State remained at 60. Two lakhs, fifteen thousand, three hundred, and eighty-one fresh cases were admitted for treatment in the several institutions as against 1,74,411 in the previous year. It is satisfactory to note that buildings in a few cases for these institutions are being constructed by philanthropic gentlemen.

5. *Tours.*—The staff visited 14,101 villages, castrated 52,651 animals, treated 66,583 cases, and undertook 1,898 surgical operations as against 10,135, 33,065, 31,352 and 1,320 respectively, during the previous year.

6. *Cattle Fairs.*—Ninety-four cattle fairs were held during the year and the Departmental staff attended 90 of them and in all the fairs temporary Veterinary Dispensaries were opened. Revised rules for the control of cattle fairs and shows were issued by Government on 7th September 1933.

7. *Rural Veterinary Aid.*—A castration demonstration class of six months' duration for training salustries and compounders was opened during the year. The scheme of systematic weeding out of scrub bulls under Village Panchayets was continued during the year.

8. *Scientific Section.*—Three hundred and eighty-four specimens were examined for diagnosis of cattle diseases during the year as against 349 during the previous year. Investigation of Johne's and parasitic diseases was continued during the year. Further research work on the prevalence of Nasal Granuloma among cattle in the Anekal Taluk was also carried out. Other Departments, such as Military, Palace, Forest and Live Stock got the help of the Research Section for investigation of animal diseases.

9. *Miscellaneous.*—The fifth annual meeting of the Mysore Veterinary Medical Association was held during May 1933 under the presidency of Dr. L. C. Coleman, M.A., PH.D., C.I.E., Director of Agriculture in Mysore.

10. *Conclusion.*—The work of the Department was satisfactory during the year under review.

Working of the Mysore Geological Department for the year 1932-33.

READ—

Correspondence ending with letter No. 8006-23, dated the 22nd September 1933, from the Director of Geology in Mysore, forwarding the Administration Report of the Mysore Geological Department for the year 1932-33.

ORDER NO. D. 2389-95—GEOL. 28-33-3, DATED BANGALORE, THE 17TH NOVEMBER 1933.

Recorded.

2. *Administration.*—Mr. P. Sampath Iyengar, Director of Geology, having been permitted to retire from 30th June 1932, Mr. A. M. Sen succeeded him as Officiating Director and was confirmed as Director in March 1933. He was in charge of the Department throughout the year, except for a brief period of about three weeks from 24th December 1932, when he was on leave. The combination of the post of Professor of Geology in the Central College, Bangalore, with the Office of Director of Geology ceased with effect from the date of Mr. Sampath Iyengar's retirement.

3. *Mining Revenue.*—The demand for the year on account of Mining Revenue and Geological receipts exclusive of royalty on gold was Rs. 85,567-8-8 and the entire amount was realised.

4. *Inspections.*—The works covered by the current mining leases and prospecting and collecting licenses were inspected by the Department during the year and the irregularities noticed were got rectified.

5. *Mining and Prospecting.*—There were 12 certificates of approval, 36 mining leases, 9 prospecting licenses and 8 collecting licenses current during the year against 14, 40, 9 and 6, respectively, in the previous year. The total area covered by mining leases and prospecting licenses was 20,272 acres and the total amount of rent and cesses recovered in respect of it amounted to Rs. 14,096-8-0 as against 26,311 acres and Rs. 16,866-0-0, respectively in the year previous.

The leases current for gold were 21 as in the previous year. Gold mining operations were carried on by four Companies on the Kolar Gold Field against five in the previous year, the decrease by one being due to the assignment of the leases held by the Balaghat Gold Mining Company, Limited, to the Nundydroog Mines, Limited, in May 1932. The results of output of gold and silver during the year were as follows:—

Year	Total quantity of fine gold produced	Value	Total quantity of fine silver returned by the Mint	Value	Total Royalty
	Ozs.	Rs. a. p.	Ozs.	Rs. a. p.	Rs. a. p.
1931-32	329,715·721	2,37,06,303 13 0	27,174·67	39,454 9 0	13,07,783 14 0

6. *Departmental Mining and Prospecting.*—No intensive mining was conducted on the Byrapur and Tallur Chrome Mines, due to depression in the mineral market. The total output of Chrome ore for the year was 1,191 tons (approximately). A total quantity of 3,121 tons of Chromite ore was sold and the sale proceeds amounted to Rs. 57,815. At the close of the year, the stock of ore held was 2,336 tons. No mining of ore was done on the Tallur Mine. The total quantity of pebble collection was 746 tons during the year. There was no mining of Magnesite during the year. The mining of Felspar, White quartz, Kaolin and Refractory clay was carried on to meet the demand of the Government Porcelain Factory. Two hundred and fifty-five tons of Graphite were mined during the year, of which 210·33 tons were supplied to the Mysore Iron Works.

7. *Geological and Mineral Survey.*—Areas comprising about 245 square miles were examined and mapped during the year.

The following important mineral surveys, among others, were conducted during the year;—

(1) Clay deposits round about Bangalore for stoneware manufacture.
(2) Clay deposits near Soldevanhalli, Banasandra, Kondli and Voblapur for cement manufacture.
(3) Soapstone deposits in Mysore and Hassan Districts for the Government Porcelain Factory.

8. *Economic Investigations.*—Experiments for the manufacture of ferro-chrome and ferro-silicon which were suspended at Bhadravati at the close of the previous year, were resumed in February 1933 at Sivasamudram.

9. *Miscellaneous.*—The total number of samples analysed and the constituents determined during the year in the Chemical Laboratory for the Government Departments and the public was 172 and 723, respectively, and a sum of Rs. 145-10-0 was realised under fees as against Rs. 181-12-0 in the previous year. Bulletin No. 13 on "Ores and their Rock Associates in Peninsular India" and the Records Volumes XXX and XXXI were published. The Department participated in the Mysore Dasara Exhibition and in the Science Exhibition held in the Central College, Bangalore in April 1933, under the auspices of the South Indian Science Association.

10. *Conclusion.*—Government are glad to note that the work of the Department during the year was satisfactory.

Secretary to Government,
Development Department.

GENERAL SECRETARIAT

Working of the Mysore Health Department for the year 1932.

READ—

The Administration Report of the Health Department for the Calendar year 1932, received from the Director of Health with his letter No. H. E. 100, dated the 29th August 1933.

ORDER NO. G. 3163-85—P. H. 28-33-5, DATED BANGALORE, THE 14TH NOVEMBER 1933.

Recorded.

2. Dr. Karve, Dr. Sweet and Mr. Mieldazis continued as the Director of Health, Consultant in Health, and Sanitary Engineer respectively, throughout the year.

3. *Bureau of Epidemiology and Communicable Diseases.*—(*a*) *Malaria Stations.*—The post of a Malaria Officer was created and Mr. Nur Singh, Third Class Health Officer, was appointed to it. The experimental control of malaria by means of paris green was continued in the three malaria stations. Malaria surveys were conducted during the year in the Irwin Canal area and six other places.

(*b*) *Hookworm Control.*—The campaign of mass treatment for hookworm was continued from October 1931 to 9th March 1932 and again during the last quarter of the year 1932. The unit operated in all in 17 places and mass treatment was newly demonstrated in 17 medical institutions of the Shimoga District. It is reported that the medical officers in the heavily infected zone have failed to report the result of the mass treatment undertaken by them. The Senior Surgeon is requested to see that there is better co-operation between the Health and Medical Departments.

Plague and small-pox showed increased mortality over that for the previous year accounting for 7,232 and 2,980 deaths respectively, as against 5,715 and 2,296 during 1931. The reasons for the increase have not been assigned. The total number of anti-plauge inoculations and vaccinations done during the year was 2,34,295 and 2,45,078, respectively.

4. *Rural Healthy Unit.*—Cases of plague, diarrhœa and vomiting, small-pox, measles and typhoid were reported in the Mandya Rural Health Unit area. The two midwives attached to the unit visited 5,406 maternity cases in addition to conducting 66 labour cases. In the early part of the year, soon after water was turned on in the Maddur Branch of the Irwin Canal and irrigation was commenced in a few villages, it was found that the number of musquitoes was on the increase and by April, malaria

attained epidemic proportions, six villages being affected very severely. With a view to determine the local conditions, a health survey in the Irwin Canal area was undertaken with a Government grant of Rs. 15,000 for free distribution of quinine and other relief measures in the affected area. Government have since passed orders sanctioning the establishment of a Health Unit for the Irwin Canal area to combat malaria. The question of starting Rural Health Units in other parts of the State was deferred on account of financial stringency.

5. *Bureau of Health Education.*—The Bureau continued to receive the assistance of the Rocke-feller Foundation during the year. In all, 22 articles on health subjects were published in local Kannada and English newspapers and leaflets and posters on small-pox, plague, soil polution and bore-hole latrines were printed in large numbers and freely distributed through the Agency of the Revenue, Educational and Local Boards authorities.

6. *Bureau of Laboratories.*—(*a*) *Public Health Institute.*—In addition to the normal work done in the Public Health Institute, extra bacteriological work was done in the Institute in connection with the investigation of the causes for the prevalence of typhoid in the Bangalore City. On account of the large expenditure incurred on materials, in this behalf, the question of levying fees for the examination of specimens received from the Bangalore City Municipality is engaging the attention of Government.

(*b*) *Vaccine Institute.*—Lanoline lymph continued to be manufactured and the total quantity issued within the State during the year was enough for 2,32,177 cases. Owing to the non-completion of certain important structures in the Institute, the manufacture of Glycerine lymph was not undertaken during the year. The income and expenditure of the Institute during the year were more or less equal, being Rs. 24,829 and Rs. 24,796, respectively; the latter includes a sum of Rs. 6,000 spent on the acquisition of new land for the extension of the Institute.

7. *Bureau of Vital Statistics.*—The total number of births recorded during 1932 was 115,627, showing a decrease of about 4,000 as compared with the figures of the previous year. The birth rate during the year was slightly less than in 1931, the rates being 17·79 and 18·64, respectively, Kolar District having returned the highest rate, *viz.*, 20·85, and Hassan, the lowest, *viz.*, 11·36.

The total number of deaths reported during the year was 88,175 against 94,265 in 1931 giving a death rate of 13·57 and 14·67, respectively. The total number of deaths among children under one year of age was 11,026 against 9,863 in the previous year, showing an increase of 1,163. Births exceeded deaths in all the districts except Kadur.

8. *Bureau of Sanitary Engineering.*—The activities of the Bureau increased with the addition of the control of all the water-supplies in the State except that of the Bangalore City. Nine existing water-supplies were equipped with chlorinators during the year. The other work of the bureau was carried on on the same lines as in the previous year. Mr. J. J. Mieldazis, whose services had been kindly lent to Government by the Rockefeller Foundation has since returned to America. Government desire to place on record the valuable services rendered by Mr. Mieldazis, during the three years of his stay in the State.

9. *General.*—Mr. P. Parthasarathy was re-transferred from the Serum Institute to the Health Department as Health Officer, Bangalore City.

Mr. V. Narasimhamurthi, Second Grade Health Officer, who had been deputed to Calcutta, returned after obtaining D. P. H., D. T. M. of that University. Two more officers have since been deputed to Calcutta during the current year for study of D. P. H.

Notification No. Fl. 2373-81—G. F. 172-33-2, dated 24th October 1933.

MYSORE GOVERNMENT FOUR PER CENT CONVERSION LOAN, 1953-63.

(Free of Income-tax.)

Under the terms of Government Notification No. Fl. 2349—G. F. 171-33-3, dated 23rd October 1933, the rates of interest on Savings Bank Call (or Current) Deposits have been reduced from 3½ per cent to 2¾ per cent and 2 per cent per annum on balances up to and in excess of Rs. 10,000 respectively with effect from 1st November 1933. To enable present holders of these deposits to continue their investment with the Government of Mysore, the Government are pleased to sanction the issue of a long-term loan for the conversion of Savings Bank Call Deposits and the Four Per Cent Savings Bank Five-Year Fixed Deposits under the following terms :—

From the 1st November 1933 up to 30th November 1933 inclusive.

Holders of

(1) Call Deposits (Current Deposits carrying interest at 3½ per cent) and

(2) Four Per Cent Savings Bank Five-Year Fixed Deposits

will have the option of converting their deposits into a **Four Per Cent Tax-Free Conversion Loan of 1953-63** issued under the terms mentioned below.—

1. The loan is only for conversion. Cash subscriptions will not be accepted. Instead of the interest payable according to paras 7 and 8 below, Four Per Cent New Loan Bond of a corresponding Face Value may be issued at the option of the applicant.

2. The new conversion loan will bear interest at 4 per cent per annum from 1st December 1933. The interest will be free of both Mysore Government and Government of India Income-tax, but it will be taken into account in determining the rate at which the tax will be levied on other income. The interest will be payable on the 1st June and 1st December of each year.

3. The loan is repayable at par at the end of 30 years., *i.e.*, on 1st December 1963. But the Government will have the option to repay the whole or any part of it after 20 years, *i.e.*, on or after 1st December 1953, subject to three months' previous notice being given in the *Mysore Government Gazette.*

4. Only those balances which are held at credit in the Savings Bank on 31st October 1933 will be permitted to be converted into the new loan. Further accretions of deposits will not be accepted.

5. Interest at 3½ per cent and 4 per cent per annum respectively for call (or current) deposits and Four Per Cent Savings Bank Five-Year Fixed Deposits will be paid up to 1st December 1933.

6. The interest on the loan will be paid at any Treasury of the State or at any District Treasury in British India or at the Imperial Bank of India, Madras, or at the Bank of Mysore, Limited, at its Head Office and Branches.

7. **Three and one-eighth Per Cent Call (or Current) Deposits.**—For every Rs. 100 of the Savings Bank Call Deposits tendered for conversion, applicants will receive Rs. 100 (nominal value) of the 4 per cent loan 1953-63 bearing interest from 1st December 1933 and the accrued and accruing interest on the amount tendered for conversion, up to 1st December 1933, at the rate of 3½ per cent per annum free of Income-tax.

8. **Four Per Cent Savings Bank Five-Year Fixed Deposits.**—For every Rs. 100 (nominal value) of the Four Per Cent Savings Bank Five-Year Fixed Deposit, tendered for conversion, applicants will receive Rs. 100 (nominal value) of the 4 per cent loan, 1953-63 bearing interest from 1st December 1933, and the following payment in cash at the time of issue of the new securities :—

Interest accrued and accruing on the Four Per Cent Savings Bank Five-Year Fixed Deposit tendered for conversion, up to 1st December 1933 at the rate of 4 per cent per annum free of Income-tax.

SUPPLEMENTARY PROVISIONS.

9. Depositors in the Mysore Government Savings Bank current account, wishing to subscribe to the new loan should present their applications with Pass Books and Withdrawal Forms at the Treasuries where their accounts are kept Similarly, holders of Four Per Cent Savings Bank Five-Year Fixed Deposits should present their applications with the Fixed Deposit Receipts for conversion at the Treasury at which they are drawing the interest on the Fixed Deposit Receipts.

10. The nominal value of the deposits tendered for conversion and the amount of interest for which new securities are required in exchange, must be multiples of Rs. 100.

11. Applications will be received at the Comptroller's Office, Bangalore, and all Treasuries in the State.

12. The Loan will be issued in the form of—

(*a*) Stock, the applicants for which will be given Stock Certificates, or

(*b*) Promissory Notes.

If no preference is stated by the applicants, the securities will be issued in the form of Promissory Notes.

13. The Promissory Notes of the new loan will be issued in the following denominations, Rs. 100, 500, 1,000, 5,000, 10,000, 25,000, 50,000 and 1,00,000.

14. Applications may be in the form attached hereto or in any other form which states clearly the amount and the description of the securities required, the full name and address of the applicant and the Bank, Treasury, or Sub-Treasury at which he desires that interest shall be paid.

15. Tenderers of deposits for conversion must transfer such deposits to the Government of Mysore by endorsing on the form of Withdrawal (in the case of call deposits) and on the Four Per Cent Savings Bank Five-Year Fixed Deposit Receipts, the words,

"Contents received. Pay to the Comptroller, Mysore Government." over their signatures.

16. Brokerage will be paid at the rate of 1/16th per cent to recognised brokers and bankers on applications for conversion, bearing their stamps.

Special Staff for Panchayet Works in each District

READ—

(1) Government Order No. L. 4921-41—V. P. 49-31-3, dated the 11th January 1932, reviewing the report on the working of the Village Panchayets in the State during 1930-31.

(2) Note No. D. 6, dated the 26th September 1933, by the Chief Engineer, Public Works Department, in the matter of the unemployment among Engineering Graduates and subordinates and utilisation of their services for Village Panchayet Works and Rural Reconstruction.

ORDER NO. L. 3574-86—V. P. 38-33-2, DATED BANGALORE, THE 20TH—21ST NOVEMBER 1933.

A sum of about Rs. 30 lakhs is at the credit of the Village Panchayets in the State. The question of utilising this amount for works of public utility, such as, the opening of new village roads, the construction of bridges and causeways, the laying out of villages, etc., according to a settled programme and under proper technical supervision was discussed at the Officers' Meeting held at Mysore on the 29th of September 1933. In order to ensure that Village Panchayet funds are utilised to the best advantage, the Chief Engineer suggested the employment of a small establishment at the Headquarters of each district, a Surveyor or a Sub-Overseer being stationed in each taluk, to help Revenue Officers in executing Panchayet works.

2. After considering the views expressed at the meeting by the Deputy Commissioners and the Revenue Commissioner, Government have come to the conclusion that it is necessary to provide a special staff if the execution of works in Panchayet areas is to proceed systematically. They are accordingly pleased to direct that the Deputy Commissioners may obtain, for employment as temporary Panchayet Inspectors, the services of subordinates of the Public Works or the Health Department of the rank of Surveyor, Sub-Overseer or Sanitary Inspector on a pay not exceeding Rs. 60 per mensem, with a conveyance allowance of Rs. 15. The number of Inspectors to be employed and their jurisdiction will be determined by each Deputy Commissioner, with reference to the value of the works likely to be undertaken and the resources of the particular Panchayets.

3. The Chief Engineer is requested to select, as far as possible, capable and experienced men for these appointments, their places in the Public Works or Health Departments being temporarily filled up by fresh recruits.

4. The cost of the establishment will be charged to works in the respective Panchayets, in such proportion as the Deputy Commissioner may determine, the consent of the Panchayets concerned being secured in advance to the arrangement.

Notification No. Fl. 2373-81—G. F. 172-33-2, dated 24th October 1933.

MYSORE GOVERNMENT FOUR PER CENT CONVERSION LOAN, 1953-63.

(*Free of Income-tax.*)

Under the terms of Government Notification No. Fl. 2349—G. F. 171-33-3, dated 23rd October 1933, the rates of interest on Savings Bank Call (or Current) Deposits have been reduced from 3⅛ per cent to 2¾ per cent and 2 per cent per annum on balances up to and in excess of Rs. 10,000 respectively with effect from 1st November 1933. To enable present holders of these deposits to continue their investment with the Government of Mysore, the Government are pleased to sanction the issue of a long-term loan for the conversion of Savings Bank Call Deposits and the Four Per Cent Savings Bank Five-Year Fixed Deposits under the following terms:—

From the 1st November 1933 up to 30th November 1933 inclusive.

Holders of

(1) Call Deposits (Current Deposits, carrying interest at 3⅛ per cent) and

(2) Four Per Cent Savings Bank Five-Year Fixed Deposits

will have the option of converting their deposits into a **Four Per Cent Tax-Free Conversion Loan of 1953-63** issued under the terms mentioned below.—

1. The loan is only for conversion. Cash subscriptions will not be accepted. Instead of the interest payable according to paras 7 and 8 below, Four Per Cent New Loan Bond of a corresponding Face Value may be issued at the option of the applicant.

2. The new conversion loan will bear interest at 4 per cent per annum from 1st December 1933. The interest will be free of both Mysore Government and Government of India Income-tax, but it will be taken into account in determining the rate at which the tax will be levied on other income. The interest will be payable on the 1st June and 1st December of each year.

3. The loan is repayable at par at the end of 30 years., *i.e.*, on 1st December 1963. But the Government will have the option to repay the whole or any part of it after 20 years, *i.e.*, on or after 1st December 1953, subject to three months' previous notice being given in the *Mysore Government Gazette*.

4. Only those balances which are held at credit in the Savings Bank on 31st October 1933 will be permitted to be converted into the new loan. Further accretions of deposits will not be accepted.

5. Interest at 3⅛ per cent and 4 per cent per annum respectively for call (or current) deposits and Four Per Cent Savings Bank Five-Year Fixed Deposits will be paid up to 1st December 1933.

6. The interest on the loan will be paid at any Treasury of the State or at any District Treasury in British India or at the Imperial Bank of India, Madras, or at the Bank of Mysore, Limited, at its Head Office and Branches.

7. **Three and one-eighth Per Cent Call (or Current) Deposits.**—For every Rs. 100 of the Savings Bank Call Deposits tendered for conversion, applicants will receive Rs. 100 (nominal value) of the 4 per cent loan 1953-63 bearing interest from 1st December 1933 and the accrued and accruing interest on the amount tendered for conversion, up to 1st December 1933, at the rate of 3⅛ per cent per annum free of Income-tax.

8. **Four Per Cent Savings Bank Five-Year Fixed Deposits.**—For every Rs. 100 (nominal value) of the Four Per Cent Savings Bank Five-Year Fixed Deposit, tendered for conversion, applicants will receive Rs. 100 (nominal value) of the 4 per cent loan, 1953-63 bearing interest from 1st December 1933, and the following payment in cash at the time of issue of the new securities:—

Interest accrued and accruing on the Four Per Cent Savings Bank Five-Year Fixed Deposit tendered for conversion, up to 1st December 1933 at the rate of 4 per cent per annum free of Income-tax.

SUPPLEMENTARY PROVISIONS.

9. Depositors in the Mysore Government Savings Bank current account, wishing to subscribe to the new loan should present their applications with Pass Books and Withdrawal Forms at the Treasuries where their accounts are kept Similarly, holders of Four Per Cent Savings Bank Five-Year Fixed Deposits should present their applications with the Fixed Deposit Receipts for conversion at the Treasury at which they are drawing the interest on the Fixed Deposit Receipts.

10. The nominal value of the deposits tendered for conversion and the amount of interest for which new securities are required in exchange, must be multiples of Rs. 100.

11. Applications will be received at the Comptroller's Office, Bangalore, and all Treasuries in the State.

12. The Loan will be issued in the form of—

(*a*) Stock, the applicants for which will be given Stock Certificates, or

(*b*) Promissory Notes.

If no preference is stated by the applicants, the securities will be issued in the form of Promissory Notes.

13. The Promissory Notes of the new loan will be issued in the following denominations, Rs. 100, 500, 1,000, 5,000, 10,000, 25,000, 50,000 and 1,00,000.

14. Applications may be in the form attached hereto or in any other form which states clearly the amount and the description of the securities required, the full name and address of the applicant and the Bank, Treasury, or Sub-Treasury at which he desires that interest shall be paid.

15. Tenderers of deposits for conversion must transfer such deposits to the Government of Mysore by endorsing on the form of Withdrawal (in the case of call deposits) and on the Four Per Cent Savings Bank Five-Year Fixed Deposit Receipts, the words,

"Contents received. Pay to the Comptroller, Mysore Government." over their signatures.

16. Brokerage will be paid at the rate of 1/16th per cent to recognised brokers and bankers on applications for conversion, bearing their stamps.

By Order,

A. N. RAGHAVACHAR,
Financial Secretary to Government.

Working of the Kunigal Stud Farm for the year 1932-33.

READ—

Report on the working of the Kunigal Stud Farm for the year 1932-33, received with Chief Commandant's letter No. C. 196/33-34, dated the 8th November 1933.

ORDER NO. G. 3644—MILY. 103-33-5, DATED BANGALORE, THE 28TH NOVEMBER 1933.

The number of stallions at the beginning of the year was six. Two were added during the year, *viz.*, an English Chestnut "Tyrano" imported from the United Kingdom at a cost of £600 and an Arab stallion "Scimitar" presented by His Highness the Maharaja. Three stallions (1) "Ctesiphon," (2) "Atlas," and (3) "Bray Prince" were transferred to the Mysore Lancers, and stallion "Almas" to the Hessarghatta Grass Farm.

There were 41 Brood Mares and 28 Brood Mare Foals at the beginning of the year. Additions by transfers, purchases, etc., were 14 and 24 and reductions by death, sale and transfers, etc., 29 and 40, respectively. Thus, at the close of the year, there remained at the Farm 4 Stallions, 26 Brood Mares and 12 Foals.

Forty horses were sold during the year, 10 (Griffins) through the Bangalore Race Club for Rs. 12,500, 11 by transfer to Mysore Lancers at a valuation of Rs. 2,400, and 19 by sale in public auction at Bangalore for Rs. 1,246. The total sum realised was Rs. 16,146.

Coverings.

Forty mares were covered of which 15 held against 56 coverings and 30 holdings during the previous year. The slight reduction in the percentage of holdings to coverings is due to some mares having become barren. There were 12 successful births and three abortions.

The total receipts of the Farm from all sources amounted to Rs. 22,786 and the expenditure to Rs. 68,213. The net expenditure on account of the maintenance of the Farm was thus Rs. 45,427 against Rs. 41,666 during the previous year.

Captain Aga Mahomed Jaffer, Superintendent of the Farm, retired from service, and Mr. Mallick has been appointed in his place.

Floatation of the Second Series of Debentures of the Land Mortgage Bank.

READ—

Government Order No. G. 12215-8—L. M. 21-29-2, dated 11th April 1930, authorising the Mysore Co-operative Land Mortgage Bank to issue debentures to the extent of rupees three lakhs subject to certain conditions.

2. Letter No. 1364—C. S., dated 25th August 1933, from the Registrar of Co-operative Societies, requesting sanction for the proposals of the President of the Land Mortgage Bank for the issue of the second series of debentures for a sum of Rs. 2½ lakhs carrying interest at 5 per cent free of income-tax and the investment, by Government, of another lakh of rupees in the debentures of this series, and the issue of a debenture loan prospectus as per copy submitted.

3. Un-official Note No. 962—S. L., dated 24th October 1933, from the Comptroller to Government on the subject.

ORDER NO. D. 2624-27—L. M. 2-33-7, DATED BANGALORE, THE 30TH NOVEMBER 1933.

In the Government order read above, Government were pleased to sanction the floatation of a loan of Rs. 3 lakhs by the Land Mortgage Bank. As under Bye-law 17(*b*) of its bye-laws, the Bank can raise loans to the extent of twelve times the amount of share capital and the reserve fund which is stated to amount to the sum of Rs. 48,371 on the 30th June 1933, Government are pleased to grant permission to the Bank to raise after the 1st December 1933 the further loan of Rs. 2½ lakhs under Section 56 of the Mysore Co-operative Regulation as amended by Regulation V of 1929.

2. The Bank proposes to issue consolidated bonds in lieu of debentures where necessary in respect of large subscriptions with a view to overcome certain inconveniences which were experienced by the issue of bonds of Rs. 100 each. Government are therefore pleased to permit the issue of bonds of the value of Rs. 500, 1,000 and Rs. 5,000, instead of debentures of the value of Rs. 100 each in such cases.

3. The rate of interest on the new debentures will be 4½ per cent per annum (free of income-tax). Subject to this correction the draft prospectus sent by the President of the Land Mortgage Bank is approved.

4. Government agree to invest one lakh of rupees (or any less amount, if the subscriptions from the public should exceed Rs. 1½ lakhs), in the new debentures, only when the required amount cannot be realised from the public.

5. The Bank has suggested that no time limit for receipt of applications to the debentures be fixed in order to guard itself against loss of interest on sums received but not utilised. It therefore proposes to obtain subscriptions to the new debentures from time to time, only to the extent that money is needed to meet the actual demand for payment of loans, till the whole amount of Rs. 2½ lakhs is made up. The procedure suggested by the Bank is approved.

6. In regard to the formation of a sinking fund for the redemption of the debentures, the President of the Land Mortgage Bank has agreed to pay annually to

the Trustee of the Bank a certain equated amount towards the redemption of the loan. It has also been agreed that both for the first and second series of debentures, contributions to the sinking fund may commence from the sixth year of issue of the debentures in each case. These proposals are approved.

7. The Comptroller in his un-official note read above, has raised the question of the adjustment of 5 per cent interest in his books on amounts advanced by Government, and has suggested, with a view to minimising the work of his office, the half-yearly adjustment of interest on the 1st of January and 1st of July of each year instead of the present practice of adjusting the interest annually on different dates. Government are pleased to sanction this proposal also.

THE MYSORE CO-OPERATIVE LAND MORTGAGE BANK, LTD., BANGALORE CITY.

(Registered under the Mysore Co-operative Societies Regulation No. V of 1929.)

Prospectus of Debenture Loan.

(Second Series).

Issue AT PAR of State-guaranteed Debentures to the extent of Rupees two and a half lakhs carrying interest at 4½ per cent per annum free of Mysore Income-tax.

1. Under the authority vested by Section 56 of the Mysore Co-operative Societies Regulation, No. V of 1929, and Clauses 28 to 36 of the Bye-laws of the Bank regulating the raising of funds by means of issue of debentures, and with the previous approval of the Government of Mysore conveyed in their Order No. D. 2624-27—L. M. 2-33-7, dated 30th November 1933, the Mysore Co-operative Land Mortgage Bank, Ltd., have resolved to issue the second series of debentures to the extent of rupees two and a half (2½) lakhs.

2. The Government of Mysore have agreed to take up these debentures to the extent of rupee one (1) lakh, if necessary.

3. The debentures are subject to the following conditions:—

(1) The debentures will be of one denomination, *viz.*, Rs. 100 and will be issued at par; when a subscriber desires it, consolidated bonds will be issued for five, ten or fifty debentures of the value of Rs. 500, Rs. 1,000 and Rs. 5,000, respectively.

(2) The repayment of the principal amounts of the debentures at maturity as well as the payment of interest as it falls due, is guaranteed by the Government of Mysore.

(3) The debentures are exempt from Mysore Income-tax.

(4) The debentures will be secured by first mortgages on real property obtained by the Bank, the estimated value of the property charged being at least double the amount of the mortgages.

(5) The debentures carry interest at four and a half per cent per annum; provided however, that with the previous sanction of Government, the Bank shall be at liberty to effect a reduction in the rate of interest at any time after the expiry of ten years from the date of their issue and after giving the holders of the bonds the option to accept payment therefor in cash at par.

(6) (*a*) The debentures shall be redeemable at par on 1st July 1960, but the Bank reserves to itself the right to redeem at par as many bonds as it may deem necessary, at any time after the expiry of ten years from the date of their issue, the bonds to be thus redeemed being selected by lot once every year. Debentures in respect of which notice of redemption has been given to the holders by the Board of Directors must be given up on the expiry of the term mentioned in the notice and if the debentures are not given up, the holder shall have no claim upon the Bank for interest accruing after the expiry of the term.

(*b*) In the event of any debenture comprised in a consolidated bond being drawn for redemption under clause (*a*) above, the Bank will issue at its own cost a sufficient number of bonds for the debentures remaining unredeemed.

(7) The interest on the debentures will be paid half-yearly on 30th June and 31st December at the Bank's Office in Bangalore City. Arrangement will however be made, *on application*, for payment of interest at any Treasury in the Mysore State.

(8) The debentures are exempt from Stamp Duty.

(9) As per Section 57 of the Mysore Co-operative Societies Regulation No. V of 1929, these bonds—

(*a*) shall be deemed to be negotiable instruments to which the provisions of the Mysore Negotiable Instruments Regulation, 1917, apply; and

(*b*) shall be included amongst securities in which a trustee may invest trust funds under any law for the time being in force in Mysore.

(10) (*i*) Debentures which, by reason of damage sustained, have become unfit for circulation, will be replaced at the request of the holder on giving up the damaged or defaced debentures provided that the essential marks for genuineness and identity especially the number, the amount, the rate of interest, the date and signatures of the authorised executing officers of the Board of Directors are still recognizable. Fresh debentures shall also be issued to replace completely destroyed debentures when, in the opinion of the Board of Directors, the fact of destruction is proved without any doubt or uncertainty.

(*ii*) When such proof is not produced or when in case of damage the essential marks on the debentures are lost and no longer recognizable, as well as in all cases in which the debentures have been stolen from the owner or have been in other ways mislaid, a new debenture will only be issued when the debenture which is alleged to be missing or unrecognizable has been previously advertised for by the claimant in the manner prescribed by the Board of Directors and its nullity legally declared.

(*iii*) The re-issue shall be made for the same amount under the same number with the addition of the word "renewed." A fee of eight annas will be charged for every renewed debenture thus issued.

(11) Separate debenture bonds of Rs. 100 each, or consolidated bonds of Rs. 500, Rs. 1,000 or Rs. 5,000 will be issued in lieu of the bonds of equal value on payment of a fee of eight annas for each bond so issued.

(12) Under No. (2) of the Rules relating to Mysore Co-operative Land Mortgage Bank issued with Government Order No. G. 5929—L. M. 4-29-4, dated the 11th November 1929, a trustee will be appointed by Government to secure the fulfilment of the obligations of the Bank to the holders of these debentures.

Nomination of non-Official Members of the Stores Purchase Committee.

ORDER No. G. 3734-43—G. M. 94-33-2, DATED BANGALORE, THE 30TH NOVEMBER 1933.

Government are pleased to nominate Messrs. B. K. Garudachar and Rao Saheb A. M. Thangavelu Mudaliar, as non-Official Members of the Stores Purchase Committee for a period of one year with effect from 1st December 1933.

Teaching of Elementary Mathematics in Kannada.

READ—

Government Order No. E. 2147-49—Edn. 3-30-8, dated 16th June 1931, passing orders in the matter of adopting Kannada as the medium of instruction in certain High Schools as an experimental measure in regard to the teaching of History and Geography.

2. Letter No. A. 3-4478-519 of 32-33, dated 6th September 1933, from the Director of Public Instruction in the matter of teaching Elementary Mathematics in Kannada in a few High Schools.

ORDER NO. E. 1731—EDN. 132-33-2, DATED BANGALORE, THE 21ST NOVEMBER 1933.

The Director in forwarding a copy of the marginally noted resolution passed at the Provincial Educational Conference held under the auspices of the Mysore Secondary Education League in March last, states that the strain on the students involved in learning every subject through a foreign medium would be further lessened by introducing the teaching of one more subject in Kannada, that Mathematics is already being taught successfully in Upper Secondary Classes in the vernacular and that this subject which is found by several students to be rather difficult, would then be liked better if taught in Kannada. He further reports that several heads of High Schools have expressed their desire to teach this subject in Kannada in view of the willingness of many of the students to be taught in the vernacular. It is also reported that the experiment of teaching History and Geography in Kannada has been a success in the institutions where this has been tried and that the pupils thus taught have shown a better comprehension of the subject and their performance in English in class examinations has not been inferior to that of others. The Director, therefore, requests sanction to the teaching of Mathematics in Kannada in one or more sections in such High Schools as have two or more sections, English being employed as a medium of instruction in at least one section for the benefit of such pupils as prefer to be taught in English or are unable to follow the Kannada teaching, with effect from the next school year.

"That the Director of Public Instruction be requested to extend the permission granted to High Schools for teaching History and Geography in Kannada to the teaching of Elementary Mathematics also as an experimental measure, provision being made for the teaching of Elementary Mathematics in English also."

Government are pleased to sanction the proposal of the Director of Public Instruction.

Reconstitution of Town and Minor Municipal Councils under the New Municipal Regulations.

READ—

Letter No. A3. 470—33-34, dated the 2nd August 1933, from the Deputy Commissioner, Kadur District, soliciting instructions as to whether steps should be taken in accordance with the provisions of the new Town Municipalities Regulation, 1933, to increase the elected strength of the Tarikere Town Municipal Council whose term expires on the 30th June 1935, or whether the present strength may be continued till the expiry of the present constitution.

2. Letter No. C. 234-33, dated the 15th September 1933, from the Deputy Commissioner, Hassan District, soliciting instructions as to the exact position under the new Municipal Regulations of the marginally noted Municipal Councils in the Hassan District, whose terms expire on or after 1st January 1934.

ORDER NO. L. 3699-707—ML. 111-33-13, DATED BANGALORE, THE 21ST—24TH NOVEMBER 1933.

The Minor and Town Municipalities Regulations came into force throughout the State from 1st August 1933. Such of the Minor and Town Municipal Councils as were constituted under the Municipal Regulation, 1906, whose terms were due to expire between the months of July and December 1933, had their terms extended up to 1st January 1934 to enable them to have the benefit of the increase in the elected strength under the provisions of the new Regulations. These Municipal Councils will be reconstituted with effect from 1st January 1934 in accordance with the new election rules and the necessary instructions have already been issued in this behalf.

2. The question as to the exact position under the said Regulations of the remaining Municipal Councils whose terms expire on various dates after 1st January 1934, has been under the consideration of Government for some time. These Councils,

though constituted under the Municipal Regulation, 1906, continue to function by virtue of the proviso to Section 2 of each of the new Regulations. This section, the provisions of which are only transitory, gives validity to the existing state of things as far as may be necessary, *i.e.*, until the Municipal Councils are properly constituted by elections under the new Regulations. Government consider it necessary to reconstitute these Municipal Councils also so as to give them the benefit of the increased elected strength under the new Regulations, allowing sufficient time to enable the elections to be held in accordance with the new election rules, and are accordingly pleased to direct as follows :—

(i) In the case of Municipal Councils whose terms expire between 1st January and 30th June 1934, action should be taken in the usual course to hold elections for reconstituting them from the due dates;

(ii) In the case of the remaining Municipal Councils—21 in number as noted in the accompanying statement—whose terms expire after 30th June 1934, their terms should be treated as expiring on that date and action taken to reconstitute them so that they may be able to function from 1st July 1934

3. A provisional calendar showing the dates of election separately for the Town and Minor Municipal Councils which would have to be thus reconstituted from 1st July 1934 is appended hereto. The Presidents of the Municipal Councils concerned may be instructed to adopt them with such modifications as may be necessary in the circumstances of each case.

IMPORTANT GOVERNMENT ORDERS

DEVELOPMENT SECRETARIAT

Working of the Income-tax Department for the year 1932-33.

READ—

Letter No. C. 41—33-34, dated the 28th October 1933, from the Commissioner of Income-tax in Mysore, forwarding the report on the Administration of the Income-tax Department for the year 1932-33.

ORDER NO. FL. 3176-95—I. T. 15-33-3, DATED BANGALORE, THE 9—13TH DECEMBER 1933.

Recorded.

2. (*a*) The reciprocal arrangements for affording relief from double taxation in regard to incomes from dividends, professions and vocations were extended to the Civil and Military Station, Bangalore, during the year under review.

(*b*) With a view to examine the cases of potential assessees and also to prevent leakage of revenue in Bangalore, the appointment of one of the accountants as an additional Inspector of Income-tax was sanctioned tentatively for a period of two years.

3. *Assessment Work.*—The cases assessed to tax during the year were 5,208 as against 5,288 in the preceding year.

4. *Demand and Collection.*—The total demand for the year including arrears on the 1st of July 1932, under income-tax amounted to Rs. 11,67,737 as against Rs. 11,52,093 in the year 1931-32 and the corresponding demand under super-tax was Rs. 3,07,764 against Rs. 2,93,219 in the previous year thus showing an increase in total demand under both heads.

The net demand for the year under income-tax amounted to Rs. 10,13,868 as against Rs. 11,14,726 in the preceding year, collections amounting to Rs. 9,59,817 as against Rs. 10,63,553 in 1931-32. Under super-tax, the net demand for the year was Rs. 3,01,628 as against Rs. 2,91,455 in the preceding year while the collections under this head amounted to Rs. 3,04,208 as against Rs. 2,86,296 of the previous year. The balance at the close of the year was Rs. 57,345 under income-tax and Rs. 3,556 under super-tax.

5. The incidence of tax in the year under review, calculated on the resultant demand, was 2 annas 8·6 pies under income-tax and 9 pies under super-tax as against 2 annas 8·2 pies and 8·7 pies respectively, in the preceding year.

6. The Commissioner of Income-tax inspected during the year only four out of eight Deputy Commissioners' Offices (income-tax) and also the Office of the Special Deputy Commissioner of Income-tax, Bangalore. The Deputy Commissioners are reported to have inspected all the Income-tax Offices in their jurisdiction.

7. The working of the Department during the year under review was, on the whole, satisfactory.

Working of the Stores Purchase Committee.

READ—

The annual Administration Report on the working of the Stores Purchase Committee for the year 1932-33, received with letter No. S. P. C. 8427, dated the 21st October 1933, from the Secretary of the Committee.

ORDER NO. G. 3826-76—G. M. 75-33-3, DATED BANGALORE, THE 4TH DECEMBER 1933.

Recorded.

2. *Rajakaryaprasakta, Diwan Bahadur* Mr. M. N. Krishna Rao, First Member, of Council, presided over the Committee from 1st July to 6th November 1932, and from 16th January to 19th April 1933, and Mr. S. P. Rajagopalachari, Second Member of Council, presided during the rest of the year. Messrs. B. K. Garudachar and K. S. Aiyar were re-nominated as non-official members of the Committee for a further period of one year.

3. The Committee met four times during the year and in addition to the usual business of consideration and disposal of tenders, etc., considered general questions such as a review of the existing arrangements for purchases of railway stores, securing of better freight rates on materials imported from America and certain suggestions put forward by the Trade Commissioner for Mysore regarding the present procedure regulating foreign purchases arranged by the Committee.

4. The services of Messrs. Rendel Palmer and Tritton were utilised entirely in connection with the purchases of the Railway Department. Their relations with the Trade Commissioner and the Committee were satisfactory. The relations of Messrs. Best & Co., our clearing Agents at Madras, with the Committee were very cordial. It is calculated that by the adoption of a flat rate of harbour dues in respect of stores other than railway materials, which was referred to in last year's report, the Committee have secured a saving of about Rs. 2,600 to Government in cranage charges, etc.

5. The total value of stores purchased both in India and abroad amounted to Rs. 29,20,421 against Rs. 21,74,317 in 1931-32. Of this, Rs. 10,18,341 represents the value of articles made in India.

6. Foreign exchanges continued to be unsettled throughout the year under review and firms outside the United Kingdom were nervous to quote firm prices. The Ottawa Trade Agreement under which materials manufactured outside the United Kingdom were assessed to customs duty at higher rates, also affected the purchases to a certain extent.

7. During the year under report, sanction was accorded to the addition of a Testing Branch to the Industrial Laboratory as an auxiliary of the Stores Purchase Committee and a scale of fees to be levied for tests has also been prescribed. The services of this Testing Laboratory will also be available to all Government Departments who may have problems requiring investigation, or material requiring to be tested.

8. The incidence of cost of the Stores Purchase Committee and allied organisations for the purchase of stores was 1·40 per cent during the year under report as against 1·65 per cent during 1931-32.

9. The work of the Committee continued to be satisfactory.

Secretary to Government,
Development Department.

(*a*) Interest on the Fixed Deposits at five and a half per cent, five per cent, four and a half per cent, four per cent and three and three-fourths per cent as the case may be up to the end of November 1933, if not already drawn.

(*b*) Cash bonus for each complete month after 1st December 1933, till the date of maturity of the deposits, calculated at the following rates :—

	For each complete month	
5½% Seven-Year Fixed Deposits	Rs.	0-1-6
5% Five-Year Fixed Deposits	,,	0-1-0
4½% Five-Year Fixed Deposits	,,	0-0-6
4% and 3¾% Five-Year Fixed Deposits	,,	Nil

Any interest that might not have been earned subsequent to 1st December 1933 or that might have been paid on the Fixed Deposits for periods subsequent to the 1st December 1933 will be adjusted out of the Cash bonus payable or recovered in cash at the time of the issue of the new securities.

8. The Loan will be kept open from the 15th December 1933 up to the 15th March 1934 inclusive, but the offer may be closed without notice at any time within this period, at the discretion of Government.

SUPPLEMENTARY PROVISIONS.

9. The nominal value of the securities tendered for conversion and the amount of Cash bonus and interest for which new securities are required in exchange, must be multiples of Rs. 100.

10. Applications will be received at—

The Comptroller's Office, Bangalore.

All Treasuries in the State.

The Head Offices and Branches of the Bank of Mysore, Limited and of the Imperial Bank of India.

11. The Loan will be issued in the form of—

IMPORTANT GOVERNMENT ORDERS

DEVELOPMENT SECRETARIAT

Declares that all Government tanks are open to the Adikarnatakas.

ORDER NO. R. 2864-923—L. R. 211-33-2, DATED BANGALORE, THE 15TH DECEMBER 1933.

It has been brought to the notice of Government that in some places the members of the Adikarnataka Community have been prevented from taking water from Government tanks. Government are pleased to declare thal all Government tanks are open to all the subjects of His Highness the Maharaja, irrespective of caste or community for all legitimate purposes. Government Officers are directed to see that no obstruction of any kind is offered to the members of the community while using these tanks for any legitimate purpose.

Working of the Revenue Survey Department for the year 1932-33.

READ—

Letter No. 26, dated 2nd September 1933, from the Superintendent, Revenue Survey and Settlements, submitting the report on the working of the Revenue Survey and Settlement Department for the year 1932-33.

ORDER No. R. 2938-47—L. S. 18-33-3, DATED BANGALORE, THE 18TH DECEMBER 1933.

Recorded.

2. *Administrative Changes.*—Mr. S. P. Rajagopalachari, B.A., B.L. continued to be the *Ex-officio* Superintendent of Survey till the 5th November 1932, when he was appointed Member of Council. Mr. S. Hiriannaiya, M.A., B.L., then took charge and continued to be the *Ex-officio* Superintendent till the end of the year. Mr. S. N. Appanna Iyengar continued to be the Deputy Superintendent till 18th June 1933, when he was appointed to act as General Secretary to Government.

3. *Total outturn of Field work done during the year.*—

(*a*) *Inam villages.*

(*b*) *Government Villages.*—(1) The total number of darkhast phodi and other records disposed of during the year under report, was 9,661 as against 8,535 in the previous year.

(2) Sub-division of land was effected in 4,150 villages comprising 15,198 survey numbers with an area of 65,729 acres 9 guntas.

(3) Classification of lands sub-divided was carried out in respect of 11,082 numbers distributed over 2,631 villages comprising an area of 52,282 acres 31 guntas.

(4) The Land Records staff attached to the Taluks detected 619 cases of encroachments covering an area of 480 acres 19 guntas and representing an approximate assessment of Rs. 598-14-0.

(5) The inspection of marks defining the boundaries of survey numbers was carried out in respect of 9,661 numbers situated in 1,969 villages.

There has been a slight increase in the total outturn of field work during the year under report as compared with that of the previous year.

(c) *Special Works.*—(1) Forty-six villages were inspected in the Arsikere Taluk for detecting encroachments on hallas, etc., as directed in Government Order No. R. 2980-2—L. R. 450-28-5, dated 6th December 1932. Three hundred and ninety-nine such cases involving an area of 67 acres, 37 guntas were detected in the course of inspection.

(2) The boundaries of the Police grounds in Bhogenahalli village, Bangalore Taluk, and of the Burmah Shell Oil Company premises in the Bangalore City Railway Station as also the boundaries of the Mysore Iron Works area were measured and located during the year.

(3) Madalgere kaval in Chennarayapatna Taluk was remeasured.

(4) Inspection of talapariges in Madhugiri and Pavagada Taluks was conducted by the District Survey Officer, Tumkur District, and the Sub-Division Officer, Madhugiri Sub-Division, jointly as directed in Government Order No. R. 402-4—R. M. 6-29-115, dated 19th July 1930.

4. *Distribution of working days—Field work and no field work.*—It is observed that there has been no appreciable improvement in the number of days under "Field work" in the Shimoga District as compared with the figures under this head during the previous year. A report as to whether a systematic programme was adopted as observed in the Government Review on the last year's report should have been furnished.

5. *Remuneration of Patels and Shanbhogs.*—The proposals formulated in the previous year for the decennial revision of Potgi in 543 villages in five Taluks, the biennial revision of Potgi of 45 villages in three Taluks and the revision of potgi due to the introduction of revision settlement into Nanjangud and T.-Narsipur Taluks in respect of 253 villages, which had been postponed last year, were sanctioned and given effect to. Besides, the decennial revision of potgi in respect of 1,991 villages pertaining to 20 Taluks, the biennial revision of potgi of 46 villages of the Yedatore Taluk and the temporary potgi to the Patels and Shanbhogs of five kaval villages scattered over five Taluks were also sanctioned and given effect to during the year.

Original, decennial and revision potgi in respect of 28, 24 and 44 inam villages respectively, were sanctioned and given effect to.

6. *Preparation, Printing and issue of Maps.*—In addition to the resurvey map of 28 villages which remained to be printed at the end of the previous year, maps of 344 villages (original) and resurvey maps of 36 villages were prepared and printed during the year. The total number of village maps issued during the year was 6,478 as against 4,300 in the year previous. One hundred copies of each of the Taluk maps of Chikballapur and Koratagere were printed in the Litho Press of the department and 100 copies each of the maps of seven other taluks were got printed at the Photo-zinco Office, Poona and the local press to replenish the stock. The total amount realised by the sale of the Village, Taluk, District and other maps was Rs. 2,064 and the cost of maps supplied free to the Revenue Department was Rs. 3,221.

The Survey Superintendent suggests that the issue of maps free of cost should be stopped and that the maps supplied to the various departments or officers should be paid for out of their contingencies, the value being credited to the Survey Department. Separate proposals may be submitted by the Survey Superintendent in the matter.

7. *Inams.*—The total number of land inams resumed to Government during the year was 114 resulting in a decrease of about Rs. 137-8-0 in the revenue under inam and an increase in the land revenue proper by about Rs. 739. Village service inams of an aggregate extent of 27 acres were granted afresh in nine cases, while seven such inams of an extent of about 13 acres were resumed to Government. During the year, original settlement was introduced into four inam villages and Resettlement into five inam villages.

8. *Survey Training.*—In pursuance of Government Order No. R. 6201—L. S. 21-31-20, dated 29th June 1932, a batch of 50 recruits received survey training and 47 of them came out successful in the examination.

9. *Boundary Mark Charges.* An allotment of Rs. 1,000 only was made under this head in the budget of this year as against Rs. 30,000 and Rs. 12,000 respectively, in the two previous years. Only a sum of Rs. 143-15-0 was however expended during the year as in many cases the land holders themselves came forward to put up boundary marks at their own cost.

10. *Tours and Inspections.*—The District Survey Officer, Bangalore, toured for only 154 days and the District Survey Officer, Mysore, toured the largest number of days, *viz.*, 211. The Survey Superintendent inspected the Land Records work of Nagamangala Taluk and the District Survey Offices of Kolar, Shimoga and Hassan. The Deputy Superintendent inspected the District Survey Offices at Bangalore, Kolar, Mysore, Hassan and Shimoga.

11. *Record of Rights Scheme.*—Including 12 taluks in which Record of Rights Scheme was introduced during the year, the total number of taluks that have come so far under the scheme is 44.

Out of 37 taluks in which the preliminary work by the Revenue Department was completed, the Hissa survey work was completed in ten taluks and two Sub-Taluks and the Hissa survey final records of all the villages of these taluks and Sub-Taluks were sent to the Taluk Offices. Hissa survey work in 26 taluks was in various stages

of progress. The number of hissas measured was 2,92,791 as against 3,47,140 in the previous year.

It is observed that the Hissa survey work in the Hassan District has gone ahead of the Record of Rights work done by the Revenue Department. It is hoped that with the addition of the trained recruits in May last and with the experience gained, there would be similar progress in the Hissa survey work during the current year in respect of the other districts also.

12. *General.*—The District Survey Officers were made subordinate to the Deputy Commissioners of the respective districts, in non-technical matters.

2. A Conference for the settlement of boundary disputes between Mysore and Anantapur was held by the Revenue Commissioner and the Superintendent of Survey and the Collector of Anantapur, and the matter was reserved for joint final inspection

13. The cost of the Department for the year under report was Rs. 1,41,602 as against Rs. 1,49,438-3-4 in the previous year.

Secretary to Government,
Development Department.

Working of the Excise Department for the year 1932-33.

READ—

Letter No. B. 3-50—1/32-33, dated 28th October 1933, from the Excise Commissioner in Mysore, submitting the Report on the Administration of the Excise Department for the year 1932-33.

ORDER NO. FL. 3320-30—EX. 34-33-3, DATED BANGALORE, THE 18TH DECEMBER 1933.

Recorded.

2. *Important Changes.*—The following were some of the important changes ordered during the year under review:—

(1) A license fee of annas eight per gallon of denatured spirits sold to the public in licensed shops was ordered to be levied with effect from 1st July 1933.

(2) The rate of duty on ganja was raised to Rs. 27-8-0 per seer of 80 tolas with effect from 1st July 1933.

3. *Country Spirits.*—The new contractor, Hajee Sir Ismail Sait, took up the manufacturing business with effect from 1st July 1932.

The Excise Commissioner reports that the supply of water to the Distillery was, on the whole, adequate and satisfactory.

The total quantity of spirits manufactured decreased from 2,48,797 gallons in 1931-32 to 2,30,847 gallons during the year under review. The quantity supplied to depots and institutions, etc., in the State amounted to 1,83,558 gallons as against 2,01,785 gallons in the year previous, while that issued to Civil and Military Station amounted to 39,667 gallons as against 47,759 gallons in 1931-32.

4. *Carriage of Liquor.*—The carriage of liquor and ganja continued to be under Departmental control.

5. *Arrack.*—The molasses arrack consumed in the State during the year amounted to 1,73,397 gallons as against 1,88,949 gallons in the year previous, thus showing a further falling off by 15,552 gallons, which is attributed to trade depression and general poverty of the drinking public. The incidence of consumption per head of population showed a further fall to 1·4 drams from 1·7 drams in the preceding year.

6. *Shops.*—There were 536 arrack, 2,001 toddy (date) 247 ganja and 88 opium shops during the year as against 539, 2,014, 248 and 88 respectively, during 1931-32.

There was one arrack shop for every 55·0 square miles as against 54·7 square miles in the preceding year and each shop served on an average 11,984 persons as against 11,917 persons in the previous year.

7. *Toddy.*—The trees tapped for toddy during the year increased to 2,52,568 from 2,42,560 in the year previous, while the total revenue under this head also increased to Rs. 32,56,206 as against Rs. 31,98,497 in the preceding year.

8. *Ganja.*—A block of 25 acres was under ganja cultivation in Goribidnur Taluk as against 22 acres in the preceding year, the average yield per acre being 17·7 maunds as against 8·7 maunds in 1931-32. The total revenue from this source amounted to Rs. 4,04,813 as against Rs. 3,79,603 in the year previous.

9. *Excise Offences.*—The total number of offences reported during the year was 3,695 as against 3,653 in the year previous, out of which 737 were heinous offences as against 840 in 1931-32. Cases relating to illicit distillation and possession of illicitly manufactured liquor were 428 as against 425 in the preceding year, out of which 302 were booked in the Shimoga District, 40 in Kadur and 45 in Chitaldrug District as against 321, 38 and 30 respectively, in the year previous.

Government regret to notice that in spite of the mobile staff specially employed for the suppression of illicit practices in the Kadur and Shimoga Districts, they have not shown a tendency to decline; on the contrary, the malpractices seem to have spread to the neighbouring Chitaldrug District where the cases detected have gone up from 30 to 40. This points to an urgent need for the collaboration of the Excise Intelligence Bureau with the mobile staff for an early eradication of the evil.

10. *Inspections.*—The inspection of date groves should receive more attention than at present. In other respects, the inspection work was, on the whole, satisfactory.

11. *Financial Results.*—The total demand for the year including arrears outstanding at the end of the previous year amounted to Rs. 61,19,679 as against Rs. 61,67,275 in 1931-32, out of which a sum of Rs. 59,92,346 was collected, a sum of Rs. 7,604 was remitted leaving a balance of Rs. 1,19,729 at the end of the year. The Excise Commissioner is requested to issue needful instructions for the prompt collection of all arrears.

12. *Excise Licensing Boards.*—Government regret to notice that out of 39 Licensing Boards in the State, the Boards of Bangalore City, Davangere, Chitaldrug, Chikmagalur, Birur, Seringapatam, Shikarpur, Madhugiri and Sira are reported to have not met at all during the year and they trust that the public will evince a keener interest in the working of these bodies in future.

13. Government are glad to observe that the administration of the Department during the year was, on the whole, satisfactory.

Secretary to Government,
Development Department.

Printing of Entertainments-tax Stamps in different colours.

READ--

Government Order No. L. 6442-52—Ml. 275-32-6, dated the 5th April 1933, directing among other things that the Entertainments-tax stamps be printed in green colour and that, for the present, only the stamps of the denomination of Re. 1 be printed, the lower values being over-printed thereon in black.

2. Letter No. G. 31146—32-33, dated the 5th July 1933, from the Deputy Commissioner, Mysore District, bringing to the notice of Government that considerable difficulty is likely to be felt, as the several denominations of these stamps are of one and the same colour and suggesting that they may be printed in different colours to enable their being checked promptly.

3. Correspondence ending with letter No. C. 24—33-34, dated the 15th November 1933, from the Commissioner of Stamps in Mysore, furnishing the opinion of the Superintendent, Stamp Manufactory, and recommending that the proposal made by the latter to print the stamps in different colours, be adopted for reasons given.

ORDER NO. L. 4143-52—ML. 275-32-42, DATED BANGALORE, THE 14—16TH DECEMBER 1933.

The Commissioner of Stamps who was requested to furnish his opinion in the matter has, in consultation with the Superintendent, Stamp Manufactory, reported that

the printing of the stamps of different denominations of Entertainments-tax in one colour only increases the chances of these stamps getting mixed up and also causes some confusion to vendors and users of these stamps. In order to overcome this difficulty, he considers it desirable, as suggested by the Deputy Commissioner, Mysore District, to print the stamps of different denomination in different colours, the over-printing of the values being done in black as at present and proposes that they be printed in the colours noted below:—

Quarter anna	.. Blue.	Four annas	.. Orange.
Half anna	.. Light Blue.	Eight annas	.. Mauve.
One anna	.. Deep Red.	One rupee	.. Green.
Two annas	.. Violet.		

Government consider that the above proposals are suitable and are accordingly pleased to approve of them.

Secretary to Government,

Letter No. 275—S. B., dated the 2nd November 1933, from the Comptroller to Government, submitting the report on the working of the Government Savings Banks, for the year ending 30th June 1933.

ORDER NO. FL. 3290-300—G. F. 186-33-4, DATED BANGALORE, THE 14—16TH DECEMBER 1933.

Recorded.

2. The scheme of accepting fixed deposits in Government Savings Banks for seven years at 5½ per cent interest sanctioned in March 1932, was suspended with effect from the 5th November 1932. The total amount received under that scheme was Rs. 45,76,020, out of which, a sum of Rs. 33,10,920 was received during the year under report.

3. Under the scheme of five-year fixed deposits, as against Rs. 12,11,510 received in the previous year, a sum of Rs. 23,04,250 was deposited at 5 per cent interest up to 20th January 1933, when the rate of interest was reduced to 4½ per cent. A sum of Rs. 25,34,500 was deposited at this rate up to 5th May, when the scheme itself was suspended. The total amount received during the year under review, aggregated to Rs. 48,38,750 (Rs. 23,04,250 bearing interest at 5 per cent and Rs. 25,34,500 at 4½ per cent) against Rs. 47,70,102 in the previous year.

4. The total number of accounts, current and dead, at the close of the year under review stood at 64,086 against 62,363 at the end of the previous year. The aggregate amount at credit of both current and dead accounts was Rs. 1,92,09,454 or Rs. 17,85,492, more than that in the previous year.

5. The rate of interest for deposits continuing for one year was reduced from 4½ to 4 per cent from the 1st January 1933.

Holders of—

1. 5½% Bonds 1938,
2. 6¼% Loan 1940,
3. 6½% Loan 1941-51,
4. 5½% Seven-Year S. B. Fixed Deposits,
5. 5%, 4½%, 4% and 3¾% Five-Year S. B. Fixed Deposits,

will have the option of converting their holdings into **Four Per Cent Tax-Free Conversion Loan of 1953-63** issued under the terms mentioned below.

2. The Loan is only for conversion. Cash subscriptions will not be accepted. Instead of the Cash bonus and interest payable according to paras 6 and 7 below, however, Four Per Cent New Loan Bonds of a corresponding face value will be issued at the option of the applicant.

3. The new Conversion Loan will bear interest at 4 per cent per annum from 1st December 1933. The interest will be free of both Mysore Government and Government of India Income-tax, but it will be taken into account in determining the rate at which the tax will be levied on other income. The interest will be payable on 1st June and 1st December of each year.

4. The Loan is repayable at par at the end of 30 years, *i.e.*, on 1st December 1963. But the Government will have the option to repay the whole or any part of it after 20 years, *i.e.*, on or after 1st December 1953, subject to three months' previous notice being given in the *Mysore Government Gazette.*

5. The interest on the Loan will be paid at any Treasury of the State or at any District Treasury in British India or at the Imperial Bank of India, Madras, or at the Bank of Mysore, Limited, at its Head Office and Branches.

6. **Five and a half per cent Bonds 1938 ; Six and a quarter per cent Loan 1940 ; Six and a half per cent Loan 1941-51.**—For every Rs. 100 (nominal value) of each of the above kind of bonds tendered for conversion, applicants will receive Rs. 100 (nominal value) of the 4 per cent Conversion Loan, 1953-63, bearing interest from 1st December 1933, and the following payments in cash at the time of issue of the new securities :—

(*a*) Interest on the old bonds at the old rates, which has accrued up to end of November 1933.

(*b*) Cash bonus on conversion calculated at the following rates :—

5½% Bonds 1938	...	Rs.	6-10-0
6¼% Loan 1940	...	,,	13-5-0
6½% Loan 1941-51	...	,,	16-8-0

(*c*) In the case of conversion applications received on or before the 25th January 1934, **an additional bonus of two annas per cent** will be allowed.

7. **Savings Bank Fixed Deposits.**—For every Rs. 100 of the Fixed Deposits tendered for conversion, applicants will receive Rs. 100 (nominal value) of the 4 per cent Conversion Loan, 1953-63, bearing interest from 1st December 1933 and the following payments in cash at the time of issue of the new securities —

(*a*) Interest on the Fixed Deposits at five and a half per cent, five per cent, four and a half per cent, four per cent and three and three-fourths per cent as the case may be up to the end of November 1933, if not already drawn.

(*b*) Cash bonus for each complete month after 1st December 1933, till the date of maturity of the deposits, calculated at the following rates:—

	For each complete month	
5½% Seven-Year Fixed Deposits	Rs.	0-1-6
5% Five-Year Fixed Deposits	,,	0-1-0
4½% Five-Year Fixed Deposits	,,	0-0-6
4% and 3¾% Five-Year Fixed Deposits	,,	Nil

Any interest that might not have been earned subsequent to 1st December 1933 or that might have been paid on the Fixed Deposits for periods subsequent to the 1st December 1933 will be adjusted out of the Cash bonus payable or recovered in cash at the time of the issue of the new securities.

8. The Loan will be kept open from the 15th December 1933 up to the 15th March 1934 inclusive, but the offer may be closed without notice at any time within this period, at the discretion of Government.

SUPPLEMENTARY PROVISIONS.

9. The nominal value of the securities tendered for conversion and the amount of Cash bonus and interest for which new securities are required in exchange, must be multiples of Rs. 100.

10. Applications will be received at—

The Comptroller's Office, Bangalore.

All Treasuries in the State.

The Head Offices and Branches of the Bank of Mysore, Limited and of the Imperial Bank of India.

11. The Loan will be issued in the form of—

(*a*) Stock, the applicants for which will be given Stock Certificates, or

(*b*) Promissory Notes.

If no preference is stated by applicants, the securities will be issued in the form of Promissory Notes.

CHIEF SECRETARIAT

No. 567—C. B. 22-33-1, dated 31st August 1933.

In permitting *Rajakaryaprasakta, Diwan Bahadur* MR. M. N. KRISHNA RAO, First Member of Council and Officiating Dewan, to retire from service with effect from the 1st September 1933, HIS HIGHNESS THE MAHARAJA desires to place on record his high appreciation of the valuable services rendered to the State by MR. KRISHNA RAO during an official career of nearly 36 years.

MR. KRISHNA RAO commenced his service as a Probationer in the Accounts Department in November 1897, and after serving in that Department for 19 years, was appointed Comptroller to Government in July 1916. Three years later, he was appointed to the office of Financial Secretary, which he occupied with conspicuous ability for the next seven years. The charge of the finances of the State during this period, which involved among other problems those arising out of the acute financial stringency that followed on the War, was a very onerous one, and it is largely as a result of the manner in which MR. KRISHNA RAO discharged his duties that the credit of the State stands as high as it does to-day. He was elevated to the office of Member of Council in 1926 and has since acted as Dewan on several occasions for a total period of over 1½ years. MR. KRISHNA RAO has also rendered signal service as Chairman of the Board of Management of the Mysore Iron Works since September 1929.

In all the positions held by him, MR. KRISHNA RAO's work has been marked by untiring zeal, whole-hearted devotion to duty and a thorough grasp of the details relating to the various Departments in his charge. His high patriotism, great ability and uprightness of character have won for him the esteem and regard of all classes of HIS HIGHNESS' subjects.

In appreciation of his eminent services, HIS HIGHNESS THE MAHARAJA was pleased to confer on him the distinction of "Rajakaryaprasakta" in the Dasara Durbar of 1922, and in June 1925, the Government of India honoured him with the title of "Diwan Bahadur."

MR. KRISHNA RAO carries with him in his retirement the best wishes of HIS HIGHNESS THE MAHARAJA, and HIS HIGHNESS hopes that he may long be spared to enjoy the leisure to which he is so well entitled after the arduous labours of a long and useful

PUBLIC ADVERTISEMENTS.

FOREST DEPARTMENT.

KOLAR DISTRICT.

Abstract Notification dated 23rd December 1932.

The attention of the public is invited to the detailed Notification of date calling for tenders up to 2nd February 1933 for the purchase of the exclusive right of collecting and transporting the unsold items of Minor Forest Produce in the several Taluks of the District during 1932-34 published on pages 2 to 4, Part VI of the *Mysore Gazette*, dated the 5th January 1933.

S. VENKATAVARADIENGAR,
District Forest Officer.

MYSORE DISTRICT.

Abstract Notification dated 15th December 1932.

The attention of the public is invited to this office Notification dated 15th December 1932 regarding sale of timber in Periyapatna and Hunsur Depots on the 19th January 1933 and 17th January 1933 respectively as published on pages 5 and 6, Part VI of the *Mysore Gazette* dated 5th January 1933.

Timber pertaining to the defaulters of previous sales will also be sold at their risk.

SALE OF DRY TIMBER.

Notification dated 3rd January 1933.

It is hereby notified for general information that the right of collecting and removing dead standing and fallen trees in the following forests of the Mysore District for the year 1932-33, will be sold by public auction by the District Forest Officer, Mysore District, or any other Officer deputed by him on the dates and places and subject to the conditions mentioned below :—

The sale will commence at 2 P.M., precisely on each day and will subject to the confirmation of the District Forest Officer, Mysore District, or the Chief Conservator of Forests in Mysore as the case may be:—

Range	Forest	Description of coupe	Approximate quantity available (in C.ft.)				Place	Date of sale	Remarks
			Teak	Honne	Beete	Matti & jungle kinds			
Hunsur ...	Veeranhosa-halli.	Coupes and Forest ...	400	200	...	...	Hunsur...	3rd February 1933	More or less
	Dodharve ...	Idahalla, Befranhalla, Mallanmanti, etc.	400	800	100	...	Periya-patna.	6th February 1933	
	Mavkal ...	Jainkal, Dodmalali and Anechowkur, etc.	400	200	...	...			
	Kachunahalli	Banere and Uduvepura ...	800	100	...	...			
	New plantation	Felled timber	....	800	...	100			

N.B.—It should be clearly noted that the contractor should make his own arrangements for the removal of the timber in the Coupes and that the Forest Department will not undertake any responsibility in the matter of opening roads, etc.

2. Each bidder shall, before he is permitted to bid, be required to furnish a solvency certificate as under the Tangadi Rules and deposit a sum of Rs. 100 (one hundred) only as earnest deposit with the officer conducting the sale; the deposit will be returnable to him immediately after the close of the sale if his bid is not accepted. The person whose bid is accepted shall immediately, after the close of the sale, pay 25 per cent of the bid amount less the deposit already paid, failing which, the right will be resold or worked by the department at the risk of the defaulting bidder. He will be liable for the loss, if any, that may result by such resale or Departmental working which will be recoverable from him as arrears of Land Revenue, but he shall not participate in any gain.

3. Defaulters to the Department will not be allowed to bid at the sale.

4. The timber will be sold in terms of cubic feet (the bidder will have to bid at so much per cubic foot of timber.)

5. Power is reserved to the District Forest Officer or such other Officer conducting the sale, as may be deputed by the District Forest Officer, to accept or reject any bid without assigning any reason therefor.

6. Any person bidding at the sale may be required by the officer conducting the sale, to state whether he is bidding on his own behalf or as an agent and in the latter case to produce a written authority signed by the principal.

7. Within a week from the date of intimation regarding the confirmation of the sale, the person whose bid is accepted shall deposit a sum Rs. 100 (one hundred) or 25 per cent of the sale amount whichever is less for each coupe as security towards the due fulfilment of his contract. He shall also pay within that period the remaining 75 per cent of the contract amount due by him and shall execute an agreement on a stamped paper of annas ten accepting the above terms specified below, failing which, the amount already paid will be forfeited to Government and the produce resold or worked by the Department at his risk as noted in clause (2) *supra*. The security deposit or the balance thereof as may remain over shall be repayable to the contractor on his producing proof relieving him of any liability under the contract.

Interest will be charged on all belated payments at 9 per cent from the date of their falling due up to the date of payment.

The following are the further conditions to which the contractor should bind himself :—

(*a*) That he shall collect and remove the timber prepared purchased before the 15th June 1933.

(*b*) That he shall furnish the Range Officers concerned with a list of agents and workmen who will be employed by him in the forest for extraction of timber prepared.

(*c*) That he shall bind himself to pay in advance the value of the minimum quantity of timber to be fixed by the District Forest Officer and shall remove all marketable portions.

(*d*) That he will not be eligible for any refund of advance if the minimum quantity fixed is not removed, but any excess quantity removed shall be paid for at auction rates.

(e) That no timber prepared in the coupe shall be removed unless it is measured and stamped at the stump by the Range Forest Officer or such other officer deputed by the District Forest Officer and until it is duly paid for.

(f) That each consignment of timber shall be covered by a passport issued by the Range Officer or any other officer deputed by the District Forest Officer in this behalf.

(g) That he shall abide by the rules of the Department as regards the kindling of fires and shall hold himself responsible for any forest offences committed by his agents, employers or workmen.

(h) That he shall not sublet the contract to any body except with the written sanction of the District Forest Officer.

(i) That no timber operation shall take place in the forest after sunset or before sunrise.

(j) That he shall have no right whatsoever over the coupe and over the timber paid for but left unremoved in any of the coupes after 30th June 1933.

(k) That he shall maintain a register in the form prescribed by the District Forest Officer showing the quantity of timber of each kind collected and shall keep it open for the examination of Forest Officers above the grade of guards.

(l) That for any breach of any of the conditions of the contract by the contractor or his agents, the contract shall be cancelled at the option ofthe District Forest Officer and that the latter may, after issuing to the contractor a notice of cancellation of contract, enforce forfeiture of all or any part of the deposit and shall resell the right or work it Departmentally at the risk of the contractor as in column (2) *supra*. If the deposit or part thereof is so forfeited, it shall be immediately made good by the contractor.

It is hereby notified for the information of the intending purchasers that the timber of the defaulting purchasers of the Tarikere Depot for the years 1929-30, 1930-31 and 1931-32, will also be resold, at the risk of the original purchasers on 30th January 1933 along with the regular timber sale.

H. V. RANGASWAMIENGAR,
District Forest Officer.

KADUR FOREST DIVISION.

Notification dated 13th January 1933.

The undermentioned quantities of timber will be sold by public auction under the following conditions at the following depots by the District Forest Officer, Kadur Division, at 2 P.M., on the date and place noted below :—

Name of depot	Teak poles	Matti logs	Matti rafters	Nandi reepers	Date of sale	Place of sale	Remarks
	C.ft.	C.ft.	C.ft.	C.ft.			
Kadur Depot ..	500	900	...	..	6th February 1933.	Kadur Depot ..	More or less

Conditions.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale, but defaulters to the department will not be allowed to bid at the sales.

(a) In the case of purchasers of timber in small quantities, full value thereof will be accepted if tendered on the spot, and the payment of deposit in such cases will not be insisted.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. The highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. All sales of which the amount exceeds Rs. 500 in each case is subject to the confirmation by the Conservator and in other cases, to that of the District Forest Officer.

5. After conclusion of the sale, each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of the one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter, on account of loss from resale, shall be recovered from him as a revenue demand under section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of resales for default of payment of value where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price as may appear to him to be reasonable and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. A registered notice will be issued to the defaulter intimating the price fixed by the District Forest Officer for the unsold wood and the amount still due from him which will be recovered as arrears of land revenue.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of all timber purchased shall be paid for within 30 days after the date of sale or within 15 days after the date of the notice of confirmation of the sale, whichever is later. In case of purchases of above Rs. 1,000 in value, the purchaser shall be permitted to pay up the balance in instalments or not less than Rs. 1,000 provided the full value is paid not later than the 15th May 1933. The money shall be paid into such treasury as the District Forest Officer may direct within the time specified.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the riskof the purchaser in the manner prescribed for default of payment of one-tenth value in clause 5 *supra*.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, excluding the 10 per cent deposit paid for the lot at the time of the sale; and no timber shall be removed from the depôt unless a permit is obtained from the Forest Officer, in charge of the depôt. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed as early as possible, and in no case, should it be allowed to remain longer than 90 days after the dates fixed in clause 7 *supra*. Timber not removed after purchase will remain in the Depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, on the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. The security deposit or the balance thereof, if any, shall be returned to the purchaser after the full value of timber purchased has been paid for and the timber fully removed.

Abstract Notification Chikmagalur, dated 28th December 1932.

The attention of the public is invited to the notice calling for tenders for making good the damages to Garjee Anicut, published on pages 12 and 13 of Part VI of *Mysore Gazette*, dated 5th January 1933.

The last date for receiving tender is 16th January 1933 till 3 p.m. Earnest money to be furnished is Rs. 240.

Notice dated 8th January 1933.

Notice is hereby given that sealed tenders will be received at the Office of the Executive Engineer, Kadur Division, up to 26th January 1933, till 3 P.M. for Making good the damages to Tangli Left Bank Channel feeding Macheri tank, Kadur Taluk. An approximate estimate of quantities is given below. These quantities are not guaranteed. The work should be completed by the end of May 1933.

2. The plans, detailed estimate and conditions may be seen at the Executive Engineer's Office at Chikmagalur between the hours of 11 A.M. to 5 P.M.

3. Tenders should be submitted on printed forms which may be obtained from the Executive Engineer. The tenders should be accompanied by a statement in the form given below showing the rates at which the different items specified will be executed.

4. Each tender must be accompanied by a deposit of rupees one hundred and sixty only in cash or Government Promissory Notes, as earnest money, and be superscribed "Tender for Making good the damages to Tangli Left Bank Channel feeding Macheri tank," in default of which, tenders will be rejected.

5. The final acceptance of any tender will rest with the Executive Engineer who does not bind himself to accept the lowest or any tender or to assign any reason whatever for the rejection of any tender.

6. Within eight days of the acceptance of the tender, the successful competitor will be required to execute the usual contract bond, in default of which, his tender will be considered cancelled, and his earnest money will be forfeited.

7. The name of the successful competitor, whose tender has been accepted, will be posted on the Notice Board in the Executive Engineer's Office in due course. No enquiries regarding the acceptance or rejection of a tender will receive any reply.

8. On acceptance of one of the tenders, the earnest money on rejected tenders will be returned.

9. Rates should be quoted for each and every item.

10. Percentage quotations either below the tender or below the lowest estimated rates will not be accepted.

11. In all matters of dispute regarding quality of work or rates, the decision of the Superintending Engineer is final and legally binding.

12. No claims for enhanced rates should be preferred after the acceptance of tender or at any time during the execution of work.

13. For lumpsum items and also items found necessary during execution rates as per current scheduled rates as per data struck will be allowed.

14. No representations regarding rates, etc., from the rejected tenderers will be considered after the acceptance of tender.

15. The contractor will be held responsible for the good behaviour of his employees of all grades.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE,
Bangalore, dated 27th June 1933.

S. HIRIANNAIYA,
Revenue Commissioner.

5 B

MYSORE STATE, DEPARTMENT OF HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE FOR THE WEEK ENDED THURSDAY, JUNE 22, 1933.

A total of 69 attacks with 42 deaths from Plague was returned during the week against 39 attacks with 26 deaths in the previous week. Mysore City reported 1 attack and 1 death while Bangalore City and Kolar Gold Field Area remained free from the disease. Comparative figures for the corresponding week in 1932 and 1931 were 50 attacks with 36 deaths and nil attacks with nil deaths respectively.

Nineteen attacks with 8 deaths from Small-pox were reported from one village in each of Malur and Bagepalli Taluks, two villages from Chikmagalur Taluk, and from Mysore City and Kolar Gold Field Area.

Two fatal cases from Influenza were reported from Kolar Gold Field Area.
